ROYAL

BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight alum or phosphate powders. *Sold only in cans.* ROYAL BAKING POWDER CO. 106 Wall St., New York. jan19-d&w1zm

COMPOUND OXYGEN.

Drs. HARGAN & GATCHELL

OFFICE in Eagle Block, 62 Main St.

ASHEVILLE, N. C

Compound Oxygen inhaled, in connection with medicated Balsam Vapor, cures Consumption, Asthma, Bronchitis, Nasal Catarrh, Sore Throat, Loss of Voice, Diseases of the Liver and Kidneys, Bladder, and all diseases depending on impure or impoverished blood.

It cures Rheumatism when everything else fails.

It is the only remedy that will permanently cure Chronic Nasal Catarrh. If you suffer from this loathsome and dangerous disease come to our office and investigate our treatment. It will cure you, no matter how long you have suffered. No charge for consultation.

There is no statement in the above which is not strictly true—you may rely upon every word. We can prove all and more.

If we believe your case incurable, we will frankly tell you so. We do not wish to treat you if we cannot help you.

We also treat all diseases of the Rectum, or Lower Bowels, such as Hemorrhoids (Piles), Fissure, Fistula, Prolapsus, etc. The treatment is always successful, and nearly always painless. We cure without the use of the knife, and in a few days. No loss of time from business or pleasure.

ASHEVILLE, N. C., May 7, 1887.

It is with real pleasure that I express to the public my sense of obligation to Drs. Hargan & Gatchell for relief given me from a most annoying, and at times painful, case of Piles.

I had been a sufferer from this complaint for several years, and during that time it had been a constant source of annoyance.

In March last I began a course of treatment under Drs. Hargan & Gatchell which resulted in a speedy cure. Since my discharge from their office I have suffered no pain or inconvenience whatever.

I take pleasure in saying further that in my intercourse with Drs. Hargan & Gatchell I found them true gentlemen in every respect and well worthy of the confidence of the people in general and the afflicted in particular.

W. D. AKERS.

HOME TREATMENT,

We manufacture the Compound Oxygen, and ship it to all parts of the country, even to the Pacific Coast. We send apparatus and chemicals to last two months for $12. This is as valuable as the office treatment.

The wonderful curative results obtained with this treatment is astonishing even to us.

If you wish to learn more of this treatment, and our success in the cure of Chronic Diseases, write or call for illustrated book explaining treatment free.

DRS. HARGAN & GATCHELL,
62 Main Street, Asheville, N. C.

THE DAILY CITIZEN

Will be published every Morning (except Monday) at the following rates—*strictly cash:*

One Year,	$6 00
Six Months,	3 00
Three "	1 50
One "	50
One Week,	15

Our Carriers will deliver the paper every Morning in every part of the city to our subscribers, and parties wanting it will please call at the CITIZEN Office.

Send your Job Work of all kinds to the Citizen Office, if you want it done neatly, cheaply and with dispatch.

☞ INTERESTING READING MATTER ON FOURTH PAGE.

Weather Indications.

Indications for Virginia, North and South Carolina to-day, are north easterly winds, fair weather, except rain on the coast, and stationery temperature.

☞ The DAILY CITIZEN will be found for sale every morning at the news stand corner of the Western Hotel.

Go to Weldon's for the largest and best "Brick Loaf" in the city. tf

☞ The CITIZEN, with latest Associated Press Dispatches will be found regularly at all hotels and news-stands in the city. When the supply may be exhausted at those places, call at the office.

Miss Mamie Summey, who has been attending Charlotte Female Institute, has returned home

Mr. H. L. Lang has returned from his trip to Virginia, and Dr. Queen is back from the Dental Convention at Morehead.

A little rain would be welcome on our streets, but our country friends would be better without it, for the present.

The convict shot in endeavoring to escape from the new State Library building at Raleigh on Tuesday, and erroneously stated to be from Sampson county is stated by the Raleigh *Signal* to be J. P. Hensley from Yancey. He was shot in the head, the *Signal* says, and is thought to be fatally hurt.

The Rev. T. A. Morris has charge of the Hotel at Blackwell's Sulphur Springs—a good landlord and a pleasant place, which we hope many people will find out this summer. It has the advantage, not enough appreciated, of being secluded while near enough to rail road and telegraph facilities for all practical purposes. See the advertisement.

