IMPORTANT TO VOTERS.

Remember, that all who vote for delegates must also vote either "for a Convention," or "against a Convention;" and that but one ticket can be used. Also, that the full names of candidates must be printed on the tickets. Tickets with christian names designated by initials only will not be counted.

THE MEANING OF IT.

There is some reason to apprehend, judging by the tone of sundry of our Southern papers, that the reaction in public sentiment at the North is misunderstood, and that the very gratifying result of the recent elections is, by them, attributed to causes which had little or nothing to do with its accomplishment. We think it is undeniable that the true cause of the change is to be found in the derangement of the finances, the unsettled condition of affairs, the heavy taxes, and the non-productiveness of the Southern States. We do not believe that sympathy, in the usual acceptation of the word, with the suffering of our people had much to do with the matter. We believe that our condition would have been contemplated with calm serenity, not to say indifference, by the mass of the Northern people if it had not interfered with their pecuniary interests and with the general prosperity of the country.

They have no particular feeling in the matter, but they have discovered that the dominant party are using the powers of the Government, not for the advancement of the general welfare, but for party purposes at the expense of the public good. They see that ten of the most prolific States of the former Union are in a fair way to become, under Radical rule, a barren waste inhabited by a poverty-stricken, negro-governed people. They *feel* that this is gross misrule. They have in a revulsion of sentiment, almost unparalleled, cried out against it, and will surely alter the legislation of the country to meet their views.

There is another thing equally evident, and about which there seems to be misapprehension, and it is this: The remarkable resurrection of the Democratic party is not attributable to the affection which the people feel for the name of that party. On the contrary, there were thousands of Northern men who did not go to the polls because they could not endorse the action of the Radicals and *would not* vote the Democratic ticket. As there were only two parties, however, the choice had to be made by those who did vote, and they voted the least obnoxious ticket. With the Southern people there is no choice. They will almost unanimously vote the Democratic ticket—but, unless we are greatly deceived, when reconstruction is accomplished, there will be an entirely new arrangement of parties under different names from those which now exist. How parties will be divided cannot now, of course, be predicted.

☞ The *Tribune* states that the Democratic majority in New York will be 48,000. The Albany *Evening Journal* (Republican) estimates it at 47,042. The Buffalo *Courier* (Democratic) estimates it at 47,339. In New York city the politicians are preparing for the charter election in December. The Tammany Hall Democrats have renominated Mayor Hoffman, and Mozart Hall has nominated Fernando Wood. The New York *Times* recommends the Republicans not to nominate a candidate, but by their casting vote decide in favor of one or other of the Democrats.

☞ The New York *Tribune* cautions the Virginia Convention against *ultraism*, and advises the Radicals to let universal suffrage and *universal amnesty* go together. It bids the leaders remember that "the power of a disfranchised minority is greater, by reason of the power of the principle of justice which is crucified and persecuted in them, than if they were enfranchised."

☞ Santa Anna is true to himself. Being exiled from Mexico, he has turned up at Havana, where he has become involved in a lawsuit. An indignant Cuban captured him, and is trying to accomplish the difficult task of making him pay his debt.

From Washington.

WASHINGTON, Nov. 14.

General Schofield visited the President to-day.

It is understood the President has recommended Hon. Edwin Cooper, of Tennessee, as Chandler's successor.

Schofield and Grant had a long discussion, mainly, it is said, bearing on expense of reconstructing Virginia, which already exceeds five millions.

W. P. Kellogg, of New Orleans is here.

It is estimated at the Observatory that 2000 meteors fell in twenty minutes about 4 o'clock.

Nothing has been elicited bearing on the question whether Maryland has a Republican Government.

The Impeachment investigation will be resumed in a few days. Col. Hillyer, and possibly Gen. Grant, will be recalled.

Shooting Affair in Baltimore—An Attempt to Kill E. A. Pollard, the Historian.

BALTIMORE, Nov. 14.

At about 12 M. today, as E. A. Pollard, the Historian of Lee and his Lieutenants, was passing in front of the Maltby House, he was approached by a son and nephew of Henry A. Wise, named John and Douglass, each of whom fired at Pollard, one of the balls passing through the right arm of Pollard, he having his wife on the left hand at the time. Pollard drew his pistol, but was unable to raise it on account of his wound, and the ball struck the pavement. The assailants came here this morning from Richmond to obtain satisfaction from Pollard for a letter recently published by the latter, in reply to a letter of Henry A. Wise, on Pollard's history of the war, and had previously declared their intention to shoot him on sight. Both are in custody to await an examination.

Alabama Convention.

MONTGOMERY, Nov. 14.

A caucus of the Radical majority of the Reconstruction Convention, held last night, decided to send a special messenger to Washington to ascertain from the leading Republicans how far Congress will permit the Convention to go on the question of disfranchising Rebels; postponed further action on the franchise question until Monday next.

A resolution was adopted instructing the proper Committee to inquire into the expediency of requiring former owners to pay the blacks wages for their services from the date of the Emancipation Proclamation to May 20th, 1865.

An ordinance was introduced and referred, proposing to confiscate a part of the Selma and Meridian R. R., which was constructed by the Confederate government in aid of the rebellion, the proceeds of the same to go into the Educational fund.

An ordinance was introduced and referred, to abolish State poll-tax.

From New Orleans.

NEW ORLEANS, Nov. 14.

Gen. Hancock's arrival is anxiously looked for by our best citizens, who are hopeful that he will correct abuses in the city administration. A meeting of citizens held last night appointed a committee on resolutions, laying the currency question before Gen. Hancock, and requesting him to act for their relief. Large bills of city issue are at a discount of 17 per cent; small notes of the same issue only 3 per cent. Five dollar bills, which a few days ago were only 3 to 4 per cent. discount, are now 15 to 17. The *Times*, in a strong article, lays the blame upon Treasury officials.

From Florida.

AUGUSTA, Nov. 14.

The election on the question of Convention is progressing quietly in Florida. No doubt the Convention will be carried by a large majority, as the whites are indifferent. Dispatches from Tallahassee say the election is going on quietly, very few votes against Convention. Whites generally decline voting.
