A Novelty in the Art World!

PHOTOGRAPHY UPON PORCELAIN.

Secured by letters patent in the United States, England, France, and Belgium.

The AMERICAN PHOTOGRAPHIC PORCELAIN COMPANY,
No. 781 Broadway, New York,

Having secured their novel and ingenious invention by American and European patents, and fully prepared to execute all orders for

Miniature Likenesses of Persons on China,

presenting all the attractive and advantageous features of ordinary photographs, the brilliancy and finish of a water-color drawing, and a lustrous unfaded quality of durability, by being rendered as impatrichable as the natural properties of the articles upon which they are transferred.

As the patented process of the Company enables the reproduction of Photographs, not only on plain surfaces, but upon such as are round or of any degree of irregularity—portraits can be reproduced with faultless accuracy, and delicacy of delineation, upon Porcelain wares of any description and dimensions used as articles of luxury or of household utility, such as

Urns, Vases, Breakfast Cups, Toilet Articles,

&c., thereby securing faithful portraits, and furnishing a unique and exquisite style of ornamentation of articles in domestic use.

In order to furnish facilities for the gratification of the popular taste, and to meet the wants of those patrons of the Fine Arts desirous of having Portraits on Porcelain, the Company have imported from Europe a collection of superior Porcelain Goods, manufactured to their own order, which they sell at cost prices.

As the American Company are owners of the patent right, and consequently the only persons authorized to use the process, they have determined, in order to

Afford People in every section of the Union

an opportunity to possess Portraits on China, to make the following proposition to

Residents in the Country,

who are unable to visit personally the Atelier Galleries in New York.

Persons sending a photograph, ambrotype, or daguerreotype to the office of the Company in New York, accompanied by Five Dollars, will receive in return by express, free of other charge, a richly

Ornamented Breakfast Cup and Saucer, with the Portrait transferred thereon.

By transmitting a daguerreotype and Ten Dollars, they will receive in return in like manner

A handsome French Vase or Toilet Article,

with the Portrait reproduced by the patented process.

By sending a pair of daguerreotypes and Fifteen Dollars, they will receive in return

A Pair of rich Secrets Vases,

with the Portraits executed equal to miniature paintings, and in the manner Portraits are sometimes on porcelain urns or Vases of every quality of finish, ranging in price from Twenty to One Hundred Dollars the pair.

N. B.—Be particular in writing the address, town, county and State distinctly.

All letters to be addressed to

"Manager, American Photographic Porcelain Co.,"

MISCELLANEOUS.

THE AMALGAMATION OF LANGUAGES.—There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into our own; thus the word Cephalic, which is from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spalding's great Headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as Electrotype and many others whose distination as foreign words has been worn away by common usage until they seem "native and to the manor born."

Hardly Realized.

Hi 'ad 'a 'orrible 'eadache this hafternoon, hand I stepped into the apothecaries hand says hi to the man, "Can you hease me of an 'eadache?" "Does it hache 'ard," says 'e. "Hexceedingly," says hi, hand upon that 'e gave me a Cephalic Pill, hand 'pon me 'onor it cured me so quick that I 'ardly realized I 'ad 'ad an 'eadache.

☞ HEADACHE is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz: Symptomatic and Idiopathic. Symptomatic Headache is exceedingly common, and is the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rheumatism, and all other febrile diseases. In its nervous form it is sympathetic of diseases of the stomach, constituting *sick headache*, of hepatic disease constituting *bilious headache*, of worms, constipation and other disorders of the bowels, as well as renal and uterine affections. Diseases of the heart are very frequently attended with Headaches; Anæmia and plethora are affections which frequently occasion headache. Idiopathic Headache is also very common, being usually distinguished by the name of *nervous headache*, sometimes coming on suddenly in a state of apparently sound health, and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or acerbity of temper. In most instances the pain is in the front of the head, over one or both eyes, and sometimes provoking vomiting; under this class may also be named *Neuralgia*.

For the treatment of either class of Headache the Cephalic Pills have been found a sure and safe remedy, relieving the most acute pains in a few minutes, and by its subtil power eradicating the diseases of which Headache is the unerring index.

Bridget. Missus wants you to send her a box of Cephalic Glue, no, a bottle of Prepared Pills,—but I'm thinking that's not it naither; but perhaps ye'll be afther knowing what it is. Ye see she's nigh dead and gone with the Sick Headache, and wants some more of the same as relieved her before.

Druggist. You mustnean Spalding's Cephalic Pills.

