Congress.

WASHINGTON, Feb. 7.— HOUSE.—The Senate amendments to the Naval appropriations were concurred in, and the House is proceeding with regular business of the morning hour.

SENATE.—Harris, of Tennessee, from the select committee to inquire as to the best means of preventing epidemic diseases, reported a bill to prevent the introduction of contagious diseases in the U. S. and to establish a bureau of public health. Placed on Calendar.

Mr. Sargent, of California, gave notice that he would call up the bill to restrict Chinese immigration for consideration on Wednesday next, and spoke of the importance of this subject to the people of the Pacific coast. Hamlin will, when the bill comes up, move its indefinite postponement.

The Senate Finance Committee took final action upon the House bill amendatory of the Internal Revenue laws and authorized the Chairman to report it to the Senate Committee. Five against four decided to recommend concurrence in the House provision, reducing the tax on manufactured tobacco to sixteen cents per pound, the committee to fix the tax on snuff at 24 cents, and strike out all provisions relative to the tax on cigars, cheroots and cigarettes, thus proposing to leave them subject to taxation at existing rates. The House provision repealing the tax on matches is stricken out and the committee have also entirely omitted tobacco bonded warehouse clauses. The bill is further amended by an addition of a section to remit all taxes upon insolvent Savings Bank, and to exempt from taxation two thousand dollars, each deposit made by one person or association in any savings institution.

Matthews, of Ohio, from the Select Committee on epidemic diseases, reported a joint resolution, authorizing the committee to sit during the recess, and to retain the services of three experts, who shall visit Havana and such other places as the committee may direct to inquire into the history of the Yellow Fever. The joint resolution also requests the President to invite the concurrence and co-operation of the Spanish government in the examination and experiments to be made in furtherance of International Commerce, and Sanitary Interests of men. Placed on calendar.

Senate passed House bill relieving certain legal disabilities of women.

Wilson addressed the Senate on a resolution favoring the immigration of colored persons.

HOUSE.—The House agreed to the report of the Conference Committee on the Indian appropriation bill.

A number of private bills were passed, after which it took a recess until evening.

The Inter State Commerce Commission examined John L. West, of Columbia, S. C. He was Secretary of the Republican State Executive Committee, and as such officer he had correspondence with the Republicans of each county as to the nomination of Republicans to serve as commissioners of election. He took a list to the Executive office. Governor Hampton was sworn, but he was told by Governor's Private Secretary that the matter of appointment was with General Kennedy, President of the Democratic State Executive Committee. There were twenty-two Republicans in the State and twenty-two Democrats, one for each county, commissioners appointed only six of the Republicans were appointed, because the Governor had promised to do so before the list was presented. Many of those appointed to act for the Republicans were Democrats, others were made Democratic election officers, while others were intoxicated men, and therefore unfit to represent any party. Protests were unavailing made against such appointments. Senator Randolph of the Committee inquired whether Governors Moses and Chamberlain had not disregard recommendations of the Democrats as to the appointments of commissioners and fill their places with persons of their own party? Witness could not say of his own knowledge that this was done. The investigation here closed, so far as the Charleston feature is concerned. The Committee have summoned two witnesses from Mississippi and two from Arkansas. There will be a meeting of the full Committee on Monday.

The Potter Committee.

NEW YORK, Feb. 7.—The Potter investigating committee resumed its session this morning. Manton Marble was examined, his answers were given with marked precision and his manner was thoroughly self possessed. He said he went to Florida to look after the electoral vote. He could not say he went there under the instructions of the Democratic committee. He said he did not go at the request of Tilden or any one. He called on the Governor the evening he left and simply bade him good-bye. We had no conversation. He talked with Randolph, Blair and Fox on the subject of his journey. I think I got a cipher from Mr. Pelton at the Everett House and used it subsequently. I sent no telegrams and received none from Gov. Tilden. He addressed his telegrams to Pelton. My object in going to Florida was to take care of the electoral vote. Let me here suggest that the cipher dispatches as published in the Tribune, so far as I am concerned are simply rubbish. My dispatch to Senator Gordon says: Tell Gordon, therefore, it is the truth and having made at the time proves this. I have already published statements of what I did and did not do. One of my statements was published January a year ago. The other "rub a dub" was published in the Tribune for months. What I did not do was to buy the Florida votes and they were for sale. I would like to submit these letters if the committee has no objection.

