The Daily Sentinel.

JOSIAH TURNER, Jr., EDITOR.

We clip the following from the La Crosse *Democrat* of the 16th instant and heartily endorse every line and word. The truth of the charges is apparent to every one who does not wilfully close his eyes to indisputable and glaring facts. Strong as the language of the article may seem, it fails in portraying the scene of fiendishness and villainy which the Radical party has reached in this State of ours:

RADICAL PURITY!

There are a few individuals belonging to the Radical party, who have voted and labored with that institution of self-convicted bribery, perjury, thievery, and political rottenness, who dare to raise their shameless faces from out the foul pools in which they thrive and breed, and accuse Democratic papers of "low flings," because they call persons and actions by their right names, and do not bow around the lush for fear or favor. These are the brutes who clap their mangy paws and dance in wild delight when a defenseless Southern man is killed, or a white girl is raped by a Congo, whose only virtues are a sable skin and a woolly head. These are the same curs who saved their worthless pelts during the late war, by sending substitutes, or in some other way avoiding the cause of near a million deaths. These are the vile creatures who rejoice to see a man hung for a political opinion, and would place the negro on an equality with their wives and daughters, which would not be so much out of the way, either, if it did not go further, and thus effect other men and their wives and children.

When we denounce, in unmeasured terms, the false position the Radical party, call them "low flings," if you choose. A "low fling" is is, of a truth, when it hits such as you. A sportsman loads his piece for the game he hunts, and when one of our shots causes a squeal in the direction in which we aimed, we are probably right in our conclusion that somebody is hit. We are hunting most of the time, and the squeals that emanate from the Radical rat holes strengthens our belief that we are having good success. We never pick up our game, for it isn't worth it.

We do not wonder at the squirms and hops of these Radical worthies. It is hard on them to have so many of their number turning States evidence, who also deal in "low flings," which cut to the quick when they tell of moneys stolen, of briberies paid, of law defied, of treason fostered, of patriotism crippled, of a Constitution destroyed, and a country ruined.

"Low fling" is an original name for Truth, invented by Radicalism, and to hurl it at then, soils their purity!

GEN. GRANT'S FAMILY AT WEST POINT, N. Y.

Mrs. Grant has kept herself within doors pretty much ever since she has been here, but her appearance in one of the examination rooms this morning enables me to say that she wore a black silk walking-suit, with lavender gloves, and a black lace bonnet with four, and I cannot swear that there were not even five, red roses in it. Miss Grant, who is a growing girl of twelve, perhaps, wore a black mantilla and a muslin dress; and young Jesse, who is a bullet-headed boy of nine or ten, was enclosed in the black roundabout and trowsers appropriate to his tender years. These are all the President's family, I believe, except another boy who is at school in Massachusetts somewhere, and his first born, Frederick D. (supposed to be named after the President's well-known poor relation and doorkeeper, Dent,) who is just completing the second year of his probation here.

Hereditary genius has not broken out in that youth, by the-by, so as to occasion any alarm about the combustion by him of the adjacent Hudson. When you ask the officers about him they shake their hearts and laugh, or look grave, according to their way of thinking. Not that he is incurably stupid, either; but it is possible he relies too much upon his father's influence to shield him from the consequences of any errors into which he may fall, and I have seen enough of the Point to be assured that that will not do. Last year he was a little more than half way down in mathematics, and at the very bottom in French. These are the only studies reported in the register. The last report shows the same standing.—Young Grant is No. 8 (the lowest number) in the fifth (the lowest section) in French, and No. 4, (the middle number) in the third (the middle section) in mathematics. In that branch of science known at West Point as "Demerits," however, his prominence is startling. Last year he was marked 175, 25 below the limit at which forbearance ceases to be official mind to be a virtue, and 75 beyond the point attained by any other member of the class. This year it is not quite so bad for three of his classmates have managed to misconduct themselves beyond him.

THE MODEL REPUBLIC ABROAD.

The fate of the Model Republic is appreciated in Europe, and, from an example to be imitated, has become a warning to deter. In the great debate in the Spanish Cortes on the form of constitution to be adopted, after a foolish word spouter had exhausted himself in expatiating on the glories of the great Republic, another member (Senor Rosas) replied:

He (Senor Rosas) was very severe with the Republic of the United States. He said half of it was outside the law. All the States of the South were held under the sword of military government. Individual rights were all confounded. There was no liberty. It was dictation—sword dictation. The government of the half of the States had characters of iniquitous tyranny, for the interests of the conquered countries were sacrificed to the egotism of the North. They enslaved the whites to give liberty to the blacks. This slavery would be prolonged years and years, for the Federal legality and the autonomy of the States were completely abolished. Was that the sort of constitution they wished to give their country? (No, no, and great applause.)

