Sunday Reading.

Christian Union.

A MORNING'S MEDITATION.

The great family of man is divided into two classes, and into two classes only,—the children of our Father which is in Heaven, and the children of the wicked one. The latter are bound together by depravity; the former, by grace. Cain and Nero were brothers, and so Abel and Stephen were alike in their nature, in their deeds, and in their end.

Nor is it difficult for any one to determine to which of these two classes he belongs.—If he love not the brethren with a peculiar affection, however lowly be their lot in life, he sins in right to number himself with the foolish. It matters not what be his profession, he is indeed one of the great national grave-yard of which all the other fronts of the Spirit-prison.

There must be a kind union subsisting between all groups of lovers on earth of what ever name.

There is an union of Faith.

All the pious and expectants of the coming glory, have substantially the same belief. The great truths to be grasped by the hand and the heart in order to salvation are the same the world over, and through all time.

Christians may be unfortunate in giving expression to their faith. The creeds to which they mutually subscribe may conflict with each other; but, most assuredly, all the genuine, without a single exception, have embraced the great fundamental doctrines of Revelation.

Along with these great truths, however, there may be little, and in fact, in some instances, even the weed with the best. But this great ordeal of fire will, then for ever, sever the mere adulteration, leaving sound, hay, and stubble are used for kindling fires.

There is "one faith," and no faith only, God gave the ex-all R. deposited in Christ, and upon this lofty platform, all the good, in all climes and ages, meet.

There is an union of Feeling.

Human nature is always the same, the Spirit's operations are uniform, and, therefore, all hearts regenerated by the Spirit all best in unison. Many in the world have a nature, nor can be moved by divine influence. Instinctively the heart feels, and the tongue utters, the language of Christian love.

The just feel "union with God, have "peace with God through our Lord Jesus Christ." In the mind of the sinner man there is tranquillity, hope, love, joy, constituting a substance heaven. Take any two men, however different in gifts, in attainments, in manners and in habits—let one shiver and pour, and the other swelter beneath a tropical sun,—and, if subjects of saving grace, they will both have consciousness within of divine—both live in sight of the revealed Presence, and both sing with the conqueror's song on their lips.

There is an union of Aim.

There is a consequence of the foregoing.—Men believing and being alike affected, have the love of Christ constrains them to pursue it. The gallant steam-ship proudly rides the waves of ocean, not alone until the distant shore is gained; there is something at her heart which urges her onward. And so with every the love of God reigns in the soul, it will produce a proper influence in the thoughts of men, and will lead us on to the glorious pursuit of glory and immortality.

It is impossible for a man with a renewed heart to be satisfied in grovelling in the paths of sin. The only good of our nature and to all kinds from a sacred army for the sole purpose of the world's—the peaceful sway of the Messiah.

This is what is not merely who ought to be. Brave, all who are not restrained by the golden chain of Faith, Feeling and Aim are out of the holy family, their duties and pleasures to the contrary notwithstanding.

Our fraternal union, in one word, we contend exists now for the faith, both with the pen and the tongue, we must have that Charity which is greater than faith or hope.—Without it we cannot be champions of the Eternal Power.

MORMON MISSIONARIES.

The Mormons are laboring on the Sandwich Islands, in companies of two, to convert the population, natives, foreigners, missionaries and all, to their faith. It is not a little worthy of note, that while in England and Scotland they have made converts by thousands, in Hawaii they met with no success whatever.

YOUTH'S DEPARTMENT.

A Good Move.

In no part of the United States do we discover so many vagabond boys, in proportion to the population, as in the city of New York. We have enough of them in some of our Southern cities, but we cannot rival New York. We are glad to see that efforts are made to civilize and make Christians of these young heathens. The New York Commercial Advertiser says: "About three years ago a boys' meeting was commenced in the building at the corner of Christopher and Hudson streets, which in attendance has varied from one to three hundred. It has now an average attendance of nearly two hundred. The exercises are singing, prayer, and reading the scriptures, and appropriate addresses. In these exercises the boys now take part. The object of this meeting is to impart religious instruction to a class who would not otherwise receive it. The success of this effort has been quite as great as was anticipated. In dress, behaviour, attention, and general appearance, there has been a decided improvement in the youths, so much so, that casual visitors would not be likely to suppose that these boys were subjects for such an effort; and yet many, very many, come in from their swimming, marbles, gaming and plays every Sunday. The effort commends itself to the patriot and Christian. The exercises commence at 5 o'clock, P. M." Such a movement as this may not be needed among us; but are there not thousands of boys in all parts of the South that have never seen the inside of a Sunday School room? And what are we about, if we do not try to bring these young immortals under the influence of a religious education?

