BITTER CABLES CAUSED HIGHER COTTON MARKET

(Special to Daily News.)

New York, June 9.—Better Liverpool cables and large sales of spots in that market caused bears short covering in this market by Wall Street and western houses, that had been the heaviest sellers on the previous report.

Spinning houses were said to have entered a speculative line at over 200,000 bales yesterday and today.

Aside from this there was no new development. Weather conditions continue favorable and trade interests are doing very little in the future markets. Spot cotton quiet, 8.00 bales at 10c points and advance 10 yesterday.

Wedding Gifts That Are Different.

(Woman's Home Companion.)

Answering the question, "What shall I give?" at Christmas and on birthdays is much more simple than answering it when the flood of June wedding invitations begin pouring in. Of course, when the bride-to-be is a dear friend and you know all of her tastes and peculiarities it is not hard to select a present but when she is comparative[illegible] or perhaps entirely unknown, you must trust Angels to look.

I always say, Woman no doubt, give sugar tongs. A pair of plain brave silver tongs with the bridegroom's monogram on them is a present that will live to be the delight and pride of many moments long after all else is gone.

FOLDED TENTS LIKE ARABS AND SILENTLY STOLE AWAY

(Special to Daily News.)

Durham, June 9.—Yesterday afternoon, just as the sun, half hidden behind a bank of golden clouds in the west, was sinking below the horizon, and with the first stroke of the bell in the tower ringing for sunset, the flag of the class of 1910, which, since the 8th of September, has flaunted so majestically at the top of the 100-foot pole, began slowly to descend, drawn down by the members of the class who had gathered around the base of the pole to give place to a new regime. With the last note of the bugle, and with the last stroke of the bell announcing that the sun had set, the president of the class folded it and handed it to President Kilgo, to be placed in the archives of the college as a memorial of the class of 1910. The year's work was finished. They are no longer schoolboys, but men of the world.

Though simple in its every detail, this is one of the most impressive and thrilling ceremonies of the commencement, and to see 40 or 50 young men, having just finished their college course, pull down their last sign of supremacy and give way to their successors, and pass out into the busy throngs of the commercial world is and should be an inspiration to everyone. When the flag has been handed over they gather around and give their class yell, and it is all over.

The Reception Last Night

Last night in the Washington Duke building at Trinity college, as is the usual custom there was given in honor of the graduating class the annual senior reception. The entire first floor of the building and the walks in the front were thrown open and placed at the disposal of those who had been so fortunate as to receive invitations. Every room and every hall was thronged with hundreds.

In the receiving line were Dr. and Mrs. Kilgo, Dr. Few, Dr. and Mrs. Frank C. Brown, James H. Southgate, Professor Flowers, Gill Merritt, and the following from the senior class: Misses Annie Browning, Maude Hurley, Matella Michael, Blanche Smith, Carolyn Tuggle, Mary Tapp, and Messrs. C. B. West, W. B. West, T. D. Chatham, [illegible] Crawford, L. L. Hutchinson, R. G. McIntosh, A. M. Proctor, S. S. Warren and R. A. Whitaker, jr. Light refreshments were served and everyone had a most enjoyable time. This is the last event of the college year and is the formal ending of the college commencement. All the students and visitors will leave for their respective homes tomorrow.

HUNT FOR HOOKWORM GOES MERRILY ALONG

(Special to Daily News.)

Raleigh, June 9.—Dr. Ferrell, assistant secretary of the state board of health and having in hand especially the work of the eradication of the hookworm from North Carolina under the direction and control of the Rockefeller commission, says that he has now positively identified the presence of the hookworm in 56 of the counties of the state and that the remaining counties are so scattered in the midst of other counties in which the presence of the hookworm is proven, that there is no doubt that the work of treatment will have to be carried into every county.

NEWSPAPER MEN

made a powerful plea for the institution.

President Atkinson announced that owing to the fact that the discussion on the training school question had taken up so much time the paper of Editor Clarence H. Poe, of the Progressive Farmer, would be read at the joint session in the afternoon, taking the place on the program of Congressman Small.

