LATE FROM EUROPE.

ARRIVAL OF STEAMER NORTH AMERICA.

QUEBEC, May 17.

The steamer North America arrived here this morning, bringing advices from Liverpool to the 5th inst.

The sales of cotton for the three days amounted to 34,000 bales. Prices have advanced ¼d., and the market closed buoyant. Manchester advices favorable. Breadstuffs and provisions steady. Consols 97¾.

FURTHER BY THE NORTH AMERICAN.

The resolutions for the future government of India are progressing in the English Parliament. Resolutions endorsing the union of the Danubian Principalities have been projected.

The Budget has been adopted by a large majority in the House of Commons of the French Legislature.

The envoys of the leading powers have requested a German Diet to consider the propositions of Denmark relative to the Dutchies.

A collision had occurred in St. George's Channel between a steamer and a barque. Both were sunk, and thirty persons were drowned.

In France, the grain crops were promising. Breadstuffs were firmer.

Advices from India state that Nana Sahib had been reinforced, and was about to commence offensive operations.

Breadstuffs were generally steady. Flour was dull. Wheat was quiet. Corn was quiet and white slightly advanced. Rosin was dull at 4s. 3d. per cwt. Spirits of turpentine was steady at 44s. Rice was quiet.

London dates of Wednesday says that the food had improved. The Exchequer statement was satisfactory. Discount rates were ranging from 2½ a 2¾ per cent. Consols were quoted at 97½ to 97¾.

LATER FROM EUROPE.

ARRIVAL OF THE STEAMER NIAGARA.

HALIFAX, May 19.

The steamer Niagara arrived at this port this morning, bringing advices from Liverpool to the 8th instant.

The sales of cotton for the week amounted to 41,000 bales. All qualities have advanced ¼ farthing. Consols 97¾ to 98¼.

SECOND DISPATCH.

Breadstuffs have a declining tendency.—Corn advancing. Provisions dull.

The political news is generally unimportant.

The British Government have announced in Parliament their disappointment in the Government's India proclamation confiscating land in Oude.

Sir Colin Campbell will be created a Peer.

The Spanish Cortes have been suddenly prorogued, and some of the ministers have tendered their resignations.

Nothing later from India has been received.

FURTHER BY THE NIAGARA.

The London Times speak approvingly of the extension of the United States authority in Central America.

Sir Colin Campbell demands large reinforcements in India immediately.

Orleans fair was quoted at 8d., Orleans middling at 7 15-16d; Mobile fair at 7¾d., Mobile middling at 7 3-16d.; uplands fair at 8¼d and uplands middling 7¾d.; per lb.—The market closed buoyant. On Saturday afternoon, the 8th instant, the sales were 7,000 bales, and the market showed a declining tendency. The stock on hand comprises 510,000 bales, of which 412,000 bales are American cotton.

Breadstuffs were generally declining.—Flour was declining with quotations barely maintained. Wheat was very dull. Corn was firm and advancing. On Saturday afternoon, breadstuffs were generally dull, but corn was still firm and advancing. Sugar had improved in the finer qualities. Rice was dull at 20s. a 22s. Rosin was steady at 4s. 3d. a 5s. for common, and 12s. a 15s. for fine. Spirits of turpentine was dull at 43s. a 44s.

Dates from Havre are to the 5th inst.—Cotton was slightly stiffer, and all qualities had improved. The sales for the week comprised 19,500 bales, the market closing buoyant. This morning was quoted at 104f. Rice was quiet and declining.

THE DEAD ALIVE.—Two years ago a hand belonging to a traveling circus fell from a wagon and was so badly maimed that he has ever since remained a cripple. The accident affected his mind, and at the asylum to which he was conveyed—the Alms House at Lebanon, about thirty miles from this city—he was known by the cognomen of "Crazy Jack." About a week ago he became seriously ill, and to all appearance, he gave up the ghost; at least, he ceased to breathe; the muscles of his face were rigid, his eyes fixed, and in short the doctor pronounced him a defunct individual, and as a matter of course the authority of the doctor is orthodox upon that point. Accordingly he was decently arrayed in his grave clothes, and stretched upon what we believe is called a cooling board, where he was left all night, preparatory to his being consigned to mother earth the next day. At an early hour in the morning, one of the people attached to the establishment entered the room, and glancing towards the corpse discovered it was lying on its side. Advancing nearer, he was horrified on perceiving that the eyes were wide open, watching him with keen attention. His knees shook, and the perspiration in huge drops burst from his forehead as he peered upon the apparition, which slowly raising himself to a sitting position, exclaimed, as he turned his visual organs upon his uneasy couch, "I never did like the fare they gave in this institution, but I do blaze if this board ain't the hardest of any I've had yet."

