COTTON MANUFACTURE IN THE SOUTH.

The New York *Times* makes the prediction that the South will soon (again) outstrip the North in wealth. We say "again," because before the war the average wealth of the people of the South, individually, was about twice as great as that of the people of the North, individually. The South has every advantage of nature over the North, and her people have only to labor energetically and judiciously and live economically to realize the prediction of the *Times* in a very few years.

We believe that the spirit which is to work out grand results has been aroused.—The South has accomplished wonders in rebuilding her lines of communication and restoring the ravages of the war. Her great staples are again taking their commanding place in the commerce of the country. Her mines are being developed, her water power utilized, and her forests of timber turned to account. In addition to these and other elements of wealth, the manufacture of her raw material, and especially of cotton, is destined to become a leading industry and a source of enormous profit. From a carefully prepared report submitted to the Cotton Manufacturers' Association at a meeting held last fall, we learn that the number of mills in the Northern States is 479; number of spindles, 5,768,228; average number of yarn, 27¾; consumption, 343,645,950 pounds; consumption per spindle, 59.57 pounds. In the Southern States, number of mills 69; spindles, 199,772; average number of yarn 12-78; consumption, 28,049,766 pounds; consumption per spindle, 140.37 pounds. The greater consumption per spindle in the South is due to the fact that work may be done more uninterruptedly in a Southern than in a Northern climate. The fact is significant and important.

We are confident that before another decade there will be a very different showing in cotton-manufacturing statistics. At a recent sale of manufacturing stocks in Boston, Massachusetts Cotton Mill stocks sold at 1007½, Amoskeag Manufacturing Company at 1696½, Merrimack Manufacturing Company at 1625, and there is no reason why similar stocks should not be equally valuable in Richmond and throughout the South. On the contrary, there are many and cogent reasons why, in the South, manufacturing stock should be even more valuable than in any portion of New England. That the cotton manufacturing business is profitable in the South is, says the Louisville *Courier-Journal*, no longer a matter of conjecture or speculation. Fortunately for those who are seeking for profitable investments of capital there are reliable statistics at hand. The report of William E. Jackson, Esq., President of the Augusta (Georgia) Manufacturing Company, showing the operations of the Augusta factory for the first six months of the present year, is worthy of perusal. He says:

In presenting my twentieth semi-annual report, it is with pleasure I can state the condition of the company is very favorable. The gross earnings for the past

six months have been	$135,510 65
Interest received,	3,921 65
	$139,432 30
From which is deducted expense account,	$8,731 64
Repairs account,	3,475 11
Taxes paid,	19,691 41
	$31,898 16
Leaving as net profits	$107,534 14

From which two dividends of five per cent. each, amounting to $60,000, have been paid, enabling us to carry to the credit of profit and loss account $47,534 14, making the amount now to the credit of that account, $224,798 22.

It would be a pleasure to give in detail, in pamphlet form, the operations of the company for the past ten years, but the extraordinary times of the late war would form no correct idea of what we might hope for in the future, and there are many things connected with that period which have heretofore been explained, and would require repetition, that upon the whole it might be desirable not to re-open that matter. Suffice it to say, our present condition is rather an enviable one, being entirely free from debt, sufficient commercial capital to conduct the business successfully in ordinary seasons; a good reputation for goods and responsibility; an excellent force of operatives, and the two mills in good condition.

It may not be uninteresting to some of our present stockholders to state what has been accomplished in the past ten years. It will be remembered by those who were among the original purchasers, that the property was purchased of the city for $140,000 on ten years' credit, with interest at seven per cent., payable semi-annually, and one-tenth of the principal, annually, the purchasers paying in as commercial capital $80,000. This amount, in consequence of the dilapidated condition of the property, was almost entirely expended in the first two years, in repairs rendered necessary by the then condition of the property. We have, since the purchase, paid for the entire property without calling on the stockholders for another dollar, added largely to the property by purchase and building, bought about $100,000 worth of new machinery, increased the capital to $600,000, by the addition of a portion of the surplus; paid dividends regularly, and have now a property worth the par value ($600,000 in gold.)

