The Daily Review.

JOSH. T. JAMES, Editor & Prop.

WILMINGTON, N. C.

FRIDAY AUGUST 26, 1887.

Entered at the Postoffice at Wilmington, N. C., as second-class matter.

Surveyor General Julian's report concerning land jobbery in New Mexico directs attention to frauds which were already notorious, but repeated exposure of them will do no harm. One year ago he reported, as the result of examinations made by him up to that time, that 1,600,308 acres of public land in the Territory had been unlawfully withdrawn from entry by the official recognition of invalid titles and fraudulent surveys. During the past year he has continued his investigations and he now enlarges his estimates to 4,000,000 acres. Of this area 415,000 acres are in one fraudulent grant and 750,000 acres in another. What shall be done about it? Mr. Julian recommends that suits be brought for the recovery of the land. The result of the Government's suit with regard to the notorious Maxwell grant is not encouraging to those who ask that land thieves shall be brought to justice and compelled to surrender their plunder.

Cholera is always to be found in India, where the mortality from this cause in 1885 was about 500,000, but the disease usually does its work for the most part in the district extending 200 miles on each side of Calcutta and northward to the slopes of the Himalayas. It is surprising, therefore, that it should have slain 70,000 persons in the northwest provinces during June and July. The disease appears to have been especially virulent in the city of Peshawur, on the frontier, from which the British are building a railroad into Northeastern Afghanistan. The plague seems to be separated from the advancing Russians only by the Hindu Koosh Mountains. Possibly one result of Russian conquest in Central Asia will be the introduction of cholera into Southern Russia by way of the trans caspian line, as French aggression in Tonquin brought the same terrible plague to Toulon and Marseilles.

Twenty-four years ago Peter B. Lessing, now constable of Pottsgrove township, Pa., was a member of the 6th Pennsylvania cavalry, and in a fight at Brandy Station, Va., had a hand-to-hand conflict with a Confederate trooper, which ended in Lessing giving the Southerner two vicious sabre cuts across the head and shoulder, so that he fell from his horse as if dead. The other day Lessing went to a circus at Pottstown, and the ring master's appearance attracted his attention. Lessing was surprised to find the same tall, slender, black-moustached individual looking him in the face who had done his best to cut him down at Brandy Station in '63. A moment later the two were shaking hands. The ring master owned up that Lessing's sabre cuts and a minnie ball had relegated him to the hospital for a time with what were supposed to be fatal wounds, but he recovered, and was with Lee at Appomattox on the day of final surrender.

Recent German papers give some results of the existence of color blindness on German railways which are of especial interest here just now. The inquiry, which has lasted seven years, was extended to seventy-nine railways. Of 104,743 persons tested from April 1, 1882, to July 1, 1886, 850, or .81 per cent. were found to be color blind. Of 239,726 persons tested up to July of last year, 1,934, or .81 per cent. were color blind, while of 145,456 officials and other servants employed on the seventy nine railways on July 1, 1886, 100 were entirely and 441 partially color blind, a percentage of .37. The methods of testing were chiefly the Stilling method, by means of color plates, and the Holmgren method, by means of colored woollen threads, which is that most relied on in this country. In 16,201 cases the test was repeated, and 305 times did the results differ from former results. The officials of the German railways who are color blind have been given duties in the discharge of which their incapacity can have no ill result, so that there is no danger in their continued employment.

I have been an annual sufferer from Hay Fever for 40 years. It recurring about Aug. 20th each year. For several summers I have used Ely's Cream Balm with excellent results. I am free from any Asthmatic symptoms. I hope many sufferers will be induced to try the remedy.
GEORGE EARP, Baltimore, Md.

I have been afflicted with Hay Fever from early in August until frost. My eyes would run a stream of water and I sneezed continually. I was advised to use Ely's Cream Balm. It has worked like a charm and I can say I am entirely cured. Mrs. EMELINE JOHNSON, Chester, Ct.

It Astonished the Public

to hear of the resignation of Dr. Pierce as a Congressman to devote himself solely to his labors as a physician. It was because his true constituents were the sick and afflicted everywhere. They will find Dr. Pierce's "Golden Medical Discovery" a beneficent use of his scientific knowledge in their behalf. Consumption, bronchitis, cough, heart disease, fever and ague, intermittent fever, dropsy, neuralgia, goitre or thick neck, and all diseases of the blood are cured by this world renowned medicine. Its properties are wonderful, its action magical. By druggists.

A Chicago clergyman has been forced to resign for offending some of his rich pew-holders by preaching too plainly against the wickedness of grinding down the working girls by long hours and semi-starvation pay.

Advice to Mothers.

MRS. WINSLOW'S SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

On the Raleigh and Augusta Air-Line R. R.

1,500 ACRES OF LAND IN THE long leaf pine region. For sale on easy terms in lots to suit purchasers. Four acres for $25. Larger tracts $5 per acre, in monthly payments of $10. This land adjoins the "Southern Pines", a recently established health resort (or sanitarium), and is specially adapted for Fruit Culture, as well as all the cereals. A number of New England people have bought lots in the town of "Southern Pines," and it is the desire of the owners of this land to induce small farmers, mechanics and others from the New England and Middle States, as well as elsewhere, to locate here. No State in the Union offers greater inducements to settlers than North Carolina. Nowhere can a better farming country or as fine a climate be found. This is the opinion of Northern men who have settled in North Carolina. This is *bona fide* offer, and is limited.

