ATHLETICS MAY BE BARRED AT R. M. H. S

Management Declares Discontinuance Necessary Teams not Supported

According to a statement made by Athletic Director John M. Shields yesterday, athletics of all kinds may be discontinued at Rocky Mount high school at a very early date in the future. Citizens have failed to support the various teams which the local institution has put out and consequently a financial deficit has piled up against the management. In making the announcement that all forms of athletic will be abandoned unless the public accords better support, Athletic Director Shields issued the following statement in regard to the situation

Unless the people of Rocky Mount support their high school teams more loyally and generously than they have in recent baseball games, athletics must be discontinued for lack of funds. The faculty athletic manager believes that the citizens of the community would like to have their school teams properly equipped, and that they would attend the games played here and otherwise support their own boys and girls, used his private funds to purchase equipment. Every basketball game played to date except one entailed a financial loss, and the deficit has reached $110.00. Obviously, this state of affairs cannot continue. Either more people must attend the games and help the teams or athletics will have to be abandoned.

There are several ways in which friends of the school can encourage and support our athletic teams, even if they cannot attend the games. They can help accommodate visiting teams with rooms and board. They can lend the teams automobiles in which to make their shorter trips. The management will gladly pay the gas, oil and other expenses while using the cars. By using these cars the teams will miss less time from school and will spend less for travel than be and at the present rate of 10c per mile.
