D. R. H. F. PERRY'S

*Vermifuge or "Dead Shot"*

FOR WORMS.

A highly valuable preparation, capable from the promptitude of its action, of clearing the system in a few hours of every worm.

The exceedingly small quantity of this medicine required to test the existence of worms or to remove every one from the system, its operating in a few hours, together with its great certainty of effect, constitute it one of the most brilliant discoveries of the age. It seldom needs to be repeated and never to be followed by any other purge. Therefore, in urgent cases, as those of FITS, SPASMS or CONVULSIONS caused by worms, its unrivaled superiority is manifested. Few medicines are better calculated to improve the health of children, even where no worms exist; as it removes those masses of crudities that line and closely adhere to the stomach and bowels, giving rise to symptoms, that counterfeit every variety of worm disease. Though prompt and certain in its operation, and not unpleasant to the taste, it is perfectly safe, and adapted to the tenderest age.

The following testimonials are selected from a multitude of others as evidence of its great medicinal virtues:

The following is from an eminent Physician.

Jonesborough, Tenn., Dec. 23, 1844.

Dr. H. F. Perry—I take great pleasure in recommending to the public your valuable Vermifuge, properly called Dead Shot. I have been vending it for two years. Nothing of the kind have I ever sold that has given such universal satisfaction.—There was one case in my immediate neighborhood that I know, recollect of in which one dose caused the expulsion of 150 worms from a small child, as the parent informed me afterwards.

Very respectfully,

JOHN YANGEY, M. D.

*Extract from a letter received from a Merchant in Kentucky.*

Prestonburg, Ky., June 10, 1841.

Dr. H. F. Perry—I received the medicine (Dead Shot) sent me a few weeks since, and it is all gone and the people are wanting more. If I had 1,000 bottles I could soon sell them, as it takes before anything of the kind ever offered here, and has given entire satisfaction; the demand is constantly increasing, new applications being made every day. Please write and let me know how I can get a large quantity shipped from Baltimore. No more, but remain yours in great haste.

JAMES G. HATCHER.

*Extract from a letter received from Dr. Wharton*

Newcastle, Va., Jan. 2d, 1841.

Dr. Perry:

Dear Sir—I gave a vial of the "Dead Shot" you left with me for the purpose of testing its merits, to a friend of mine, who introduced it use in his family by giving it to a patient selected as a suitable case. It was administered according to the directions around the vial, and to my astonishment, the first operation brought away about 35 worms. I have administered it in several other instances since, with similar good success; and it will afford me much pleasure in doing all in my power to recommend it to the notice of my friends and the public generally. With respect yours, &c.

THOS. J. WHARTON.

Lynchburg, Va., Nov. 21st, 1841.

This is to certify that I have sold the Vermifuge (DEAD SHOT) prepared by Dr. H. F. Perry, for about twelve months and have witnessed its efficacy in many cases—in one case particularly—a patient (middle-aged man) who had been troubled with Tape Worm for several years, exhibit to me a large quantity, say about a pint, which he informed me had passed by the use of one or two vials, and in no case where it was apparent that the patient had worms, has it ever failed within my knowledge.

D. R. LYMAN, Druggist.

**SANDS'S SARSAPARILLA,**

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD OR HABITS OF THE SYSTEM viz:

*Scrofula or King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Blotches, Biles, Chronic Sore Eyes, Ringworm or Tetter, Scald Head, Enlargement and Pain of the Bones and Joints, Stubborn Ulcers, Syphilitic Symptoms, Stiffness or Lumbago, and Diseases arising from an injudicious use of Mercury, Ancites or Dropsy, Exposure or Imprudence in Life. Also, Chronic Constitutional Disorders.*

The value of this preparation is now widely known, and every day the field of its usefulness is extending. It is approved and highly recommended by Physicians, and is admitted to be the most powerful and searching preparation from the root that has ever been employed in medical practice. It is not local in its operation, but general, extending through the whole system. It neutralizes the poisonous elements in the blood and restores a healthy tone to the organs which generate the fluid. In scrofulous and all external disorders, the result is a rapid healing of the sores and pustules; in rheumatism and other painful affections of the muscular fibre, a speedy removal of the pain, and in all cases a renewal of strength, keeping pace with the retreat of the disease from the system. It is put up in a highly concentrated form for convenience and portability, and when diluted according to the directions, each bottle will make six times the quantity, equal to one quart, and is then superior in medicinal value to the various preparations bearing the name. The proprietors are almost daily receiving testimonials of the most respectable character, testifying to its great value as an active and effective medicine.