MISCELLANEOUS. MISCELLANEOUS.

It returning thanks to you for my miraculous cure of eczema or salt rheum, I deem it advisable to give you a detailed account of my case, and as there is, and always will be a prejudice against advertised remedies, you have my consent to publish this testimonial, and all inquiries, by letter or in person, I will cheerfully answer. I do this that people who go on year after year paying out large sums of money to incompetent physicians and receive no cure, or even relief, or end in filling a premature grave, as was nearly my case, may be induced to make trial of the wonderful CUTICURA REMEDIES.

At the age of three months a rash made its appearance on my face. A physician was called he said teething was the cause, he prescribed some cooling medicine, but the sores spread to my ears and head. Another M. D. was called. He professed to know all about the case, called it "King's Evil", and prescribed gunpowder, brimstone, and lard mixed into a salve, but the disease continued. They could not do anything with it. Another prescribed borax water and flour; another, linseed poultices. None of them did me any good at all, but made me worse. The disease continued unabated; it spread to my arms and legs, till I was laid up entirely, and from continual sitting on the floor on a pillow my limbs contracted so that I lost all control of them, and was utterly helpless. My mother would have to lift me out and into bed. I could get around the house on my hands and feet, but I could not get my clothes on at all, and had to wear a sort of dressing gown. My hair had all matted down or fallen off, and my head, face and ears were one scab, and I had to have a towel on my head all the time in the summer to keep the flies off. My parents consulted a prominent physician and surgeon here in Chicago (the other physicians before mentioned were of Dundas and Hamilton, Canada) he said he could do nothing for me, that the chances were that I would grow out of it or that it would settle inwardly and kill me in time. He wanted to cut the sinews of my legs so that I could walk, but I would not let him, for if I did I feel I would have no control of them.

The disease continued in this manner until I was seventeen years old, and one day in January 1879, in the Chicago *Tribune*, I read an account of your medicines. They described my case so exactly that I thought, as a last resort, to give them a trial.

When I first applied the CUTICURA, I was all raw and bleeding from scratching myself, but when I applied it I went asleep almost immediately, something I had not done for years, the effect was so soothing.

The first morning after using it my face had no skin only on the end of my nose, which was a pink color. Next day it was kind of white, but it being painful, in about two weeks I could walk and straight, but not walk, I was week, but my sores were nearly well. I commenced the use of the CUTICURA RESOLVENT, and in three days I was worse than ever. I was one mass of pimples from the top of my head to the soles of my feet; they were painful would not do justice to the case in from two to four days they burst and left a small cake which dropped off and left the skin pure and the skin white, and as near as I can judge I was cured in about six to eight weeks, and up to this date (Oct. 1879 to January, 1887) I have not had any way, or have had the least signs of the disease reappearing in me. I have an excellent appetite, have the very best of health. My limbs are straight, supple and strong, have been exposed to all sorts of weather without the least signs of the disease yet. The only difference I find in myself is that my skin is finer, softer, and not so liable to get chapped as is other persons.

No doubt many persons will not believe this almost improbable story, many will think it grossly exaggerated. I don't blame them for it if they do, but to satisfy themselves, they can call or write to me and find out if what I have written above is true or not. There are many persons who can testify to the wonderful cure I have received by your CUTICURA REMEDIES. Gentlemen, let me again thank you for my cure.
W. J. McDONALD,
3,732 Dearborn St. Chicago, Ill., Jan. 1, 1886.

Nothing is known to science at all comparable to the CUTICURA REMEDIES in their marvellous properties of cleansing, purifying, beautifying the skin and in curing torturing, disfiguring, itching, scaly and pimply diseases of the skin, scalp and blood, with loss of hair.

CUTICURA, the great skin cure, and CUTICURA SOAP, an exquisite Skin Beautifier, prepared from it externally, and CUTICURA RESOLVENT, the new Blood Purifier, internally, are a positive cure for every form of skin and blood disease, from pimples to scrofula. Sold everywhere. Price, CUTICURA, 50c.; SOAP, 25c.; RESOLVENT, $1. Prepared by the POTTER DRUG AND CHEMICAL CO., Boston, Mass.

MERCHANTS, BANKERS AND MANUFACTURERS SHOULD READ

BRADSTREET'S

A WEEKLY JOURNAL OF TRADE, FINANCE AND PUBLIC ECONOMY.

Sixteen pages every Saturday. Oftentimes Twenty Pages. Sometimes Twenty four Pages.

FIVE DOLLARS A YEAR.

The foremost purpose of BRADSTREET'S is to be of practical service to business men. Its special trade and industrial reports and its synopses of recent legal decisions are exceedingly valuable. As commercial transactions, in the wider sense, are coming to be more and more conducted on a statistical basis, the information contained in BRADSTREET'S is of first importance to all.

THE GENERAL BUSINESS SITUATION THROUGHOUT THE UNITED STATES AND CANADA IS REPORTED BY TELEGRAPH TO BRADSTREET'S UP TO THE HOUR OF PUBLICATION.

SINGLE COPIES TEN CENTS.
