☞ The Book Store of Mr. J. W. GULICK is gaining a wide celebrity and ladies are often heard to say, that they never knew the pleasure of shopping until they visited this handsome emporium. Ladies can find there all the latest publications of the day, together with a very large and complete stock of albums, bibles stereoscopes, pictures, and the most select stock of stationery ever opened in Goldsboro'. Those who may desire to make presents to their friends of elegantly bound volumes, should call at Gulick's Book Store, one door south of Powell & Co's., where they cannot fail to be suited. His prices are low enough to suit the times.

THE INTERNATIONAL BOAT RACE.—The great international boat race between the Harvard, American, and Oxford, English, four oared crews, came off in the river Thames, Friday afternoon, resulting victoriously to the Oxfords. The Harvards were beaten by three lengths of the boat, about 126 feet.

Mrs. Stowe's revelations concerning Lord Byron is beginning to be felt in a largely increased demand for his poems, and close observers say the demand comes mainly from a class of persons that never read them before. One leading bookseller reports a heavy increase of his sales, and other houses in the same line, are anticipating a like harvest. New and cheap editions of Byron for the million, it is expected, will soon appear.

SALAD.—It is said that heads of salad can be produced in winter in from twenty-four to forty-eight hours by taking a box filled with rich earth, in which one-third part of slaked lime has been mixed, and watering the earth with lukewarm water; then taking lettuce seed, which has been previously softened by soaking in strong brandy twenty-four hours, and sowing in the usual way. We are assured, but will not vouch for the fact, that a good-sized head of lettuce may be obtained in the time mentioned.

"The blessed man that preached for us last Sunday," said Mrs. Partington, "served the Lord for thirty years—first as a circus-rider, then as a locust preacher, and last as an exhauster."

IMPORTANT IF TRUE.—It is stated that a few drops of kerosene oil exposed in a room will keep of mosquitoes, and that a kerosene oil lamp left burning all night will have the same effect upon these blood-thirsty insects.

MALARIA. The decayed and decaying vegetation of newly settled lands, when damp, exhale a miasmatic poison which, absorbed through the lungs into the blood, causes the intermittent fevers and kindred diseases, which prevail in our Western States and Territories. But this great scourge of our rich alluvial bottoms in the West, is now robbed of its sting. Doct. Ayer has discovered an antidote which effectually neutralizes its venom: has combined it in a remedy—"AYER'S AGUE CURE"—which rarely, or, as some of our neighbors say, never fails. It is reliable both for prevention and cure. With it, men may live with complete immunity from the malignant effluvia which has hitherto rendered many localities almost uninhabitable. Those suffering from CHILLS AND FEVER may find in it immediate relief, and those exposed will find sure protection from attack, by taking it in small quantities as a preventive.—[Ill. Democrat.

Railway Connections at Wilmington, North Carolina.

WILMINGTON, N. C., August 28.—The iron bridges over the northeast and northwest branches of the Cape Fear river, connecting all the railway lines centring here, are completed—the first train passing over them today. This makes the Wilmington and Weldon, Wilmington and Manchester, and Wilmington, Charlotte and Rutherford railroads one continuous line, with the exception of a mile and a half gap, to be finished in ten days.

THE N. C. R. & P. ESTATE AGENCY.—Many inquiries and much dissatisfaction has resulted from the postponement of the grand drawing of the N. C. Real and Personal Estate Agency, which was to have taken place on the 28th inst., and so many rumors have obtained currency, that, on Saturday morning we called on Mr. Hester, President of the Company, and on R. G. Lewis, Esq., Treasurer, for an explanation of the facts which lead to the postponement, and received in substance, the following statement:

Many of the Agents for the sale of tickets had not reported their sales nor returns, so the management could not arrange for the drawing on the day set, and do justice to ticketholders. They further found it necessary to reduce the proportions of the scheme, and also to make a change in the arrangement of the articles included in the prize list, to conform the same to the sales of tickets. Both gentlemen named gave us assurance that there is no ground for the unfavorable rumors concerning the drawing, or the operations of the Company and that a full and satisfactory explanation will be given the public, in a day or two in relation to the whole matter. We were assured that all who are not satisfied with the explanation when given, will have their money refunded on application. We refrain from further remarks in regard to the matter, at present, and await the promised explanation.—*Sentinel.*

A GOOD PRICE FOR COTTON.—On Friday last, Robt. A. Martin & Co., sold for Gen. W. R. Cox, (John R. Green, Esq., Agent) of Edgecombe county, N. C., the first bale of new cotton received by them, and which was also the first new bale which was *delivered* at the store of any commission house hete, (tho' another bale came in on the same day and on the same train), for which they got 35 cents per pound. Gen. Cox receives the premium on it offered by them for the first new bale, say $50, and half of the premium offered by the merchants jointly for the first bale from North Carolina, say $25. Two bales having come in on the same day and same train, it was decided by the party to whom the matter was referred, that the premium offered by the merchants jointly should be equally divided. Adding the premium on the bale sold by Robt. A. Martin & Co., it makes the price *sixty* cents per pound.—*Pet. Index.*

OUR GRAND DRAWING, ADVERTISED to come off on Saturday, the 28th instant, has been postponed by order of the Board of Directors, in order to remodel the scheme to meet the urgent and almost numberless demands of our patrons, who are desirous that Real Estate Prizes may take the places of those of a personal character. This course the Board of Directors are assured will meet with universal approbation. And the postponement is also deemed advisable in order to allow Agents who have not yet disposed of all their tickets, to do so at once, and make prompt returns, that a day certain may be appointed for the drawing.—Tickets already sold will hold good.