Mr. H. G. Ewart, of Hendersonville, called on us yesterday. He informs us that all preparations for the reception of the Press Association will be made, and a most cordial welcome given.

Mr. Ewart says the people of Henderson county are now much exercised over the failure of the Mud Creek drainage scheme If they had their voting to do over again, the result would be different. He says Mud Creek will be drained, nevertheless

An aggrieved party asks us to call attention to the fact that his family, sitting on the front porch of their house were insulted and assaulted by a lad or lads, armed with the detestable bean shooter, a mean, cowardly and mischievous little weapon. We hope the police will nab every boy using one. They break glasses, put out eyes, and offend and annoy generally in a sneaking kind of way. The only justifiable use for them is in war on the English sparrow, and then each boy should be made to take out license and enter into bonds to use the weapon for that sole and special purpose.

TO CORRESPONDENTS.

As of yore we invite correspondence. It is important to us and valuable to our readers. But the resumption of telegraphic service compels the occupation of space we have before yielded unreservedly to our friends. We want as much as ever their kindly favors, but we must ask them to condense; and we have no space for essays. We must do as a customer did under the scissors of the garrulous barber and ask them to "cut it short," though not quite so much so. We want some left.

THE SECOND BAPTIST CHURCH

Yesterday the Rev. Dr. Carroll, pastor of the second Baptist church, perfected the purchase of a lot upon which to erect a church building for his congregation, which, since its formation, has been worshipping in the edifice erected for the Methodist Church, North. The site selected is part of the C. E. Graham lot, and is near the corner of French Broad and Patton Avenues, a most eligible and commanding location. The price paid was $1250, which was paid down in cash, and titles perfected. The work of building will be begun very soon.

AT LAW'S—NEW GOODS.

Just home from New York and a fair sample of all the Spring importations, and American made novelties and fine goods, are being opened as fast as possible. We hope our friends will come and take away these goods real quickly. We will sell them very cheaply as we have not room to show all the goods now. All are welcome to our store whether to buy or look. Call often at Law's, S. Main st.

"REFRIGERATORS,"
at W. C. KELLER & Co.'s.
d21 12 Patton Avenue.

☞ Hampton and Featherston's reading room has been tastefully arranged for the convenience of guests, and late papers from every section of the country are to be found daily on the tables. dtf

Special bargains in nice white goods at WHITLOCK'S.

All colors Sural Silk, Satins, Velvets and Plushes, just in, at WHITLOCK'S.

ASHEVILLE BOY WINNING HONORS.

Clarence Ray, son of Col. J. M. Ray, of this place, has borne off three medals at Bingham Military school which closed yesterday. One was awarded for the first best gymnast and the other two were athletic medals. Clarence also won a medal one year ago which makes four from the same school, which is indeed very complimentary to our young friend. He and the other boys from Asheville will return home to-day.

HAYWOOD AND BUNCOMBE LINE

At a meeting of the County Commissioners on Monday last, Mr. James W. Rice was appointed commissioner on the part of Buncombe county to co-operate with one or more commissioners from the county of Haywood to adjust the disputed boundary line between the two counties. Should Haywood appoint two, then Mr. J. L. Cathey will join Mr. Rice as the second commissioner from this county.

ENCOURAGING GREETINGS.

Two at least of our valued contemporaries [illegible] our resumption of telegraphic service to express their appreciation of the CITIZEN. We hope to deserve their continued favor by keeping in active motion all the departments of the paper.

The *News Observer* says: The Asheville CITIZEN has resumed the publication of the associated press dispatches, and its already great value is enhanced accordingly.

The Shelby *New Era* says: We are glad to see the Asheville CITIZEN again taking press dispatches. It is one of the most welcome exchanges that come to our table and is, as we think, about as nearly right on all the important questions before the people as any paper with which we are acquainted. Asheville should be able to support a first class paper, and the CITIZEN has upon its staff the ability to give it one. Of course, for this, dispatches are essential and we are glad that our contemporary has them.

A FATAL SUPPOSITION.

We call the attention of voters on the graded school question to the following quotation in yesterday morning's *Advance* contained in a communication made by Mr. John W. Starnes, Supt. of Public Instruction. We do so lest the friends of the measure fall into a fatal confidence.

