Neither failing teeth, nor the peeping wrinkles of time, so forcibly tell of advancing years, as your gray hair AYER'S VIGOR restores its color and makes your appearance more agreeable to others, as well as yourself. With fresh, luxuriant hair, the infirmities of age are far less noticeable.

It Looks Frightful.

By actual calculation it is demonstrated that with as much rain every week in the year as has fallen here in the past week, there would be a rainfall during the year of something over 350 inches, say 80 feet of water. It looks frightful but it doesn't hurt much viewed only in the light of arithmetical calculation.

Apollinaris Water.

Here is a matter of interest to some of our readers: A recent issue of the Philadelphia *Times* says the Apollinaris Water Company has served an injunction against D. A Moore, Kurtz & Hilberg, E. Posten, Thomas H. Dillon, Samuel F. Simes, and Samuel Cummings, restraining them from the further manufacture and sale of a spurious article which has been sold by them for genuine Apollinaris Water. Common law says that sellers as well as manufacturers of spurious articles are equally liable to prosecution and damages, and, as the Apollinaris Company will prosecute all persons found selling or manufacturing counterfeits of Apollinaris water, it is dangerous to keep or sell any but the genuine water, which can easily be distinguished by its trade-mark appearing on its corks and labels.

The Dog Days.

The season known as dog days commenced on the 7th of this month, and will last until the 21st day of August—a period of six weeks. The rising and setting of 'Sirius, 'or the Dog star, with the sun, has been universally regarded as the cause of the excessive heat and consequent calamities that prevail at this particular season. The ancients put great faith in this legend, regarding the period of greatest heat in summer so named, because in the latitude of the Mediterranean this period nearly corresponds with that in which the Dog star rose at the same time with the sun. To this junction all antiquity, and all the later followers of judicial astrology, ascribed a malignant influence. During this interval it is a difficult matter to keep meat, vegetables, and prepared food from spoiling, as many housewives have, no doubt, experienced to their sorrow. The poor dogs, that are made to bear the infamy of the source of our discomfort, are, perhaps, allied in some manner to the extreme heat of the interval, but they, as well as human beings, share alike the afflictions which are at this season common. Dogs are to-day supposed to be more susceptible to rabidness than they were three weeks ago, although there is no perceptible difference between the present condition of the sun and what it was three weeks since.

Equal to the Emergency.

Messrs. Hall & Pearsall, of this city received an order this morning from a country customer for a lot of flour and he wanted it branded Hancock & English. It was a demand for a brand of flour which is as yet rather scarce in the market although it will be plentiful after a while, but H. & P. were equal to the emergency and so a beautiful article of flour, in bright and tight packages, and neatly labelled on the head in stencil letters, Hancock and English, was promptly shipped to the patriotic customer.

Nearly Seven Inches of Rain.

The present rainy spell of weather began last Saturday, and we trust that it will end with this Saturday, but of that there is but little prospect at this writing. It seems to have been a coast rain, not extending very far into the interior but extending some distance to the North with the coast line. We are indebted to the Signal Office for a summary of the amount of rain which has fallen each day during the wet spell, the aggregate of which, it will be seen, is 6.78 inches since last Saturday morning, the principal fall having been during the three last days of the week.

Saturday, 17th, .85 of an inch; Sunday, 18th, .08 of an inch; Monday, 19th, .02 of an inch; Tuesday, 20th, .09 of an inch; Wednesday, 21st, .43 of an inch; Thursday, 22d, 1.63 inches; Friday, 23d, 1.87 inches; Saturday, 24th, to noon, 1.81 inches. Total, 6 78 inches.

Good for Wilmington.

From Dr. Thos. F. Wood, Secretary of the North Carolina Board of Health, we have received a copy of the health bulletin for the month of June, compiled by him. The average temperature of Wilmington during the month was 76 6 degrees, while at Asheville it was 71, at Newton, in Catawba county, 79, at Magnalia 90, at Tarboro 90, at Oxford 83, at Snow Hill 88 at Greensboro 86, at Hendersonville (on the top of the mountains) 78, at Weldon 80, at Lincolnton 85, at Charlotte 76 6, at Jacksonville 90, at Burgaw 80, at Lumberton 90, at Salisbury 76 at Rockingham 84, at Monroe 82, at Warrenton 80 and at Goldsboro 85.

Richardson and his Victims—An Attempt at Suicide.

Stephen Richardson, the colored slayer of his mother-in-law, has been committed by the city authorities to the custody of the Sheriff, and that officer has locked him up in jail.

The victims of this man's wrath, those who survived his bloody work last Monday night, are said to be improving and will in all probability recover. In that event, there will be no difficulty in proving the crime of murder upon Richardson, for Robert Phinney and the wife of the slayer will be living witnesses to the fearful deed.

Richardson's condition is also represented to be much better to-day, and he is reported as being less nervous than at any time since the murder was committed. It is reported at the City Hall that the prisoner, Richardson, while confined in a cell in the City Prison, succeeded in borrowing a strap from another prisoner, and with this strap endeavored, hand-cuffed as he was, to commit suicide by hanging himself, but owing possibly to the fact that his hands were confined in such a way that he had not the entire use of them, he failed to accomplish his purpose. We are of the opinion that a strict watch should be kept over the prisoner and a careful survey made of the premises where he is confined, so that there shall be no more escapes from jail of prisoners who are charged with capital crimes to report. The law must not be cheated of its victim in this way any more.

Exhalations.

From the matter that creates malarial Fevers—Yellow Fever and its kindred ilments, are not cognizable by the senses, but imperceptibly locate in the blood, poison it, and originate the diseases named. Warner's Safe Kidney and Liver Cure, used in connection with Warner's Safe Pills, is the only blood purifier known.

Insufficient Drainage.

Uncleaned cess-pools, filth of any character, exhalations from marshy lands, all this, poisoning the blood, bring on Yellow Fever. The sole and only remedy that will act directly upon the Kidneys and Liver—the cleanser of the blood—is Warner's Safe Kidney and Liver Cure, used in connection with Warner's Safe Pills. jy 2.

DISCOVERED VERY SOON after they commenced their remarkable career, that success in the Grocery Line did not consist in having and holding a HEAVY STOCK, as

5,000 Barrels Flour,
1,500 Hhds Bacon,
20,000 Sacks Meal,
10,000 Hams,
7,000 Lbs Butter,

1,000 Sacks Coffee,
80,000 Bacon Sides,

—requiring an immense and unnecessary outlay of capital and expense, and warehouse and store room, extravagant credits, a long list of employees, book-keepers, clerks, &c. The plan was to open direct personal communication with the Head Quarters, where these articles were kept in first hands and immense quantities, out of all reasonable expectation of being needed here; make arrangements with the Railroad Companies for transportation; connect their Stores by telegraph with the leading Grocery Stores of the world; keep a Small but Select Assortment; put prices down to the Bottom Figure; have Small Profits and Big Sales, watch the markets for Specialties, guarantee every article sold, make prompt delivery, spend time and money in the Northern markets in personal selections, and await returns. The result justifies our highest anticipations and vindicates our judgment. Our Stores are each a
