LIVER REGULATOR.

Simmon's Liver Regulator,

The symptoms of Liver complaint are uneasiness and pain in the side. Sometimes the pain is in the shoulder, and is mistaken for rheumatism. The stomach is affected with loss of appetite and sickness, bowels in general costive, sometimes altering with lax. The head is troubled with pain and dull, heavy sensation, considerable loss of memory, accompanied with painful sensation of having left undone something which ought to have been done. Often complaining of weakness, debility and low spirits. Sometimes many of the above symptoms attend the disease, and at other times very few of them; but the liver is generally the organ most involved. Cure the Liver with

DR. SIMMON'S

Liver Regulator.

A preparation of roots and herbs, warranted to be strictly vegetable, and can do no injury to any one.

It has been used by hundreds, and known for the last 40 years as one of the most reliable, efficacious and harmless preparations ever offered to the suffering. It takes regularly and persistently; it is sure to cure

NEW HAMPSHIRE ELECTION.

THE PRESS ON THE RESULT.

THE RADICAL ORGAN IN CONCORD ON THE CAUSES OF THE DEFEAT.

Boston, March 15.

The Concord (N. H.) *Statesman* thus sums up the causes of the Republican defeat:

Had Charles Sumner not been forced from his place as chairman of the Senate Committee on Foreign Relations the Republican vote would have been larger. Had the Santo Domingo scheme been left to the operation of natural causes instead of being pushed with unreasonable persistence it would have been larger. Had Congress succeeded in restoring our commerce to the extent and importance it had before the rebellion it would have been larger. Had some of the financial bills, however wise and just in themselves, been discreetly deferred until the public understanding had grown up to them it would have been larger; and had all these causes of embarrassment been withheld we might have carried the State by nearly the usual majority, in spite of the demoralization produced in the party by the forcing upon it of unpopular nominations made in packed caucuses.

GENERAL GRANT RESPONSIBLE.

From the New York Sun, (Rep).

The source of all the difficulty is Grant's Administration; the primary spring is Grant himself. Beneath criticism as a statesman, a dreary failure as a politician, without a single quality for the leadership of a great party, not having the faintest idea of the responsibility or dignity of his position, intent mainly upon elevating needy relatives and ample servitors to places of profit, eager himself to receive presents and accumulate money, and pushing his only measure—San Domingo—for most doubtful reasons, he has lost all hold upon the better elements of the organization which intrusted him with power, and which, now that he begins to suspect that it intends to deny him a renomination, he seems bent upon ruining. In tones of thunder New Hampshire tells the Republicans of the Union that if they would save the life of their party they must get rid of Grant.

COMPLICATION OF CAUSES.

From the N. Y. Journal of Commerce (Ind.)

To find all the causes that produced the defeat, we should have to recount every instance of jobbery and fraud sanctioned by the last Congress, to foot up the millions of the people's money that have been wasted in infamous schemes in which members had a direct or contingent interest, to recite the shameful history of the income tax, the unjust legislation toward the South, the bold interference of the government in State elections, the President's appointment of so many of his relations to office, the San Domingo job and the outrage upon Mr. Sumner.

QUARRELS, LIQUOR, AND ALMONE THE TROUBLE.

From the Tribune.

New Hampshire has not become Democratic. This vote means mainly, if not wholly, Republican apathy, born of overconfidence and the continuous triumphs of sixteen years, and Republican dissafection, engendered by local quarrels, liquor, and the unwise and untimely Sumner trouble. It is not by the continuance of such causes that parties are saved; and if the lesson is to be learned, in time for 1872, it has been given us a month too soon. Let us take it for warning and incitement; and close up the ranks.

WILL THE WHITE HOUSE HEED THE WARNING?

From the Springfield Republican.

Experience keeps a dear school, but the present administration at Washington is determined to learn in no other. The first lesson the result in New Hampshire yesterday is commended to the careful study of all the White House generals, from Grant, to whom the country has been grateful, to Dent, who to the country has become hateful. * * * The immediate cause of all this must have been that thousands of the Republican voters staid home, while the Democrats and labor men rallied in good numbers. But why did the Republicans stay at home? Because they have lost confidence in the administration of General Grant, especially since the fearful plunder of last week. The removal of Mr. Sumner at Executive dictation is probably the active cause of the partial defeat of the Republicans in New Hampshire. There is no State in the country, perhaps, where the old-fashioned Republicanism that elected Lincoln and carried the war through to success, is as strong in the hearts of the voters of that party as it is in New Hampshire. * * * Will the white House and its retainers heed the warning?

THE DEMOCRACY WILL GO INTO HYSTERICS.

From the Boston Journal, Rep.

Of course the Democracy will go into the very hysterics of exultation over this result, but the Republican masses and their representatives in the government can well afford the experience if they only appropriate its free lessons. If the instruction was inevitable it could not have come at a better time.

HYSTERICS AS IT WAS EXPECTED.

From the Washington Chronicle, Rep.

The Democratic triumph in New Hampshire is as unwelcome as it was expected. Knowing as we did the canvass, we felt, till within a day or two, reasonable hope of entire success. The defeat is unquestionably to be traced to the recent events in the Senate. Many Republicans were pained and disheartened by the sharp debate and the apparent division in the party, and refused to vote. We regret that this election occurred before the people had full time to consider and rightly estimate the real importance of the matter in all its bearings. If then they recorded their disapproval, it would be decisive and effective.