The Lost Boy.

A little boy of six years old wandered from his home unobserved to the woods. It was nearly two days and one night before he was found. Being asked what he did when it got to be night, he said he asked God to take care of him, and then lay down on the ground and went to sleep.

So charmed we to the wild flowers that grew on his way,
The gay little wanderer loved,
He thought not how far he had wandered astray
From the home and the parents he loved.

The day had declined and the shadows of night,
Its dark wings around poured him round;
He knew not how to pray to his maker by light—
How found it in darkness he found?

In course and tattered, wearied and worn,
The poor little self-lost wanderer
He resolved on his parents and wept to return,
But knew not where all made to his wood.

Wild and lone was the search over woodland and plain,
The night-mood at night in despair;
For the moon of the last one age in and again,
Has been sought, but no answer was there.

The mother had sought the young vagrant to pray:
He is found lonely on the ground.
Added to the care of him, knew till next day,
The wanderer, safe, lovely and sound.

The angels will flow from God's throne to impart
Every joy to the poor and good;
Heard not the prayer from the heart
Of the little lost child in the wood!

Flowers.

[illegible] love flowers. We had all [illegible] great harm not to love them. We love them and are surprised that every [illegible] do not. We have been struck with the following lines, written by a lady. Mrs. O. Gill, for a young lady who was in [illegible] making paper flowers—rather [illegible] time, by the way, for the gem [illegible] "They were written on May, five days before the writer's death, verifying her prediction in the last stanza.

You've woven roses round my way,
And gladdened all my being;
How can I thank you some fair day,
Save only the Allseeing.

May He who gave this lovely gift,
This love of lovely during
Be with you wherever you go,
In every hope's pursuing.

Yes, going through the eternal gates
Fair Love's sweet roses blow!
Dearest lovely angel leads me there—
And it is sweet to go.

member that the moral character of another generation is to be shaped by your spirit and example. The enterprise and triumphs of another age are to be achieved by your hands. The glory of the country and the interests of the Redeemer's kingdom will be entrusted to your keeping. I beseech you by the recollection of your father's house; by a mother's love; by a sister's angelic affection, by all your feelings as sons and brothers, by all that is authoritative in truth, or tender in friendship, by your ambition to be great, honored and useful; I beseech you be good—courageously, nobly, Christianly good.

I know not which most to admire, a pious youth or a venerable saint. A young man chaste, modest, religious, a tree in vernal prime and full flower, diffusing upon the air the odour of grateful promise: an old man, meek, loving, resigned; a tree rich in autumnal hues and mellow fruit—dropping his ripen honeydew to the earth. How lovely both! Youth is the season of trial, preparation; but "old age is virtue's prime." Yet, flowers precede the fruitage, and the patriarch of three score years and ten, will be but a worthless cumberer of the ground, if life's spring time forgets its buds and blossoms.—O, the dreariness of old age without religion and religious hopes! A heath in the desert, leafless, lonely, shaking in the blast, neither sun nor dew can revive its early bloom! But youth and piety, O, how beautiful! "A tree planted by the waters and that spreadeth out its roots by the river, and shall not see when heat cometh, but her leaf shall be green and shall not be careful in the year of drought, neither shall cease from yielding fruit."—Such be your emblem and your history, till planted

"Amidst the gardens of the blest—
Beneath a cloudless sky,
You flower afresh like Aaron's rod
That blossomed in the sight of God."

THE Public are respectfully informed that Dr. Tobias has adopted the above as his motto since he has introduced his invaluable

VENETIAN LINIMENT

On sale in the United States now over 7 years.

☞ During that period, every bottle sold has been warranted to give RELIEF, if taken according to the directions, or the money would be refunded; and no Agent was allowed to have on sale without he would warrant it.

THOUSANDS OF BOTTLES

Have been sold, and NOT ONE IN A THOUSAND HAVE BEEN RETURNED!

