Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. —— had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE

CARDUI

The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done *them*, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

WONDERFUL STUFF!
LIFT OUT YOUR CORNS

Apply a few drops then lift corns or calluses off with fingers—no pain.

No humbug! Any corn, whether hard, soft or between the toes, will loosen right up and lift out, without a particle of pain or soreness.

This drug is called freezone and is a compound of ether discovered by a Cincinnati man.

Ask at any drug store for a small bottle of freezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callus.

Put a few drops directly upon any tender, aching corn or callus. Instantly the soreness disappears and shortly the corn or callus will loosen and can be lifted off with the fingers.

This drug freezone doesn't eat out the corns or calluses but shrivels them without even irritating the surrounding skin.

Just think! No pain at all, no soreness or smarting when applying it or afterwards. If your druggist don't have freezone he can order it for you.

An Appetizing Meal

Everybody wants it.
Everybody likes it.
Everybody's looking for it.
BUT—
You can't get it unless you have the right kind of groceries. Get 'em HERE!

AN APPEAL TO ALL PATRIOTIC WOMEN

Mrs. Thomas J. Preston, Jr., (Formerly Mrs. Grover Cleveland) Urges Women of Nation to Stand Firm.

"We can win if America can be held steadfast and unswerving, and the women of America can hold her steadfast. Against all temptations to compromise the women of America should stand firm and united," says Mrs. Thomas J. Preston, Jr. (formerly Mrs. Grover Cleveland), in a message to the women of America, made public through the National Security League.

Mrs. T. J. Preston, Jr.

Mrs. Preston is active in the Security League work. She was the first woman to become a member of the League's National Executive Committee, and is secretary of the League's Committee on Patriotism Through Education.

Mrs. Preston's message to the women of the country reads in full:

"Proclaim Liberty."

"'Proclaim Liberty throughout ALL THE LAND unto all the inhabitants thereof.'

"These words were written about 1490 years before Christ, as part of the Law of Holiness in the Book of Leviticus. Our fathers inscribed them upon the Liberty Bell which called our mighty nation into life.

"Today all the inhabitants' enjoy liberty, the Jew and the Gentile, the rich and the poor, the native and the alien-born, the weak and the strong. The old Liberty Bell is silent, for its voice has been heard 'throughout all the land.

"But Liberty is not safe. It is menaced along the battle fronts of many nations, our own among them, and America requires a new motto for her old Bell: 'Proclaim liberty throughout ALL LANDS unto all the inhabitants thereof.' Until liberty is safe in all lands, it can not be safe in our own. Hence the task to which America has reverently and unselfishly dedicated herself.

"Make Motto Real."

"The Fathers of this Republic, men of many races, with a common love of liberty, wrought into law our ancient motto, thus giving liberty a chance to enlighten the world.

"Today we, their descendents, are called upon to make real the new motto, and thus to give liberty the undisputed right to bless the world.

"This can be done but only after heroic struggle and self-sacrifice. A premature peace would mean failure. It would be only less disastrous than complete defeat. Against all temptations to compromise the women of America should stand firm and united.

"Peace and Safety."

"Victory means peace and safety for our children; defeat means humiliation and practical servitude for them; while a negotiated peace, with the military machine of Prussia unbroken, means that everything in their lives must be subordinated to the task of preparing for another war with Germany. We can win now if America can be held steadfast and unswerving, and the women of America can hold her steadfast."

MONEY UNCOVERED HIM.

Office Boy—I tell ye the editor ain't in. I've just looked.

"That's too bad. I wanted to pay him some money I owe him."

Office Boy—"Wait a second, I'll look again."

Are You One of Them?

There are a great many people who would be very much benefited by taking Chamberlain's Tablets for a weak or disordered stomach. Are you one of them? Mrs. M. R. Searl, Baldwinsville, N. Y., relates her experience in the use of these tablets: "I had a bad spell with my stomach about six months ago and was troubled for two or three weeks with gas and pains in the pit of my stomach. Our druggist advised me to take Chamberlain's Tablets. I took a bottle home and the first dose relieved me wonderfully, and I kept on taking them until I was cured." These tablets do not relieve pain, but after the pain has been relieved may prevent its recurrence.

THINGS TO REMEMBER.

The tickets.
Your umbrella.
Your bank balance.
The point of the story.
A certain party's birthday.
What the string on your finger is for.

