No Whiskey!

BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey; thus becoming a fruitful source of intemperance by promoting a desire for rum.

BROWN'S IRON BITTERS is guaranteed to be a non-intoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the *American Christian Review*, says of Brown's Iron Bitters:

Cin., O., Nov. 16, 1881.
Gents:—The foolish wasting of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.

The cost of living in Massachusetts is twenty five per cent. higher than it was five years ago and yet the wages of operatives in the factories instead of being raised are reduced. Is there any wonder there should be strikes? Massachusetts wants Chinamen and cheap labor.

Mayor Breen, of Lawrence, Mass., speaking of the strike by which 5,000 operatives are turned into the streets of the city, said: "The crisis has come and I am glad of it, for the strikers have been used like slaves and dogs by the owners of the mills." It seems they have some excuse.

According to the report of the internal revenue commissioner, there are in the United States 170,640 liquor saloons, or one to every 294 people. In the Republican States there is one to every 260 people, while in the Democratic States there is one to ev-480 people. This may be accounted for, however, by the fact of the greater number of large cities classed as Republican. This report also shows that in Massachusetts, which has a prohibitory liquor law, there are 7,-219 retail stores where liquor is sold. The Southern States have a much smaller ratio of saloons than either the Northern or Western States.

The Color and Lustre of Youth are restored to faded or gray hair by the use of Parker's Hair Balsam, a harmless dressing highly esteemed for its perfume and purity.

AHEAD AGAIN AS USUAL!

Reports from all sections of North and South Carolina, Georgia and Alabama sustain our claim that the

WILCOX, GIBBS & CO.'S MANIPULATED GUANO

Is the BEST and Most Reliable and CHEAPEST Fertilizer in use, and that the

WILCOX, GIBBS & CO.'S SUPERPPOSPHATE,

which we put out for the first time last season, has proved unexcelled by any Acid Phosphate on the Market.

It is not necessary for us to say anything about these Fertilizers, as the reports which might be obtained from our agents, or ourselves, cover the whole subject, and will amply repay perusal. We will have a moderate supply of each, which can be obtained from our Agents, payable in Cotton next Fall. If there is no Agent at your Railroad Depot, get your merchant to order it.

WICOX, GIBBS & CO.,
Savannah, Ga., & Charleston, S. C.

GOOD COFFEE.

Everybody wants it, but very few get it, because most people do not know how to select coffee, or it is spoiled in the roasting or making. To obviate these difficulties has been our study. Thurber's package Coffees are selected by an expert who understands the art of blending various flavors. They are roasted in the most perfect manner (it is impossible to roast well in small quantities), then put in pound packages (*in the bean, not ground,*) bearing our signature as a guarantee of genuineness, and each package contains the Thurber recipe for making good Coffee. We pack two kinds, Thurber's "No. 34," strong and pungent, Thurber's "No. 41," mild and rich. One or the other will suit every taste. They have the three great points, *good quality, honest quantity, reasonable price. Ask your Grocer for Thurber's roasted Coffee in pound packages, "No. 34" or "No. 41."* Do not be put off with any other kind—your own palate will tell you what is best.

Where persons desire it we also furnish the "*Ideal*" Coffee-pot, the simplest, best and cheapest coffee-pot in existence. Grocers who sell our Coffee keep them. Ask for descriptive circular.

Respectfully &c.,
H. K. & F. B. THURBER & CO.,
Importers, Wholesale Grocers and Coffee Roasters, New York.

P. S.—As the largest dealers in food products in the world, we consider it our interest to manufacture only pure and wholesome goods and pack them in a tidy and satisfactory manner. All goods bearing our name are guaranteed to be of superior *quality, pure and wholesome,* and dealers are authorized to refund the purchase price in any case where customers have cause for dissatisfaction. It is therefore to the interest of both dealers and consumers to use *Thurber's brands.*

The Mines of Davie County.

How She has been Neglected by the State Geologist, and why she should not Longer be given the Cold Shoulder.

Corespondence Charlotte Observer.

If the State Geologist, Prof. W. C. Kerr, could be induced to visit Davie county and examine her mineral deposits, as he has done the counties lying along the lines of railroads in the State, he would be enabled to add very much to his museum of minerals, and thereby increase the notoriety of the "Old Rip Van Winkle," so much sneered at by the world at large, and especially by the Western and Northern States of the Union.

From the census report of 1880, as appears in Green's almanac of 1882, North Carolina ranks 13 in gold, which is false; iron and steel 13, which is not true; rosin and turpentine 1, and marl and shell phosphate 1. The State pays the Geologist a salary of $2,500 per annum, nearly $8 per diem for each working day in the year, and yet there are very many counties that have been neglected, among which Davie is included.