Mr. Starnes quotes as follows from Sec. 2 of the Act authorizing the election as follows:

"And if a majority of the votes shall be in favor of such tax, the same shall be levied and collected by the town authorities, &c."

This is misleading, and it is erroneous.

Sec 2nd of the State Constitution says: "No county, city, town or other municipal corporation shall contract any debt, pledge its faith or loan its credit, nor shall any tax be levied or collected by any officers of the same, except for the necessary expenses thereof, *unless by a majority of the votes of the qualified voters thereof.*"

This is the fundamental law, and no act can contravene it.

Examples of the application of this principle are numberless. Only last week in Union county, a proposition to vote a certain railroad subscription by the county failed, though a large majority of the votes cast favored subscription; but they were not a majority of the qualified voters of the county.

MILK AND HONEY.

The most natural and rational expectation of visitors to the mountains is oceans of rich, fresh, cold milk. The mountain and the dairy are closely associated in the mind. The cool verdant grassy valleys, and the turf covered mountain sides are peopled by fancy with herds of sleek cows, groaning under the weight of teeming udders, and the fancy fills up the sketch with the visions of picturesque milkmaids, and cold spring-houses, and dairies fragrant with the odors of the foaming fresh milk, and the full crocks or pans set to rise, and the golden pats of sweet yellow butter. But

"Tis not all my fancy painted it;"

But year by year it is growing something like it here, and the visitor realizes in part some of his bright imaginings. The increase of dairies in this vicinity is gratifying; and the supplies of fresh milk delivered morning and evening at hotels, boarding houses and private dwellings, fill almost every want. From the Lusk farm from 60 to 80 gallons are delivered daily, the Glenverloch farm nearly as much, Richmond Hill dairy and the Beaver Dam dairy not quite so much, and Mr. W. T. Reynolds has just started one with 20 fine milkers which furnish from 40 to 60 gallons daily. There are others in the businesss on a smaller scale.

And milk is more abundant and better than it used to be.

MESSRS. SANFORD, CHAMBERLAIN AND ALBERS—Gents: I have been troubled for years with cramps and pains in my body, and limbs and after trying many things, I am clearly of the opinion that your Hart's Great Relief is the best medicine in the world, as it always relieves me in from one to three minutes. I write this that others similarly afflicted may relieve themselves by using it, and also because I feel that it is due to you that this much be said

[For t

THE GRADE

Messrs. Editors:—I [illegible] spoken of this matte[illegible] the necessity, at this t[illegible] article. But I have be[illegible] times, "why is it that [illegible] public school?" that [illegible] in this public way, to s[illegible] of Asheville pays nearl[illegible] public school tax of th[illegible] when the county Bo[illegible] apportions the school [illegible] can get nothing more t[illegible] paid according to the [illegible] school law. The remote[illegible] combe, though his fatl[illegible] one cent of school tax, i[illegible] the State Law, to as muc[illegible] one who lives in the c[illegible] notwithstanding the fact [illegible] may pay $40 school tax. [illegible] is just; since my sense [illegible] me that all the property [illegible] should be held bound to g[illegible] ness education to all the c[illegible] country. But "why does [illegible] have a public school for th[illegible] answer, again and again, [illegible] not a public school [illegible] demy and the Christian Churc[illegible] Trustees of the two academies let the buildings to teachers of private or pay schools, as they had a right, by virtue of their power as trustees to do. The other parties, as it was their prerogative to do. So the public school officials were out of school houses. They tried renting for several terms, but found that the schools could not be a success as the small fund would not pay rent for a good house and salaries to good teachers. I suggested that we stop the schools until we could buy a lot and build a house sufficient. So we have had no free school for the last two years. According to the census report sent to me by the School Committee of Asheville District, there are 854 white children of school age in the District. The annual apportionment for the last two years has been about $1 per head. Just two years ago the 13th of this month the Treasurer paid the last order to a teacher for services. From then till now, we have had no free school for the whites. The money of two years is in the treasury except what has been paid for a lot—$600. The school officials will commence the erection of a school building at the earliest day that they consider themselves safe in so doing. Then, after the building is complete and money enough accumulates from the scanty levy, the school officials of this District can and will start a school. My dear people, do you want to wait about two years more? If so, fail to vote for the proposition to establish a Graded School and you can have your wishes. If you desire a public school earlier, go to the polls on the 15th instant, and vote for the Graded School; and, as soon as the tax can be collected and suitable buildings procured the school will start.

