Navassa Guano Company.

The attention of farmers and all others interested is called to the advertisement of this Company in another column. Their celebrated fertilizer is becoming more and more popular with agriculturalists every day, and the growing demand for it is very encouraging to the Company, while it necessitates the enlargement of their facilities for supplying their numerous customers. They have numerous certificates from those who have used the guano on corn, cotton, tobacco and all small grain, attesting the entire satisfaction which it has given.

—McKean Buchanan is advertised to appear in Columbia, S. C., to-morrow evening, which is the time set for the opening of his engagement here. Judging from the tenor of the press criticisms of his performances we infer that our people have lost nothing by "Mack's" failure to come to time. We know they have too much respect for Will. Shakspeare to wish to see him inhumanly murdered!

Lowrey Commits a Highway Robbery.

Intelligence was received here, yesterday, to the effect that Henry Berry Lowrey has added another crime to the long catalogue which will one day be brought in judgment against him. Yesterday morning, between 9 and 10 o'clock, as Mr. John McNair was going along the road between Argile and Red Banks, in Robeson county, he was suddenly confronted by Henry Berry Lowrey and two or three of his gang, who forthwith demanded his "money or his life." To resist under the circumstances would have been the height of folly, so he succumbed with the best grace he could command and delivered over to the robbers all the money he had in his possession, together with a number of valuable papers. He was then allowed to proceed on his journey without further molestation.

Mr. McNair, who resides south of the Wilmington, Charlotte and Rutherford Railroad, about eight miles from Red Banks, has been peculiarly unfortunate, having, we understand, been robbed on several occasions previous to this by Lowrey and members of his gang of outlaws.

And still there is no remedy for these oft recurring outrages, the perpetrators of which become bolder and bolder as they see that they can commit them with impunity, and begin to realize the fact which is becoming patent to all that the county of Robeson is completely and entirely at their mercy.

A Wife's Chief Duty.

A wife acts not for herself alone, but she is the agent of many she loves, and she is bound to act for their good and not for her own gratification. Her husband's good is the end at which she should aim—his approbation is her reward. Self-gratification in dress, or indulgence in appetite, or more company than his purse can well entertain, are equally pernicious. The first adds vanity to extravagance—the second fastens a doctor's bill to a long butcher's account—and the latter brings intemperance, the worst of all evils, in its train.

Grand Diamond Gift Concert.

A series of Grand Diamond Gift Concerts for the benefit of the victims of the French war, will be held in Washington City on the 27th day of February. Some of the most substantial men of the country are connected with the enterprise. The circular states that 100,000 tickets, only, numbering from 1 to 100,000, will be sold, for the entire series—amounting to $1,140,000. Diamonds of the very finest quality, all justly and fairly appraised, will be given to holders of tickets, whether absent or present, without reservation. These diamonds range in value from $55 to $60,000, and altogether present the largest and most valuable collection of diamond jewelry in the world, comprising in all $800,000 worth. Tickets in this grand scheme can be had in this city.

The Concert.

The Concert at the Theatre last night, by the distinguished vocalist, Miss Adelaide Phillipps, assisted by Mr. J. Levy, the cornet player, and Messrs. Hoffman and Hasler, was a musical treat, the like of which our citizens have seldom enjoyed before. The audience were perfectly carried away by the sweet warbling of the beautiful and accomplished *artiste*, and *encore* after *encore* followed each successive piece. Mr. Lowry, also, fully established his claims as the best cornet-player in the world. Altogether the concert was one of surpassing excellence, and the only regret is that there were not more present to enjoy it.

Again in the Field.

Fishblate & Bros., are soon to commence business again in our city in the capacity of Superintendents for Louis Davis & Co., of New York. The Convention Act.

In to day's paper will be found the "Act concerning a Convention of the People," which finally passed the House yesterday and will certainly pass the Senate to-day, the report of the Committee of Conference merely requiring its assent.

The act provides for an election on Thursday, 13th of April. On the 4th of May the Governor is to compare the vote for and against the Convention, and if a majority be found to be in favor of the Convention, then the Governor is to convene the delegates elect on the *fourth Monday in May*.

The 10th section defines the general powers of the Convention and then provides the following restrictions:

It shall not interfere with the Homestead.

No court is to be allowed to modify, change or reverse the decision of the present Supreme Court on the Homestead.

No person in the State shall be discriminated against on account of race, color or previous condition, but shall be secured in all the rights now guaranteed by the 13th, 14th and 15th amendments to the Constitution of the United States.

Payment for loss sustained by reason of the emancipation of slaves shall not be provided for.

Corporeal punishment for criminal offences shall not be provided for.

The present system of public schools shall not be abonished.

Property qualification for voters or officers shall not be required.

The present ratio between the poll and property tax shall not be changed.

The poll tax for ordinary State and county purposes, shall not be raised above two dollars.

No ordinance shall be passed of a general legislative character, with the exceptions therein named.

The Constitution, when amended, shall be submitted to a vote of the people for ratification or rejection.

The Convention shall not interfere with the provision in the present Constitution which provides for a mechanics and laborers' lien.

The clauses in the present Constitution against the right of secession, and which declare that every citizen owes paramount allegiance to the Government of the United States, shall not be interfered with.

To secure the observance of these and other restrictions, and to secure the faithful performance of the duties imposed upon the delegates, the 12th section prescribes a stringent oath of office.—*Raleigh Sentinel.*

LEGISLATIVE SUMMARY.

