FROM WASHINGTON.

WASHINGTON, Dec. 31.

COST OF THE FREEDMEN'S BUREAU.

The Freedmen's Bureau, which gives up the ghost to-morrow, has cost, by official figures, the following yearly sums, in the following States and places:

Salaries of main office in Washington	$24,[illegible]
Bureau officers for the District,	22,[illegible]49
Bureau officials for Maryland,	19,740
Bureau officials for North Carolina,	55,8[illegible]
Bureau officials for Virginia,	61,980
Bureau officials for South Carolina,	60,080
Bureau officials for Georgia,	88,3[illegible]0
Bureau officials for Florida,	18,800
Bureau officials for Alabama,	91,240
Bureau officials for Kentucky,	4,200
Bureau officials for Mississippi,	93,200
Bureau officials for Tennessee,	92,080
Bureau officials for Missouri,	36,100
Bureau officials for Arkansas,	61,920
Bureau officials for Texas,	42,320
Bureau officials for Louisiana,	78,400
Total, exclusive of army officers,	$839,680
Total in three years,	$2,517,240

These figures represent only the official salaries of the Bureau. The expense of the army in the South, maintained there to cooperate with the Bureau, has been found to be several scores of millions of dollars yearly. The amount stated above only includes salaries paid to officers, whose business it has been to deal out government supplies to the negroes to the extent of at least five times the figures paid to the Bureau hirelings. The number of civil officers relieved of place by the abolition of the Bureau can be told from the following:

Officers at Washington	69	Officers in Ala.	45
Officers in District	20	Officers in Kentucky	11
Officers in Maryland	1[illegible]	Officers in Tenn.	34
Officers in Virginia	5[illegible]	Officers in Miss.	57
Officers in N. C.	[illegible]	Officers in Missouri	2[illegible]
Officers in S. C.	[illegible]	Officers in Arkansas	58
Officers in Georgia	7[illegible]	Officers in Louisiana	68
Officers in Florida	1[illegible]	Officers in Texas	12
Total civil employes			711

It will be remembered that an empty bill was passed some months ago providing that civilians be replaced by army officers, but, as the liberty of the commissioners to employ special agents was not interfered with, the permission was so construed as substantially to keep in about all the former civil employees, under the head of special agents. Hence the administrative force of the Bureau has not been materially changed, and not at all lessened. After the 1st, of January the Bureau exists only in its "educational nature." Whether the Bureau will not be wholly continued in the three unreconstructed States or not, depends upon the action taken on Mr. Pomeroy's bill providing for that very thing. The Military Committee have the bills under advisement, and, if made a party consideration, the bureau can be revived before the work of disbandment has begun. Senator Sumner is in favor of retaining the whole system in the southern States, irrespective of reconstruction, to keep the Southern whites from the violence he affects to apprehend they will visit on the blacks. It is the general sentiment, however, that the bureau having failed to answer the purpose of its establishment, the building up of a great negro party at the South, had better wind up. Senator Wilson is in favor of this idea himself, and so is General Howard. Any investigation into the affairs of the concern, any auditing of its accounts, seems to be abandoned, and this in the face of the fact that $350 000 of government money are believed to be fraudulently held by an institution known here as the Howard University. Several months are expected to elapse before the Bureau can wind up all its affairs, but its legal life ends with the year.—*Cor. N. Y. World.*

THE COTTON SUPPLY.

The firmness with which cotton continues to be held in England, at a time, too, when the crop in the United States has turned out a fair average, continues to excite surprise on the other side of the Atlantic.—Those who, some months since, were of opinion that middling New Orleans would decline to 9d per pound, and those who advocated a heavy fall in prices to secure for the manufacturers cheap and safe markets for the future, find that they have been laboring under a delusion as regards consumption and production. The best authorities concur in the opinion that, on the whole, there is nothing indicative of a much lower range of quotations. On the 26th ult, the total visible supply of cotton was only 960,000 bales. Last year it was 1,116,000, and in 1866, 1,298,000 bales. Since that date the quantity has declined to about 840,000 bales—a quantity which is wholly opposed to the theory of low currencies.—The comparison of the visible supply stands thus:—

