From the Charlotte Bulletin.

Telegraphic Dispatches.

CHARLESTON, Nov. 14.

A dispatch received in this city to-day, from M. S. Perry, Governor of Florida, states that Florida is with the gallant Palmetto State.

EXCITEMENT IN CHICAGO.

CHICAGO, Nov. 12.

Chicago is greatly excited about the fall of stocks, and Southern money generally is refused. Rarey says that even the banks won't take it.

FINANCIAL.

AUGUSTA, Nov. 14.

The brokers here buy Kentucky and Tennessee notes at 5 per cent. discount, payable in Georgia or South Carolina money.

MORE RESIGNATIONS.

WASHINGTON, Nov. 14.

The Postmaster of Orangeburg, S. C., has tendered his resignation, to take effect on the 1st of January, unless South Carolina sooner secedes. His resignation was accepted, and he has been asked to designate his successor. Failing to do so, with some one capable of giving the necessary bonds, the office will be discontinued.

PREPARATIONS IN MISSISSIPPI.

JACKSON, Miss., Nov. 13.

Gov. Pettus, the Governor of Mississippi, has issued a proclamation convening the Legislature of that State on the 26th inst., to consider the propriety and necessity of providing surer and better safeguards for the lives, liberties and property of Mississippi, than the late election and past action of the Northern State Governments promise.

Special Dispatch to the Charleston Courier.

WASHINGTON ITEMS.

WASHINGTON, Nov. 14.

Private letters from prominent men in New York to the Government say that the N. York Banks will certainly have to suspend.

Hon. L. T. Wigfall, of Texas, will resume his seat in the Senate, as there is no prospect of the Texas Legislature calling a State Convention. Gov. Houston has declined to call the Legislature together. He opposes secession.

There is an effort making here in certain quarters to procure the repeal of all the laws in Northern States obnoxious to the South.

Secretary Cobb has notified his Georgia friends that he will not be a candidate for the United State Senate if Lincoln is inaugurated.

Special Dispatch to the Charleston Courier.

MATTERS AT THE NORTH.

BALTIMORE, Nov. 14.

The financial pressure here and at the North is intense. Stocks have truly depreciated. South and North Carolina Bank notes are taken at 10 to 12 per cent. discount. The Banks are greatly pressed to relieve the business community.—All kinds of business is paralyzed, and great distress will unavoidably ensue.

It is generally believed here that South Carolina will certainly secede from the Union. Maryland sympathizes greatly with her. Unless the North immediately take the first opportunity to repeal the odious legislative enactments which interrupt and neutralize the action of the Fugitive Slave law, the South will be justified in dissolving the Union.

The extreme Republican journals in N. York are getting frightened at last. The Times has a strong editorial advocating concessions to the South, and the repeal of State laws against the Fugitive slave law.

SECOND DISPATCH.

There has been a considerable run on the Citizens Bank here to-day. It continued paying out specie, however, until the closing hour. It is apprehended that the run will be renewed to-morrow. It is feared that all the Banks will be compelled to suspend specie payments soon, if the excitement continues. The greatest alarm prevails.

ALEXANDRIA, Va., Nov. 15.

MONTGOMERY, Ala., Nov. 17.

An immense meeting was held in the Capitol to day, to nominate delegates to the State Convention, which meets on the 9th of January.—Resolutions in favor of separate State action were adopted. The Hon. Wm. L. Yancey and Thos. Watts, were nominated as delegates by acclamation, and amid great enthusiasm.

NEW ORLEANS, Nov. 15.

A public meeting has been called here to sustain South Carolina in seceding.

PHILADELPHIA, Nov. 15.

Yesterday the money market was tight. The Banks are not discounting. Two extensive Market street firms have suspended.

MOBILE, Nov. 15.

Gov. Moore will issue his Proclamation ordering a State Convention on the 6th of December. The election of delegates will take place on the 24th of December, and the Convention will assemble on the 3d of January.

BALTIMORE, Nov. 15.

There has been a slight run on the Citizens' Bank to-day. All demands were promptly responded to. There is a better feeling in the commercial circles. Manufacturers and Clothiers are reducing the number of their hands.