In Use For Over 30 Years
Always bears the Signature of Chas. H. Fletcher

A PIOUS THOUGHT.

One of our life's ambitions is to figure out some scheme whereby we can cost our wife's mother something, preferably a good deal.

SAYS LEMON JUICE WILL REMOVE FRECKLES

Girls! Make this cheap beauty lotion to clear and whiten your skin.

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

Ignorance Is Bliss

Every individual above the moron class has his own notions about hygiene and health. If not fixed views and opinions on the diagnosis and treatment of human ailments. This is just human nature. All mankind loves to experiment upon itself.

Legislators are an anomalous institution. When a legislator plans to introduce a bill he hopes to see enacted into law, he strives to make it conform to the constitution. If the question is of any importance he seeks legal advice about the wording and intent of his bill. Never having studied law himself, he realizes that an expert's aid is valuable.

But when a legislator seeks to introduce a bill affecting the health of his constituents, does he consult the doctors about the purpose of the law? No, he fires right ahead and puts the law on the statute books.

Legislators are an anomaly. Without having even a moderate knowledge of the subject of health and hygiene they feel competent to make laws regulating or affecting these vital matters. And in the estimation of the average politician the advice and opinions of an uneducated or half-baked healer who has a sure system to exploit is quite as weighty and influential as the advice or opinion of a man skilled in the art of preventing and curing disease.

Thus it happens that the title "Doctor," as used by healers, no longer signifies anything. "Doctors" are made in six years or six months or six weeks or six minutes. And the grand old public doesn't know the difference. All "doctors" look alike to the sick man.

It is strange. Nowhere does a charlatan venture to practice law without first qualifying for the right. Everywhere the affable charlatan conducts his healing business on an equal footing with the *legitimate practitioner*. Health and life are cheap commodities, for which no one is greatly concerned. But property is valuable and must be protected.

If you desire to get into the healing business but lack the time or inclination to devote six years or more to preparation, as demanded by the state, then just call yourself a "non-medical doctor"—be sure to tack on the "doctor," for that is the open sesame to public confidence—and never mind the law. So long as you feature other remedial measures than drugs in your practice you can put it over all right. The average district attorney will go to any extremity to evade the duty of prosecuting an illegal practitioner.

LOOK BENEATH THE STAMP.

Your Health Is the Most Precious Thing That You Can Possibly Possess. Do Not Trust It in the Care of a Faker.

"Medicine." The all-wise courts are still wrangling over the significance of the word. There are a lot of old fossils on the bench who insist that the "practice of medicine" means the giving of drugs, in spite of the fact that nine-tenths of a physician's work is other than the prescribing of drugs. As long as this sort of quibbling remains sound legal sense, just so long will the public be deceived by the numerous incompetents and pretenders who unhesitatingly take upon themselves the title of "doctor."

Just Warts

You've heard of weasel words, words which suck the strength out of what you have to say? Well, we have before us this evening a pole cat word, a word used to soften suspicion or distract attention. For instance, the pole cat "specialist" who is invariably anonymous and always "perfecting" wonderful new remedies, urges you to "just get an ounce of"—and you go and get it. We know mighty little

EVEN A FROG HAS SOME SENSE.

If You Are Troubled With Warts, Don't Take the Chances of Blood Poison by Careless Treatment. Have a Good Physician to Cut Them Out for You.

about warts, hardly enough to venture a talk about them, so, with an apology to the beautiful and inoffensive animal above libelled, we entitle the talk "Just Warts."

Jadassohn inserted fragments of common or vulgar warts from four patients in superficial incisions of the skin in six adults. Out of seventy-four inoculations, thirty-three were followed in from two to six months by the development of warts, according to 1896, p. 497. This goes to show that warts must be caused by some specific micro-organism. A wart may be considered a nest of bacteria.

In young people warts are only a nuisance. When warts come on the skin of elderly people, or people of middle age, they seem to have a tendency to break down into little ulcers which presently prove to be cancerous. Hence, though a young person may daily with warts, any elderly person had better not.

Beyond all question the surest, safest, least troublesome way to dispose of a wart is by cutting it out, under local anesthesia, and bringing the edges of the little wound together with a stitch in order to prevent visible scar.