	1868.	1867.	1866.
	d.	d.	d.
Price Mid. Orl'ns at Liv'pool.	11½	8½	14½
Fair Dholleras "	6½	6½	10½
Difference,	5	2	4

American bales,	336,000	416 000	631,000
East Indian "	582 000	591,000	534,900
Sundries "	42,000	109,000	93,100
	960,000	1,116,000	1,298,000

The effect of these supplies on prices is seen by the following quotations from the corresponding periods:

	1868.	1867.	1866.
	d.	d.	d.
Price Mid. Orl'ns at Liv'pool.	11½	8½	14½
Fair Dholleras "	6½	6½	10½
Difference,	5	2	4

New Orleans cotton, it will be seen, is 5d. per lb. dearer than it was in 1867. The comparison as regards 1866 shows a fall of 4d. per lb. The quotations then current, however, were far too high to tempt large buyers to enter the market. The London *Mercantile Gazette*, speculating upon the extent of the American crops, and the future range of value, says:

"We still contend that quite 2,700,000 bales of cotton have been grown in America this year. If we assume that the total supply for the season will exceed 1867 by 100,000 bales, we do not see how prices can possibly be reduced even 2½ per lb. beneath their present level. It is all very well to advocate a diminished consumption in this country; but a great trading nation like this cannot stand still. Our home demand for goods is something enormous, and our export trade is increasing every year.—The Thalia, whatever prices may be ruling here or elsewhere, must be met; and whilst the sales of cotton continue on their present scale, we shall look in vain for any important increase in the stocks in warehouse."

The new crop in India is said to be turning out well—so well, indeed, that the exports from Bengal alone, it is believed, will reach 100,000 bales. But, as India estimates are usually much in excess of actualities, the effect on the value of the American article is still to be determined.

LIFE INSURANCE.

The Most Vigorous and the Most Liberal Insurance Company in the Country.

BROOKLYN LIFE INSURANCE COMPANY,

141 Broadway, N. Y.

ASSETS OVER

$1,000,000!

CHRISTIAN W. BROUN, ... President.
ABRAM D. POLHEMUS ..... Vice President.
WILLIAM M. OGDEN ..... Secretary.
D. A. PACKLER ..... Consulting Actuary.
DANIEL AYRES, M. D., LL.D., Med. Examiner.

POLICIES ISSUED AS GOOD AS UNITED STATES BONDS.

POLICIES VALUABLE IN LIFE AS AT DEATH!

The BROOKLYN LIFE is the only Company in the country which guaranties a definite surrender-value to every Policy on which two or more annual premiums have been paid; this amount, in dollars and cents, is endorsed on every Policy issued. Should any Policy-holder become unable to pay his premiums, he can thus know the cash worth of the Policy at any time after two annual premiums have been paid.

This certainly is the greatest inducement and most tangible advantage ever accorded to parties insuring their lives.

Among the advantages offered by the BROOKLYN, which thoroughly evince the determination of the officers to make it the most LIBERAL Life Insurance Company in the United States, are:

1st. TOTAL REMOVAL OF ALL RESTRICTIONS OF TRAVEL AND RESIDENCE. The Assured may travel or reside anywhere they choose, the world over, without extra premium or special permit.

2d. A Loan of one-third of the Premium to the Policy-Holder Annually.

3d. All Policies are non-forfeitable after two full annual premiums have been paid.

4th. Rates as low as are consistent with financial soundness, and less than those of almost all Companies which accommodate their assured with loans.

5th. Dividends annually (after second year) in cash. Dividends are divided on the "CONTRIBUTION PLAN—the only equitable manner of dividing the earnings of a Life Insurance Company. The Contribution Plan was first conceived by Mr. D. P. Packler, now Actuary of this Company and has been adopted by most of the best managed Life Companies in this country.

The BROOKLYN LIFE has paid and now pays to its Policy-holders LARGER DIVIDENDS than ever before paid by a Life Insurance Company!

6th. Promptitude in paying losses.

7th. No charge for policy or stamp.

