# LOCAL DOTS.

Read the land sales.

Don't fail to register.

A cooler wave struck us last Friday.

See proceedings of Commissioners.

There are 21 county candidates in the field.

It is the duty of every citizen to register and vote.

Guilford county has nominated a Prohibition ticket.

The registration books are now open in all the townships.

Let Democrats go to work. The other side is at work.

Franklinsville has organized a Cleveland and Scales club.

Several bales of new cotton were brought into town last week.

Superintendent Frazier held his quarterly examination last week.

Col. P. H. Winston addressed the people here Tuesday of last week.

Josiah Evans, Esq., the senior editor of the Fayetteville Sun is dead.

Ohio and West Virginia voted yesterday. The returns are not yet in.

The papers are complimenting our County exhibit at the State Exposition.

The candidates for Elector in this District speak at Franklinsville to-day (Monday).

The mail hacks from High Point now come by way of Worthville and Central Falls.

Randolph has a highly creditable exhibit at the State Exposition we are pleased to learn.

The drought has cut down the crowd at the Exposition. Every body is waiting for rain.

The County is indebted to Mrs. M. N. Brower of Franklinsville for her fine exhibit at Raleigh.

The Patriot estimates the circus crowd at Greensboro last week from ten to fifteen thousand.

The looms run by the Worth Mfg. Co. of this county at the Exposition are an attractive feature.

A new post office has been established in Cedar Grove township at Macon's old store named "Mechanic."

Mess. W. P. Wood and M. Bradshaw addressed the Cleveland and Scales Club at Franklinsville last Saturday night.

The N. C. Journal published at Trinity College in this county by Prof. Heitman has enlarged and is otherwise improved.

The work on Enterprise bridge is progressing well. The bridge is 387 feet long and will be completed by the last of this month.

Mr. G. D. Hunsucker hands us five ears of corn from one hill. They are good size and had it not been for the drought there would have been eight.

Robert Farlow, a white boy aged about 17 years who has been twice convicted for larceny was last week arrested and lodged in jail for the third time.

There were 26 professions at the recent revival at the Randleman M. E. Church, and 13 applications for membership writes R. F. Bompass to the Raleigh Advocate.

The weather prophets are baffled once in their lives. All their predictions have failed and now there are very few who have the hardihood to tell you when it will rain.

It is rumored that the Richmond and Danville R. R. Co. has bought the High Point Railroad. We give it for what it is worth. Railroad rumors are about as uncertain as political rumors.

Josephus Daniels, Esq., the sprightly and plucky young editor of the Wilson Advance is the new President of the N. C. Press Association. He is the youngest President the Association has ever had.

The COURIER is again under obligations to that good friend and excellent farmer Jo. W. Wall of New Market for ten of the largest sweet potatoes of the season. Their average weight is about 40 lbs.

Another new store and two new residences going up at Julian. Mr. C. H. Harden, the clever agent and enterprising merchant says that Julian will be a town if you'll give it time. It has started auspiciously.

The COURIER has seen several wagon loads of fine heart lumber pass through going to the Buffalo bridge. That's the sort of lumber to go into a bridge and Mr. J. H. Redding knows how to put it together.

The public speakers complain that they have small crowds. It's not a good sign when the people become indifferent. This government belongs to the people and the people should be vigilant and zealous in the selection of those who are to administer it.

There is a fine display of earthen ware in the Randolph exhibit at Raleigh. There is more of this ware manufactured in this county than in all the other counties of this State combined. The State Chronicle observes that the only injustice in our exhibit is—that the jugs are all empty.

Bascom H. Palmer, Esq., formerly a law student under Mr. Robins of this place but now of Lake City, Fla., has been nominated by the Democrats of his county for the Legislature and is highly complimented by his town paper. The COURIER is always pleased to note honors won by Randolphians.

Mr. George Coble of Guilford who was well known in this county as well as in Guilford died the 24th ult. He was a quiet and unassuming but most excellent man and citizen. He had many friends in this county. In his death Guilford loses one of her best and most substantial men. He was the father of D. P. Coble, Esq., of New Salem township.

The petition to change the voting precinct in Back Creek township is not allowed.

A petition is filed for a new public road from Flint Hill school house to the public road that leads to the Poor House.

Y. M. C. Johnson is appointed a Poll Holder in Columbia township in place of W. H. Burgess.

Jacob Stout is appointed Poll Holder in Liberty township in place of Flower Swift.

### Dots from Hoover Hill.

Hoover Hill gold mine is running on full time as usual.

Mr. A. G. Rush has leased a piece of land of the Hoover Hill Gold Mining Co., and is erecting neat houses thereon to rent to the mining hands. Houses are scarce and rent tolerably high.

Mr. A. A. Spencer is preparing to erect a Steam Grist and Saw Mill at Flint Hill, in Back Creek township—a growing place—2 stores, 2 churches, 1 school house, 1 shoe shop, 1 blacksmith shop, and prospect of another. Near this place "the oldest inhabitant" informs us, is the *original* Flint Hill where the Indians obtained flints suitable for their arrow and spear points.

Mr. Pen. Arnold has repaired his mill—built a new cemented dam 1½ feet higher than the old one, and put in 2 new bolting cloths.

Business in the matrimonial market is brisk at present.

The woods full of teachers in search of schools.

The dry weather is seriously interfering with work on the farm—especially plowing and sowing.
