From the Petersburg Index.

THE SITUATION IN NORTH CAROLINA.

The condition of affairs in our sister State, North Carolina, is anything but promising; in fact, it is deplorable. Almost the first of the Southern States to accept reconstruction, she has progressed from bad to worse until now neither life nor property is safe within her borders. Lawlessness reigns everywhere, and plunderers and murderers stalk abroad almost without molestation, while the orderly and law abiding people are overawed by well organized bands of marauders. In addition to this the people are cursed by one of the most corrupt governments that has ever existed in the days of enlightenment and civilization.

These evils most arise from the conduct of the officials whom an ignorant and irresponsible class has chosen to administer the laws of the State. Probably there never was gathered together such a set of unmitigated rascals as have been lording it over the people of North Carolina. From Holden, a native renegade, who has betrayed the interests of his people, down to the most insignificant of his parasites, there seems but one motive that animates them, and that is plunder. If all the outrages that are reported to us are not perpetrated by the followers of Holden, they are the direct cause of them. Their secret "leagues" exist in every part of the State, and the object of them is to band one class of people against the other, and to terrify their opponents by hunting them down, outraging their persons, and burning their houses. Such proceedings, of course, beget counter-organizations, whose designs are defensive and retaliatory; and thus the country is filled with secret bands which roam over the State, creating violence and terror.

All good citizens utterly deplore this situation of affairs. They are heartily sick and tired of this continued strife and disorder. They want peace and quietude, and a general return to every day pursuits. But the Holden crew are endeavoring, by every means within its power, to perpetuate this reign of anarchy. The election comes off in August, and the Radicals know that unless they bring fraud, chicanery and intimidation to bear in the contest they will inevitably be dislodged from the places which they have so long prostituted to the basest of ends. The most mendacious stories are concocted and sent off over the country concerning the outrages which they say are the doings of Conservative Ku-Klux. The latest plot which they have formed is organizing a militia force for the ostensible purpose of preserving the peace, but really to intimidate the people by introducing the bayonet at the polls. These hirelings of Holden, composed of the most desperate and reckless of men to be found in the State, know too well how to do the will of their chief, and the probability is that there will be inaugurated a system of terrorism which shall eclipse the dark scenes of the past.

The only hope for the people of the State is in the approaching election. Upon the result of the contest depends the future welfare of the State. For four years more of such misgovernment as the last four have been will well nigh put the State in such a condition that it would require years of toil and exertion to restore it to its former proud place in the Union of States. Even now her credit is gone, her most prominent institutions of learning have been overturned, her works of internal improvements are mostly managed in the interests of the most unprincipled of cliques, and the taxes of the people most oppressive.

We are glad to see that the Conservatives appreciate the importance of the election, and are making the most strenuous exertions to win the day. From all parts of the State comes the intelligence that the people are thoroughly aroused, and determined that an era of good government shall again visit North Carolina. The campaign is progressing finely, and every indication points to the downfall of Holden and his satraps. If such should be the case not only North Carolina will rejoice but all enemies of organized rascality and villainy will rejoice with them.

From the Western Sentinel.

"DAMNATION!"

This word, is not our profanity, but was the expression we heard from the lips of a prominent Radical a few days ago, after reading Holden's war article calling for a standing army. "Damnation," says he, "don't Holden know there is no use for anything of the kind, and that we are too poor to pay the expenses of these troops, and that the time for overawing the people by military rule has passed, and that the people of North Carolina are too proud and independent to be driven by the bayonet now to the support of any party, and that honest Republicans are not willing to see their fellow-citizens of an opposite party beaten in any such manner, and that they will not support any party that does it, but will cast their votes with those who oppose such extravagance and oppression. Yes, sir, a free ballot is our greatest privilege, and if the Republican party takes it away from the Conservatives by military or other power or we have no free Republic, and what then may we expect in the future? Why, nothing but a French Empire, where the people are allowed to vote if they vote as the Emperor wants them to. A free ballot is the only protection the people have from oppression, and this call for troops makes that the issue. Every other issue is insignificant beside it.

THEY say in Washington that Fish is to be removed that he may be made Minister to England and inaugurate a positive Alabama claims policy, Motley not being sufficiently vigorous and too much disposed to go into mourning over Greek massacres.

NONE of the cadets appointed from the South were admitted at West Point, except two, and they were two out of the eight sent from Virginia. All the rest were sent home, having failed at the preliminary examination.

A man arrived in Sioux City on the 17th ult., with 43,000 muskrat skins, 500 mink, 300 otter and 800 wolf skins, purchased from the Indians in that vicinity.

Chicago has a horse that chews tobacco, and is regularly furnished with the weed by his groom.

MISCELLANEOUS

WALTHAM WATCHES.

THE EXTENSIVE USE OF THESE WATCHES for the last fifteen years by Railway Conductors, Engineers, and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-keepers.

More than 850,000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which renders competition futile, and those who buy any other watch, merely pay from 25 to 50 per cent. more for their watches than is necessary.

We are now selling Waltham Watches at less prices in greenbacks, than the gold prices before the war. There is no other manufacture of any kind in the United States of which this can be said.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watchmaking originating in this country or in Europe, only those were finally adopted which severe testing by the most skillful artisans in our works, and long use on the part of the public demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would particularize:

The invention and use of a centre-pinion of peculiar construction, to prevent damage to the train by the breakage of main springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's Patent pinion as being the best and faultless.

Hardened and tempered hair springs, now universally admitted by watchmakers to be the best, are used in all grades of Waltham Watches.

All Waltham Watches have dust-proof caps, protecting the movement from dust and lessening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or keyless watch, is already a decided success and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in portions of the United States where watchmakers do not abound, watches with the above mention d improvements which tend to insure accuracy, cleanliness, durability and convenience, must prove invaluable.

Every watch guaranteed by the Company.

To prevent imposition, buyers should see that every watch should bear either of the following trade marks.

American Watch Co., Waltham, Mass.
Amh Watch Co., Waltham, Mass.
American Watch Co.,
Crescent St., Waltham, Mass.
Appleton, Tracy & Co., Waltham, Mass.
Waltham Watch Co., Waltham, Mass.
P. S. Bartlett, Waltham, Mass.
Wm. Ellery, Waltham, Mass.
Home Watch Co., Boston, Mass.

For sale at retail by all respectable dealers. A descriptive circular giving much useful information sent to any address on application. No watches retailed by the Company.

Address, ROBBINS & APPLETON, Gen'l Agents, 182 Broadway, New York.

Ask to see the new FULL-PLATE WATCH bearing the trade mark "AMERICAN WATCH Co., Crescent st., Waltham, Mass." It is by far the best Full-plate Watch made in the United States, and surpasses anything heretofore made in this country for Railway Engineers, Conductors, &c.
