NEW STOCK OF SPLENDID

PIANO FORTES.

James Pirsson, respectfully informs the public, that he has ordered from the Great Union Company of New York a new stock of Pianos which will eclipse in every point of excellence anything that has yet been offered, the immense resources of the above named establishment being such as to enable them to place before the public an article that cannot be surpassed if equaled by any establishment in the United States, and at greatly reduced prices. Persons who are about purchasing Piano Fortes, will find it to their interest to wait the arrival, (one of which has already arrived,) of these superior instruments, before purchasing elsewhere. The Company have just moved into their immense new Factory, the third one they have built in 7 years, such has been the immense demand for their popular instruments. Mr. P leaves for New York in a day or two, to select his stock and will send them immediately on. Ware Rooms corner of Hargett and Salisbury Streets, Raleigh, N. C.

NEW AND SPLENDID

PIANO FORTES,

From the GREAT UNION CO., of New York.

JAMES PIRSSON,

Respectfully informs the public that he has ordered a stock of these superior instruments and expects them in a very short time. Such is the great and increasing demand for these Pianos that the company have erected a new factory of sufficient capacity to manufacture sixty Pianos per week, and are now moving into it, which creats a little delay in the supplying of orders, and with the increased facility of machinery, and the finest workmen that money can procure, and an unlimited capital, the company are enabled to defy competition and put their Pianos in the market at a lower price than any establishment in the United States. Persons who are about to purchase Pianos will do well to wait the arrival of these Pianos, which will shortly be on exhibition at J. PIRSSON'S Wareroom, corner of Hargett and Salisbury streets, Raleigh.

PROF. CHANDLER, of New York City, in a lecture delivered by him at Cooper Institute, March 19, 1870, said:
"It is hardly necessary to enlarge upon the terrible accidents which have resulted from the use of unsafe kerosene; you have only to read the newspapers from day to day to see them. It is stated by some that these are exaggerated; that these accidents never occur, and that you and I never had a friend burned to death; still we do have an enormous number of terrible accidents from petroleum. In the last seven months of 1869 there were fifty-five kerosene accidents in New York, resulting in twenty-three deaths, eighteen serious injuries and fourteen slight ones. The total result for the year 1869, for the city of New York, which I myself have cut from newspapers, is fifty-two fatal accidents from dangerous kerosene, fifty severe and six slight; in all, 108 persons to my knowledge, from my own reading, have been injured by kerosene in one year."
There has never been a single accident from the use of
