S. and Canada, Messrs. SLOCUM & CO., No. 4 Cedar St., New York. apr20-6d

Cold and Quiet.

BY JEAN INGELOW.

Cold, my dear—cold and quiet.
In their cups on yonder lea,
Cowslips fold the brown bee's diet;
So the moss enfoldeth thee.
"Plant me, plant me, O love, a lily flower—
Plant at my head, I pray you, a green tree;
And when our children sleep," she sighed, "at the dusk hour,
And when the lily blossoms, O come out to me!"

Lost, my dearest, Lost! nay, deepest
Love is that which loseth least;
Through the night-time while thou sleepest,
Still I watch the shrouded east,
Near thee, near thee, my wife that aye liveth,
"Lost" is no word for such a love as mine;
Love from her past to a present giveth,
And love itself doth comfort, making pain divine.

Rest, my dear, rest. Life showeth
What which was, and not in vain
Sacred have I kept, God knoweth,
Love's last words atween us twain.
"Hold by our past, my only love, my lover;
Fall not, but rise, O love, by loss of me!"
Boughs from our garden, white with bloom hang over
Love, now the children slumber, I come out to thee.

OBSERVATIONS.

Limerick: No; the goat was not selected as the patron of beer, because the liquor used to be put up in butts.

The sting of a bee is really only one-fourth of an inch long, but if you make that statement to a man who has just encountered one, he'll tell you that you lie like a book agent.

A city woman will pick up a clothes-prop 14 feet long to drive a two-ounce chicken out of the yard.

I am not a candidate. Grant is my friend. I would not stab a friend—unless I had votes enough.—Washburne.

There was a young lady called Maude,
Who had recently come from abroad;
Her bloom and her curls,
Which astonished the girls,
Were both an ingenious fraud.

The long and short of it—"What, 25 cents a pound for sausages? Why, I can get 'em down at Schmidt's for 20 cents." "Vell, den vy didn't yer?" "'Cause Schmidt was out of 'em." "Vell, uv I was owt of 'em I sell 'em for 20 cents, too."

A South Hill boy, who is wheeling sod for the front yard all the time he is out of school, sends us word that the great demand of intelligent labor in this country is for a wheelbarrow that will lean down on the other side of the wheel.

THE STATE MEDICAL SOCIETY.

Twenty-Seventh Annual Convention.

Third Day.

Wilmington Star, condensed.

MORNING SESSION.

The convention was called to order at 9 o'clock by Dr. W. C. McDuffie, of Fayetteville, vice-president.

Dr. Summerell, chairman of the committee on nominations, submitted the names of the following gentlemen as officers for the year 1880:

For president—Dr. Richard B. Haywood, of Raleigh.

Vice-presidents—Drs. J. A. McRae, of Fayetteville, W. H. Lilly, of Concord, R. H. Speight, of Tarboro, and W. J. H. Bellamy, of Wilmington.

Treasurer—Dr. A. G. Carr, of Durham.

Secretary—Dr. L. Julian Picot, of Littleton.

Orator—Dr. J. F. Long, of Newbern.

Delegates to the American Medical Association—Drs. A. W. Knox, Eugene Grissom, Hubert Haywood, Raleigh; Thos. F. Wood, Geo. Gillett Thomas, Wilmington; J. F. Shaffner, Salem; Joseph Graham, Charlotte; T. D. Haigh, Fayetteville; C. J. O'Hogan, Greenville; J. A. Baker, Tarboro; and M. Whitehead, Salisbury.

Delegates to the Virginia Medical Society—Drs. R. L. Payne, Lexington; H. M. Alford, Greensboro; H. T. Bahnson, Salem; J. W. Jones, Tarboro; Preston Roan, Winston; and H. S. Norcom, Wilmington.

Delegate to Public Health Association—Dr. Thomas F. Wood, Wilmington.

Committee to appoint essayist—Drs. L. L. Staton, Tarboro; H. W. Faison, Faison; and R. L. Payne, Lexington.

