[From the New York Express.]

THE OCTOBER ELECTIONS.

The Radicals report majorities in the Counties of Pennsylvania to have been—Radical, 41,301; Democratic, 30,455—giving a Radical majority of 10,846. The Democratic estimates give the Radicals only 2,044 majority, which is more likely nearest the truth. The Radicals figure a majority for themselves of fifteen thousand in Ohio, but the returns, as far as we have them, (they are yet imperfect) reduce that to 12,419. The Radicals claim Indiana by any number ranging between 3,000 and 5,000; while at this writing (Oct. 16) telegraphic dispatches claim that a gain of 5,000 votes in 37 Counties, not heard from, will elect Hendricks (Dem.) Governor. The Democrats claim a gain of 14,031 in 75 Counties, leaving 17 (which give usually Radical majorities) to be heard from. These estimates are from special dispatches. Our own impression is (taking the latest press dispatches for a guide,) that the State has gone Radical by about 1,500; Nebraska (from whence no reliable returns are as yet reported,) is claimed by both parties. From the meagre information we have received from there we think it probable that State has been carried by a very small Democratic majority; as to all of the ticket except the Congressman.

In the four States (as heard from, and admitting Taffee, [Rad.,] of Nebraska, to be elected,) the Radicals admit a loss of seven Congressmen and a gain of one. In Indiana, Niblack, Holman, and Vorhees (1st and 6th Dists.) have certainly been elected. In Ohio, Gen. Morgan, whom they kicked out of the last House, is elected to take his seat there again.

Upon the whole the skies are brighter to-day than yesterday. In Pennsylvania the returns demonstrate that but for the denial of lawful suffrage to thousands of white men there, who had the misfortune to be born abroad, the State would be Democratic. As it is, the 18,000 majority claimed by the Republicans will be reduced one-half, and in the estimation of many three-fourths. We give up the State by 7,000 or 8,000, and at least 10,000 Democrats in the State were cheated out of the ballot. A letter from Philadelphia confirms what we foretold two days before the election, and says:—"At Harrisburg and Pittsburg persons naturalized in Radical Courts in September were hunted from the polling precincts, and measures have been taken to seek redress at law for the outrage."

"I know of a squad of *two hundred Radicals in your city* who came here, voted as often as they could, and escaped just in time to avoid arrest."

A dispatch from Ohio give us the *modus operandi* of the election there:

CLEVELAND, Oct. 14.—We have lost the State by the votes of negroes and carpet-baggers from New York and Michigan.—At least eight thousand negroes voted—one-half upon the Reserve. A large number of men from Michigan were detected voting in the ninth and tenth districts, while Ashtabula and Lake counties were overrun with Western New Yorkers. On a fair vote Ohio would have given a large Democratic majority. The Democracy are not discouraged, but will go to work with renewed energy for the contest in November. The defeat of Eggleston, Cooper, Gibson and Ashley, causes great rejoicing among the people.

The Connecticut town elections, on closer canvass, look better. The following is the result:—

Towns.	April Majority. Dem.	Rep.	Oct. Majority. Dem.	Rep.
Madison	..	10	..	4
Stratford	..	12	24	..
West Hartford	..	45	..	1
Norwalk	..	149	15	..
Fairfield	..	25	109	..
Litchfield	68	..	104	..
Barnhamstead	..	10	21	..
Clinton	..	80	50	..
Bristol	..	33	120	..

Upon this showing the State is as safe for the Democratic ticket as it was for English last year.

RELIGIOUS LIBERTY.—In addition to the series of changes which have been already noticed as proposed by the Spanish Junta in the existing institutions of that country, it is now announced that, having proclaimed religious liberty, the junta have seized the property of the Jesuits and peremptorily abolished the order in Spain, and have also taken ground in favor of the suppression of all religious corporations. This order originated in Spain three centuries ago, but it has been repeatedly suppressed in that country as in other nations of Europe. During the Spanish revolution of 1820 they were banished, but were restored with Ferdinand in 1823. Queen Christina suppressed the order in Spain in 1835, and in 1840 its last house was dissolved by order of the provisional regency, but they again succeeded in establishing themselves in 1844. The rivalry of other orders, and charges of political interference, have heretofore been among the alleged causes of their suppression in Europe, but we are not aware that their abolition has been before considered an exemplification of the principles of religious liberty.