Bridget. Och! sure now and you've sed it, here's the quarther and give me the Pills, and don't be aff day about it aither.

Constipation, or Costiveness.

No one of the "many ills flesh is heir to" is so prevalent, so little understood, and so much neglected as Costiveness. Often originating in carelessness, or sedentary habits, it is regarded as a slight disorder of too little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerous diseases, and unless early eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendant, are Headache, Cholic, Rheumatism, Foul Breath, Piles, and others of like nature, while a long train of frightful diseases, such as Malignant Fevers, Abscesses, Dysentery, Diarrhœa, Dyspepsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondriasis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate in Costipation, but take on an independent existence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaint, as their timely use will expel the insidious approaches of disease and destroy this dangerous foe to human life.

A Real Blessing.

Physician.—Well, Mrs. Jones, how is that headache?

Mrs. Jones. Gone! Doctor, all gone! the pill you sent cured me in just twenty minutes, and I wish you would send more so that I can have them handy.

Physician.—You can get them at any Druggists. Call for Cephalic Pills. I find they never fail, and I recommend them in all cases of Headache.

Mrs. Jones.—I shall send for a box directly, and shall tell all my suffering friends, for they are a *real blessing*.

TWENTY MILLIONS OF DOLLARS SAVED.—Mr. Spalding has sold two millions of bottles of his celebrated Prepared Glue, and it is estimated that each bottle saves at least ten dollars worth of broken furniture, thus making an aggregate of twenty millions of dollars reclaimed from total loss by this valuable invention. Having made his Glue a household word, he now proposes to do the world still greater service by curing all the aching heads with his Cephalic Pills, and if they are as good as his Glue, Headaches will soon vanish away like snow in July.

FACTS WORTH KNOWING.—Spalding's Cephalic Pills are a certain cure for Sick Headache, Bilious Headache, Nervous headache, Costiveness and General Debility.

Cephalic Pills
CURE
Sick Headache
CURE
Nervous Headache
CURE
All kinds of
Headache.

By the use of these Pills the periodic attacks of Nervous or Sick Headache may be prevented; and if taken at the commencement of an attack immediate relief from pain and sickness will be obtained.

They seldom fail in removing the Nausea and Headache to which females are so subject.

They act gently upon the bowels,—removing Costiveness.

For Literary men, Students, Delicate Females, and all persons of sedentary habits, they are valuable as a *Laxative*, improving the *appetite*, giving tone and vigor to the digestive organs, and restoring the natural elasticity and strength of the whole system.

The CEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from Headache, whether originating in the nervous system or from a deranged state of the stomach.

They are entirely vegetable in their composition, and may be taken at all times with perfect safety without making any change of diet, and the absence of any disagreeable taste renders it easy to administer them to children.

BEWARE OF COUNTERFEITS! The genuine have five signatures of Henry C. Spalding on each Box.

Sold by Druggists and other Dealers in Medicines.

A Box will be sent by mail prepaid on receipt of the Price, 25 Cents.

All orders should be addressed to

PROSPECTUS
OF
THE SCIENTIFIC AMERICAN.
SIXTEENTH YEAR.
VOLUME III. NEW SERIES.

ON the 1st of July commenced a new volume of this widely circulated and popular journal.

Each number contains 16 pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

The SCIENTIFIC AMERICAN is devoted to the interests of Popular Science, the Mechanic Arts, Manufactures, Inventions, Agriculture, Commerce and the Industrial Pursuits generally, and is valuable and instructive not only in the Workshop and Manufactory, but also in the Household, the Library and the Reading Room, as all articles, discussions and correspondence which appear in its columns are written in a popular manner.

To the Inventor and Patentee it is invaluable as the only reliable record of the progress of invention, at home and abroad, and of the weekly issues of American patents. No person interested in these matters, or who is engaged in mechanical pursuits, should think of "getting along" without the weekly visits of this journal. The publishers invite attention to the extraordinary low price at which it is furnished, making altogether the most valuable as well as the cheapest paper of the kind in the world.

TERMS.—To mail subscribers: Two Dollars a Year, or One Dollar for Six Months. One Dollar pays for one complete volume of 416 pages; two volumes comprise one year. The volumes commence on the 1st of January and July.

SOUTHERN FIELD and FIRESIDE.
A Weekly Literary and Agricultural Paper,
Published in Augusta, Georgia.
DR. D. LEE, Agricultural Editor.
W. W. MANN, Literary Editor.