Committee on obituaries—Drs. E. Burke Haywood, Peter E. Hines and Jas. E. McKee, Raleigh.

Publishing committee—Drs. Thos. F. Wood, Geo. Gillet Thomas, Wilmington; L. J. Picot, Littleton, and C. Z. O'Hogan, Greenville.

Board of censors—Drs. J. N. Pittman, Tarboro; Chas. S. O'Hogan, Greenville; and J. J. Summerell, Salisbury.

The chair read the names of the following gentlemen as having been appointed by the present chairman of sections:

Surgery and Anatomy—Dr. Allman Holmes.

Obstetrics and Gynæcology—Dr. Willis Olston.

Practice of Medicnie—Dr. I. W. Faison.

Materia Medica and Therapeutics—Dr. W. C. Murphy.

Microscopy and Pathology—Dr. Hubert Haywood.

Opthalmology and Otalogy—Dr. Geo. Gillet Thomas.

Dr. S. S. Satchwell, chairman of the committee on obituaries, reported that since the last session of the society the following members had died: Drs. Edward Strudwick, Hillsboro; W. W. Davis, A. E. Wright, J. Francis King, Wilmington, and Wm. Little, Raleigh.

The consideration of the letter from the Georgia Medical Society, made the special order for this time, was then begun.

Dr. Wood read the bill proposed by the Medical Society of Georgia for the creation of a new National Board of Health by Congress, but could not favor it.

Dr. Anderson read a paper on existing quarantine regulations for this State and port, and declared himself in favor of the non-interference of the general government in the matter, but desired its support for local officers and laws.

Dr. Wood offered the following:

WHEREAS, The National Board of Health has conducted the initial sanitary work entrusted to it with wisdom, giving proper direction to future inquiries and energizing the national movement by its vigorous example.

Be it resolved, That the Medical Society of North Carolina deems it unsound in policy to interfere with the work in the hands of such eminently competent men, because it would be unreasonable to expect anything approaching a perfect national system of sanitation in the short time the National Board of Health has been in existence; and to substitute a new law for the old now, even if it had equal merit with it, would be to retard the work of sanitary progress, if it did not imperil the very existence of any law.

Resolved, That it is desirable to have a national system of quarantine, if possible, and that quarantine officers should be appointed from resident physicians of the port in which quarantine is established. That suitable buildings for quarantine service should be erected by the general government, and such other methods as will have for their object the carrying out of a system of uniform quarantine.

After a prolonged discussion, the resolutions were, on motion of Dr. W. G. Thomas, laid on the table.

Dr. Satchwell, chairman of the committee appointed on the Edgecombe County Medical Society's communication, presented a careful and well-considered report, recommending the appointment by the president of a committee of five members, whose duty it shall be to present to the next Legislature a memorial and bill contemplating the enactment of such law or laws as may best meet and secure the ends, aims and objects contemplated.

On motion, the recommendation of the committee was adopted.

The society then adjourned to meet at 3 o'clock, p. m.

AFTERNOON SESSION.

Dr. R. H. Lewis, vice-president, was called to the chair.

Dr. Porter addressed the society, calling attention to the use of lint cotton in the treatment of incised and lacerated wounds, and instanced several cases in his practice where its application as a dressing was attended with the most satisfactory results.

The newly elected President, Dr. Haywood, of Raleigh, was then inducted into office by Drs. Knox and McRae. On taking his seat Dr. Haywood thanked the society for the honor conferred. He was delighted to trace the history of the society and surprised at the progress made since the first meeting at Raleigh, thirty years ago, with six members, of which only himself and two others are now living.

Dr. Wood, secretary of the North Carolina Board of Health, read the first annual report of the board, stating the difficulty the board had to contend with in the apathy and neglect encountered—forty-eight out of the ninety-four counties in the State have organized, but few have gone beyond this. He begged the support of the medical fraternity throughout the State, and stated the purpose of the board to go on with the work allotted to it, despite the attending manifold discouragements.

The report was, on motion, adopted, as was also a resolution offered by Dr. W. C. Murphy to aid and encourage the board.

