Mason & Hamlin

Organs. The cabinet organ was introduced in its present form by Mason & Hamlin in 1861. Other makers followed in the manufacture of these instruments, but the Mason & Hamlin Organs have always maintained their supremacy as the best in the world.

Mason & Hamlin offer, as demonstration of the unequaled excellence of their organs, the fact that at all of the great World's Exhibitions, since that of Paris, 1867, in competition with the best makers of all countries, they have invariably taken the highest honors. Illustrated catalogue free.

Pianos. Mason & Hamlin's Piano Stringer was introduced by them in 1882, and has been pronounced by experts the "greatest improvement in pianos in half a century."

A circular, containing testimonials from three hundred purchasers, musicians and tuners, sent, together with descriptive catalogue, to any applicant.

MANUFACTURING CO.,

MANUFACTURERS OF

Fertilizers, Pine Wool and Pine Wool Matting.

WILMINGTON, N.C.

THE REPUTATION OF OUR FERTILIZERS, the ACME and GEM, is now established, and the results of three years' use in the hands of the best farmers of this and other States fully attest their value as a high grade manure.

The MATTING, made from the leaves of our native pine, has already gained a popularity for comfort and durability equal to any wool carpet, and the demand for it is daily increasing. It has virtues not found in any other fabric.

The FIBRE or WOOL is extensively used for upholstering purposes, and as a filling for Mattresses is almost equal to hair, being light, elastic and proof against insects.

Certificates from reliable parties using our goods can be seen at our office, or will be mailed upon application. nov 16 tf

The Daily Review.

JOSH. T. JAMES, Editor & Prop'r.

WILMINGTON, N. C.

THURSDAY, DECEMBER 29, '87.

Entered at the Postoffice at Wilmington, N.C., as second-class matter.

Jacksonville, Fla., is in a terribly mixed up state. The last Legislature granted a new charter to the city, but neglected to make any arrangements for an election of city officers other than appointing the day for the election. Realizing the importance of securing a harmonious action of all factions a mass meeting of citizens was held, at which arrangements were agreed upon for the holding of the election. Mr. C. B. Smith was declared elected mayor, but his opponents are dissatisfied and say that the election was illegal and without warrant of law. The matter has been taken to the Courts for decision. In the meanwhile Mayor-Elect Smith has called upon Mayor Burbridge for the office of Mayor. Mayor Burbridge refuses to give way until the Courts decide upon the questions now before them. Both sides are determined to fight to the last, and the city is in a high state of excitement.

If all promises are kept, next month will see three new evening papers in London. T. P. O'Connor's Evening Star is announced for the middle of January. This is the Home Rule half penny journal which Lord Wolverton's death was supposed to have robbed of expected financial support. The Evening Post will spring from the office of The Financial News, if allowed. Sir Algernon Borthwick, who owns the Morning Post, naturally objects to the appearance of an evening Post with which he has nothing to do, and has applied for an injunction to prevent the use of the name, which he considers his own property. So there may be delay. Finally a new evening paper is said to be about to appear from the office of the Daily Telegraph. Evening journalism in London has not hitherto been as a rule a very paying speculation; yet each of these new experiments is launched in expectation of great profits.

John S. Barbour, the new United States Senator from Virginia, was born in Culpeper County, December 29, 1820, and comes of a family that has for a century or more been illustrious in that State's history.—After an excellent preparation at the best schools of that day he entered the University of Virginia, where he graduated and was qualified for the profession of law, the practice of which he began in his native county. In 1847 the people of Culpeper sent him to the Legislature, and he served them for four consecutive sessions. In 1852 he was elected President of the railroad company then known as the Orange & Alexandria, in which position he remained until it was merged into what is now designated the Virginia Midland Railway Company, extending from Alexandria to Danville, altogether serving the railroad twenty-nine years. He was nominated by the Democrats for the 47th Congress, and was reelected to the 48th and 49th Congresses, when he declined reelection. In 1883, Virginia then dominated by the Mahone party and the Democratic prospects being exceedingly dismal, the State Convention met at Lynchburg and the votes of the delegates called Mr. Barbour to the chairmanship of the State committee. He accepted, proceeded to reorganize the party and led it in a campaign of unexampled vigor. Success crowned him and his associates with victory, and the Democratic party then returning to power has ever since been able to maintain itself against Mahone and the Republicans. From that day to this Mr. Barbour has been at the head of the Democratic committee, excepting only the campaign of 1886, when he was absent in Europe.

Consumption Surely Cured.

TO THE EDITOR—Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send two bottles of my remedy FREE to any of your readers who have consumption if they will send me their express and post office address. Respectfully. T. A. SLOCUM, M.C., 181 Pearl st., New York.

The majority of the striking shoemakers have returned to work at Rochester, and in some of the factories the men were conceded their demands.

"I Don't Wan't Relief, but Cure,"

is the exclamation of thousands suffering from catarrh. To all such we say, Catarrh can be cured by Dr. Sage's Catarrh Remedy. It has been done in thousands of cases; why not in yours? Your danger is in delay. Enclose a stamp to World's Dispensary Medical Association, Buffalo, N. Y., for pamphlet on this disease.