John D. Gold having arrived in the hall, his paper on "The Best Arrangement of Newspaper Offices," was then read. Mr. Gold gave much time and study to his paper and many facts of interest to the newspaper men were presented. Mr. Gold was followed by J. O. Schaub, special agent of the agricultural department, on "A Plan For Agricultural Extension Through the Press." He was on the program for Wednesday afternoon, but postponed until today on account of the absence of Mr. Schaub, who understood that he was not to speak until Thursday. Mr. Schaub made a very interesting, though short, address.

The association then went into the election of officers for the ensuing year, resulting as follows:

President, M. L. Shipman, Hendersonville Hustler; first vice-president, J. J. Farriss, High Point Enterprise; second vice president, James H. Caine, Asheville Citizen; third vice president, T. G. Cobb, Morganton Herald; secretary and treasurer, J. B. Sherrill, Concord; historian, D. J. Whichard, Greenville Reflector; orator, James H. Cowan, editor of the Wilmington Evening Dispatch; alternate orator, J. P. Cook, of the Uplift, Concord; Poet, W. L. Hill, "Our Fatherless Ones," Barium Springs; executive committee, Maj. H. A. London, Pittsboro Record; R. M. Phillips, Greensboro News; R. W. Vincent, Charlotte Observer; H. B. Varner, Lexington Dispatch; D. T. Edwards, Kinston Free Press.

Upon motion of Mr. Varner, the matter of selecting delegates to the National Editorial association was left with the national committeeman, H. C. Hammer.

On motion of Mr. Varner, the president was authorized to appoint a legislative committee to look after the interests of the press of the state at the next session of the general assembly. The committee will be named later.

The members of the Press Association were entertained tonight at an elaborate banquet at the Hotel Terrymore. Mr. C. N. Evans was toast master and toasts were responded to by the following: Iredell Beares, esq., Wilmington; "Joseph Caldwell, of Charlotte;" Mr. J. A. Taylor and J. O. Carr, of Wilmington, and W. C. Dowd, of Charlotte, and impromptu remarks by a number of others.

WADESBORO POSTMASTER GETS INCREASE IN SALARY

(Special to Daily News.)

Wadesboro, June 9.—The press dispatches yesterday from Washington carried the news of an increase in the salary of Postmaster P. M. Matheson, of Wadesboro, from $1,700 to $1,800, because of the increase in total receipts at the Wadesboro postoffice. The annual report of Postmaster Matheson shows the receipts for the year ending March 31 to have been $6,583.90, against the receipts during the previous year amounting to $5,900.99. A remarkable fact was that for the year ending March 31, 1909, one cent more received would have given Mr. Matheson $100 a year increase in salary. This year the office only lacks a little of the amount necessary for the increase of $200.

S. S. S. A REAL CURE FOR BLOOD DISEASE

S. S. S. is a real cure for Contagious Blood Poison because it is a real blood purifier. We all realize that this disease is a specific blood infection of the most powerful nature, the virus of which so thoroughly poisons the corpuscles of the circulation that its symptoms are manifested over almost the entire body. First comes a tiny sore or pimple, then the mouth and throat ulcerate, the glands in the groin swell, the hair begins to fall out, skin diseases break out on the body, sores and ulcers appear, and even the bones ache with rheumatic pains. It is reasonable to believe that in a blood poison so powerful as this that only a blood purifier can have any permanent good effect. S. S. S. is the greatest of all blood purifiers; it goes into the circulation and by thoroughly cleansing the blood of every particle of the insidious virus makes a permanent and lasting cure of Contagious Blood Poison. It does not hide or cover up the disease in the system but it entirely removes the last trace of its destructive germs. If you are suffering with this disease S. S. S. will cure you because it will cleanse your blood and enrich its health-promoting corpuscles. S. S. S. is made entirely of healing, cleansing roots, herbs and barks, and is a medicine so absolutely safe and certain in its results, that everyone may cure themselves at home, and be assured the cure will be permanent and lasting. Home Treatment book containing much valuable information for successful treatment, sent free to all who write.
