COLUMBIA MARKET.

COLUMBIA, July 12, 1856.

COTTON.—There was a few small lots of cotton on the market yesterday, all of which were freely taken at former quotations, viz: 8¾ to 10¾ cents.

CHARLESTON MARKET.

CHARLESTON, July 9, 1856.

COTTON.—There was a moderately fair demand for this article today, which resulted in the sale of upwards of 1259 bales, at prices ranging from 9 to 12 cents.

REPORT OF THE NORFOLK MARKET

BY

ANDERSON & REYNOLDS,
GROCERS & COMMISSION MERCHANTS.

CORN—an advance of several cents has taken place, and the market is firm at 57 to 58 cents.

FLOUR—The receipts have been insufficient for the demand, and good lots are now scarce and wanted at $7 cash for superfine—$... cash, for extra—8¼ to $8½ cash for family. We look for a continued demand for several weeks, and the first arrival of new will probably command an advance upon the above prices.

BACON—prices have materially advanced and the tendency is still upward at 10½ cents for Western shoulders and 11¼ to 12¼ for Western sides. Hog round 12½ to 13¼.

Money Lost—Look Out!

ON the 21st day of May last, I inclosed sixty five dollars in a letter which I addressed to Jacob Seagle, Esq., at Morganton, N. C., and had the same registered in the Post Office at this place. Said letter did not reach its destination and I have not since heard of it. There were three bills of money in it, one fifty dollar bill on the bank of Wadesboro, No 300 and dated July the 1st, 1854, one ten dollar bill on the bank of Cape Fear, and one five dollar bill on the bank of Fayetteville. I will give a handsome reward for the recovery of said bills or for any one of them or for evidence which may lead to the detection and conviction of any one who may have purloined them from the mails.

Important to Mill Owners.

Willis's Patent Turbine Water Wheel.

THIS is one of the best Water Wheels ever offered to the Milling public. It can take the place of any other wheel, and perform the same amount of work, with much less water, and equalize a perfect overshot wheel, with the same amount of water, under the same fall while the expense of geering, required to get up a rapid motion, will not be greater, than half that required for the Overshot or Breast Wheels. It is simple in construction and not easily get out of repair and will work to greater advantage under back water than any wheel in use.

The subscriber having procured the exclusive right to make and vend these wheels or to sell single rights or counties in the counties of Mecklenburg, Union, Cabarrus, Lincoln, Catawba, Rowan, Davie, Davidson, Guilford, Forsythe, Stokes, Alamance, Orange, Iredell, Yadkin, Wake, Chatham and Randolph, in this State, and being a practical Millwright and Engineer, will be pleased to furnish information or drawings to all who may favor me with their orders; and the work will be got out under my own supervision and direction.

I am also prepared to furnish Steam Engine and Mill Geering of every description; also French Burr Mill Stones and Bolting Cloths of the best quality and at reasonable terms.

All orders addressed to me at Columbia, S. C. will be promptly attended to.