These figures are conclusive. They point unerringly to success, and, at this juncture, are of incalculable value in the great work of advancing the material prosperity of the South.

From the Houston Times, December 27.

TEXAS GOING AHEAD.

Next year a half million bales of cotton will be raised in Texas, with plenty of other products sufficient to feed the State. The whole northern part of the State, from the line of Ellis and Navarro counties upward, embracing the whole tier of Red River counties, will plant cotton next year. We have conversed with many gentlemen from different parts of Northern Texas, and they all say that the people are determined on planting cotton next year. But corn and meat, grains and provender, and all else produced by the State will not be neglected. Texas is very well off corn. Feed for man and beast is abundant everywhere. The immense crop has filled the State with fat hogs without feeding much of the corn.—Pork is cheap and bacon and lard will be abundant, and thus much money will be saved. The vast and increasing hide trade has brought a good deal of money into the country. The cotton crop has brought a great deal more. Wool has added to the sum not a little. There is now plenty of money in Texas. The people have not spent it. They have sold their produce themselves, and not through commission merchants. They have had no advances to settle to eat up their gains. They have sold their produce for good prices; have bought only the absolute necessaries of life; have bought them at low prices, and they have put the remainder of their money into their pockets and gone home. *There is a large amount of money in Texas, and the sun is increasing every day, and that money is gold and silver.* It will not be carelessly spent. And then there is a spirit of industry, energy and thrift abroad in the State that would do credit to Holland or Germany.—It is amazing to observe the change that has come over the spirit of the Texas people since the close of the war. They are working like beavers throughout the State. Except in portions of the population of the lower counties, the white men of the State are laboring throughout Texas. The result is that next year more land will be in cultivation in the State by thirty-three and a third per cent. than ever before. The work is more skillfully done than under the old *regime*, and the crops are harvested better and are more valuable. And then the people are measurably out of debt. By compromise, by bankruptcy, in one way or another the people of Texas have nearly all freed themselves from pressing pecuniary embarrassments. And population is flowing into the State from all quarters, in many streams, of much larger volume than most men imagine.

LIFE INSURANCE.

The Most Vigorous and the Most Liberal Insurance Company in the Country.

BROOKLYN LIFE INSURANCE COMPANY.

141 Broadway, N. Y.

ASSETS OVER

$1,000,000!

CHRISTIAN W. BOGERT, President.
ABRAM D. POLHEMUS, Vice President.
WILLIAM M. COLE, Secretary.
D. P. FACKLER, Consulting Actuary.
DANIEL AYRES, M. D., LL.D., Med. Examiner.

POLICIES ISSUED AS GOOD AS UNITED STATES BONDS.

POLICIES VALUABLE IN LIFE AS AT DEATH!

The BROOKLYN LIFE is the only Company in the country which guaranties a definite surrender-value to every Policy on which two or more annual premiums have been paid; this amount, in dollars and cents, is endorsed on every Policy issued. Should any Policy-holder become unable to pay his premiums, he can thus know the cash worth of the Policy at any time after two annual premiums have been paid.

This certainly is the greatest inducement and most tangible advantage ever accorded to parties insuring their lives.

Among the advantages offered by the BROOKLYN, which thoroughly evince the determination of the officers to make it the MOST LIBERAL Life Insurance Company in the United States, are:

1st TOTAL REMOVAL OF ALL RESTRICTIONS ON TRAVEL AND RESIDENCE. The Assured may travel or reside anywhere they choose, the world over, without extra premium or special permit.

2d. A Loan of one-third of the Premium to the Policy-Holder Annually.

3d. All Policies are non-forfeitable after two full annual premiums have been paid.

4th. Rates as low as are consistent with financial soundness, and less than those of almost all Companies which accommodate their assured with loans.