The success which the "BROOKLYN" has achieved, fully exemplified in its rapid and healthful growth, is a convincing proof of the confidence reposed by the public in its soundness, integrity and liberality.

ÆTNA

LIFE INSURANCE COMPANY,

AUSTIN DUNHAM, Vice "
G. C. KNIGHT, Secretary.
H. W. ST. JOHN, Actuary.

SUMMARY OF BUSINESS FOR 1867

Total Assets, over	$10,000,000
Policies Insured in '67,	15,251
Am'nt Insured, nearly	$45,000,000
Policies Average "	3,000
Receipts for 1867,	5,129,447
Surplus for Dividends,	2,000,000

Dividend Fifty per cent.

Receipts for Interest Nearly Paid Its Losses.

It has $130 Assets for every $100 Liabilities.

Its premium receipts at the present time are nearly HALF A MILLION DOLLARS per month and are rapidly increasing.

The growth of the Ætna has never been equaled by any other Company whatsoever, in Europe or America.

Particular attention is called to the fact that while its business is increasing unprecedentedly, its ratio of expenses is comparatively small.

ECONOMY of management, CARE in the selection of risks, *promptness* in the payment of death claims, and *security* in the investment of its immense Trust Funds, are rigidly adhered to, and have ever characterized this Company.

The ÆTNA issues all the favorite kinds of Policies at the most favorable rates.

The ÆTNA issued last year more Endowment Insurances than any other Company.

The ÆTNA'S ratio of expenses, or cost of new business is less than any other Company whatsoever, and less than two-thirds of the average.

The ÆTNA is as liberal to permits to travel, in all parts of the world, as a sound discretion will warrant, and is much more liberal than any other prominent Company.

ANNUAL INCOME over $6,000,000.

The only Company that has the Low Participating Non-forfeitable Term Insurance with privilege of renewal. Ex. of rate at age 30 $14 67, which is nearly 40 per cent. lower than any other leading Company. Also

Non-forfeiting cash rates with dividends on contribution plan and payable at the end of the first year.

Description of Policies.

First—Whole Life Policies,

Second—Endowment Policies, for terms of ten fifteen, twenty, twenty-five, thirty, and thirty-five years.

AGES.

Insurance will be granted at all ages from fifteen to sixty years.

PREMIUMS.

Premiums are payable annually during the continuance of the insurance, or annually during a period of five, ten, fifteen, or twenty years within the insurance term, or by single payment.

DIVIDENDS.

All Whole-Life and Endowment Policies issued at the rates published herewith, will participate in the surplus from the date of issue.

The dividends will be declared and paid annually upon the contribution plan, and may be applied as the assured shall elect, either to reduce future premiums, or to increase the Cash Value of the Policy.

If no election be made the dividends will be added to the Cash Value.

When, by adding the dividends to the Cash Value, the accumulations on any Policy shall have become sufficient to keep the same in force for its *full amount*, without further payments, the assured may, at his option, either continue payment of premiums—and enlarge thereby the annual additions to its Cash Value—or discontinue them; and in either case, when the accumulations shall have become equal to the sum insured, the annual dividends on the Policy will be declared as a per centage of said sum, and paid in cash, and upon surrender of said Policy the sum insured thereby will be paid in *full*, without regard to the time fixed therein for its payment.

The system of applying the dividends is peculiarly advantageous to the assured, securing, as an increased age, not only relief from further payment of premiums, but, at the same time, an annual income until death, unless he shall have previously received full payment of the Policy.

Dividends on paid-up Policies—that is, Policies which require no further payment of premium to continue them in force for the original amount of insurance—will be paid in cash upon demand.

NON-FORFEITURE RULES.

No whole Life or Endowment Policy, on which two or more annual cash premiums have been paid, shall be forfeited by failure to make further payment as stipulated therein, but will continue in force for the full amount which the Cash Value and dividends, then accumulated, will purchase, taken as a single net premium, upon the "Actuaries" rate of mortality and four per cent. interest; and the amount continued in force will generally exceed the aggregate of the payments actually made, extra charges excepted.
