From the Savannah Republican.

Counterfeit Confederate Notes.

$100.—The sailor is in the left hand and leans upon an anchor; diagonally across the vignette from left to right, in the genuine there is a hair line very distinct, (as if the stone from which the impression was taken had been broken or cracked. In the counterfeit there is no such blur or hair line. In the centre vignette, right side, near the Cotton press, is a mule—in the genuine it is very indistinctly executed, and the mule looks as if he were walking from you, presenting only a tail view—in the counterfeit it is much plainer, and the mule presents almost a broadside view.

$50.—In the genuine on the left hand and the sailor that is leaning forward, is partly bald—in the counterfeit a more full head of hair; have seen none signed, except on the left, M. C. Riggs, letter A small, letter D. to the right of the A.

The knob or handle on iron chest is not on the counterfeit.

$10.—The sailor in the left-hand corner again betrays the counterfeit.

In the genuine the crown of the sailor's hat is very much broader than in the counterfeit—the shading lines in his jacket, in genuine, run square across the body—in the counterfeit they run diagonally across the body.

The paper of the counterfeit is whiter, stiffer, and better than the genuine.

With these tests there will be no difficulty in discriminating between the genuine and the spurious notes.