The new members of the House, of whom there are 130, are lamenting the fact that they can get no public documents to send to their constituents. There is a law in existence by virtue of which a Congressman is entitled to receive a certain number of every document issued by any and all of the Government departments which are prepared during his term in the House. By this law a new member in the present House is not entitled to any documents until after the fiscal year ending June 30, 1888, and his predecessor continues until that time to send out the coveted books, thereby gaining popularity at the expense of the member who occupies his seat. The election for the next House comes off in the fall of 1888, and very few public documents are available for distribution for the new member in the present Congress before he is called upon to stand before his constituents for re-election, and the absence of the books is likely to seriously injure him in their eyes.

One Fact

Is worth a column of rhetoric, said an American statesman. It is a fact, established by the testimony of thousands of people, that Hood's Sarsaparilla does cure scrofula, salt rheum, and other diseases or affections arising from impure state or low condition of the blood. It also overcomes that tired feeling, creates a good appetite, and gives strength to every part of the system.

DECEMBER DOTS.

The man who has an expensive health-lift fitted up in his bedroom gets up muscle enough to bring up the family coal.

George Westinghouse, Jr., inventor of the air brake, is worth $9,000,000. This is, perhaps, the biggest fortune ever made out of wind.

The hay press was invented by a woman, which leads a wag to suggest that she got the idea from a desire to be hugged from all sides at once.

The man who wouldn't take "no" for an answer has gone into amateur photography and is taking negatives right and left whenever he gets a chance.

When you see a man on a moonlight night trying to convince his shadow that it is improper to follow a gentleman, you may be sure it is high time for him to join a temperance society.

Daughter—Wasn't Julius Cæsar one of the strongest men that ever lived, pa? Father—What makes you ask that question? Daughter—I was just reading that he threw a bridge over the Rhine.

Timid young suitor who has won consent of papa—"And now may I ask, sir, whether—ah—whether your daughter has any domestic accomplishments?" Papa (sarcastically)—"Yes, sir; she sometimes knits her brows."

Little brother, whose sister is playing cards with a gentleman—Mr. Smiler, does Minnie play cards well? Mr. Smiler—Yes, very well, indeed. Little brother—Then you had better look out: mamma said if she played her cards well she would catch you.

Mr. Robert Sutcliffe, a native of Birmingham, England, now a resident of Baltimore, claims: "I'm subject to severe attacks of neuralgia which have caused me much pain; I have repeatedly tried different remedies but received no benefit, finally I tried Salvation Oil and received immediate relief. I consider it worth its weight in gold.

The second annual convention of the National Federation of Labor met in Baltimore lately. The delegates were received by Mayor Latrobe, on the part of the city. President Gompers, of the convention, responded. N. B. Talbot, for the Baltimore Federation of Labor, made an address of welcome.

What am I to Do?

The symptoms of Billiousness are unhappily but too well known. They differ in different individuals to some extent. A Bilious man is seldom a breakfast eater. Too frequently, alas, he has an excellent appetite for liquids but none for solids of a morning. His tongue will hardly bear inspection at any time; if it is not white and furred, it is rough, at all events.

The digestive system is wholly out of order and Diarrhea or Constipation may be a symptom or the two may alternate. There are often Hemorrhoids or even loss of blood. There may be giddiness and often headache and acidity or flatulence and tenderness in the pit of the stomach. To correct all this if not effect a cure try *Green's August Flower*, it costs but a trifle and thousands attest its efficacy.

Of the 20,000 men engaged in New York harbor as freight handlers, boatmen and longshoremen, 3,500 are said to be unable to find employment.

An Important Arrest.

The arrest of a suspicious character upon his general appearance, movements or companionship, without waiting until he has robbed a traveler, fired a house, or murdered a fellow-man, is an important function of a shrewd detective. Even more important is the arrest of a disease which, if not checked, will blight and destroy a human life. The frequent cough, loss of appetite, general languor or debility, pallid skin, and bodily aches and pains, announce the approach of pulmonary consumption, which is promptly arrested and permanently cured by Dr. Pierce's "Golden Medical Discovery." Homes in North Carolina

Only 20 Hours Ride from New York!

59 Miles South of Raleigh

On the Raleigh and Augusta Air-Line R. R.

1,500 ACRES OF LAND IN THE celebrated pine region. For sale on easy terms, lots to suit purchasers. Four acres for a garden tract $5 per acre, in monthly payments of $10. This land adjoins the "Southern Pines", a recently established health resort (or sanitarium), and is specially adapted for Fruit Culture, as well as all the cereals. A number of New England people have bought lots in the town of "Southern Pines," and it is the desire of the owners of this land to induce small farmers, mechanics and others from the New England and Middle States as well as elsewhere, to locate here. No State in the Union offers greater inducements to settlers than North Carolina. Nowhere can a better farming country or as fine a climate be found. This is the opinion of Northern men who have settled in North Carolina. This is *bona fide* offer, and is limited.

For further particulars write at once to JOHN T. PATRICK, Commis'r of Immigration, Raleigh, N. C., or B. A. RICHARDSON, Chronicle Office, Augusta, Ga.