THE DEFEAT CHARGED UPON THE SUMNER FACTION.

From the Providence Journal (Sculle Colfax's paper.)

The foolish and unjustifiable bolt against General Stevens weakened the integrity of the party; and then for the last few days the Republican papers and speakers have thought it best to join the Democrats in an outcry against the President and the majority of the Republican Senators—against the Administration, in fact, by which the party must stand or fall. The leading Republican daily in the State on Monday teemed with such expressions as these—"indignity heaped by Senator Morton and his associates upon Senator Sumner"—"the perpetrators and instigators of that proceeding, including President Grant himself"—"deliberate conspiracy"—"personal government not to be tolerated"—and so on, with hardly a dozen lines pertinent to the pending contest in the State. The Republican leaders seem to have had an idea that they could best fight their battle by putting on the badge and assuming the slogan of their enemies. While we regret the result of their ill-considered tactics, their fate must serve as a warning to those who may hereafter be disposed, on the eve of a close political contest, to float the banner of their party under which alone can success be achieved.

THE CHANGE A DECISIVE ONE.

From the Boston Post (Dem.)

The news from New Hampshire will gratify every Democratic heart. The reaction has begun, and gloriously. The canvass, which has been a comparatively quiet one, has nevertheless, been remarkable for the hard, unremitting labor on the part of the Democrats, and they have their reward in the result. The change is a decisive one, and foreshadows the great revulsion that has taken place all over the United States.

IT'S OF NO CONSEQUENCE ANYHOW.

From the Albany Journal (Rep.)

We have no desire to gloze it over, or to break the force of any just weight to which it is entitled. It is not portentous of any extended reaction. It does not signify that New Hampshire has renounced her allegiance to Republican principles. But it may and should serve as a useful warning against insensate bickerings and foolish contentions calculated to impair the harmony and fritter away the strength of the party. * * * The New Hampshire election does not menace the supremacy of the Republican party.

A REPUBLICAN PAPER ADMITS THAT THE MISSION OF THE PARTY IS NEARLY ENDED.

From the Newark, N. J. Advertiser, Rep.

The reformatory mission of the Republican party is pretty well ended. It has already destroyed the gigantic evils which summoned it into the field, and now there comes a lull and calm in which the questions of debt, finance, tariff and administration are taking precedence. If we now shelter that which we have rescued, maintain the liberty we have conferred upon four millions of our brother men, and protect the rights of all citizens to free speech and free action, we do all that seems to be demanded. We cannot disguise the existence of a crisis in the life of the party. It has lost its old power of appeal to the future, and an appeal to the past, in a republic, is of no account.

THE PEOPLE TIRED OF RADICALISM.

From the Syracuse Courier—Dem.

The great victory for the Democracy shows that the people, tired of the extravagance of the party in power in the nation, have resolved to remind the corruptionists that their days are numbered, by their action they repudiate the President for the recent insult offered by him to Senator Sumner. It is also a verdict against the "reconstructing" tendency of the Radical members of Congress who avow their determination to rule the Southern States by the bayonet, and it is a protest against the corrupt measures passed by a blundering Congress and signed by the venal chief of the nation.

The Prospect Ahead.

There seems to be an increasing disposition on the part of the Republicans to adjourn next week, the Democrats being sure to help them in so doing. The resolution of the Republican caucus instructing the committee on the Judiciary to report a bill for the protection of life and property in the late insurrectionary states is yet to be acted on. It is doubtful, however, whether that committee will report during the present session, and there is no prospect of the passage of Butler's bill.

NEW ADVERTISEMENTS.

WALTHAM WATCHES.

The extensive use of these watches for the last fifteen years by Railway Conductors, Engineers and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-keepers.

More than 500,000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham, enables them to produce watches at a price which renders competition futile, and those who buy any other watch merely pay from 25 to 50 per cent. more for their watches than is necessary.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watch-making originating in this country or in Europe, only those were finally adopted which severe testing by the most skillful artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would particularize:

The invention and use of a centre pinion of peculiar construction, to prevent damage to the train by the breakage of main-springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's patent pinion as being the best and faultless.

Hardened and tempered hair-springs, now universally admitted by Watchmakers to be the best, are used in all grades of Waltham Watches.

All Waltham Watches have dust-proof caps, protecting the movement from dust, and lessening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or keyless watch is already a decided success, and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in portions of the United States where watchmakers do not abound, watches with the above mentioned improvements which tend to ensure accuracy, cleanliness, durability and convenience, must prove invaluable.

The trademarks of the various styles made by the Company are as follows:

AMERICAN WATCH CO., Waltham, Mass.
AMR. WATCH CO., Waltham, Mass.
AMERICAN WATCH CO., Crescent St., Waltham, Mass.
APPLETON, TRACY & CO., Waltham, Mass.
AMERICAN WATCH CO., Adams St., Waltham, Mass.
WALTHAM WATCH CO., Waltham, Mass.
P. S. BARTLETT, Waltham, Mass.
WM. ELLERY, Waltham, Mass.
HOME WATCH CO., Boston, Mass.

Examine the spelling of these names carefully before buying. Any variation even of a single letter, indicates a counterfeit.

For sale by all leading jewelers. No watches retailed by the Company.