The following interesting case is presented, and the reader invited to its careful perusal. Comment on such evidence is unnecessary.

Newark, N. J., March 12th, 1846.

*Messrs. A. B. & D. Sands*—Mr. Oliver's child, of this place, was attacked with a scrofula which two years old, which soon reduced her to a mere skeleton. The disease pervaded the whole system and manifested itself in malignant sores on the head, body and limbs. Different physicians in Newark, Belleville and New York prescribed for her at various times, but finally gave up the case as perfectly hopeless. At last Mr. Oliver was induced to try your Sarsaparilla, and accordingly procured four bottles, which was sparingly administered, with many interruptions, yet with the most decided benefit. About two months ago I became acquainted with the circumstances of the case. The child, who is now aged four years, was one complete mass of disease, and incapable of using any of her limbs.—Her body was swollen to nearly twice its natural size, the head, limbs and body were almost entirely covered with large sores. She was unable to move, and would take no notice of anything, only to shrink from being touched even by her mother.—This disease, at the same time, was equally severe inwardly, attended with bloody evacuations every few hours. They procured some more of the Sarsaparilla, and before she had taken one bottle she could slip down from the chair and creep across the room. She has now just finished taking the second bottle, and the sores are nearly all healed, the limbs are restored to their natural use, she is quite cheerful, and is fast improving in health.

Yours very respectfully,

C. J. WARNER.

Sec. of Youth's State Tem. Soc.

The following is an extract from a letter received from Mrs. Bryan, who had been afflicted for several years with Scrofulous Ulcers, Dyspepsia, &c., and recently with an affection of the Throat and Chest:

Baileysburgh, Va., Dec. 13th, 1845.

Messrs. A. B. & D. Sands—Before I commenced using your Sarsaparilla my sufferings were almost at expression, my throat was completely ulcerated, I had a dreadful cough, and there were frequently weeks together that I could not speak above a whisper, and besides, the inflammation from my throat extended to my head, so that my hearing was very much impaired. After taking the 2d or 3d bottle I found my health improved and my throat healed up well. I am as free from cough and lightness of the chest as ever I was, and can hear quite distinctly. My throat has been well now three months, the cure of which, has been effected entirely by the use of your Sarsaparilla. Your friend,

LOUISA B. EVANS.

The following letter, received from Capt. Gordon, a gentleman well known and of the highest respectability, residing in Mobile, shows conclusively the value and efficacy of Sands' Sarsaparilla in cases of rheumatism.

Mobile, Ala., July 3, 1844.

Messrs. Sands—*Gentlemen*—I was afflicted for more than ten years with rheumatism, and it is with pleasure I avail myself of this opportunity to express to you the salutary effect your Sarsaparilla had on me. In January, 1842, I purchased of your agents, Messrs. Mosley & Tucker, five bottles, which I took agreeably to the printed directions, which entirely removed the complaint, and I have now every reason to believe my health is permanently recovered.

Yours, very respectfully,

SAM GARROW.

For further particulars and conclusive evidence of its superior value and efficacy, see pamphlets, which may be obtained of Agents gratis.

Prepared and sold, wholesale and retail, by A. B. & D. SANDS, Wholesale Druggists, 100 Fulton st. corner of William, New York.

Sold also by Pattbn & Osborn, Asheville; B. Oates, Charlotte; Williams, Haywood & Co., Raleigh and by Druggists generally throughout the United States. Price $1 per bottle; six bottles for $5.

☞ The public are respectfully requested to remember that it is Sands's Sarsaparilla that has been and is constantly achieving such remarkable cures of the most difficult class of diseases to which the human frame is subject; therefore ask for Sands' Sarsaparilla, and take no other.