Occasionally warts are tubercular acquired by handling tubercular carcasses or hides (butchers, etc.) and sometimes acquired by physicians and students in the dissecting room.

The reason why children more generally have warts than adults is that children indiscriminately handle everything and naturally hate to wash their hands. Warts go with uncleanliness, and not with undue familiarity with toads.

Sometimes a crop of warts on the hands may be cleared up by occasionally painting the whole affected surface with half strength iodine (half tincture of iodine and half alcohol, say, once in four or five days), and religiously scrubbing with soap and water several times a day to discourage microbes. Exposure to sunlight is also a cure in many cases. Condensing the sun's rays upon a wart with a reading glass every day, up to the limit of tolerance, will clear it up after a time. When too many warts are present to attempt the removal of each lesion, a few X-ray treatments will usually destroy them. A multiple growth of warts on unexposed skin is best attacked by the curette under ether.

There are as many sure cures for warts as there are victims of warts. Acids, caustics and other irritants are unwise, because these are often painful, usually unsatisfactory and sometimes apparently productive of malignant change in the lesion (*cancer*).

Moist warts, about moist surfaces, may be cleared up by careful cleanliness, and bathing with one dram of tannin acid dissolved in three ounces of alcohol, then powdering well with boric acid or zinc stearate. The region must be kept dry.

Questions and Answers.

Miss A. J.: Is there any safe way of removing freckles?

Answer: Freckles which are produced by exposure to the sun and wind can be generally made to disappear if the skin is protected. The application of buttermilk or artificial poultice is a simple means that will facilitate disappearance. Freckles which appear in the dark without special exposure cannot be removed by such means but may be paralyzed by the application of the Nernst lamp, however, is likely to produce slight scarring of the skin. The Nernst is very dark brown, which fact makes it preferable.

Mrs. M. F. E.: Can you tell me the cause of an enlarged foot of one leg too and how it can be cured?

Answer: The enlargement may be due to many causes. If it be a boil, being rheumatism, gout, or the effect of the great toe joint, it is generally shared too you have to suffer from a bunion (bursitis) and operation. Change in shape or size would probably help.

Mrs. M. S. K.: What is a remedy for car-sickness? It is necessary for me to travel, but I am always frightfully sick.

Answer: Chronic autointoxication makes a person very susceptible to sickness and to seasickness. When the bowels are trained to move twice or three times a day so that the blood is kept clean, car-sickness is less likely to occur. For immediate relief, in the recumbent position, the application of cold to the head, and keeping the eyes closed are simple measures of value.

D. S. A.: Please suggest a remedy for pin worms in children.

Answer: In worms are usually associated with constipation. Some form of anthelmintic may be necessary. The family physician should be consulted.

Nature is the only artist capable of producing a perfect picture of health.

GREAT BARGAINS
IN TYPEWITERRS.

We carry a large stock of standard Typewriters. Can furnish at once Monarch, Fox, Oliver, Remington, Royal, Smith Premier, L. C. Smith & Bro.'s and Underwood. Any other make from 5 to 15 days notice. We have both the visible and the invisible. We bought a large stock of these Typewriters from one-fourth to one-half the regular wholesale price, and on sale now at one-fourth to one-half the regular retail prices. A good Typewriter from $7.50 to $15. A better one $17.50 to $28.50. The best from $30 up to any price. Will be glad to answer any inquiry in connection with these machines, and send samples of the work done by any of the Typewriters we have. Every boy and girl should have one of our cheap Typewriters to learn how to use. Any person who can write well on a typewriter can demand a large salary. Anyone who buys a cheap typewriter from us and wants a better one later, we will take back the one bought and allow the same paid for it in exchange for a better one, if returned in good condition and within six months. If not in good condition we allow the market value. We carry Typewriter ribbons and other supplies.

Sow Wood's Seeds.
Cow Peas
After Harvesting Grain Crops

Farmers should make every preparation to sow all the COW PEAS possible after harvesting grain crops this year, so as to increase the fertility and productiveness of their lands for crops to follow.

The Sowing of Cow Peas at the Last Working of Corn

is also to be strongly recommended. Farmers who have practiced this claim that the sowing of Cow Peas in corn increases the yield of corn, and at the same time it makes a most desirable soil - improving or forage crop.

Write for "WOOD'S CROP SPECIAL" giving prices and information about all Seasonable Seeds.
