BLACK MAIL.

We call attention to the continuation, and, we trust for the reputation of the General Assembly, the end, of the discussion upon the appointment of a committee to investigate charges against certain members and others, preferred by the Senator from Craven. It is the first time in the history of legislative bodies that we have ever seen so much restiveness, under similar circumstances, and so much covert opposition to a measure which commends itself to every honest man. After the reiterated charges and the strong language of Senator Frank, it seems to us to have been the duty, as it should have been the pleasure, of every member to have demanded the appointment of the Committee with the most ample powers consistent with law. The miserable attempt to give the matter a party turn and to restrict the investigation, by curtailing the necessary powers of the Committee, was a shallow subterfuge which could only be connived at and supported by the guilty parties or their senseless tools.

For the first time in the history of North Carolina has it become necessary to investigate charges against the members of the Legislature, charged by one of their fellows, of preying upon the necessities of the State. Bribery and corruption has never before blackened the Legislature of North Carolina, and we would hope, for the reputation of the State, that the charges were false now, were not too many well authenticated rumors current as to the men who have received pay and the amounts that have been paid to them.

It is useless for certain members to become indignant at these charges and appear surprised at the investigation. It is impossible for them to have been ignorant of the rumors and reports current throughout the State. The press has charged corruption upon the Legislature and their venality has been denounced upon the stump. Now that official attention has been called to the matter, they appear surprised and become indignant that their honor should be impugned.

Let the investigation proceed, and if there be criminals let them be exposed and punished. We are only sorry for their sakes, and not for the country, that the New Hanover members have placed themselves in such equivocal positions in regard to this investigation.

[From the Rochester Union, Nov. 28.]

HORRIBLE MURDER OF AN INFANT BY ROASTING UPON A STOVE.

We have received the particulars of a horrible affair which occurred about a mile from Corning, Wednesday last. At the place indicated, there resides a family named McCulloch, consisting of Mr. and Mrs. McCulloch and their three children, aged respectively five, three and one and a half years. The husband is represented to be a shiftless, indolent fellow, and his wife has been compelled to labor to support the family. She has lately been selling sewing machines, and, on Wednesday last, started on a trip through the surrounding country for that purpose, leaving her children in charge of a girl named Barber, aged 18 years, whom she had hired for the purpose. In the evening, the youngest child cried, and was fretful, when, it is said, Barber threw it upon the floor, and stamped upon it until it was almost lifeless. Then taking the little one up she held its hands upon a hot stove until they were terribly burned. The child was too far gone to utter more than a faint scream while it was being roasted. Barber then threatened to throw it into a well, when the other children, who had witnessed the whole thing, told her that if she did they would tell their mother. The girl then wrapped the child in a blanket or bedquilt, and placed it in a bed, where it was found by the mother, who returned home Wednesday night, dead. The marks of brutality were plainly visible on its little body, and, after questioning the children, information was given the coroner. After an investigation, he ordered the arrest of Barber, called a jury, and an inquest was in session yesterday. The case creates considerable excitement in the vicinity where the horrible affair occurred, as well it may. We were unable to learn any of the antecedents of the girl Barber.

[It is a matter for great surprise that this occurrence should have happened North. Doubtless the inhuman murderess was from the South originally; otherwise, it is beyond comprehension!—Ed.]

From the Washington D. C., Union, Nov. 27.

VOUDOU.

The most disgusting accounts are continually coming from the Southern States in regard to the habits and tendencies of the black race in that section. They are going back into the worst and wildest barbarism. Among the negroes of the lower portion of the Gulf States there has long been a prevalent superstition that is called by the Africans name of "Voudouism" or "Yowdoism." The substance of it is a full belief in the power of certain of their people to work upon other people with all manner of evil spirits or good spirits. These supposed controllers are entirely native blacks, unmixed Africans, and the spells of terror and hope and joy and expectation which they have thrown all around the rest of the colored population are unlimited. The Voudou men are objects of superstitious veneration. They curiously contrive a number of curious objects, such as feathers, dogs' teeth, clay taken from graves, blood, egg-shells, bits of glass, &c., &c., which, however combined, they can use for conjuring purposes, and they employ them to make the negroes worship with superstitious veneration. This sort of sorcery prevails in Africa among the worshippers of the Fetich. It is growing in the South. This sort of religion, accursed religion, horrible religion, if it can be called religion, will prevail in the South if the negroes are to have control in that section. They are to be left to their own tendencies; and all their tendencies, their irresistible tendencies, are to their native barbarism, the barbarism of their ancestral ancestors. They will not find enough food in the South, and they will resort to eat the white folks. It is no matter otherwise that the miserable superstition of Voudouism or Yowdoism is prevailing in the South. Christianity is slow in its teachings. The terrible teachings of the negro are quick, seizing forcibly and at once upon their miserable imaginations and minds. The results are fearful. The whole of the African population of the South will soon be as bad as the Hottentots, or worse.

POLICIES ISSUED AS GOOD AS UNITED STATES BONDS.

POLICIES VALUABLE IN LIFE AS AT DEATH!

EDITOR

The BROOKLYN LIFE is the only Company in the country which guarantees a definite surrender-value to every policy on which two or more annual premiums have been paid; this amount, in dollars and cents, is endorsed on every policy issued. Should any policy-holder become unable to pay his premiums, he can thus know the cash worth of the policy at any time after two annual premiums have been paid.

This certainly is the greatest inducement and most tangible advantage ever accorded to parties insuring their lives.

Among the advantages offered by the BROOKLYN, which thoroughly evince the determination of the officers to make it the MOST LIBERAL Life Insurance Company in the United States, are:

1st. TOTAL REMOVAL OF ALL RESTRICTIONS ON TRAVEL AND RESIDENCE. The Assured may travel or reside any where they choose, the world over, without extra premium or special permit.

2d. A Loan of one-third of the Premium to the Policy-Holder Annually.

3d. All Policies are non-forfeitable after two full annual premiums have been paid.

4th. Rates below as are consistent with financial soundness, and less than those of almost all Companies which accommodate their assured with loans.

5th. Dividends annually (after second year) in cash. Dividends are divided on the CONTRIBUTION PLAN—the only equitable manner of dividing the earnings of a Life Insurance Company. The Contribution Plan was first conceived by Mr. D. P. Fackler, now Actuary of this Company and has been adopted by most of the best managed Life Companies in this country.

The BROOKLYN LIFE has paid and now pays to its Policy-holders LARGER DIVIDENDS than ever before paid by a Life Insurance Company.

6th. Promptitude in paying losses.

7th. No charge for policy or stamp.

The success which the "BROOKLYN" has achieved, fully unequalled in the annals of insurance growth, is a convincing proof of the confidence reposed by the public in the soundness, integrity and liberality.