Bell, for President, is about 200 ahead of Breckinridge. There are some counties yet to hear from, which may give the State to Breckinridge.

Gov. Letcher has called an extra session of the Legislature for the 7th of January, to take into consideration the condition of affairs, and determine calmly and wisely what action may be necessary.

HILLSBOROUGH, Nov. 15.

The leading men of all parties, and representing all sections of the State, held a Conference here to-day. The greatest harmony characterized the proceedings. It was unanimously agreed that a State Convention should be called at an early day. The resistance feeling was largely in the ascendant, and the Conference unanimously recommended that the policy, the time and mode of action to be settled by the Convention. Secession is gaining ground daily. Georgia will go with the South.

TALLAHASSEE, Nov. 14.

Governor M. S. Perry, of this State has declared in favor of separate State action. He says that Florida will stand by South Carolina—the gallant "Palmetto State." The people here are unanimous against submission to Lincoln's election.

FORBID TO LAND.

The Mayor of Charleston, S. C., has forbidden the landing at Charleston of Steerage passengers from Northern Ports. That is right—keep off paupers and mere adventurers at the present time—let them remain with those who have no doubt used them to bring about the election of LINCOLN.—*Charlotte Bulletin.*

The Chicago Fugitive Slave Case.—CHICAGO Nov. 13, 1860.—The fugitive slave excitement is ended. A warrant was issued late last night for the arrest of the woman claimed as a slave, for disorderly conduct, and placed in the hands of Deputy Sheriff Anderson. In attempting to take her from the armory to the jail, she was rescued by a negro mob and carried off.

South Carolina Money.—The Memphis *Avalanche* says:

A large amount of South Carolina money is in circulation in Memphis, and a persistent effort is being made to depreciate it. Some merchants are refusing it. The banks are contemplating rejecting it. The result of all this will be that the panic with reference to it will culminate in a few days, its value will depreciate, shavers will buy it up and present it at the counters of the banks in South Carolina, and will receive dollar for dollar. The *Avalanche* would not object to South Carolina funds.

EFFECTS OF DISUNION TALK.

Already the effects of disunion threats are manifesting themselves. Negroes have gone down 30 per cent., and soon other property will begin to depreciate. And for what? A miserable abstraction. Should attempt be made to execute these threats, men now wealthy will be reduced to poverty. An intelligent gentleman, and a Democrat withal, who is worth largely over $100,000, remarked to us the other day that he did not think the value of his property now was more than half it was on the 1st of August.—*Ral. Register.*

No fewer than fifteen Irish officers in the service of the Pope were taken prisoners at Ancona—and released.

ROCK QUARRY.

THE UNDERSIGNED TAKES THIS METHOD of informing all persons in want of ROCK, for MILL-STONES, or building purposes, that he can furnish the best quality of

GRANITE,

cut in any shape, and at the lowest possible rates for CASH. His Quarry is situated 5 miles South of Salisbury, known as the "Old Shaping QUARRY."

Stolen—$25 Reward.

STOLEN from the subscriber's stable on Sunday night, the 18th inst., a "free bitten" gray horse, about 10 years old, medium size, a natural pacer, (paces very rapid and rough) well broke to work. He is shod before, but had no shoes behind. I will give the above reward for the recovery of the horse and evidence to convict the rogue; or one-half for the horse alone. I live three miles and a half East of Salisbury.

Letters addressed to me at Salisbury will receive attention.

Burning Fluid.

Oct. 30, 1860. 4t24

EVEN THOSE who are in the enjoyment of perfect health frequently have need to have recourse to tonics as preventatives of disease. We are never too well armed against the assaults of "the ills that flesh are heir to." Such an invigorant they may find in HOSTETTER'S BITTERS—a medicine that cannot be taken regularly without giving vitality and elasticity to the system. At this season particularly, the strongest man is not proof against the malaria, in certain sections of this country. In all cases of Fever and Ague, the Bitters is more potent than any amount of quinine, while the most dangerous cases of bilious fever yield to its wonderful properties. Those who have tried the medicine will never use another, for any of the ailments which the Hostetter's Bitters proferess to subdue. To those who have not made the experiment, we cordially recommend an early application to the Bitters, whenever they are stricken by diseases of the digestive organs.