5th. Dividends annually (after second year) in cash. Dividends are divided on the CONTRIBUTION PLAN—the only equitable manner of dividing the earnings of a Life Insurance Company. The Contribution Plan was first conceived by Mr. D. P. Fackler, now Actuary of this Company and has been adopted by most of the best managed Life Companies in this country.

The BROOKLYN LIFE has paid and now pays to its Policy-holders LARGER DIVIDENDS than ever before paid by a Life Insurance Company!

6th. Promptitude in paying losses.

7th. No charge for policy or stamp.

The success which the "BROOKLYN" has achieved, fully exemplified in its rapid and healthful growth, is a convincing proof of the confidence reposed by the public in its soundness, integrity and liberality.

LIFE INSURANCE.

ÆTNA

LIFE INSURANCE COMPANY.

Hon. E. A. BULKELEY, President.
AUSTIN DUNHAM, Vice "
T. O. ENDERS, Secretary.
H. W. DeJOHN, Actuary.

SUMMARY OF BUSINESS FOR 1867

Total Assets, over	$10,000,000
Policies Insured in '67,	15,251
Am'nt Insured, nearly	$45,000,000
Policies Average "	2,000
Receipts for 1867,	5,129,447
Surplus for Dividends,	2,000,000

Dividend Fifty per cent.

Receipts for Interest Nearly Paid Its Losses.

It has $130 Assets for every $100 Liabilities.

Its premium receipts at the present time are nearly HALF A MILLION DOLLARS per month and are rapidly increasing.

The growth of the Ætna has never been equaled by any other Company whatsoever, in Europe or America.

Particular attention is called to the fact that while its business is increasing unprecedentedly, its ratio of expenses is comparatively small.

ECONOMY of management, CARE in the selection of risks, *promptness* in the payment of death claims, and *security* in the investment of its immense Trust Funds, are rigidly adhered to, and have ever characterized this Company.

The ÆTNA issues all the favorite kinds of Policies at the most favorable rates.

The ÆTNA issued last year more Endowment Insurances than any other Company.

The ÆTNA'S ratio of expenses, or cost of new business is less than any other Company whatsoever, and less than *two-thirds* of the average.

The ÆTNA is as liberal in permits to travel, in all parts of the world, as a sound discretion will warrant, and is much more liberal than any other prominent Company.

ANNUAL INCOME over $6,000,000.

The only Company that has the Low Participating Non-forfeitable Term Insurance with privilege of renewal. Ex. of rate at age 30 $14 67, which is nearly 40 per cent. lower than any other leading Company. Also

Non-forfeiting cash rates with dividends on contribution plan and payable at the end of the first year.

Description of Policies.

First—Whole Life Policies.

Second—Endowment Policies, for terms of ten fifteen, twenty, twenty-five, thirty, and thirty-five years.

AGES.

Insurance will be granted at all ages from fifteen to sixty-years.

PREMIUMS.

Premiums are payable annually during the continuance of the insurance, or annually during a period of five, ten, fifteen, or twenty years within the insurance term, or by single payment.

DIVIDENDS.

All Whole Life and Endowment Policies, issued at the rates published herewith, will participate in the surplus from the date of issue.

The dividends will be declared and paid annually upon the contribution plan, and may be applied as the assured shall elect, either to reduce future premiums, or to increase the Cash Value of the Policy.

If no election be made the dividends will be added to the Cash Values.

When, by adding the dividends to the Cash Value, the accumulations on any Policy shall have become sufficient to keep the same in force for its *full amount*, without further payments, the assured may, at his option, either continue payment of premiums—and enlarge thereby the annual additions to its Cash Value—or discontinue them; and in either case, when the accumulations shall have become equal to the sum insured, the annual dividends on the Policy will be declared as a per centage of said sum, and paid in cash, and upon surrender of said Policy the sum insured thereby will be paid in *full*, without regard to the time fixed therein for its payment.

The system of applying the dividends is peculiarly advantageous to the assured, securing, at an increased age, not only relief from further payment of premiums, but, at the same time, an annual income until death, unless he shall have previously received full payment of the Policy.

