TERRIFIC PERFORMANCE OF BLONDIN.

On Wednesday last, Blondin, the Rockeer, gave another terrific performance on his rope bridge over the chasm of Niagara. The *Advertiser* says:

After an interval of about twenty minutes he again made his appearance on the rope, this time with a picture taking apparatus on his back. Advancing some two hundred feet from the shore, he stopped, lashed his balance pole in front of him, and took a "likeness" of the people and the shore—at least, we suppose he did, for he said he was going to, and he squared himself, leveled his machine, and took aim through it, these points generally do—two circumstances which would go to show that the "picture was took." Having evidently completed this to his satisfaction, he shouldered his machine, unlashed his balance pole, and went ahead backward to the place whence he came. It may be well to remark, that this is the only time we ever knew Blondin to look out.

In a few minutes, the little man was seen coming toward America attached to a heavy, lumbering chair. When about a third of the way out, he placed the chair upon the rope, and seated himself thereon, crossed his legs, and gazed around with apparent unconcern. He then adjusted two legs of the chair on the cable, and again seated himself. Coming nearer to the American shore, he again stopped and sat slowly and then got up and stood in the chair! When we consider that this is done on a single cable stretched at a height of more than two hundred feet over one of the most fearful chasms and torrents in the world, it seems absolutely miraculous.

THE REIGN OF HOOP SKIRTS OVER.—A New York correspondent writes: "The indications are unmistakable that the reign of hoop skirts is soon to cease, so far as the leaders of ton are concerned. However notable a "new fashion" may be, however extensive its adoption, however becoming its style, and however desirable its perpetuity, there is one point beyond which it may not go. The moment its price reaches that low-tide depth which brings the new style within the compass of every one's purse, that moment its knell is sounded, and its doom is sealed. Fifth Avenue exclusiveness, and Cow Bay gregariousness, may never adjust their differences and harmonize their discords by the partnership of Fashion and Poverty. The possessors of wealth will never cling to that which they cannot appropriate and control. And when the veriest Biddy can so cheaply distend her proportions as to crowd out of doors her own mistress, it is safe to infer that the fabric of Fashion which tempts such indiscriminate fellowship is speedily destined to topple over. The skirt mania has finally reached its point. No change in form, no variation in curve, or length, or breadth, can now avert the catastrophe. Our business avenues are skirted and lined with specimens of suspended dimensions of every sort and at ridiculously reduced prices. Twenty five cents will buy a ten hoop article, and ten shillings will secure the ownership of one of thirty-two hoops. As compared with former rates, these prices seem to promise a good time coming, when hoop skirts shall be given away—with no very exciting demand at that. The stock on hand is immense. Not a shop of the least pretence is without its assortment. The manufacturers have glutted the market, and are far in advance of the public demand. The lowest level has been reached, and now we may look for the speedy limitation of the steel hoop mania.—The expensive is no longer synonymous with the expensive, and Fashion will not fraternize with Folly in sustaining any style which it cons next to nothing to support.

INK STAINS.—Editors of the New York World: In a visit to Marseilles, a little incident came within my observation which may prove serviceable to many of your large class of readers. In the *Hotel des Empereurs*, where I was residing, an ink stand was accidentally overturned upon a beautiful table spread; those present thought that the cloth was ruined. A servant being called in to remove the article from the table, all were surprised when he assured us that no harm had been done, and more surprised still at witnessing the successful means resorted to for removing the ink stains.—The servant sprinkled over the cloth a quantity of pepper and salt, and rubbed them over its surface. The mixture soon absorbed every portion of the ink, and the table spread was in as good a condition as before the accident. The spread was of woolen fabric. I have never had any occasion for testing the merits of this simple mixture when applied to other clothes, but it certainly would not be attended with any bad results. A READER.