Wherever it has introduced it has superseded every other Liniment, and, with scarcely any advertising, has quietly won public confidence. Now, there are hundreds of families that are never without it. This has been done by private recommendation, chiefly from those who have been cured by it of obstinate Diseases.

When every other remedy has proved ineffectual.

Many persons have said, on reading my pamphlet, that it CURES TOO MANY COMPLAINTS; but I have replied, "Use it according to the directions, and if you do not get relieved, your money will be returned." More I cannot say; for if I counter no benefit I ask no remuneration. All that is asked is a fair trial; then I am assured there will be no dissatisfaction.

IT IS WARRANTED TO CURE

Cholera, Colic, Dysentery, Cramp, Vomiting Sea-Sickness, Chronic Rheumatism, Sore Throats, Cuts, Burns, Chilblains, Swellings Old Sores, Bunions, Coughs, Croup, Mumps, Chapped Hands, Warts, Corns, Mosquito Bites, Warts, Palpitation of the Heart Weakness in the Limbs, Back and Chest; Pains in the Joints, Hemorrhage, &c.

CHRONIC RHEUMATISM,

it cures, as certainly as it is applied. But inflammatory requires the aid of a physician as internal treatment is requisite.

Persons suffering from Weakness or Pains in the Back, Chest or Limbs, will find relief in a few applications of this liniment. It opens the Pores, besides strengthening the muscles.

Another Scientific Wonder!

Great cure for Dyspepsia! Dr. J. S. Houghton's

PEPSIN,

the true Digestive Fluid or Gastric Juice, prepared from RENNET, or the fourth STOMACH OF THE OX, after directions of Baron Liebig, the great Physiological Chemist, by J. S. HOUGHTON, M. D., Philadelphia Pa.

This is a truly wonderful remedy for INDIGESTION DYSPEPSIA, JAUNDICE, LIVER COMPLAINT, CONSTIPATION, and DEBILITY Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of Pepsin, infused in water, will digest or dissolve, *Five Pounds of Roast Beef in about two hours,* out of the stomach.

PEPSIN is the chief element or Great Digesting Principle of the Gastric Juice—the *Solvent of the Food, the Purifying, Preserving, and Stimulating* Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an ARTIFICIAL DIGESTIVE FLUID, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a COMPLETE and PERFECT SUBSTITUTE for it. By the aid of this preparation, the pains and evils of INDIGESTION and DYSPEPSIA are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspepsia, curing cases of DEBILITY, EMACIATION, NERVOUS DECLINE, and DYSPEPTIC CONSUMPTION, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is of the highest degree CURIOUS and REMARKABLE.

SCIENTIFIC EVIDENCE!

BARON LIEBIG in his celebrated work on Animal Chemistry, says: "An Artificial Digestion Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the Stomach of the Calf, in which way all articles of food as meat and eggs, will be *softened, changed, and digested, just in the same manner as they would be in the human stomach.*"

☞ Call on the Agent, and get a Descriptive Circular, gratis, giving a large amount of Scientific Evidence, similar to the above, together with Reports of REMARKABLE CURES, from all parts of the United States.

AS A DYSPEPSIA CURER,

Dr. Houghton's Pepsin has produced the most marvellous effects in curing cases of Debility, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than TWO HUNDRED REMARKABLE CURES, in Philadelphia, New York and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent.

It is a great NERVOUS ANTIDOTE, and particularly useful for tendency to Bilious disorder, Liver Complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost turns cities *Health with Intemperance.*

Dr. HOUGHTON'S PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

PRIVATE CIRCULARS for the use of Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation, and giving the authorities upon which the claims of this new remedy are based. As it is NOT A SECRET REMEDY, no objection can be raised against its use by Physicians in respectable standing and regular practice. Price, ONE DOLLAR per bottle.

☞ OBSERVE THIS!—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicines.

BY MEANS OF THE POCKET Æsculapius, or Every one his own Physician!—Sixteenth edition, with upwards of a hundred engravings showing private disease in every shape and form, and malformations of the generative system.

By Wm Young, M. D.

The time has now arrived, that persons suffering from secret diseases, need no more become the VICTIM OF QUACKERY, as, by the prescriptions contained in this book, any one may cure himself, without hindrance to business, or the knowledge of the most intimate friends, and with one tenth the usual expense. In addition to the general routine of private diseases, it fully explains the cause of manhood's early decline, with observations on marriage—besides many other derangements which it would not be proper to enumerate in the public prints.

