MARSHALL COURT, Nov. 11th.—A colored man named Archy Newby, arrested corner Market and Front streets, for giving insolence to the Rev. A. P. Repiton, was released by request of the latter without further punishment.

George Hagart, colored, arrested on Market street, charged with stealing a pair of shoes from the store of Solomon Rehr, was committed to the cell until he should pay the fine of $25 00.

Isaac Potter, white man, was arrested on Third street, too drunk to navigate. Not exactly sober when brought before His Honor, he was returned to the lock-up until his nerves should become more steady.

William Baker, a white man, aged about 60 years, and native of Ireland, was arrested and imprisoned at his own request. He was friendless and moneyless, and desired to secure a comfortable place to pass the night. After promising to leave the town on the following morning was discharged.

August Anke, a small boy about five or six years of age, was arrested on Friday afternoon by Policeman Hugh McDonald, on the charge of stealing a barrel. The Chief of Police on learning of the arrest of this child, immediately ordered his release.

It appeared upon the examination that McDonald was drunk and otherwise acted very unlike a police officer, for which he was "dismissed the service."

Jim McNeill, a colored boy, was committed to the cell for three days, on a diet of bread and water, for stealing cotton from the wharf of Harriss & Howell.

FIRE.—An alarm of fire last night about ten o'clock, proceeded from the burning, or partial burning, of some thirty or forty bales of cotton on the wharf of the Wilmington and Manchester Rail Road, between Chestnut and Mulberry streets.

SPECIAL MAGISTRATE'S COURT.—On Saturday morning at 10 o'clock, Justice Conoley examined the case of R. Bate, who was committed to jail upon suspicion of inflicting the wound upon Henry Howard, which caused his death.

It appears that the deceased on last Tuesday afternoon entered the store of Bate, on Market street, and while there acted in a very indecent manner, for which he was forcibly put out by the latter.

Mr. Charles Bradley and Walter Furlong testified that the deceased was ejected from the store backwards, and fell very heavily upon the pavement, but by whom they did not know.

He was then taken to the guard house by one or two policemen, and appeared as if he were suffering great pain on the way. Also on being much he was released he also appeared to be suffering considerably from some internal injury. On Thursday or Friday morning he died, and Coroner J. C. Wood immediately held an inquest upon the body. The verdict of the jury we have already given.

Bate acknowledges to have put the deceased out of his store; in the act of which he is supposed to have inflicted upon Howard the wound from which he died.

The accused was admitted to bail in the sum of three thousand dollars for his appearance before the first court having cognizance of his case.

HIGHWAYMEN.—We heard yesterday evening, a report of the stage between Warsaw and Fayetteville being halted sometime last week, by a mounted and armed man, who demanded the money of the passengers, firing into the party, wounding two. Some other gentlemen coming up, he made off. We have been unable to learn any further particulars.

WANTED.—A few *old* axe helves are wanted at this office. A fair price will be paid for a *good, old* article.

REBUILDING OF THE TEMPLE.—The Jews, both in this country and Europe, have for several years past been making great efforts to raise subscriptions for the rebuilding of the Temple at Jerusalem, permission to that effect having been given by the Turkish Government. There is a sublimity of purpose about the movement which must claim the respect and sympathy of all Christendom.

A Strange Story—Remarkable Discovery.

Mr. James Lumley, an old Rocky Mountain trapper, who has been stopping at the Everett House for several days, makes a most remarkable statement to us, and one which, if authenticated, will produce the greatest excitement in the scientific world.

Mr. Lumley states that about the middle of last September he was engaged in trapping in the mountains, about seventy-five or one hundred miles above the Great Falls of the Upper Missouri, and in the neighborhood of what is known as Cadotte Pass. Just after sunset one evening he beheld a bright luminous body in the heavens, which was moving with great rapidity in an easterly direction. It was plainly visible for at least five seconds, when it suddenly separated into particles, resembling, as Mr. Lumley describes it, the bursting of a skyrocket in the air. A few minutes later he heard a heavy explosion, which jarred the earth very perceptibly, and this was shortly after followed by a rushing sound like a tornado sweeping through the forest. A strong wind sprung up about the same time, but as suddenly subsided. The air was also filled with a peculiar odor of a sulphurous character.

These incidents would have made but slight impression on the mind of Mr. Lumley, but for the fact that on the ensuing day he discovered at a distance of about two miles from his camping place, that, as far as he could see in either direction, a path had been cut through the forest, several yards wide—giant trees uprooted or broken off near the ground—the tops of hills shaved off, and the earth plowed up in many places. Great and wide-spread havoc was everywhere visible. Following up this track of desolation, he soon ascertained the cause of it in the shape of an immense stone that had been driven into the side of a mountain. But now comes the most remarkable part of the story. An examination of this stone, or so much of it as was visible, showed that it had been divided into compartments, and that in various places it was carved with curious hieroglyphics. More than this, Mr. Lumley also discovered fragments of a curious substance resembling glass, and here and there dark stains, as though caused by a liquid. He is confident that the hieroglyphics were the work of human hands, and that the stone itself, although but a fragment of an immense body, must have been used for some purpose by animated beings.

Strange as this story appears, Mr. Lumley relates it with so much sincerity that we are forced to accept it as true. It is evident that the stone which he discovered was a fragment of the meteor which was visible in this section in September last. It will be remembered that it was seen in Leavenworth, in Galena, and in this city, by Col. Bonneville. At Leavenworth it was seen to separate in particles, or explode.

Astronomers have long held that it is probable that the heavenly bodies are inhabited—even the comets—and it may be that the meteors are also. Possibly meteors are used as a means of conveyance by the inhabitants of other planets in exploring space, and it may be that hereafter some future Columbus, from Mercury or Uranus, may land on this planet, by means of a meteoric conveyance, and take full possession thereof, as did the Spanish navigators of the new world in 1492, and eventually drive what is known as the "human race" into a condition of the most abject servitude. It has always been a favorite theory with many that there must be a race superior to us, and this may at some future time be demonstrated in the manner we have indicated.

St. Louis Democrat.

"Whar," asked a renowned stump orator, who was running for the office of constable, "whar, my enlightened friends of the Sixty-sixth Militia district, was Andrew Jackson in the battle of New Orleans? Wur he thar? He wur. He wur ridin' up and down on a bobtail Arabian, a wavin' of a crooked sabre, up to his armpits in blood and mud, and a givin' of the British thunder; the genius of his country a holdin' of her egis over his head, cotton bales paveneering in front to pertect him from every danger, and the American eagle, with the stars and stripes in his beak, a soarin' aloft in the blue empyrean, cryin' Hail Columbia!"
