Ailing Children Get Well on Syrup Pepsin
A small dose at bedtime brings relief and laughter by morning

HOSPITAL and doctor's records prove that 75 per cent of human illness has its origin in the intestinal canal, complicated with what is commonly called constipation. Realizing what that figure means, mothers should contrive methods of handling their children while they still control them that will prevent these future dangers. Teach children regularity of bowel movement, and be especially watchful of young girls. Insist on two passages a day until the age of 18, when one is usually sufficient. Give plenty of oranges and apples, plenty of butter because it lubricates the intestines, and encourage the drinking of water.

If you detect restlessness, belching, gas or wind on the stomach, sleeplessness, or lack of appetite, examine the tongue and you will find it coated, accompanied by unpleasant breath. The child is bilious, constipated. According to age, give from one-half to a teaspoonful of Dr. Caldwell's

Syrup Pepsin, which children never object to taking as they like the taste. By morning the youngster will be well again. Likewise if the nostrils are stuffed up or there is persistent sneezing, a dose of Syrup Pepsin will break up the fever and cold.

Mrs. Geo. N. Colson of Bernard, Me., keeps her family well in that way, and Mrs. Ida A. Burkett of Carroll, La., who has been using Syrup Pepsin for a dozen years, has raised her three children on it. Dr. Caldwell's Syrup Pepsin is a vegetable compound of Egyptian senna and pepsin with agreeable aromatics. The formula, however, is on every package. Druggists have sold it with satisfaction to their customers for over 30 years, and it is now the largest selling family laxative in the world. Buy a bottle today. It will last you for months, and the cost is only about a cent a dose.
