SHE WHACKED CONSUMPTION.

Red Cross Seals Are a Powerful Weapon.

She was richly gowned and bedecked with furs and jewels. He was a shabby, pinch-faced sort of man. Both of them came up to the Red Cross Seal booth at the same time. "My wife is dying with consumption," he said in a husky voice. "An' we ain't got much money, because I'm out of work, but she jus' want me to buy five of them seals. She says if she can take a whack at consumption afore she dies she'll rest easier, an' I guess she will." He wiped his eyes with his knuckles and reached for the package of seals which the pretty attendant had put up for him.

"Where do you live?" said the richly dressed woman, who had been an interested listener to the shabby man's brief story. He gave an address in one of the poorest tenement house neighborhoods.

"I was going to buy a few seals for my little girl," said the woman, "but your wife's desire to get a whack at consumption has shown me what I should do. Please give me $50 worth, miss. Tell your wife she whacked consumption harder than she expected."

YOUR TUBERCULOSIS BILL.

How Much Do You Lose if You Do Not Buy Red Cross Seals?

Suppose you were a father of a family of three children earning $3 a day and you were taken sick with tuberculosis. What would it cost you to get well, and what would it have cost you to have done your share to prevent this disease from striking you? Here are a few leading items of expense:

Six months' treatment in sanitarium	$139 00
Care of family of four, at $5 per week for six months	130 00
Loss of wages for six months at $3 per day	432 00
Total	$874 00

Now, what would have been your share in the prevention of tuberculosis?

"An ounce of prevention" in the early care of the body	$00 00
A [illegible] of [illegible] literature on the prevention of tuberculosis, which [illegible] free of charge	00 00
The [illegible] of all [illegible] expenses	0 25
A [illegible] examination by a doctor	2 00
The purchase of 100 Red Cross Seals [illegible] share in the general [illegible] against tuberculosis	1 00
Total	3 25

How much do you lose?

RED CROSS SEALS DECREASE TUBERCULOSIS RATE.

"Would to God your work had started fifty years ago" was the comment of an Oshkosh [illegible] in writing the [illegible] to Dr Hoyt E. Dearholt, executive secretary of the Wisconsin Anti-Tuberculosis Association. Part of the letter follows:

"Fine work, old chap! That decrease in the death rate seems a remarkable one to me. I had not expected results as soon as that. I have always marveled at the authorities who claimed that in ten years a scourge of tuberculosis would be as rare as one of smallpox is today. The vast work of centuries cannot be [illegible] in ten years, and so I marvel at your wonderful progress. I trust the errors in statistics, if any, are all in your favor. You [illegible] me. Would to God your work had started fifty years ago. I [illegible] then the disease would have missed me."

The letter contained a check for Red Cross Seals, from the sale of which the entire support of the Wisconsin work is derived. Every seal you buy is a bullet in the fight against tuberculosis.

ELLEN EXPLAINS RED CROSS SEALS.

Ellen, who is seven years old and lives out in Kansas City, came home from school the other day with a red, green and white "subscription card" the teacher had given her. Her mother had seen something about Red Cross Seals in the paper, but didn't know just what it was all about.

"Why," said the seven-year-old proudly, "don't you know? They use the money to take care of sick folks—sick folks that haven't got any money to take care of themselves. The money they get from the Santy Claus seals goes to run a hospital for those folks. And they put doctors and nurses to teach people how to get well and how not to get sick. Teacher told us all about it. See, this paper tells."

Then Ellen's mother read the folder that small daughter had brought home, telling how often tuberculosis can be prevented, and when she had finished she signed the card for a liberal number of seals.

SOME RED CROSS SEAL FIGURES.

Few people have any conception of the magnitude of the Red Cross Christmas Seal Campaign. Here are a few figures that will show what a gigantic movement this is. Already 115,000,000 seals have been printed and practically that entire number distributed to agents in almost every state in the Union. Probably 15,000,000 more will be needed. Advertising circulars, posters, cards, etc., to the number of several million, have been distributed. It is estimated that the army of paid and volunteer workers engaged in selling seals numbers well over 100,000. The advertising and publicity donated to the campaign amounts to several hundred thousand dollars.

The conductors and trainmen on the Northwestern road have won an increased scale, and the agreement is signed.
