A LADY RESCUED FROM THE SAVAGES.—A letter from Tuscon, Arizona Territory, gives the following information respecting the rescue of Mrs. Page, recently carried off by the Indians:

Mrs. Page is still alive, is no longer with the Indians, and she has passed through actual trials, hardships and difficulties during the last fortnight, exceeding in thrilling interest the most highly wrought pages of fiction. Last night a messenger arrived here from the Santa Rita Pinery, with a letter from Mr. John Page, stating that his wife had come in alive, after enduring almost incredible trials. Mr. Page immediately set out, accompanied by a physician, and everything possible to be done for her relief will be done. It seems from what we can learn, that Mrs. Page probably the day following her seizure by the Indians, finding that her friends were on the trial, refused to go on, and her savage masters pinioned her in several places, and left her for dead. After some time she revived to find herself weak from loss of blood, with wounds still open, feet sore from her previous trials, without food, and miles from any habitation. What a position for a young woman of eighteen summers—a bride of two months—whose life hitherto had been all sunshine! Through all these trials Mrs. Page struggled for two weeks and dragged her emaciated form by degrees toward the home from which she had so lately been rudely torn by ruthless savages. No one suspected her presence in the mountains, and those who were looking for intelligence from her thought she was miles away amid the haunts of the red men. How she was enabled to suffer so much and reach home at length, is incomprehensible.

THE CARE OF CHILDREN WITH REFERENCE TO PREVENTING THE FATALITY OF SCARLET FEVER.—That the scarlet fever is one of the most fatal diseases to children which prevails in our land, the anguish of too many parents' hearts can testify. Anything then, which can guard the little ones from its fatal effects will be gladly embraced and cheerfully resorted to.

The most fatal point of attack of this disease is, first, the throat, and second, the air passages and lungs. When general disease of any kind is received into the system, it locates upon the weakest parts. Scarlet fever being an inflammatory disease of the skin, and the lining membrane of the throat, air passages and lungs being a continuation of part of the skin, it necessarily attacks these. If any part of this membrane is too weak to withstand the attack, and throw it off by what physicians call desquamation, the membrane ulcerates in patches and the child dies. The membrane lining the throat is almost always the first point of attack, from the fact that this is usually weakest in children, and less able to withstand the disease. Anything, then, which is calculated to strength and toughen this membrane, or the membrane lining the air passages and lungs, is calculated to enable the child to withstand the attack of scarlet fever.

To do this we must commence when the child is first born. The drink—the very first drink it receives into its mouth, unless it be its mother's milk, should be cold water. Its food should be entirely drawn from its mother's breast if possible; if not, it should be composed of healthy, fresh cow's milk, one third water, sweetened with pure white sugar. The child also be suffered to drink all the cold water it will take. The sprue, red gum and children's sore mouth causes debility of the membranes of the throat and air passages, and renders them more liable to sink from scarlet fever. Cold water freely and frequently given is one of the best preventives of and remedies for those infantile diseases.

The next best means of strengthening and toughening those membranes is by frequent washings of the neck, throat and breast with cold water, occasionally using soap, and wiping and rubbing the part dry. This should be done morning and evening—and twice or three times a day the better.—These washings, should never be done with warm water after the child is a few days old. It should always be cold water and the more friction used in drying the skin after the washing the better.

The third best means of accomplishing the object is by the dress. The chest should be lightly clothed with flannel, and the neck, top of the chest and head be entirely exposed to the air in warm weather, and when in the house in winter, the arms and legs should never be uncovered. This causes the blood to recede from them, gather in too large quantities around the throat and chest, producing unnatural congestment of the glands, and other tissues there, and causing a corresponding debility and liability to disease.

The next best means of strengthening these membranes in children is free exposure to the air, and by inducing them to exercise their lungs and throat by giggling, laughing, crowing, crying, and other means possible. Laughing and crying are very beneficial to a child. A child that spends one day without the one or the other cannot be healthy. At any rate, their indulgence in these practices strengthens and toughens the organs most necessary to be strengthened to guard them against the fatal influence of scarlet fever.