It is needless to state that "Crazy Jack" had been afflicted with a trance—a malady which appears to be at the present time quite fashionable.

THE GOVERNOR OF MAINE CONVICTED OF PIETY.—Hon. Lot M. Morrill, the Black Republican Governor of Maine, had occasion recently to issue a proclamation calling upon the people of that commonwealth to observe a day of fasting and prayer. Some impertinently curious Democratic editor, in scrutinizing this document, was struck with its similarity in thought and expression to a passage which occurs in a work published by the Rev. E. H. Chapin, in 1854, and his examination convinced him that the Executive had appropriated the literary labors of another in preparing his proclamation for a day of fasting and prayer.

REST.—Millard Fillmore remarked to a friend, by way of explaining the secret of his robust health, "I never allowed my usual hours for sleep to be interrupted. The Sabbath I always kept as a day of rest—Besides being a religious duty, it was essential to health. On commencing my Presidential career, I found that the Sabbath had frequently been employed by visitors for private interviews with the President. I determined to put an end to this custom, and ordered my doorkeeper to meet all Sunday visitors with an indiscriminate refusal.—While Chairman of the Committee of Ways and Means in Congress, and during my whole Presidential career, my labors were always onerous and often excessive; but I never suffered an hour of sickness through them all."

A WISE RULE.—Among the lessons taught by bishop Soule to the preachers is the following, which we heard him (says the New Orleans Advocate) utter at the Alabama Conference, as a preventive against all embarrassments growing out of debt. It even defines the limits of safe speculations; and, if observed by business men, would take the edge off of panics: "Brethren, my rule is this, and I advise you to adopt it: Never owe any more than you are able to pay, and allow no man to owe you more than you are able to lose."

REVERSE OF FORTUNE.—A few day ago one of the visitors of the Provident Association, at the West End, was applied to, to assist a man who was found in abject poverty in a miserable garret, without food or decent clothing. Food was provided for him and a change of clothing, by the benevolent visitor. Only a few years ago this same man was a New York merchant, with at least $100,000, living in a splendid residence, and riding in a princely carriage. We keep back the gentleman's name from motives of delicacy, though it is a familiar one to some of our merchants. How true it is, that "riches take to themselves wings and fly away."—*Boston Traveller.*

A DIABOLICAL DEED.—We learn from the Weldon Patriot that on last Sunday night, some fiend in human shape, fired the premises of Mr. James W. Faucett in Halifax county, and so far succeeded in the incendiary Work as to burn down the kitchen, smoke house, and several other out houses, besides a considerable portion of the fencing on the farm, which last was burned in detached places, showing that the fire had been communicated to the fencing at several different points at the same time.

☞ We invite our readers to the perusal of Dr. Ayer's advertisements which appear in the columns of our paper. They deserve attention as treating of what interests us all, and from a source which all have long respected. The Doctor is well known as one of the leading Chemists of this country, who devotes his great acquirements to the discovery and manufacture of remedies for popular use. The unparalelled success which has followed his labors is too well known in this community to need any elucidation from our pen.—*Washington Co. Observer.*

SALE OF PEWS.—The sale of the pews of the new Methodist Church, at the corner of Fourth avenue and twenty-second street, in New York, took place Monday night, and was well attended. About 150 were sold, and a premium was realized of nearly $2,000. This is the first instance on record in this country of the pews of a Methodist church being sold at auction.

A DAY TOO LATE.—On Saturday night last, twenty hours after the adjournment of the Methodist Protestant General Conference, the delegate from Oregon reached Lynchburg, Va., to attend its session. He had been on the way ever since February last, from the remote region he represented.

DR. HOSTETTER'S CELEBRATED STOMACH BITTERS have proved such a certain cure for all diseases of the Stomach, that no one can for a moment question its efficiency in the most stubborn cases. For many years we have watched its steady progress in public estimation, and its beneficent effects as a cure for all complaints arising from the stomach, of a morbid nature, and we are free to say that it can be relied upon as a certain relief and remedy. Its proprietor has made the above preparation after years of careful study and setting, and is now reaping the reward claimed for the vast life specific, and which so richly merits. It is the only preparation of the kind that is reliable in all cases, and it therefore demands the attention of the afflicted.

MUSIC BY A SQUIRREL.—We yesterday witnessed a rather novel sight, and listened to some good music from an organ, played by a squirrel. The squirrel is confined in an ordinary rotary cage to the end of which is attached a crank, which turns the cylinder of the organ. As the squirrel is very active and apparently fond of music, the performance can be witnessed at nearly all hours of the day.—[*Alexandria (Va.) Gazette.*

Died,

In this place, on the 18th instant, WILLIAM SYLVANUS, infant son of Dr E. Nye Hutchison, aged 2 years and 3 months.

Obituary.

