DAILY SENTINEL.

WM. B. PELL, Publisher.

THE SITUATION.

The Richmond Enquirer and Examiner, commenting upon the passage of the Omnibus abomination, the probable speedy admission of all the Southern States, except Mississippi, Virginia and Texas, to representation, and the inauguration of the bogus State governments, says:

"These persons will go into Congress as the representatives of the South, but they will go against the most earnest and emphatic protests of the Southern people. We of the South deny that they are in any sense exponents of our section or of our people. They have acquired office by skillful manipulation of secret negro leagues. They are the representatives only of ignorant and stupid negroes, and they are hardly true representatives even of such. They owe their position to skillful manoeuvring in midnight meetings among the negroes, by which they have elected the credulous creatures into voting for them at the polls.—They have sprung into life from the rottenness of the times, and have fattened upon the gangrene of the body politic. But, like their fellow-creatures, the maggots, they will have but a brief existence in the sunlight of returning days. Their official life will soon be terminated when the people of the South once more are permitted to elect their true representatives.

This action of Congress has put a new phase upon the political condition of the States included in the bill referred to. We cannot deny this change if we would, and it would be folly to deny it if we could. The whole scheme of "Congressional Reconstruction" is beyond question an outrage and an iniquity, but *it has been perpetrated*. As wise men, it becomes our fellow-citizens of those States to grapple the existing facts as they come to their hands. They should grapple them, not in the sickly sense of "accepting the situation," but with the determination yet to defeat the schemes of our adversaries. When we remember the present omnipotence of the Congressional oligarchy and the implacableness by which it is characterized, it is impossible to hope for any relief from their relenting. Looking to the future, we are bound to admit that it is not possible to change the complexion of the Federal authorities so as to secure the repeal of these atrocious measures. We may elect a Democratic President, as no doubt we will, and a large majority of the House of Representatives from the North will doubtless also be Democratic, but we cannot change the Senate in time to do any good. So we should be stupid to say that relief may reach us through the repeal of these measures. It is very unpleasant to admit it, but it is folly to deny it.—In the six States included in the bill "Congressional Reconstruction" is *un fait accompli*, and negro suffrage is established by law! The one chance of escape still left may yet be tried, it is true, but is it likely that this means will avail? The action of the Supreme Court, the means to which we refer, has been anything else than encouraging, so far, and we fear that no relief may confidently be expected from that quarter. We certainly urge our fellow-citizens of the further South to use every means to obtain a decision of the Supreme Court setting these measures aside. But let them not fold their arms and lie supinely upon their backs while waiting. Let them go to work at once to checkmate the atrocious schemes by which they are beset.

In the first place, every exertion should be made to break up the nefarious secret leagues which Yankee emissaries have organized. There are several ways to do this, but the most direct and effective is to refuse employment to any negro who belongs to the league. When the terror of the league has been removed from the minds of the negroes they can be made to vote as their employers direct, and, *every employer should see to it that his employees vote right*. Once "in the Union," as these States will now be declared to be, it is admitted by the vilest Radical they will have the same right to alter or amend their "constitutions" that New York or Ohio have, the "conditions" imposed by the act of admission notwithstanding. If the people of these six States are wise and vigilant, and brave, they will have new constitutions for themselves in less than two years. Nearly forty years ago John Randolph declared "in a Convention of the noblest intellects Virginia has ever produced: "sir, no constitution which you can make will last half of a century; no, sir, not the half of that time." His prediction was literally fulfilled. Is it likely that such a monstrosity as these miserable creatures have made can last the tenth of the time that the handiwork of Randolph and his compeers lasted?

For the Sentinel.

FARMERS' MEETING IN CASWELL, N. C.

Pursuant to notice previously given, a meeting of the farmers of Caswell county was held in the Court House, at Yanceyville, in the 1st. day of June, 1868, and organized by the appointment of Philip Hodnett, Esq., as Chairman, and W. B. Bowe and L. L. M. Totter as Secretaries. The object of the meeting being duly explained, the following declarations and resolutions were unanimously adopted, as expressive of the sense of the meeting, to wit:

At a meeting of the farmers and landholders of the county of Caswell, held at the Court House, in this place, on the 1st day of June, 1868, for the purpose of promoting the Agricultural interests of the section, and inviting emigrants from the Northern and other portions of the United States, to settle in our midst, and aid in the promotion of the objects contemplated, the following declarations and resolutions were unanimously adopted as the sense of this meeting:

Whereas, We regard this portion of North Carolina as one of the most desirable sections of the State for profitable investments in Agricultural pursuits, on account of the variety of the productions of the soil, and healthfulness of the climate—especially would we call attention to the fact that the finest Tobacco grown in the United States is produced in this county, and, before the late war, was a source of immense profit. And, whereas, there is not now more than one fourth of the lands of this county actually cultivated; it is therefore, desirable that this surplus should be brought into cultivation by kind of energy and capital, as speedily as practicable. Therefore,

Resolved, That we most cordially invite capitalists and farmers from other section to settle among us. We will sell the State and ex-[illegible] land on credit to their look with an eye to our interests to supply them with lands at reasonable prices and promising them a cordial reception and a hearty co-operation in the advancement of our mutual interest.

Resolved, That a copy of the proceedings of this meeting be forwarded to the Rev. Albert Nevin, D. D., of Pennsylvania, who lately visited this place with the view of selecting a desirable location as a permanent settlement, and that he be requested to give them publicity in the State and elsewhere, as he may have opportunity of so doing.

Resolved, That, as a most important means of developing the resources and of promoting the agricultural interest of this county, that our best energies and united efforts should be exerted to construct, as speedily as practicable, a Railroad from this place to some point on the Richmond and Danville Railroad, a charter for which has already been obtained.

Resolved, That the Milton *Chronicle*, Raleigh *Sentinel*, Danville (Va.) papers, Richmond *Whig*, Baltimore *Sun*, and Columbia (Pa.) *Spy*, be requested to publish the proceedings of this meeting, and that all other papers, North and South, friendly to such Southern enterprises, will oblige by copying.

It was ascertained, among the farmers present, that there are between twelve and fifteen thousand acres of land for sale, at prices ranging from $5 to $15 per acre, according to quality, improvements, &c.

On motion, Dr. N. M. Ross, Col. George Williamson and W. B. Bowe, were appointed a Committee of Correspondence.

On motion, the meeting adjourned.

PHILIP HODNETT, *Ch'm.*

W. B. Bowe, L. L. M. Totter, } *Secretaries.*
