David Lewis, Commissioner, advertises one of the most desirable pieces of real estate in the city.

The Skiff & Gaylord Troupe appears again to-night.

B. F. Cheatham and Bro., ask a call and examination of their large stock of new goods of all sorts, just received and opened.

Articles in the Stationery line, by J. A. Jones.

See the new advertisement of Pepper & O'Connor; if they continue to send good things to this office, as they did yesterday, we shall be under the necessity of speaking out in regard to the matter frequently. Read the advertisement.

THE ALLMAN TRIAL.—The Jury in this case were out until yesterday, (Monday) evening, and failed to agree on a verdict. We understand the Jury stood 9 for manslaughter and 3 for acquittal. Late yesterday the Judge had them called in, when the prisoner not being present in person or by counsel, a Juror was withdrawn and a mistrial entered.

We learn that the prisoner's counsel will move for his final discharge this morning, on the ground that he cannot be tried a second time for the same offense. In case of the Court's refusal to grant the motion, an appeal to the Supreme Court will be taken, where, we are warranted by precedent to conclude, the motion will be sustained.

NEW HATS.—Tucker has hats of the very latest style, and as cheap as they are elegant. Tuckers' fine store and stock of elegant goods, would do credit to a city of a hundred thousand.

SKIFF AND GAYLORD'S MINSTRELS.—This Troupe gave a highly entertaining Concert at Tucker Hall, last night to a crowded audience. From notices of their performances at other points, the public had been led to anticipate the enjoyment of something beyond the ordinary, and we believe none who were present felt disappointed in this respect. The lateness of the hour prevents us giving a lengthened notice of the performance, it is sufficient to say that all present were highly delighted, and we have no doubt another large audience will greet them to-night.

Our Cashier has just been presented by A. Creech, with a beautiful and stylish hat for which he wishes to return his thanks.

He says that Creech keeps one of the best stocks and that all who need new and stylish hats should go to him.

The following delegates have been appointed by the Central Agricultural fair to attend the State fair at Raleigh, Peter E. Davis, Dr. W. T. Cheatham, Geo. B. Harris, W. W. Jones, Jno. E. Clarke, and Dr. W. W. Young.

1870.—We are indebted to Mr. Jesse A. Jones, Bookseller, Fayetteville street, for a copy of his "North Carolina Agricultural Almanac," for 1870. It contains the usual astronomical calculations, and a great deal of useful information for the farmer and gardner. Mr. Jones is ready to fill orders at wholesale.

We give to day an able article from the pen of "Civis" on the Review of the Supreme Court opinion in the celebrated contempt case. The "Review" is printed in pamphlet form, and will, we presume, be considered conclusive on the questions involved in the case referred to. It is our purpose to publish this Review as soon as we can; at present the crowded state of our columns renders it impracticable.

THE "PEELER" COTTON.—Dr. O. L. Ellis has sent us a sample of the "Peeler" cotton raised on his farm in Franklin county, the seed of which he procured from Vicksburg last winter. This sample has very long staple and the fibre is much finer and silkier than our common cotton, the yield to the acre being about the same.

The "Peeler" cotton is considered in the market as next in quality to the "Sea Island," and sold, last year, for about fifteen cents per pound more than middling uplands, the difference being sufficient to pay the expense of cultivation.

Dr. Ellis, in a note accompanying the sample, says he will have 50 pounds of this cotton in the seed at our State Fair, to contend for the premium for "best 50 pounds seed cotton."

The Doctor further says, "I would also contest for one or more premiums on fine stock, but the premiums offered are so small for the amount of trouble and risk." With all due respect, Doctor, we think you take a wrong view of the matter. We should always have poor Fairs, if the amount of premiums offered were the inducement to exhibition. We cannot include to the mutual advantages that accrue to all participants in these industrial exhibitions, in a short paragraph like this; they will no doubt occur to you on a little reflection; and we hope you will reconsider the matter and bring your fine stock to the Fair.

We have heard of others who entertain the same objection to exhibit, who, we hope, will consider better of the matter by next week.

Sales of Cotton in Charlotte last week amounted to 366 bales.

The Asheville *Pioneer* says that the Directors of the Western N. C. R. R. have made a proposition to the Cincinnati, Charleston and Cumberland Gap R. R. to complete the unfinished portion of that road, and that the proposition has been accepted.

The new gastronomical idea in Paris is to bring the fruit for dessert in on the branch, dwarf grapevines, climbidg candelabras and apple bough hanging on figurinas.

A lynching party in Wisconsin, who claim to have done substantial justice in a recent hanging case, propose to apply to the Legislature for an act legalizing what they have done.

WILMINGTON.

