ZERMAN'S CELEBRATED TOOTH WASH!

THIS superior preparation daily gains favor with the public, for Cleansing, Preserving and beautifying the TEETH, and for curing soreness, bleeding, or ulceration of the GUMS, and imparting a healthy and fragrant order to the BREATH. A trial is only wanted to convince all of its superior virtues, for preserving the Teeth from decay; and if the Teeth have commenced to decay, it will arrest its progress, by the purification it renders them. Read the following testimony, and at once procure a bottle of this delightful preparation for the Teeth, Gums and Breath.
The following certificate from Dr. Chilton, a chemist of world wide celebrity, who has submitted the article to a chemical analysis, is proof sufficient to convince any one of its superiority.
"I have examined a bottle of Zerman's Anti-scorbutic Tooth-wash, and find it to be a vegetable preparation of an innocent character, believe it will prove beneficial for the purpose it is recommended.
JAMES R. CHILTON, M. D. Chemist
Prepared only by FRANCIS ZERMAN, Druggest, Philadelphia, and sold Wholesale and Retail by C. & D. DuPRE, Wilmington, N. C, and by all Druggists, at 25 cents per bottle. [Nov. 22, 1854.—67-3m*

$50 REWARD.

THE above reward will be given for the apprehension and return to me, or the lodgment in jail, of my negro man GEORGE BETTS, who runaway on Wednesday evening last. He is a tall mulatto about 26 or 27 years of age, well known about town, a carpenter by trade, and was purchased from Mrs. BERRY, of this place.—He is most probably lurking about town.
I will give a further reward of $25 for evidence sufficient to convict any person of harboring or employing said boy.

PREPARED CITRATE OF MAGNESIA, an agreeable Refrigerant and Laxative. This preparation is extensively used in the form of *Solution* or *liquid Citrate*, and has given very general satisfaction. Frequent applications for a preparation in the form of POWDER, of similar nature and properties, have suggested the advantages that might result from its introduction in that form, especially when the bulk and weight of the *liquid Citrate*, (an article so justly esteemed both by physicians and in private families wherever it has been used,) would interfere with its being sent to great distances; it is destitute of bitterness, and by its pleasant acidity of taste and its effervescing character, is rendered a very agreeable and refreshing drink, at the same time, that it is a good substitute for Epsom salts or other saline purgatives.
