MOVIES, NEEDLEWORK, AUTOS HARD ON WOMEN'S EYES

Movies, needlework and automobiles are responsible for more optical troubles in women's eyes than any other factors, according to Dr. J. W. Selig, well-known Elizabeth City optometrist. Dr. Selig states that three-fourths of the people suffering from eye troubles are women, due to the fact that they attend the movies more often, do a great deal of fancy tiresome needlework at night, and ride more in automobiles. The fact that men ride a great deal in automobiles does not lay them liable to the same eyestrain for a man usually has his mind concentrated on some problem, and is engrossed in his driving and looks straight ahead. A woman usually observes things more closely and this gazing at moving objects is a great strain on the eyes.

FOR SALE:—Most desirable building lots in the city. Ehringhaus property on Road and Dyer Sts. subdivided. Seven already sold. See C. H. ROBINSON CO., City.

Which of These Flappers Is 50 Years Old?

Well, you've had your guess, the answer is: [illegible] the one in the middle. She's Edna Wallace Hopper, or so she's still known on the stage. [illegible] Lewolt Hopper's wife. Strictly speaking, she's a couple of years [illegible] at 50, according to "Who's Who," but at that, would you pick her as [illegible] older than the others in the group? They're around 16.