The principle, as we understand and practice it in the United States, is toleration of all and favor of none; so that there would seem to be some confusion of ideas either in the Junta or in those who report their action, as to what religious liberty is. It would be consistent to segregate the State from all religious denominations, and to deprive one and all of the power of interfering with political afairs, but to single out one order or denomination for abolition, in the name of freedom of conscience, is difficult to understand in the United States, where we place all on the same platform of isolation from the State, and, by removing all capacity in any for secular aggrandizement, find it safe to tolerate all orders and all creeds. It is to be hoped that the provisional government of Spain, in its zeal for reform and progress, may not be led by a want of comprehension of the true principles of religious freedom to introduce elements of discord which may impede the great work of political and material regeneration which they now have it in their power by wise and judicious counsels to advance.

Indiana, as a State, is lost, if lost at all, by from 1000 to 3,000 votes only, and by fraudulent votes. The people of the United States are most patient in the face of such outrages. The majority of white men of the country are largely Democratic, but are compelled to submit to despotic civil power and to a military rule of the most expensive army, for its numbers, in the world.—*N. Y. Express.*

NORTH CAROLINA!

THE VOTE IN THE APRIL ELECTION.

We publish below, for the sake of reference, the official tabular statement of the vote in the April election in this State.—The 29,774, who did not vote, were men who were registered, and entitled to vote, at the time of the election. In addition to this, it may be safely estimated that 15,000 men in the State are now enfranchised, who could not vote before.

NEW YORK.
THE UNIVERSAL LIFE INSURANCE COMPANY,
NEW YORK.
Office, No. 69, Liberty Street.
Losses paid in 30 days. No restrictions on TRAVEL or RESIDENCE. No extra charge for Females. No charge for Medical Examina's, Policies or stamps.
The Original Joint Stock Life Insurance Company in the United States.
The business of this Company is EXCLUSIVELY confined to the insurance of first-class healthy lives.
THE DISTINCTIVE FEATURE
of the Stock system of Life Insurance, as opposed to the MUTUAL, is a low rate of premium for a stated sum assured, which is ABSOLUTE, SECURED, and CERTAIN; in lieu of a high rate of premium for a promised dividend which is UNCERTAIN, CONTINGENT, and [illegible]; this so-called dividend being merely a return of a portion of the excessive and unnecessary premium charged in the first instance.
ILLUSTRATION.
Suppose that an individual aged thirty desires to devote $200 a year for the purpose of effecting an insurance on his life; this amount will immediately secure him in the "Universal" the sum of $11,751, payable on his decease. This sum, paid to a Company charging the ordinary mutual rates, would secure him the sum of $8,474.
The difference between these sums ($3,277) is exactly the same as an immediate bonus or addition to the policy to be paid by the former office to the holder of the policy in case of the early death of the insured. It is true that if the insured, in an office charging high rates, lives long enough, and have his periodical dividends added to his policy, the sum may equal or surpass that above named; but it must not be forgotten that the chance of early death is the very thing the applicant desires to insure against, and consequently the greater the sum immediately assured, contingent on this event, the greater the advantage to the policy-holder.
To illustrate the importance to the policy-holder of low premiums, in more general terms, it may be stated that by a reduction of twenty-five per cent in the rate of premium, the same amount of money will secure a policy *thirty-three and one-third per cent* greater, and likewise that a reduction of twenty-five per cent. in the rate of premium is precisely equivalent to an annual cash dividend of *thirty-three and one-third per cent*, payable in advance, or to a dividend of *forty-five per cent* payable at the end of five years.
By the Stock plan the *full cash effect* of the premium is immediately secured to the insured, the Company taking *all the risk*. By the Mutual plan, the full value in insurance of the premium paid is not secured to the policy-holder, who takes a portion of the risk himself.
Rates to Secure $1,000 at Death.