The way to give children exercise and air, whether they are five days or five years old, is to take them into the open air—not let the air blow on them, but take them into it, and have the pure air of heaven all around them. When thus exercised or exposed, their feet, legs and arms should be warmly clad, but their head, face, neck and shoulders exposed freely to the air. You cannot, or should not, prevent the cold air from being breathed into their lungs. This is absolately necessary to strengthen them. You, at the same time, let the air of the same temperature have free access to the skin of the chest, neck and throat, you prevent their taking cold.

The simple means which we have now enumerated can be applied and used by every mother and nurse. If they *are* used as applied as directed above by all the mothers and nurses in our land, they will prevent the scarlet fever from becoming fatal to thousands of cases where it otherwise would. These means are as applicable to any part of the country as to another, and to rural districts as well as to cities. This disease prevails in all these localities, without reference to class or circumstance of life, and these preventive means should be resorted to by all.—*Ex. Paper.*

Sufferers from Scrofula and Scrofulous affections, clean up! Why wear your Pimples, Blotches, Ulcers, Sores! Why have the life twisted out of you by Dyspepsia, Rheumatism and Gout? Why suffer Syphilitic and Mercurial diseases to rot the bones in your body, or the flesh off your bones! why let your sluggish blood drag, and scatter its distempers through your veins! AYER'S COMP EXT of Sarsaparilla cures these complaints, and cleanses them out of the system. Use it faithfully and you bring to society a healthier, cleanlier, and far more acceptable member.—*Democrat, Baltimore, Md.*

MOTHERS

Thousand are daily speaking in the praise of

Dr. Eaton's Infantile Cordial,

and why? because it never fails to afford instantaneous relief when given in time. It acts as if by magic, and one trial alone will convince you that what we say is true.

It contains

NO PAREGORIC OR OPIATE

of any kind, and therefore relieves by removing the sufferings of your child, instead of by deadening its sensibilities. For this reason, it commends itself as the only reliable preparation now known for CHILDREN TEETHING, DIARRHOEA, DYSENTERY GRIPING in the BOWELS, ACIDITY of the STOMACH, WIND, COLD IN THE HEAD, and CROUP, also, for softening the gums, reducing inflammation, regulating the Bowels, and relieving pain, it has no equal—being an anti-spasmodic it is used with unfailing success in all cases of CONVULSIONS OR OTHER FITS. As you value the life and health of your children, and wish to save them from those sad and blighting consequences which are certain to result from the use of narcotics of which all other remedies for Infantile Complaints are composed take none but DR. EATON'S INFANTILE CORDIAL, this you can rely upon. It is perfectly harmless, and cannot injure the most delicate infant. Price, 25 cents. Full direction accompany each bottle.—Prepared and

BLOOD FOOD

Healthy human Blood upon being

ANALYZED,

always presents us with the same essential elements, and gives of course the TRUE STANDARD. Analyze the Blood of a person suffering from Consumption, Liver Complaint, Dyspepsia, Scrofula, &c., and we find in every instance certain deficiencies, in the red globules of Blood.—Supply these deficiencies, and you are made well. The BLOOD FOOD is founded upon this Theory—shows its astonishing success. There are

Five Preparations

adapted to the deficiencies of the Blood in different diseases. For COUGHS, COLDS, BRONCHITAS, or any affection whatever of the THROAT or LUNGS inducing CONSUMPTION, use No 1, which is also the No. for Depression of Spirits, Loss of Appetite, and for all Chronic Complaints, arising from Over-use, General Debility, and Nervous Prostration. No. 2, for Liver Complaints, No. 3, for Dyspepsia. Being already prepared for absorption it is Taken by Drops and carried immediately into the circulation so that what you gain retain. The No. 4 is for Female Irregularities, Hysteria, Weakness, &c. See special directions for this. For Salt Rheum, Eruptions Scrofulous, Kidney and Bladder Complaints, take No. 5. In all cases the directions must be strictly followed. Price of the BLOOD FOOD, $1 per bottle.

