NORTH CAROLINA DIVISION UNITED STATES BREWERS ASSOCIATION, INC.

From The Desk Of STATE SENATOR W. Frank Forsyth 33rd District

The powerful Senate subcommittee made its first strike on Thursday of last week, dropping a bombshell that shook Capitol Square to its very foundations.

The Committee, working like mad trying to arrive at an adequate solution to the Governor's sponsored bill, proposed certain exemptions. The exemptions causing the explosion were:

(1) proposed tax on prescription medicines; (2) proposed tax on crutches, artificial limbs, false teeth, etc.; (3) provide for a refund of sales tax collected from churches, orphanges and other institutions not operated for profit; (4) a tax on commercial fertilizer, lime and land plaster; (5) proposed tax on feed for livestock and poultry; (6) proposed tax on seeds and insecticides; (7) proposed tax on sales of fuel, machinery, supplies, etc., to laundries.

On the positive side of the ledger the subcommittee voted to:

(1) eliminate $80 limit on passenger motor vehicles designed not to exceed twelve persons, and (2) levy a three percent sales tax on the gross receipts of laundries, cleaners, etc.

Under Senate Bill 78 the estimated revenue per annum would amount to $41,243,363. That would leave the estimated revenue under Senate Bill 78 when amended as recommended by the Subcommittee to be $37,056,531 per annum.

The Finance Subcommittee, taking its work seriously and trying to solve the question "to stay or not to stay in session", passed the tentative date of June 20 and exploded its surprise measure without any advance notice. It had been speculated that a joint House and Senate Finance Subcommittee would meet before any positive recommendations were made. However, the Senate Subcommittee thought that in the interest of time it would be better to make its own recommendations early.

Needless to say, there will be other recommendations for exemptions to "across the board three percent sales tax." However, the thinking is strong in the Legislature that the Finance Committee is spending too much money, especially with revenues exceeding expectations. Many legislators think the Governor's request for money is too ambitious. I personally feel that expenditures should be tied down and should be kept in line with estimates. In my opinion, the state employees' request for a 5 to 7 1/2 percent increase is not out of line, and their request should be complied with during this legislation.

Redistricting of the congressional districts also reached a high point Thursday night with the resolution which passed the Senate Committee making it mandatory that no two democratic congressmen should be pitted against each other. This resolution, aimed at Representative Charles Raper Jonas, the State's lone Republican in Congress, will probably change the complexion of the entire redistricting problem. Making eleven districts out of twelve is a problem that no one wanted, but it could not be helped by virtue of the State's population increase not holding up to the point that North Carolina could keep her twleve congressmen.

Keep in mind that any action any committee makes will also have to be approved by the full Senate body and condurred in by the House of Representatives.

The Senate's popular Reading Clerk, Gene Simmons of Tarboro, was forced to resign because of illness in his family. Gene's wife has been ill for some time with a severe eye infection and has been treated in a Washington hospital. The Senate unanimously offered Gene its sympathy and affectionately dubbed him the State's 51st Senator--all of us were sorry to see him go.