The President appointed Drs. S. S. Satchwell, Geo. A. Foote, Joseph Baker, R. H. Lewis and John McDonald as a committee to memoralize the Legislature upon a law requiring that druggists shall have liscense from the State Board of Medical Examiners as a requisite qualification for dispensing medicienes. The same committee were also directed to ask in that memorial for a statutory lien law for the benefit of physicians in practice, and to prepare a bill for both these purposes, to be offered to the Legislature.

An animated discussion took place upon the selection of a place for the next meeting of the society. The President announced that the Raleigh Academy of Medicine invited the society to meet at Raleigh. Dr. Hill, of Rowan, extended an invitation to the society to meet at Salisbury. Dr. Lane said it was contemplated at the last annual meeting that after meeting at Wilmington the next annual meeting should be at Asheville. Dr. Bahnson spoke in favor of Asheville, and finally, the question being put to the society, Asheville was selected as the next place of meeting, by a vote of 21 to 20. On motion, the last Tuesday in May was appointed as the time.

Dr. Haigh announced that Dr. Hicks having removed to Virginia, had tendered his resignation as a member of the board of examiners, and that Dr. R. A. Lewis, of Raleigh, had been elected in his place.

Dr. McDonald was announced as essayist.

A resolution thanking Dr. Grissom for the able address delivered by him before the society was adopted.

The society then adjourned.

A Beggar's Poodle.

The *Gaulois* is responsible for the following remarkable instance of canine sagacity: "A blind beggar was in the habit, some years since, of frequenting the Point des Sts. Peres, where he used to station himself with a clarinet and a very intelligent poodle. The place was well chosen and charitable contributions poured into the little wooden bowl which the dog held in his mouth. One day the blind man, who had reached an advanced age, was not to be seen. He had fallen ill, in fact, and was unable to pursue his avocation. His faithful companion, however, continued to frequent the accustomed spot, and passers-by, to whom he was familiar, understood that his master was unwell, and, touched by his fidelity, dropped their pence into his bowl in increased numbers. After a time the beggar went the way of all flesh, an event which the wily poodle carefully kept to himself until he also became an absentee from the Point des Sts. Peres. His disappearance produced a great sensation among his numerous *clientele* and a search was prosecuted, when the poor animal was found lying dead in a cellar near his former master's abode, a sum of 20,000 francs in bonds of the Orleans Railway being discovered under the litter on which he stretched."

The State Fish Hatchery.

Raleigh Observer.

Operations at Avoca have terminated for the present season. They have been rewarded with wonderful success. The seines have now been taken out of the water, the shad fishing having been stopped. Dr. Capehart has caught at his two beaches 135,000 shad, besides countless rock, herring, etc. The State was able to secure over 8,000,000 of shad eggs, and had remarkable success in hatching the fry. Millions have been placed in the streams, 700,000 having been released in the Neuse alone. Tuesday Mr. Williams placed in this stream 200,000 of the shad fry, making a total of 550,000 placed in that stream by himself. He reports the work at Avoca as having been far more satisfactory in all respects than ever before.

The Pope's Purse!

The son of one of the Pope's brothers has recently become engaged to the daughter of a rich merchant who buys and sells large quantities of live stock bred on the Campagna. The young man, unable to obtain from his father the means of setting up an establishment fitted for the reception of such a bride, appplied to his uncle, the pontiff. All that the Pope could do for him was to give him $5,000, which he was obliged to borrow for the purpose. The meagreness of this provision was much talked about, and a Cardinal Pecci told the Pope the current gossip on the subject. The Pope replied that he was truly sorry not to be able to do more for his nephew, but he never had enough in the house for the necessities of the day.

A LOOSING JOKE.

A prominent physician of Pittsburgh said jokingly to a lady patient who was complaining of her continued ill health, and of his inability to cure her, "try Hop Bitters!" The lady took it in earnest and used the Bitters, from which she obtained permanent health. She now laughs at the doctor for his joke, but he is not so well pleased with it, as it cost him a good patient.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Inman, Station D, New York City.