DYSPEPSIA.

There is perhaps no disease which destroys the happiness and comfort of individuals, and families to the same extent as *Dyspepsia or Indigestion.*

Previously to the discovery of the

OXYGENATED BITTERS,

There existed no medicine accessible to those suffering from this wide spread disease, which relieved it in any marked degree.

The proofs of these Bitters over the above named disease as well as over all those having their origin in imperfect digestion, and functional diseases of the stomach, as well as *Asthma and General Debility* is beyond all question.

Its speedy and permanent cures of some of the severest and stubborn cases on record is sufficient confirmation of this fact.

Copy of a Letter from a School Teacher in Detroit.

DETROIT, Mich., June 16, 1857.

MESSRS. S. W. FOWLE & Co., BOSTON:—In reference to the OXYGENATED BITTERS, I can say, that after having the Dyspepsia for several months, and almost dying with pain and heaviness in my stomach, I was prevailed upon by a friend who had been cured by the same medicine to try a bottle of Green's Oxygenated Bitters. Before using half a bottle I felt greatly relieved, and by the time I had used two bottles and a half I was entirely well, and still remain so. I know of several cases more distressing even than own, which have been entirely cured by this invaluable medicine; and it gives me great pleasure to recommend it to any and all who may be suffering from this dreadful malady. W. A. BACON, Teacher of Detroit Select School.

Prepared by S. W. Fowle & Co., Boston, and sold by E. Nye Hutchison & Co., Charlotte, N. C.

The use of Dr. Hostetter's Stomach Bitters, for *Dyspepsia*, Flatulence, Heaviness of the Stomach, or any other like affection, is second to none in America or abroad. To be able to state confidently that the "Bitters" are a certain cure for dyspepsia and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, imparts renewed vitality to the nervous system, giving it that tone and energy so indispensable for the restoration of health. The numerous acknowledgements of its superior excellence and beneficent results, have assured the proprietors that it cannot but prove a great cure in the afflicted, and impart vitality to the thorough system.

CHEROKEE REMEDY.

CURES FROM — One to Three Days.

AN UNFAILING CURE FOR

Gonorrhœa & all Diseases of the Urinary Organs.

THIS REMEDY cures when all other preparations fail. It is entirely unlike every other compound; containing no MINERAL POISON or NAUSEOUS DRUG; as it is prepared solely from ROOTS, BARKS and LEAVES, and has been handed down, from one generation to another, by the CHEROKEE INDIANS. It is offered to the public on its own intrinsic merits. It performs its duty quickly and thoroughly. The UNFORTUNATE, of either sex will be repaid by using this REMEDY, instead of placing themselves at the mercy of some Quack or Poisoner. This REMEDY strikes at the very ROOT of the disease; its tendency is not simply to suspend the poison, but to REMOVE THE CAUSE on which it depends.—Full directions in pamphlet form, accompany each bottle.—The speedy and permanent relief afforded by this Remedy, in all cases of GONORRHŒA, GLEET, STRICTURE, FELON ALBUS, (WHITES IN FEMALES), and all Diseases of the Urinary Organs, has astonished the most scientific men of the age. This Remedy not only eradicates all Poison from the SYSTEM but INVIGORATES the most delicate constitution.

☞ It does NOT AFFECT the BREATH or INTERFERE with any CLASS of BUSINESS, or require any deviation from the usual diet.

☞ It requires no assistance from other medicine.

☞ And what ENHANCES its VALUE is the ENTIRE ABSENCE of all NAUSEOUS TASTE, being a PLEASANT and DELICIOUS SYRUP.

PRICE $2 PER BOTTLE, OR THREE BOTTLES for $5.