READ OUT.—Frank I. Wilson, Esq., was formally read out of the Democratic party by Hon. W. W. Avery, at Bynum's store in McDowell county, a few days ago. We have had the pleasure of meeting Frank I. since his "excommunication," and he authorized us to say to the public, that he is now as good a Democrat as he ever was, and that he has ever been as good as those who are now attempting to read him out of the party.—*Rutherford Enquirer.*

Washington despatches mention a rumor that there is a well organized movement in several of the Southern States looking to a dissolution of the Union, on the plan promulgated by Mr. Keitt. It is alleged that agents have already gone abroad to ascertain what course England and France will pursue in the event of the establishment of a Southern Confederacy.

THE OXYGENATED BITTERS.

Are believed by many who have been cured of the above complaints to be the only medicine which the *materia medica* affords for their infallible cure. It is not an alcoholic preparation, which, while giving a momentary stimulus, reduces the system in the same ratio; but one distinct and different from any medical preparation ever compounded, and will, in most cases, extract the disease by the roots and restore the patient to pristine health. In proof of which, testimony of the very highest and unexceptionable character is presented.

$500 REWARD.

RUNAWAYS

FROM the subscribers, 6 miles north-east of Lincolnton, N. C., on Wednesday the 25th of July, a negro man named

THORTON.

Said negro is a bright mulatto, with hair straight, is about 22 years old, 6 feet, 1 or 2 inches high, weighs about 175 pounds, no particular marks about his person remembered. He was raised by *Henry* Thompson, in the upper part of Lincoln District, near Enoree River, who sold him to William *Hunter*, about a year ago.

Also, on Sunday night, the 29th of July, runaway from the same plantation, two other negro men. One is named

JIM,

about 21 years old, is of a dark mulatto color, weighs about 155 pounds, is 5 feet, 6 or 7 inches high, quick spoken and very intelligent. The other boy is named

FREDERICK,

and is about the same age and height, though not quite so tall as Jim, and is of a dark brown or copper color, and rather slow spoken, though very intelligent. No particular marks are remembered about the person of either of them. They were both bought by the subscriber, Jas O. *Hunter*, in Richmond, Va., about the 1st of June last, and brought by railroad by the way of Raleigh and Charlotte, N. C., and Columbia, S. C. to Laurens District, S. C., in company with sixteen or eighteen other negroes.

It is supposed they are attempting to make their way back to Virginia, either along the line of the railroads, or by a more direct course, across the country, and it is very probable that the three above described negroes are in company, either lurking about in the neighborhood of Thompson's, in this District, or on their way to Virginia.

We will pay the sum of SEVENTY FIVE DOLLARS for the safe delivery of the three above described negroes into the Jail of this District, or any other Jail in this State, North Carolina or Virginia, so that we can get them, or TWENTY-FIVE DOLLARS for the safe delivery in Jail of either Jim or Robert.

We will also pay the sum of FIVE HUNDRED DOLLARS to any person who will furnish sufficient legal testimony for the conviction of any white per on or persons for enticing, or aiding and assisting either one of said negroes, in running away, or of harboring them while runaways.

THE NORTH CAROLINA

WHITE SULPHUR SPRINGS

WILL BE OPENED FOR VISITORS BY the 1st of JUNE next. They are situated in a most healthy mountainous country near the beautiful CATAWBA RIVER, within less than an hour's ride of the present terminus of the WESTERN N. C. RAIL ROAD with which daily lines of Omnibuses and Stage Coaches connect the Springs.

Pleasure vehicles and superior saddle horses will be at the call of guests.

Bowling Alleys and Billiard Saloons

neatly fitted up.

A FINE BAND OF MUSICIANS

engaged for the season, and

QUADRILL AND COTILLION PARTIES

each evening FREE OF EXTRA CHARGE.

THE BUILDINGS

are new and spacious—

THE PLEASURE GROUNDS

extensive; and in fine, everything wished for at the best watering places, will be found here to refresh the inner man and to cheer the spirits.

The Extended Reputation

and the MEDICINAL properties of the waters (almost inaccessible before the completion of the Western N. C. Railroad) now hail the sick and afflicted with a cordial welcome. The experience of the Proprietor justifies the seeker of health or pleasure in anticipating a "good time coming."

The Proprietor has been at very great expense in fitting up a Watering Place commensurate with the wants of the CAROLINAS and confidently relies on their generosity for encouragement.