Those acquainted with the duties devolved upon the State Geologist can make some allowance for his delay in visiting all the counties. He has been in office about 14 years, and still not over ¾ of the counties have been visited by him.

It must be remembered that it takes time and money to accomplish so much work, and at the same time reflect credit upon the State and the Geologist.

We are free to acknowledge our poverty, but in all common reason do not slight us on account of our being poor.

There are hundreds, and perhaps thousands of taxpayers that cannot see the necessity of the office of State Geologist, and yet, we are paying money for the keeping up the penitentiary, which if turned into this office and have two men instead of one in the office the people would make money.

By his report some northern men have been induced to invest $250,000 in the coal and iron regions on Deep River.

There are seven places in Davie county from which gold has been taken:

1st. The Butler mine, eight and a half miles south-west of Mocksville. The gold from this mine was assayed some years ago and found to be two carats finer than anything in the United States.

2d. The gold mine on Calahalin's mountain in Calahalin township, six and a half miles north-west of Mocksville. This mine was worked some forty years ago by Hon. Hamilton C. Jones & Co., the father of Col. H. C. Jones of your city, but with what success I do not know.

3rd. The Isaac Allen mine, situated on the plantation of Jno. H. Clement, late Senator of Davie and Rowan, one and one-fourth miles north-west of Mocksville.

4th. There are two mines or deposits of gold in Clarksville township, seven and one-half miles north-west of Mocksville, from which a considerable quantity of gold has been obtained by an ordinary wash pan process.

5th. There is another gold deposit 7 miles north-east of Mocksville in Fulton township.

6th. There is to be found on the plantation of Mr. B. N. Allen, six miles east of Mocksville the finest or as fine iron ore as can be found any where. This iron mine was worked by Thos. H. Gaither & Co. during the war from which they supplied the Confederate government with a very large quantity and there is on the same plantation, and not far from the iron mine, evidence of copper.

7th. There is on the plantation of James A. Kelly, our former member of the legislature, a very rich silver and iron mine.

So you can see from this that Davie county is no "sardine" or "small potato" at last. And if the bowels of the earth could be analyzed in her border you could find gold, silver, mica and probably pearls, no one could tell how much.

If the N. C. Midland railroad should be finished you see that Mocksville is destined to be, at no great distance, a mining town or city. So a "long pull and strong pull and a pull altogether" for the N. C. Midland railroad.

ONE TO THE MANNER BORN.

The United States deputy marshals of Kentucky have gotten away with from $18,000 to $30,000 of Uncle Sam's cash.

What better indication of the drift of things in Congress than the resurrection of the notorious Secor claim for work done on ironclads during the war? This ancient fraud stood godfather to Robeson; no wonder it emerges from dishonorable retirement to share the benefit of his return to power. And close on the heels of Secor & Co., come Harlan and Hollingsworth, once familiar but now almost forgotten names. They will all come, all the old Ring, with their claims and supplementary claims, even though these have been paid, overpaid, proved fraudulent, barred by legislation, and buried ten years deep. How do Secor Robeson's honest Republican associates like the Robsonian prospect?—*New York Sun, Ind. Dem.*

The business of railroading is comparatively new and is yet in its infancy. It is not half a century old. But the railroad men are learning. They are learning not only how to build and how to operate their lines, but how to manage them and how to manage business. The latest thing out is a western pool, a pool of tremendous power and consequence, so there are now two pools and they are in league. All of the northwestern roads are in the combination, and their earnings last year amounted to the enormous sum of sixty millions of dollars. The percentage to which the different roads will be entitled is based on their earnings last year, and if any earn more than that, the surplus will be turned into a common fund for distribution. The weaker lines will be allowed differential rates, so that they may hold their business and earn their percentage. Hereafter the passenger rates of all the lines, with the exceptions stated, will be uniform, and cannot be altered without the consent of all the lines. An arrangement with the eastern trunk lines has been made by which they are to divide the through business over these western lines for the next five years. A gigantic agreement of this kind, so far reaching in its possible consequences, should alarm the people and make them insist strenuously on their right of supervision. Fortunately these roads are likely to be operated fairly and with some regard to popular interests, but the power to oppress exists and the States should assert their right to see that no oppression is practised.—*News and Observer.*

$66 a week in your own town. $5 Outfit free. No risk. Everything new. Capital not required. We will furnish you everything. Many are making fortunes.