In the Potter Committee to-day Gibson was re-called and stated when at New Orleans, Swinee endeavored to entrap him by offering to go back on his testimony for a certain sum, but witness refused to have anything to do with him. Carter, of New Orleans, testified that St. Martin's statement about witnesses before the committee having been influenced by money, was false. He did not believe that Weber was paid for his testimony. Gibson said he visited New Orleans as a correspondent of the New York Sun, and counsel to a Democratic member of the committee. I did not believe $450 was paid to Dalton, the prices for witnesses were much lower in the South. To his knowledge no money were paid for evidence. Witness recalled at some length and admitted the authenticity of some dispatches. Witness again declared that he had no conversation with Tilden about buying out the electoral board, either before he went to Florida or after he returned, and never spoke of the proposition or negotiations to him (Tilden). He had no knowledge of any attempt on the part of the Democracy to buy out the Returning Board, and though while in Florida he talked with Chandler, he knew nothing of a proposition that the Republicans would sell out. At this point the following note was received:

GRAMMERCY PARK, FEB. 7, 1879.

HON. EPPA HUNTON, Chairman Congressional Committee, 5th Avenue Hotel, Dear Sir: I learn in the public press that it is the desire of your committee to terminate its session in this city the current week. I take the liberty of requesting that before you leave, an opportunity be afforded me of appearing before you to submit some testimony which I deem pertinent to the inquiry with which you are charged.

Yours very respectfully,

S. J. TILDEN.

Foreign Affairs.

PARIS, Feb. 7.—Lord Lyons, the British Ambassador, will give a select banquet to President Grevy at the British embassady next week.

General Chausey will probably be replaced in the Governorship of Algeria by M. Krantz, late Director General of the Paris Exposition.

The Gazette De France says, President Grevy in receiving the Judges of the court of Cossation, told Judge Mercier, President of that tribunal, to inform his colleagues that the government does not intend to violate the principle of the irremovability of Judges.

Stop the Big Leak Too.

Correspondence of the News.

Gov. Jarvis said well when he said stop all the little leaks. They count up. But there is the biggest sort of a big leak that needs some attention. There is an act, *in perpetuo* in its words, by which the Western North Carolina Rail Road gets $200,000 annually of the public taxes, besides the labor of 500 convicts. The people of Eastern, Middle and Piedmont North Carolina get not one dollar of benefit from this appropriation, though they pay more than twenty-four dollars out of every twenty-five that goes into the State Treasury.

TURN ON THE LIGHT.

The Southern Chorus.

New York Tribune.

The Southern chorus for Tilden in 1880 is gaining strength in spite of ciphers. It is not very formidable yet, but it is persistent and if he can obtain any sort of a vindication, it will become loud enough to show all his rivals what is in the wind for 1880.

Original Republican Tactics.

Cincinnati Enquirer.

The Administration with Sherman at its head has resumed original Republican tactics. Sherman treaded a prospective Supreme Judgeship for the overthrow of Conkling.

The Martyred Republicans.

Cincinnati Gazette.

What's the use in Hayes turning out Custom House officers at New York for the reason that they make the Custom House a party machine, when in two years Grant, who is qualifying himself by learning the manners of royalty, is to come in by way of Asia to reconstruct the machine, and to restore all these martyrs to "civil service reform?"

The Grand Central Hotel on Broadway, New York, is a big house, and it takes a gr at many people to fill it. In order to do the latter, and to please everybody, the Hotel is now kept on the both plans, the American at $2 50 to $3 00, and the European $1 00, and upwards per day. A elegant Restaurant at moderate prices, is conducted by the Hotel. *

Stile and Board Stable.

Having this day sold our Livery and Omnibus line to O'Kelley & Baker, we will give our personal attention to the sale of horses and mules, and will keep a first class boarding stable. Our stables will be open day and night, and special attention given to transcient and monthly boarders.