Yours truly,
JNO. W. STARNES,
Co. Supt. Buncombe Schools.

ON THE BRINY DEEP.

Our young friends Colman Brownson and Will Ballard sail to-day from New York for Europe on one of the German steamers, landing at Amsterdam. We wish our voyagers a safe and agreeable passage. How can it be otherwise with "Youth at the prow and Pleasure at the helm."

The Charlotte *Chronicle* says: The Richmond & Danville Company has bought up the fifty-three one thousand dollar bonds, first mortgage, of the Spartanburg and Asheville road, that were held by the State of Georgia. The bonds were purchased by the R. & D. company for $23,850. The bonds were turned over to the State of Georgia at the breaking up of the citizens bank, were then closed at being worth not more than ten cents on the dollar.

The Shelby *Aurora* says: Messrs. Anderson & Parrett have been prospecting for iron ores and report a valuable find on top of Crowder's Mountain. Many judging from the outcrop and excavations on top and on the sides of the mountain think it will prove a bonanza to the mining company and Messrs. Garrett Bros. & Co., who have leased it to Messrs. Anderson & Parrett. A large and valuable deposit has been found and a large force will be put to excavating this gray iron ore. Before the wrr Bleveland county had a half dozen iron works in operation: now we have none.—Mr. Aaron Bridges, our oldest citizen, died on Monday night, June 6, 1887, at the age of 97 years and 10 mos. He had been a remarkably stout man and enjoyed splendid health until a few months ago.—Mr. Peter Mull, of Burke, living near the Cleveland line, lost by death five of his family in three days, his wife, a daughter of ten years, a son of 20, one of 18, and an infant, all from dysentery.

Dr. Pierce's "Favorite Prescription" is a most powerful restorative tonic, and combines the most valuable nervine properties; especially adapted to the wants of debilitated ladies suffering from weak back, inward fever, congestion, inflammation, or ulceration, or from nervousness or neuralgic pains. Earthquake [illegible] Life in Turkestan.

[By telegraph to the Asheville Citizen.]

ST. PETERSBURG, June 10.—Seven shocks of earthquake have occurred at Vernome, in Turkestan. The town was almost entirely destroyed. One hundred and twenty persons were killed and 125 injured, among the latter is Gen. Friede, Governor of the Province of Semiretchinsk. The shocks still continue to be felt at intervals. The inhabitants of the town are panic stricken and have fled for safety to the open country.

—:o:—

The Indian Outbreak—Hostiles Hemmed In—A Volcano's Friendly Service.

[By telegraph to the Asheville Citizen.]

NOGALES, ARIZONA, June 20.—Capt. Lee, who is in command of the soldiers stationed here, says the soldiers have the hostiles so closely pressed that he thought they could not reach Sonora. He had one half of his troops mounted on private horses and mules belonging to the company wagons. The volcano near Babrispe, in Sonora, is still pouring forth volumes of lava and the residents hoped that this fact will prevent the hostile Indians from visiting that part of the country.

—:o:—

Burning of the Pittsburg Telegraph Office.

[By telegraph to the Asheville Citizen.]

PITTSBURG, PA., June 10.—The First National Bank building, a five story iron structure on the corner of 5th Avenue and Wood street, the upper floor of which was occupied by the main office of the Western Union Telegraph Co. as operating department and battery room, was partially destroyed by fire at six o'clock this morning. The fire started in the operating department, and is supposed to have been caused by the crossing of the wires in the rear of the switch board. The flames spread rapidly and great difficulty was experienced by the firemen in getting ladders in position on account of the net work of wires. After a gallant, fight, however, the flames were subdued; but not before the three upper stories had been completely gutted, and communication by the Western Union Telegraph Co. with the outside world entirely cut off. All their fine machinery was totally destroyed, and every wire prostrated. Temporarily headquarters have been established at the Mutual Union office.

—:o:—

Agricultural Department Reports—Condition of Crops.

(By telegraph to the Asheville Citizen.)

