Music Composer's Week Observed in Raeford Schools

It is with pleasure that we write the school news this week. Since it is American Music Composer's Week. Music is the greatest of the Arts. It gives a great opportunity for a livelihood in all it forms than any other profession. It was sung when the Saviour was born, we use it in our joyous, happy weddings, and it is the most consoling thing at funerals when we depart ths life.

Let us try to get in the spirit of music this week, and learn all we can about our American musicians, for music helps the morale of our soldiers and we can get the spirit of patriotism through music more than anything else.

I wish all the town and county could see the lisplay of American composers at the entrance hall of the High school bulding. From Lowell Mason, the father of church music in America to John Phillip Sousa, the great march king.

And perhaps you did not know that you have local composers, local talent, right here at home. The first is Mrs. Mary H. Poole, wife of the Presbyterian minister at Antioch, who wrote: "Glorious Living" and other anthems. Dr. C. G. Vardell, from Red Springs, wrote: "Joe Clark Steps Out" (a Carolina folk song) and others, really better. Mrs. O. [illegible] Benner, who lives here among you, has written a war song, for this year: "Oh, How We Miss You Tonight", both words and music. And the band director, from his early effort wrote a sheet music song "You're not the Only Pebble on the Beach," school songs, Hymns, an I. O. O. F. Home song, to a recent simple hymn "My God Will Supply All My Needs."

We were contemplating giving with the Glee Club and band, PAULINE, a beautiful light opera by Charles Gabriel this spring. But the gas rationing for war purposes keep from so doing.

We are trying to celebrate this composer's Week in the Chapel exercise Wednesday morning by singing and playing with Glee Clubs and band some of the compositions of the American Composers.

BRIDE AT 11 IS A MOTHER AT 12

Murphy, Feb. 20.—Three months before Pearl Harbor she was a bride—at 11 years of age. Now, still in her 12th year, her husband's in the army and she's a mother.

That's the story of Mrs. R. G. Foster who gave birth to a 7-pound daughter at Petrie hospital here Wednesday morning. And both mother and baby are doing well," says Dr. James McDuffie, attending physician.

For the record, Mrs. Foster, who was Violet Louise Bryson, was born in Canton, Ga., in March, 1930, the daughter of Henry Lawton and Della Rose Bryson.

She attended the Canton City schools but didn't quite finish the fourth grade, when she was 10. It was then that her mother died and she went to Fannin County, Ga., to make her home with an aunt, Mrs. Lorence Mathis, her father having gone to Indiana to work.

At McCaysville, Ga., near Canton, she met R. G. Foster and on September 2, 1941, when he was 20, they were married. They lived at Epworth, Ga., for the next year while Foster worked on the Tennessee Valley authority's Ocoee dam. He is a native of Fannin county, Ga.

In September, 1942, he was inducted into the army and is now stationed at Camp Butner near Durham. He hasn't seen his daughter yet.

And neither has Mrs. Foster's father seen his grandchild, for he's in the army, too, statoned at Fort Benjamin Harrison, Ind.

INSTRUCTIONS.—To find the Point Value of an Item:
1. Find out the net weight of the contents (from the label, if any).
2. In the line across the top of the chart, allowing the weight in ounces and pounds, find the column in which this weight belongs.
3. Find the item in the listing of items in the column to the left.
4. The POINT VALUE of the item appears on the same line as the item and in the column listing the correct weight.

All Point Values must be determined by weights. If no weight is marked on the item, the item must be weighed.

In finding the Point Value of a [illegible] where contents are given in *fluid ounces*, consider the fluid ounce to be the same as the [illegible] *weight ounce*. One pint is one pound; one quart is two pounds.

[illegible] of any item weighing over four (4) pounds [illegible] of pounds of that item as given in the [illegible] of a pound should be figured to quarter pounds. Fractions of a quarter-pound should be [illegible] pound. Thus, an item weighing [illegible] considered as weighing [illegible] purposes of giving the Point Value of [illegible]