Thankful for the patronage so liberally bestowed heretofore, we trust by strict attention, to merit a continuance of the same in our sale and boarding stables.

The Tucker House.

This hostlery has not long been opened, but has already made itself a favorite here and with the traveling public. The fare is good, the room favorable, while the location is very convenient. These many advantages are appreciated. *

AGGRESSIVE POLICY.

Senator Thurman's Interview in the Cincinnati Enquirer 5th.

The Senator expressed his belief that bold action was what a party needed to achieve success. An aggressive policy would always command respect, while hesitancy or timidity would yearly always bring defeat with it. The Republican organization had never hesitated to take any responsibility to carry a measure, and this had enabled it to maintain its power for years, in spite of the distrust of the people, and in the face of its complete change from its former principles. On the other hand, a party that did nothing but object could not go before the country with the hope of making its objections stand as a policy. The people didn't like objectors, but they did admire a man or a set of men who were ready to enunciate aggressive doctrines, and were willing to stand or fall by them, but most of all, fight for them. He believed that the time was now past for the Democratic party to be regarded as a party of objectors. Ten years ago, when he first entered the Senate, there was little else for them to do; but now it was different. The fight in the future would be an aggressive one, and he didn't fear the result.

The Death Rate of

Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause, death resulting generally from the most insignificant origin. At this season of the year especially, a cold is such a common thing that in the hurry of every day life we are apt to overlook the dangers attending it and often find too late, that a Fever or Lung trouble has already set in. Thousands lose their lives in this way every winter, while had Boschee's German Syrup been taken, a cure would have resulted, and a large bill from a Doctor been avoided. For all diseases of the Throat and Lungs, Boschee's German Syrup has proven itself to be the greatest discovery of its kind in medicine. Every Druggist in this country will tell you of its wonderful effect. Over 950,000 bottles sold last year without a single failure known.

Moved.

Mr. S. D. Wait General Agent of the Connecticut Mutual Life Insurance Company, has removed his office to the Mahler building, where he will be glad to welcome the many members and friends of the Company.

This Company gives a person simply *Life Insurance*, requiring only so much cash as is needed to cover the actual current cost of his policy in each year. Notwithstanding the scarcity of money there have been more new policies issued for this agency last year, than the one previous.

Compressed Yeast.

To avoid Dyspepsia, use good wholesome bread, which can only be produced by a yeast which will cause natural fermentation. The Vienna Compressed Yeast made by Gaff, Fleischmann & Co., is a natural extract of selected grain, and in its result when properly used, is unfailing, and gives a perfect loaf.

The Value of Pure Wine in Sickness.

The chief difficulty with reliable wines has been the scarcity and exorbitant price, but this has been removed by the introduction of a Pure Native Wine, produced from the Oporte grape by Mr. Alfred Speer, of New Jersey. We understand he has submitted his Wine to the test of many of our celebrated physicians, and all concur in its purity, medical properties and superiority to the best imported Port Wine. Most of them prescribe it in cases of debility, affections of the kidneys and genitourinary complaints, requiring a tonic diuretic or diuretic treatment.—Examiner. Salesroom 34 Warren street, New York.

A Legitimate Triumph in Medicine.

Dread and despair fall upon the community when a terrible epidemic, like the cholera or yellow fever, suddenly desolates our homes; yet, all the while a more insidious, but no less fatal foe, enters thousands of households every year and carries off the flower of the family in the early flush of manly youth and budding womanhood. People call it presumption, or "decline." It is not, in most cases, the tubercular phthisis or consumption of the lungs, which is the peculiar malady in climates like those of the British Islands and New England, but a general decay or arrest of the vital processes of nutrition. All the doctors agree that there is no remedy for this but COD LIVER OIL, but they are constantly met by the obstacle of inability on the part of the patient to swallow or retain it. This repulsion is entirely overcome by SCOTT'S EMULSION OF THE OIL with the HYPOPHOSPHITES OF LIME AND SODA which is agreeable to the taste and an unequalled nutrient and tonic for the body nerve and brain.