Died, in this county, on the 22d ult., at the residence of her son in-law, John R. Davidson, Esq., Mrs. MARY LOCKE McCONNAUGHEY, in the 85th year of her age.

The deceased was for thirty years a consistent member of the Presbyterian Church. She exhibited many prominent traits of character, among which were true modesty and the ornament of a meek and quiet spirit. In the midst of a maternal tenderness and devotion at once vigorous and credulous to herself, she did not forget the claims of God and the important interests of personal piety. At an early period she made a profession of religion at Sugar Creek Church. Her children were baptized in infancy. From the date of her connection with the same church until her last illness her life, though one of peculiar and eventful scenes, was exemplary and eminently worthy of the Christian name. In her various positions and relations she adorned the doctrines of Christ and illustrated the practical principles of the gospel. As she was revered and beloved by her children, so was she most highly esteemed and respected by neighbors, acquaintances and friends. To know her was to love her.

During a protracted and painful sickness which terminated in death, the writer of this brief notice frequently and freely conversed with her, and at each interview, was fully satisfied with her Christian experience. Her faith seemed to increase in strength and she appeared to enjoy and delight in the exercises of religious meditation and prayer. She earnestly invoked the blessing of God and requested the prayers of his people, and, it is confidently believed, was reconciled to the divine will and has entered the celestial Paradise. As her purity of character was almost and unobtrusive on her part, in the view of the world, was calm and serene rather than rapturous or ecstatic.

Let not the bereaved family mourn and sorrow as those who have no hope, but prepare for a happy reunion with their adopted mother in the holy and inclosure of blessedness and joy where the circle of purified friendship can never be broken, and separations shall never be permitted.

"Thou'rt gone to the grave but 'twere wrong to deplore thee,
When God was thy ransom, thy guardian and guide;
He gave thee and took thee, and soon will restore thee,
Where death has no sting, since the Savior has died. COM.

Rocky River Academy.

THE present session of this Institution will close with a Public Examination, on Friday the 4th of June. The exercises of the Examination will be conducted during the day. The young men will entertain their friends with well selected and elegant speeches at night, while they propose having the Grove around the Academy beautifully illuminated. Friends of education are respectfully invited to attend the exercises throughout.

The exercises of the next session will commence on the third Monday (19th) of July next. It is hoped that students will attend punctually at the beginning of the session, as the harmony of the school and the success of the students depend much on early attendance, as well as diligent, persevering application to study during the session. The Principal pledges his untiring, unshrinking efforts to the moral and intellectual training of those placed under his care. He is prepared to accommodate some eight or ten boarders, and good boarding can be had at other places convenient to the Academy at $7 and $8 per month. Tuition as heretofore. Tuition fees due at the close of each session.

Wood's Hair Restorative, that to say we were compelled to send to Boston for a quantity, (the 6 dozen you forwarded all being sold,) while we might order a quantity from you. *Every bottle we have sold seems to have produced 3 or 4 new customers* and the approbation, and patronage it receives from the most substantial and worthy citizens of our vicinity, fully continues us the UNE A MOST VALUABLE PREPARATION.

PROF O. J. WOOD.—Dear Sir: Some time last summer we were induced to use some of your Hair Restorative, and its effects were so wonderful, we feel it our duty to you and the afflicted, to report it.

Our little son's head for some time had been perfectly covered with sores, and some bulled it scald head. The hair almost entirely came off in consequence, when a friend, seeing his sufferings, advised us to use your Restorative, we did so with little hope of success, but to our surprise, and that of all our friends, a very few applications removed the disease entirely, and a new and luxurious crop of hair soon started out, and we can now say that our boy has as healthy a scalp, and as luxurious a crop of hair as any other child. We can therefore, and do recommend your Restorative, as a perfect remedy for all diseases of the scalp and hair. We are, yours respectfully,

PROF. O. J. WOOD—Dear Sir: I have used 2 bottles of Professor Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the Hair. Before using it I was a man of seventy. My Hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind.

Yours, respectfully,
DANIEL N. MURPHY.

THE undersigned is prepared to sell the best quality of Cotton Gins, with 18 inch saws at 92 per saw, delivered at the landings of the Charlotte, York and N. C. Rail Roads. The brush being covered with an inclosure of cloth and being more easily repaired and at less expense.

As regards the speed of these Gins, quality of lint and discharge of clean seed, I would refer to M. L. Wallace, Morrow's T. O., to E. G. Palmer, Fairfield, and A. B. Davidson, Charlotte.

CORN is up some at the quotations in table.

FLOUR is dull and a shade lower. We now quote from $4½ to $4 per bbl.

COLUMBIA MARKET.

COLUMBIA, May 22, 1858.

COTTON.—There is still an active demand for cotton, but the supply offering continues light; prices are dull and firm, and fair commands 10 cents readily, and choice a shade higher.