Dividends on paid-up Policies—that is, Policies which require no further payment of premium to continue them in force for the original amount of insurance—will be paid in cash upon demand.

NON-FORFEITURE RULES.

No whole Life or Endowment Policy, on which two or more annual cash premiums have been paid, shall be forfeited by failure to make further payment as stipulated therein, but will continue in force for the full amount which the Cash Value and dividends, then accumulated, will purchase, taken as a single net premium, upon the "Actuaries" rate of mortality and four per cent. interest; and the amount continued in force will generally exceed the aggregate of the payments actually made, extra charges excepted.

SOUTHERN LIFE INSURANCE COMPANY.

PURELY A SOUTHERN INSTITUTION.

PRINCIPAL OFFICES:

Atlanta, Georgia; Memphis, Tennessee; Louisville, Kentucky.

CAPITAL STOCK, $228,500.

Nett Assets of the Company, July 1st, 1868, $230,812.00.

Insures lives, and promptly adjusts and pays losses. Its principal business is with Southern States, and to them it appeals for patronage. It has ample means to fully protect Policy holders and pay all losses.

The "Southern" combines the advantage of both note and cash system, stock and mutual—such as choose to pay cash may do so and secure a non-forfeitable policy and all the advantages of a Cash Company. The privilege of a permanent loan for one-third is granted to all who desire it.

It makes investments at home in good and reliable securities, thereby tending to make money more plenty in our midst, and to aid in developing the resources of our section, and to stop the annual drain of over Six Million dollars, which are being sent North for Life Insurance.

Its profits are equitably distributed among Policy holders and Stockholders.

In its organization are presented men of experience in Life Insurance and their aim will be to make the "Southern Life" the exponent of the business, enterprise and progress of the present day.

RAILROADS.

TO SHIPPERS.

NORTH CAROLINA

ALL STATE

RAILWAY LINES, (THAT USED TO BE!)

THE OLD RALEIGH & GASTON RAIL ROAD, THE SHORTEST, QUICKEST, SAFEST AND BEST LINE, NORTH AND SOUTH, TO BE LEFT OUT IN THE COLD.
LESS SHIPPERS SPECIALLY
SAY VIA. R. & G. R. R.!

WE inaugurated and are the *Great through Island Air Line Route* to all the Northern Markets, and have successfully worked the Line to the entire satisfaction of shippers, North and South, for the last ten years, as the ten Thousand shippers in North and South Carolina will testify. We paid the state near seven Hundred Thousand Dollars for her interest in this Road—thereby saving the people from Taxation for all time to come, amounting yearly and we unhesitatingly declare that we can and will give more dispatch to all points, North and South, than any other Line.

NOTICE!

The Great Island Air Line Freight

ROUTE,

VIA THE RALEIGH & GASTON RAIL ROAD,

is the Short Line for Shippers, and you are required so to direct your freights, or they will be taken by another Route!

To insure your Freight being carried over this great Inland Air Line safely, direct your consignors to mark your Freight, Care of Rail Road Agents, Petersburg, Va., or City Point Va., via Raleigh & Gaston Rail Road, and to ship as follows:

FROM BOSTON:
Merchants' & Miners' Line, end of Central Wharf, E. Sampson, Agent.

FROM NEW YORK:
Old Dominion Steamship Co., Shipping Point, Pier 37, North River, foot Beach St., Office 181, Greenwich St. Cor. Dey; N. L. McCready, President.

FROM PHILADELPHIA:
(Via Annapolis,) Balto., Wilmington and Baltimore Depot, or Clyde's Line of Steamers, 14 N. Delaware Avenue, W. P. Clyde, Agent.

FROM BALTIMORE:
Baltimore Steam Packet Co., Bay Line Steamers, Foot Union Dock, L. B. Parks, Agent, or Powhatan Steam Boat Co., 90 Light Street Wharf.