☞ Any person sending TWENTY FIVE CENTS enclosed in a letter, will receive one copy of this book by mail, or five copies will be sent for one dollar.—Address, "DR. W YOUNG, No. 152 SPRUCE-ST. PHILADELPHIA." Post paid.

☞ DR. YOUNG can be consulted on any of the Diseases described in his different publications, at his office, 152 SPRUCE Street, every day between 2 and 3 o'clock. (Sundays excepted.)

For the Removal and Permanent Cure of all NERVOUS DISEASES,

And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the *most valuable medical discovery of the age.*

Dr. CHRISTIE'S GALVANIC BELT and MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the various organs and invigorating the entire system. Also in FITS, CRAMP, PARALYSIS and PALSY, DYSPEPSIA or INDIGESTION, RHEUMATISM, ACUTE and CHRONIC GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIC PAINS in the SIDE and CHEST, LIVER COMPLAINT, SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS and PHYSICAL ENERGY, and all NERVOUS DISEASES, which complaints arise from one simple cause, namely,

A Derangement of the Nervous System.

☞ In NERVOUS COMPLAINTS, Drugs and Medicines invariably exert the disease, for they weaken the vital energies of the already prostrated system; while under the strengthening, invigorating, vitalizing influence of Galvanism, as applied by the beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists in the fact that they arrest and cure disease by *external application* in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and cause the vitalized energy to reach every extremity. Since their introduction in the United States only three years since, more than

60,000 Persons

including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and every thing had been tried in vain!

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford temporary relief, but ultimately leave the patient in a worse state, and with impaired health, the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worst symptoms of an attack, and simply let the Belt around the body, using the Magnetic Fluid as directed. In a short period the unendurable sensation of spinkling, will set on the positive element of the Belt, thus causing a Galvanic circulation which will rest on to the region of the stomach, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. This is not an extreme case of DYSPEPSIA and PARALYSIS, yet in a few days it is often amply sufficient to EFFECTUALLY ERADICATE THE DISEASE OF YEARS.

CERTIFICATES AND TESTIMONIALS

Of the most Undoubted Character,

From all parts of the Country could be given, sufficient to fill every column in this paper!

AN EXTRAORDINARY CASE,

which conclusively proves that

"Truth is stranger than Fiction."

CURE OF

Rheumatism, Bronchitis and Dyspepsia.

REV. DR. LANDIS A CLERGYMAN

of New Jersey, of distinguished attainments and exalted reputation:—

SOMERVILLE, New Jersey, July 15, 1851.

DR. A. H. CHRISTIE—Dear Sir: You wish to know of me what has been the result of the application of your GALVANIC BELT AND NECKLACE. My reply is as follows:

For about twenty years I had been suffering from Dyspepsia. Every year the symptoms became worse, and I could find no permanent relief from any course of medical treatment whatever. About fourteen years since, in consequence of frequent exposure in the ministry, the disease of my pastoral charge, I became subject to a severe Chronic Rheumatism, which for many years, caused me a bearable anguish. Partly in the winter of '49 and '50, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked with the Bronchitis, which now became so severe as to require a moderate suspension of my pastoral duties. My voice was quite gone, my throat painfully constricted, and so my Bronchitis became worse, I also had my Dyspepsia and Rheumatic affection—these symptoms that these disorders were connected with each other through the medium of the Nervous System. In the whole physiological system, there seemed to be no vital agent which could reach and compensate my Nervous System—everything that I had tried was purposeless and completely failed. At last I was led by my friends to examine your advertisement, and through with no very sanguine hopes of their efficacy, I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with MAGNETIC FLUID. This was in June, last. To my astonishment, in a few days the Belt was so far in operation that I was enabled to resume my pastoral duties, and with every succeeding week I was gaining in strength, and my Bronchitis became so much improved, that I was enabled to resume my pastoral duties, and with every succeeding week I was gaining in strength, and my Bronchitis became so much improved, that I was enabled to resume my pastoral duties, and my Dyspepsia and Rheumatic affection—these symptoms that these disorders were connected with each other through the medium of the Nervous System.
