FROM WASHINGTON

THE UTE MURDERERS—A TEA FARM—NO DECISION IN THE LOTTERY CASES—GREAT INCRASE IN PENSION CLAIMS—THE SENATOR FROM OHIO—THE SHERMAN BOOM—A NEW PENSION BILL.

WASHINGTON, D. C., Jan. 9, 1880.

THE UTE MURDERERS.

Twelve Ute Indian Chiefs, with Chief Ouray and his wife will reach Washington next Sunday. None of the twelve chiefs and braves concerned in the murder of Agent N. C. Meeker and the whites at White River agency, will be among them. These are simply visiting chiefs. Secretary Schurz and his Indian Commissioner Hayt will take up the negotiations where the Indians broke them off and endeavor to persuade these chiefs to procure and surrender the murderers.

So far Mr. Schurz's Indian policy has been a bloody and costly failure, and it has done much to strengthen the friends of Representative Scales' plan to transfer the whole Indian bureau to the care of the War Department and army officers. It is now known that the Indians compelled the ladies of the Meeker family to submit to their lust. Mrs. Meeker has published a statement giving the details of the outrage The daughter, also one of the victims. is now employed in the Indian bureau, in this city. Her friendship for the Utes is most marked. She says distinctly that they have been wronged; and she listens with illconcealed impatience to any unfriendly comments on the recent action of the Utes. Miss Meeker is a comely looking young lady of about twenty years of age, and under the circumstances her conduct causes not a little talk in the Department of the interior.

A TEA FARM.

Agricultural Commissioner Le Duc will use all the means in his power to persuade Congress to establish a "tea farm," probably in South Carolina, during the coming year. Much would be wit and many sneers have been showered upon this officer by press writers, in noticing his attempts to encourage the culture of tea in America. We have a suitable climate, an abundance of the right kind of soil, and labor in plenty. There is no valid reason why we should not grow tea in the Carolinas and Georgia. The proposed "tea farm" is a step in the right direction, and should be regarded as such. It seems that almost every southern member should favor this timely proposition.

A recent visit to the agricultural department showed many thousands of young coffee plants in the course of propagation. These plants are to be sent to suitable places in the far South for experiment.

NO DECISION IN THE LOTTERY CASES has yet been reached. The test case has been put over until it can be heard by a full bench, which will be about the middle of the month. In the meantime postmaster General Key's order is in force. There is but little doubt but that he will be sustained by the courts. In the meantime a new order is being prepared which will break up the business of six more firms of swindling brokers and bankers.

GREAT INCREASE IN PENSION CLAIMS.

Under the new and liberal laws of Congress regarding pensions there has been a steady increase in the number of claims filed in the Pension office. In the month of December last nearly 11,000 new claims were presented. The present force of clerks only disposes of about 3,500 each month. The result is that the office is nearly two years behind in its work. The committee having charge of this business, in Congress, has prepared a bill allowing eighty new clerks to the Pension office and seventy to the War Department. for the purpose of reducing the mass of claims not yet considered. There is no doubt but that the new pension laws induce a great number of fraudulent claims. It seems as though every man who attended a surgeon's call, during the war, as well as every man who stubbed his toe while running away to Canada is now claiming a pension. Good soldiers, men who did not go to the rear with a slight flesh wound; men whose pluck and sense of duty kept them at the front, even when ill, do not get pensions, as a rule. The "hospital beats" who dodged danger and went to the rear on pretexts, and secured records as hospital patients are the ones who now come to the front and get well paid for being, in far too many instances, shirking cowardly sneaks. In plain words, the pension laws offer a premium to the men who have hospital, not fighting records. It is about time the brakes were put on this pension business.

THE SENATOR FROM OHIO

to succeed Mr. Thurman will be General Garfield. When the Republicans met in caucus all his opponents withdrew and he was nominated by acclamation. His principal opponents favored either Grant or Blaine for the Presidency, This splendid victory, now in so dignified and successful a manner is regarded here as a most unmistakable "Sherman boom." The action of the "Scratchers," or that class of Republicans who came so near defeating Connell in New York in taking most decided public action against the proposed nomination of General Grant is also attracting no little attention here. That these men have no little power for mischief it would be folly to deny. They state distinctly that their action is based, not on any personal grounds, but solely on the principle that no man should be elected for the third term to the Presidency. This course of the scratchers, together with the conceded fact that the German Republicans are hostile to the "third man" must have its effect in the coming National Convention.

A NEW PENSION BILL

was introduced in Congress last Tuesday. It provides that all soldiers and officers who served in the Black Hawk war, or sixty days in the Mexican war shall receive a pension of $8 per month. This bill will be watched with much interest by many veterans in the "Old North State."

Congress has done nothing since Tuesday. There has been no progress with the appropriation bills. Beyond the introduction of some new bills there has been no progress in the business before it. The disposition to let all financial measures severely alone during this session has apparently grown stronger during the recess.

The House Committee which is looking into the Ute troubles and Mr. Schurz's Indian policy is making that gentleman very nervous. The members were down at the Indian office yesterday, "wanting to know, you know," and there was a commotion in the breast of the Secretary of the Interior. It will grow, too, before the matter is ended. H. C. F.

Ayer's Hair Vigor,

FOR RISTORING GRAY HAIR TO ITS NATURAL VITALITY AND COLOR.

It is so most agreeable dressing, which is at once harmless and effectual, for preserving the hair. It restores, with the glossy freshness of youth, faded or gray, light, and red hair, to a rich brown, or deep black, as may be desired. By its use thin hair is thickened, and baldness often though not always cured. It checks falling of the hair immediately, and causes a new growth in all cases where the glands are not decayed; while so brashy, weak, or otherwise diseased hair, it imparts vitality and strength, and renders it pliable.

The VIGOR cleanses the scalp, cures and prevents the formation of dandruff; and, by its cooling, stimulating, and soothing properties, it heals most if not all of the humors and diseases peculiar to the scalp, keeping it cool, clean, and soft, under which conditions diseases of the scalp and hair are impossible.

As a Dressing for Ladies' Hair, The VIGOR is incomparable. It is colorless, contains neither oil nor dye, and will not soil white cambric. It imparts an agreeable and lasting perfume, and as an article for the toilet it is economical and unsurpassed in its excellence.