THIS is the title of a Weekly paper, devoted to Agriculture, Literature and Art, which I am publishing in Augusta, Georgia. It will be in quarto form of eight pages, folio size—each issue to contain forty columns of matter. It will be in general style similar to, and in size somewhat larger than the New York Ledger. It will be published on good book paper, and will be in mechanical execution in the best style of typographical art. In utility, it will be all that the best agricultural science and practical knowledge of the South can furnish. A weekly visitor to the homes of Southern planters and farmers, it will be more useful and acceptable to them than any monthly journal of equal merit.

My aim is to establish a paper that will be a vehicle of information that will be useful to Southern planters and farmers, and a repository of Southern thought, imagination and taste, in the realms of Literature and Art; and to obtain for it such an extent of patronage and success as will justify the most liberal compensation to all its contributors. Able and experienced editors are engaged, and steps are in progress to secure contributions from the most pleasing Southern writers of both sexes. Much latent talent will be brought to light, and furnish some agreeable surprises to southern people.

"Full many a gem of purest ray serene,"

will flash before the admiring eyes, and cause a generous glow in Southern genius.

The Agricultural Editor will be Dr. Daniel Lee, the distinguished Professor of Agriculture in the University of Georgia—editor for many years past of the Southern Cultivator, and a leading contributor to many Northern agricultural journals of the highest reputation.

The Literary Editor will be Mr. W. W. Mann, of this city, an accomplished writer, of fine taste and scholarly attainment, who, having retired from the active duties of the legal profession, spent many years in Europe, and was for several years the Paris correspondent of the National Intelligencer, and Southern Literary Messenger.

Terms—Cash in advance, $2 a year.

Bills current in the State from which they are sent, received at par.

THE FARMER'S GUIDE,
To Scientific and Practical Agriculture.

By Henry Stephens, F.R.S., of Edinburgh, and the late J. P. Norton, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols. Royal Octavo. 1600 pages, and numerous engravings.

This is, confessedly, the most complete work on Agriculture ever published, and in order to give it a wider circulation, and publishers have resolved to reduce the price to Five Dollars for the Two Volumes!!

When sent by mail (post paid) to California or Oregon, the price will be $7. To every other part of the Union, and to Canada, post paid, $6. ☞ This work is not the old "Book of the Farm."

Remittances for any of the above publications should always be addressed, post-paid, to the Publishers,

Prospectus
OF THE
HILLSBOROUGH RECORDER
DEVOTED TO
Politics, Agriculture, Miscellany, General News, &c.
PUBLISHED BY DENNIS HEARTT,
Hillsborough, N. C.

WITH the present volume the Recorder commenced the fortieth year of its existence, the first number having been issued the 10th of February 1820; during all which time we have labored to make our paper interesting and useful, and we hope that in these particulars we have not been altogether unsuccessful. It has been our wish to make the Recorder a good Family Paper, devoted to Politics, Agriculture, Miscellany, General News, &c., with a view to the entertainment and improvement of the farmers and citizens of the circle in which it is distributed. Our Agricultural department we endeavor to fill with the best selections we can make from all sources, giving preference to such as will be of practical use to the farmer and cultivator; and in this particular we hope to make the Recorder as valuable to the agriculturist as any periodical of a purely agricultural character. In our Miscellaneous department, we shall continue to be, as we always have been, careful to select such articles as will have a tendency not only to amuse, but to improve the mind and heart. While we shall be thankful to receive well-written articles to adorn our columns, we are not so ambitious of originality as not to prefer selected matter of superior merit, to loosely-written and ill-digested articles, though ornamented at the top with the coveted words "written expressly for the Recorder." In our News department we shall take special pains to present to our readers the latest intelligence; and to enable us to do so we have facilities equal to those enjoyed in any portion of the State, except those favored with telegraphic communication.

But we should like to make improvements in our paper, in its appearance and matter; and to enable us to do so, we must have a considerable addition to our subscription list; and to obtain these new subscribers we must ask the assistance of our friends in Orange and Alamance, and the counties adjoining. We see many of our brethren of the press frequently acknowledging the receipt of clubs of subscribers *accompanied with the cash*. We should like to make a few such acknowledgments; and that our friends may make up these clubs, we offer the Recorder to new subscribers upon the following terms:

A single copy, one year,	$ 2:00
Six copies, one year,	10:00
Ten copies, one year,	15:00

Payments always in advance.

Any of our old subscriber who will obtain five subscribers and send us the cash, shall receive their own paper free of charge.