Sold by druggists and dealers generally everywhere.

BAKER & CO'S MEDICINAL

TRANSPARENT COD LIVER OIL.

THE TRUE AND GENUINE.

UNSURPASSED IN QUALITY AND EFFICACY,

BEING THE SWEETEST AND BEST PREPARED.

Its use, if fairly tried, will soon restore the tone of the digestive organs, invigorate the blood, give general rotundity to the figure, and add energy to the mind and nervous system. Its value has been remarkably evidenced by its wonderful restorative powers, when ordinary tonics had been vainly exhausted. It affords nourishment to the body when no other can be borne, and furnishes the frame with fat in a truly remarkable manner.

For CONSUMPTION and BRONCHITIS,

For SCROFULA in all its developments,

For WEAKNESS, WASTING, and every form of DEBILITY, its curative properties are unrivaled.

It may be taken without dislike by the most delicate patient, and retained without effort in the most sensitive stomach. Its superiority in this and other important characteristics of genuineness, has guaranteed for it the commendation of the most eminent Physicians throughout the States; the written testimony of the faculty of the best medical schools, the Professors of the

UNIVERSITY OF PENNSYLVANIA,
JEFFERSON COLLEGE OF PHILADELPHIA,
PHILADELPHIA COLLEGE of MEDICINE, and others.

Invalids should be careful to purchase oil of undoubted reputation if they desire the most active and immediate advantages of the remedy. That which we prepare has decided evidences of superiority over other brands. Manufactured only by

Scrofula or King's Evil,

Is a constitutional disease, a corruption of the blood by which this fluid becomes vitiated, weak and poor. Being in the circulation, it pervades the whole body, and may have cost its victims on any part of the organ is free from its attacks, nor is there one which it may not destroy. The scrofulous take on loathsome diseases, mercurial diseases, bad living, dissipation and unhealthy trades, impure air, filth and poverty hasten the developing virus, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the evil of him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of concrete or viscous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, degenerates the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, most numerous perish by diseases which, although not scrofulous in their nature, are still rendered fatal by their taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, in all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are loaded by this loathsome infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such medicine we supply in

Ayer's

Compound Extract of Sarsaparilla,

The most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is compounded from the most active remedials that have been discovered for the eradication of this foul disorder from the blood, and the purgation of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections arising from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood. The popular belief in "purgatory of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills

For all the purposes of Family Physic,

are so compounded that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitality. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache, arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the Disease.

So wide is the field of its usefulness and so numerous are the cures of its curative, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

SINGER'S

SEWING-MACHINES.

Prices Reduced to $50, $60, $80, and $100.

The plain reason why Singer's Sewing-Machines have always sold readily at a higher average price than any other, is that they are better, more durable, more reliable, capable of doing a much greater variety of work, and earning more money. Long-continued popularity is proof of sterling merit. In the purchase of what are called cheap Sewing-Machines, thousands have been deceived and disappointed, but with Singer's Machines there is never any failure or mistake.

Singer's Transverse Shuttle-Machine,

to be sold at $50 plain, and $60 highly ornamented, is a Machine entirely new in its arrangement; it is very beautiful, sews rapidly and very easily, and, for family use and light manufacturing purposes, is the very best and cheapest Machine ever offered to the public. These Machines are being introduced in number as rapidly as possible, and yet the demand for them cannot be fully supplied.

Singer's No. 1 Standard Shuttle-Machine,

formerly sold at $125, but now reduced to $100, is too well known all over the world to need any description. Every sort of work, coarse or fine, can be done with it.

Singer's No. 0 Standard Shuttle-Machine

This is the favorite manufacturing Machine everywhere. The size of the Machine gives ample space for almost every description of work, which, together with its admirable working qualities, gives it a decided advantage. Price, with table complete, $150.

Singer's No. 2 Standard Shuttle-Machine.

For Carriage-makers, and heavy leather work. Price, complete, $125.

Since the great reduction in the price of these Standard Machines, on the 1st of October, 1858, the sale of them has increased four fold.

All of Singer's Machines make the interlocked stitch with two threads, which is the best stitch known. Every person desiring to procure full and reliable information about Sewing-Machines, their uses, prices, working capacities, and