WASHINGTON, D. C., June 10.—The June returns of the Department of Agriculture indicate a reduction of nearly two per cent. in the area of winter wheat. Changes in the acreage of the State are very slight, except in Kansas where the reduction of 22 per cent is reported, caused by bad harvests and low prices of spring wheat. The area has been enlarged 6 per cent, from increase of immigration and farm making west of the Mississippi in the districts traversed by the Northern Pacific railroad. Most of the increase is in Dakota, which reports an increment of 24 per cent. The total area of wheat is about 37,000,000 acres, a fraction of one per cent more than of the previous crop. In the condition of winter wheat there is no marked change, the average being 849 reduction of nine tenth of one per cent. In 1886 the June average was 927. The reports of short straw are very numerous. In some districts there are indications that the yield of grain will be larger in proportion. If there is no increase from this cause, the yield must be less than an average. The harvest is already in progress up to 38th degree of North latitude. The condition of spring wheat is good in Dakota and the Territories westward; but below average records in Wisconsin, Minnesota, Iowa and Nebraska. The general average for spring wheat 873, which is lower than in recent years. But thirteen points higher than in 1881. At the harvesting last year condition averaged 80. The dry weather in April has been injurious towheat. Insects have committed greater depredations than usual in the central belt westward from Pennsylvania, and Virginia has suffered local damage from the Hessian fly, and the chinch bug has wrought injury

New York Money Market.

(By telegraph to the Asheville Citizen.)

NEW YORK, June 10.—There was a little larger volume of business done in the stock market to-day. The dullness was principally trade of the market. London was again buyer chiefly of Lake Shore, St. Paul and Reading, which stocks led the market throughout. In the remainder of the list there was little or nothing done. The opening was firm at advance of from ⅛ to ⅜ per cent over figures of Thursday. There was a fair business during the first few minutes but the market became dull and so continued throughout. The general list was firm, and fractional advances were established, while Lake Erie and Western preferred showed marked strength. A period of stagnation followed and during the afternoon a general heavy tone was noticed. The market finally closed steady and near to opening figures. A majority of the active list show fractional advances, while Lake Erie and Western preferred is up 1⅛, and Norfolk and Western preferred and Tennessee coal are up one per cent. each.

OUR CITY FATHERS.

The Board of Aldermen were in session last night, with all the members present except alderman Scott, who is abseat at Moorehead.

Maj. Malone addressed the Board in favor of the erection of Chedisters iron bridge across Patton Avenue.

Several parties were before the Board regarding the opening of streets and the extension of water mains to points not now reached. Refered to street committee.

Capt. McLoud addressed the Board in reference to the street railway, and the following resolution introduced by him was adopted:

Resolved, That Mr. E. H. Buckman be notified to appear before this Board within thirty days and show cause why the privileges heretofore granted him by the Board with regard to a street railway in the town shall not be revoked or modified; and that the Secretary of the Board give him notice at once of this resolution.

The Board did a commendable piece of charity in ordering the payment of a bill for the caring for a woman who was picked up on the streets one night by a policeman under most distressing circumstances, and who could not be removed for several weeks.

The sure effects of Ayer's Sarsaparilla are thorough and prominent. If there is a lurking taint of scrofula about you, Ayer's Sarsaparilla will dislodge it, and expel it from your system. t13

The matter seems [illegible] generally known until recently, only on Sunday was the general public made aware of this important action.

NEW ORLEANS, June 7.—At Franklin parish yesterday, Mandy Henderson, a colored woman, was set upon by her four sisters and stabbed to death. Mandy had deserted her husband and taken up her abode with Ed Thomas, but had subsequently returned to her husband. After living with him for some time she announced that she had again determined to leave him and seek shelter under Thomas' roof. This so incensed the sisters that they called upon her while in Thomas' house and dared her to come out. On Thomas assuring her that she would have fair play, Mandy went to the door and was at once attacked by the four. She fell after a short struggle, fatally wounded. Thomas fought desperately for his paramour, using a club with terrible effect upon the sisters, one of whom died of her wounds.

A New Way to Pay Old Debts.

Shakespeare tells how this can be accomplished in one of his immortal plays: but debts to nature must be paid on demand unless days of grace be obtained through the use of Dr. Pierce's "Golden Medical Discovery." It is not a "cure-all" but invaluable for sore throat, bronchitis, asthma, catarrh, consumption, and all diseases of the pulmonary and other organs, caused by scrofula or "bad blood." Scrofulous ulcers, swellings and tumors are cured by its wonderful alterative action. By druggists. d&w1w