Close in Honest.—Not long since, while spending the night with a friend in a neighboring county, we were aroused from our slumbers with the unwelcome intelligence that our horse was dying. Upon repairing to the stable we believed the report but too true. The poor beast was in perfect agony, rolling, kicking, vainly trying to get on his feet, and covered with perspiration. At times giving signs of bots, but the leading symptoms were of colic. So great were the struggles of the horse that some time elapsed before he could be controlled sufficiently to administer anything. Finally we succeeded in getting a table spoonful of Soda (such as we use for bread,) into his mouth. In less than three minutes he was better, got up and walked out of the stable, and a fine evacuation was produced. The paroxysms returning, but with less violence, we drenched him with the following, which Capt. F. informed us he had never known to fail to cure:

Ith (ordinary) plug tobacco, 4 pods red pepper, 2 ounces lye soap, 1 pint hen manure; put in sufficient water, (say 3 pints,) to make a good drench, boil, say 5 minutes, and strain through cloth. There should be one quart of the decoction when drained off. Add as much assafœtida as will dissolve well. Give when sufficiently cool not to burn the horse.

We administered the soda, also, afterwards, in a small quantity. In less than 20 minutes the horse was feeding. The cure was so wonderful that we give all the particulars hoping that others may derive benefit from our experience. We are inclined to the opinion that if people would treat more for colic and less for grubs, fewer horses would die.—*Central Georgian.*

THE Ætna is the LEADING LIFE INSURANCE COMPANY in North Carolina.
Largest amount of Losses to Widows and Orphans!
The Largest Revenue to the States. And has by far the largest number when compared with 58 Companies reported officially by the Commissioners of New York and Massachusetts it will be seen that the Ætna ranks as one of the first Companies of the Continent. But two of the fifty-eight Companies permitted to do business in New York and Massachusetts had so large an income for the year 1868; but two had so large a number of Policies in force, but one among all those incorporated under the laws of the State of New York had so small a per centage of Expense to Income during the year 1868.
Its expenses are lower than most Companies', and consequently its ability to make and pay liberal dividends to the insured is greater than that of most other Companies. It is one of the great Companies of the land in Income, in Assets, in Number of Policies, in Amount Insured, in Solidity and Strength, in Soundness, Cheapness, Promptness, and Success. Persons contemplating this mode of investment in the future as in the past would do well to examine the claims of all and take a policy accordingly.

SPARKLING CATAWBA SPRINGS,
CATAWBA COUNTY, N. C.
THIS CELEBRATED WATERING PLACE, formerly called the North Carolina White Sulphur Springs, will be open for visitors on Tuesday, the first day of June next.
Being situated in the northwestern part of the State in a country remarkable for its beauty and healthfulness—these, together with the virtue of the waters, make it one of the most desirable watering places to be found.
The MINERAL WATERS of these Springs are the White and Blue Sulphur and Chalybeate or Iron, and they possess all the finest qualities of these waters, and are sovereign remedies for all diseases of the liver, bowels, stomach and kidneys, eruptions of the skin, scrofula, weakness, debility dyspepsia, rheumatism, &c.
The proprietor having spent a large amount in additional buildings and improvements generally, these Springs are now in a fine condition, rooms large and pleasant, and good cottages containing from two to six rooms each, well arranged for either large or small families.
Good TEN PIN ALLEYS, BILLIARD TABLES and other amusements.
FINE BATH HOUSES, for Pool, Plunge or Shower Bath, Sulphur Bath, Hot or Cold.
A GOOD BAND OF MUSIC
Will be at the Springs the entire season, and a good Physician permanently located for the benefit of invalids, who will have every attention.
Having secured the services of Mr. J. N. Cannon, of Virginia, who has had much experience and stands high as a Hotel keeper, visitors may rest assured that my table will be supplied with the best the market can afford, and everything done that will add to their pleasure and comfort.
The cars on the Western North Carolina Rail Road will leave Salisbury for Hickory Station, the Springs' depot, every morning, (Sundays excepted,) in connection with the North Carolina Railroad, avoiding stoppage or delay at Salisbury, and arrive at Hickory Station in time for breakfast, where good hacks will be in readiness to take passengers over a beautiful, well-shaded road to the Springs—a distance of six miles.
As an inducement for families and parties to spend two months or more, I have concluded to put board down at the following low rates:
BOARD:
For one single month, $50 00
For two or more months, $40 per month, or at that rate.

ROBERT SOUTTER,
OF GRANVILLE COUNTY,
realizing the importance of encouraging the growth of Wheat in this County; and the farmers, knowing so well the absolute necessity of supplying themselves at as early period with "Seed Wheat" of the finest quality, ready to plant in the Fall, the undersigned takes this early method of inviting applications from farmers, for what they may require to plant next Fall, of the very "Select Seed Wheat" which he expects to deliver at moderate prices, from the crop growing now at his "Oakland Farm" near Townsville, in this County.
This Wheat was planted last Fall, with Guano, of seed selected in Baltimore with great care by my predecessor, Mr. Chas. R. K. Taylor, who paid $2,25 for it there. It has had the advantage of a heavy top-dressing in Spring of ammoniated bone Fertilizer, and is now very promising.
Like the good Sorghum Seed which I have offered to the farmers of Granville, I hope the orders for my "Seed Wheat" may be equally attractive, to absent all that I can expect to spare of it.
Address me at Kittrell's Springs, or Mr. Thos. W. Taylor, at Oakland Farm.