We make up the following summary of the proceedings of the Legislature from the report in the *Sentinel*:

SENATE.

FRIDAY, Feb. 3, 1871.

Mr. Graham, of Orange, from Finance Committee, reported favorably on a resolution in favor of Benj. A. Howell, late Sheriff of Robeson county.

Mr. Norment moved that the rules be suspended and the resolution be put upon its several readings. Agreed to, resolution passed, ordered to be engrossed and sent to the House of Representatives.

Mr. Cowles moved to take up bill to be entitled an act to amend the charter of the Bank of Statesville and put upon several readings. Rules suspended and the bill passed.

Mr. Council asked suspension of the rules in order to take from the calendar bill to incorporate the North Carolina Manufacturing Company. Rules suspended, bill amended and passed.

Mr. Olds moved to suspend the rules and take from the calendar the resolution concerning the sale of swamp lands. Rules were suspended and resolution read, and after some debate Mr. Warren moved to recommit the resolution to committee, with instructions to take testimony as to the value of these lands. Prevailed.

The Chair announced the arrival of the hour for the sitting of the Senate as a High Court of Impeachment.

After adjournment of Court, President Warren resumed the Chair, and called the Senate to order.

HOUSE OF REPRESENTATIVES.

FRIDAY, Feb. 3, 1871.

By Mr. McCauley: A bill concerning administrators; referred.

By the same: A bill concerning constables; referred.

Mr. Johnston, of Buncombe, from the Special Committee to whom was referred the Governor's and Treasurer's messages in regard to the issue of bonds to the Western Division of the W. N. C. R. R., submitted a report, which was ordered to be printed.

On motion of Mr. Ashe, the bill concerning the Convention of the people was taken up.

The report of the Committee of Conference was read, recommending several amendments, which, in substance, propose to postpone the election two weeks; to insert a clause providing that the Convention shall incorporate in the Constitution a clause prohibiting any Court from altering, revising or modifying the decision made by the present Supreme Court on the Homestead clause of the present Constitution.

Mr. Ashe occupied the floor for sometime in explanation of the proposed amendments, and after moving a concurrence, called the previous question.

Upon the call for the previous question, Page, col., moved for the yeas and nays. The motion for the yeas and nays being sustained, the call for the previous question was adopted by a vote of yeas 59 nays 35.

The motion to concur was put and adopted by a vote of yeas 62, nays 35.

On motion of Mr. Withers, the bill to pay witnesses attending the impeachment trial was taken up.

Mr. Withers offered a substitute for the bill.

The substitute provides that witnesses summoned by the prosecution shall be paid $1.50 per day and 10 cents mileage, and makes no reference to the witnesses on the part of the respondent. This matter excited a lengthy debate.

Mr. Houston moved to refer the matter to a special Committee of 3.

Mr. Gregory moved to amend the motion by making the Committee 5, with instructions to report to-morrow morning.

Mr. Houston accepted the amendment, and the motion was adopted.

On motion of Mr. Withers, the bill authorizing the Governor to offer a reward of $5,000 for Henry Lowery and others, was taken up.

Messrs. McNeill, Regan, Broadfoot, Waring and many other gentlemen advocated the passage of this bill.

After a prolonged discussion the bill passed its several readings.

The Chair announced Messrs. Houston, Hargrove, Withers, Phillips and Ashe, as the Special Committee to consider the bill in reference to the payment of witnesses attending the impeachment.

On motion of Mr. Lyon, the resolution adjourning at 12 M. to attend the session of the High Court of Impeachment and holding evening sessions on Tuesday and Friday evenings, was taken up, and, on motion of Mr. Crawford, was laid on the table.

On motion of Mr. Ashe, the bill to return to the Wilmington, Charlotte and Rutherford Railroad Company its first mortgage bonds, heretofore deposited in the Treasury, to enable the Company to complete its Road, was taken up.

Mr. Ashe took the floor in advocacy of the bill and went into an elaborate explanation of its provisions.

Mr. McAfee urged the passage of the bill, as the completion of the Road would be of incalculable benefit to that section of country through which it passes, and would be a source of revenue to the State.

Mr. French also advocated the bill.

After a lengthy debate in which numbers of gentlemen participated, amendment, offered by Mr. Ashe, was adopted and the bill passed its several readings.

NEW ADVERTISEMENTS.

SUGGESTIONS FOR THE SEASON.

Thousands regard the winter as a season of trials: and the truth is, that if there is a weak point in the system, winter is pretty sure to find it out. Constitutional tendencies to disease are generally aggravated by damp and cold. (Rheumatism sometimes lies *perdu* all the summer and fall to pounce upon its victims in the season of cold.) As a means of fortifying the body against all the diseases which prevail most extensively in winter, Hostetter's Stomach Bitters cannot be too urgently recommended. There would be fewer cases of the pulmonary complaints tending to consumption, if all feeble systems were invigorated during the season with a course of this inestimable vegetable tonic and alterative. Constipation, indigestion, torpidity of the liver, and a general sluggishness of the secretive organs, very generally prevail at this period of the year. To all these ailments experience (the most trustworthy of all mentors) teaches us that the Bitters is a reliable remedy. Warm clothing is a good external defence against atmospheric cold and moisture, but vigorous activity in the vital organization which generates heat and delivers it to the surface, is also essential to health, and this activity is secured through the operation of the Bitters. The skin sympathizes with the stomach, and if digestion is regular and perfect, the exterior circulation will be brisk, and damp and cold may be encountered with comparative safety.