WILMINGTON, Oct. 11.—The case of the "Cuba" was opened this morning by G. P. Lowrey of New York, who appeared with Gen. Davis, late Attorney General of the Confederate States, and Judge O. P. Mears of this city, for the Republic of Cuba, by reading the commission of Commodore Higgins, as an officer of the Cuban Navy and also, a formal protest by him against the excess of jurisdiction by the civil courts over his ship, she being a public ship of war of a recognized nation. After stating the character of the vessel, Commodore Higgins solemnly protests in the name and for the honor of Cuba, against any detention or interfere with his ship. The conclusion of the protest is as follows:

"And now, having, for the dignity and honor of the Republic of Cuba, made a protest against the exercise of a jurisdiction over public ships unknown among nations, and being willing and desirous to have the truth known to all nations, persons, and particularly the citizens of the U. S. and do declare that the said vessel has not in any of her preparations, offended against the neutrality laws of the United States of America. In the manner charged or in any other manner, and I aver that said vessel is now in the same condition, in every respect as when she was purchased from the government of the United States, in June 1869, except a few immaterial alterations, not relating to her character or use as a war vessel and except further, that the said vessel, since the said purchase and while without the limits of the U. S. and more than twenty days after the departure therefrom, and we had entered a British port and had been there seized by the public authorities.

examined and discharged, and had cleared therefrom; and then and not till then, was she sold and delivered to the Republic of Cuba, and was fitted out and armed upon the high seas, and beyond the jurisdiction of the United States, and of all other nations; that all the proceedings aforesaid of the rights and dignity of the U. S., were conducted in a careful and true respect therefor, and under the sanction of well established principles of public law.

(Signed) EDWARD HIGGINS,
Commodore of the Cuban Navy,
Commander Cuban steamship "Cuba."

In order to a law the government to produce witness, the U. S. Commissioner, Rutherford, continued the case till Saturday next 10½ o'clock.

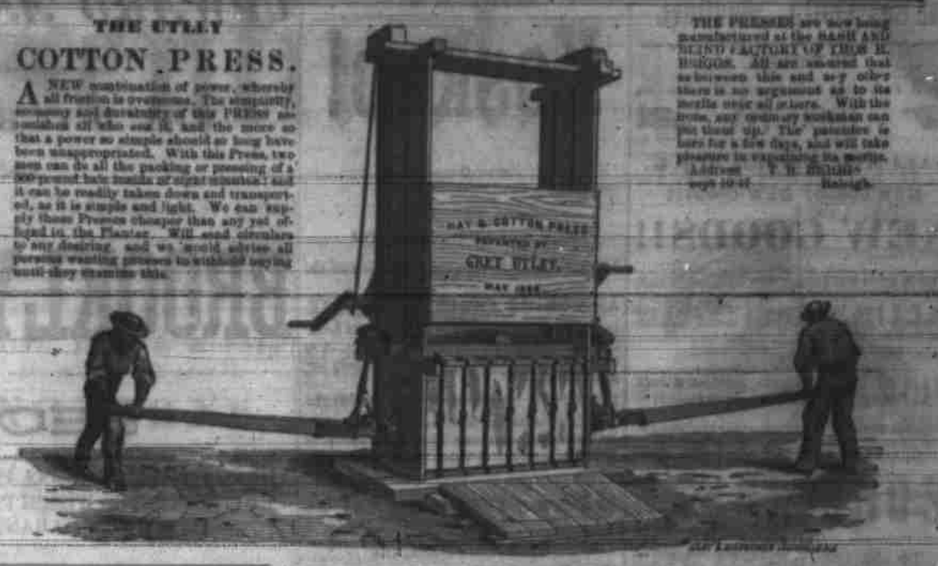
THE UTLEY
COTTON PRESS.
A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500-pound bale bagging or sight mending; and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons wanting presses to withhold buying until they examine this.



THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS. H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the screw, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

For Bronchitis, Asthma, Catarrh, and Consumptive Coughs, "THE TROCHES" are used with advantage, giving oftentimes, immediate relief. Singers and public speakers will find them also excellent to clear the voice and render articulation wonderfully easy.

It has an IMPORTANT NEW FEATURE that has been copyrighted. According to this plan the rates are MUCH LOWER than in any other Company in the world.
The ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.
It insured more lives in the City of New York in 1868 than any other Company, American. It issued more Policies in the United States than any other one one. It insured more lives in Canada than any other Company, British or American.
See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:
"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."
"No institution has brought more prompt full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."
"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 504 policies, received an income of seventy-eight thousand dollars, and possessed assets amounting to [illegible] dollars. Last year, 1868, it issued 12,207 policies, received an income exceeding six million dollars, and had assets amounting to over [illegible] Dollars. And this wonderful ratio of growth has been maintained in 1869."
