WASHING COMPOUND.
Patented Sept. 22, 1868.
REASONS FOR PREFERRING THIS SOAP.
The Patentee claims for this soap the following advantages which are clearly set forth in the Letters Patent, to-wit:
First, it can be manufactured at less than half the cost of any soap ever produced.
Secondly, it may be used successfully in any kind of water—cold or hot, hard or soft.
Thirdly, it so modifies the action of boiling water on woollen goods that they fulled do not contract under its influence, and your woollen garment is as large after boiling as before.
Fourth, it does not decompose the colors of goods, and your prints and stripes are as brilliant after washing as before.
Fifth, the goods do not require any rubbing or patent washing machine—all that is necessary is a few minutes boiling and a good rinsing.

LIFE INSURANCE.

NATIONAL

LIFE INSURANCE COMPANY,
OF THE
UNITED STATES OF AMERICA.
WASHINGTON, D. C.

Chartered by Special Act of Congress, Approved July 25th, 1868.

CASH CAPITAL,
$1,000,000,
PAID IN FULL.

It is no longer a question with any man, who tenderly loves his wife and children, who considers how helpless would be their condition in case of his death, as to the duty of taking out a LIFE POLICY, but as to which Company he shall pay his money.

If he reflects a moment he will conclude to patronize the Company which shows the greatest degree of vitality, which extends its business over the largest area, which is a Home Company in every locality; which furnishes insurance at the least cost; which issues no policies that are forfeitable should he be unable next year, or any subsequent year to pay his renewal; and which is undoubtedly able to meet ALL ITS PROMISES.

With these feelings and views, he looks over the newspapers and, by the time he gets through reading the advertisements of Mutual or Mixed Companies, he finds his mind so fuddled that he is at a loss where to go or what to do. He cannot comprehend one-half that is written, and concludes that none but ACTUARIES, who are familiar with the principles upon which Life Insurance is based can comprehend or explain any thing about dividends and his liability for notes given in part payment of premiums. In his dilemma, he looks into the plan adopted by the

NATIONAL
LIFE INSURANCE COMPANY,
U. S. A.

and finds just what he wants:

An ALL CASH PLAN, reduced to the LOWEST MINIMUM Rate, like any commodity in Market, so much Insurance for so much Money. No notes to give; no interest to pay; no anxiety about Assessments; no apprehension of his Policy being forfeited next year if he does not pay his annual Renewal; and the RATES so much LOWER than other Companies, that he realizes a larger Dividend, IN ADVANCE, than other Companies can pay him in the future.

He finds that, instead of this UNCERTAIN PROMISE, and present high rate, that the

NATIONAL

presents a certain and definite sum for a much lower rate, and puts up its paid up Capital of

$1,000,000

as a guarantee fund, that its contracts will be fulfilled, and, like thousands of others, cheerfully calls on their Agent to make his application for a Policy. Hence the unprecedented and most wonderful success of the NATIONAL as contrasted with the older and Mutual Companies.

The Company issued its first policy on the 1st of August, 1868, and up to March 1st, 1869, it had issued 3,582 policies.

Amount insured,	$10,005,500.00
Total Premiums,	350,117.63

The whole number issued by the Connecticut Mutual in the first year of its existence was 802

By the Mutual Benefit of New Jersey,	693
" New England Mutual,	243
" Phœnix Mutual,	235
" Massachusetts Mutual,	212
" Equitable of New York,	277

The Mutual Life, of New York, in the first year of its existence, only issued 470 policies.
In its 10th year, 2,200 "
And in its 20th year, 2,842 "
This latter being 690 less than was issued by the NATIONAL in its first seven months.

NEW ARRANGEMENT.

The RALEIGH SENTINEL having passed under the Editorial management of the undersigned, it will, from the present date, be conducted by him

It will be the zealous and fearless advocate of the CONSTITUTION of the United States, seeking to bring the people back to their ancient reverence for that immortal instrument, and to restore the policy of the country to that honored standard, as the only guarantee of National prosperity.

It will do justice to the men and measures of the present day, whenever they may merit it, but it will unsparingly lash and denounce all who set themselves up in opposition to the Federal Constitution, and hold up to the public indignation corruption and imbecility in high places.

It will ardently seek the promotion of the best interests of North Carolina,—moral, educational material and political.

THE LATEST NEWS

From every quarter, both by mail and telegraph, will be carefully collated and presented.

Full and correct market and financial reports will be given.

CAUTION! WE desire to warn the dealers in, and consumers of Snuff generally, that since the war, certain Tobacco Manufacturers, being unable to find a market for their snuffs, felt themselves obliged to counterfeit the general appearance of our packages, and imitate our Trade Marks so that a close inspection is necessary to detect the spurious articles from the genuine, and others going so far as to assert that "Lorillard's Snuff is no longer made."
In making this publication we desire to warn the public against the impositions practiced upon them, as they are the losers thereby. It will be found, upon comparison, that Lorillard's Snuff is "far ahead" of all others, being made of the best stock, after an original and secret process known only to ourselves, besides possessing strength and pungency, and is warranted not to contain any dangerous or deleterious substances, which cannot be said of many worthless articles put on sale by others. The best is the cheapest in the end. A circular will always be mailed on application. In ordering please specify if Salt Snuff (High Toast,) or Fresh Snuff (Extra Scotch) is desired.

NEW METHOD OF WASHING CLOTHES WITHOUT LABOR.
THE AUTOMATIC
CLOTHES WASHER AND BOILER.
THIS BOILER IS MOST EFFECTUAL, rationale and universally recommended. It can be used on any Stove or Range, in any boiler, and the low price of the article places it within the reach of every family.
This Boiler operates upon purely philosophic principles, is self-acting, and dispenses with labor and the wear of the clothes.
The heat, steam, by the action of boil, forces up through tubes, poured upon the clothes, and forced through the clothes thus saturating rapidly, cleansing all articles, from the most coarse to the fine linen. For Farmers it is invaluable, as it does not rail them as in the old process of rubbing and pressing.
The time required for cleansing a boiler full of clothes is twenty to thirty minutes, and nearly three hundred gallons of boiling suds are forced through the fabric, thoroughly removing and washing the dirt WITHOUT LABOR or friction.—A thorough rinsing completes the process.
Washing day will no longer be a terror and dread to housewives. The cost of the Boiler will soon be returned in the SAVING OF TIME AND LABOR, and in great saving in the wear of clothes.
The great value of this invention appears so clear, and appeals so directly to common sense, that we have deemed it unnecessary to accompany its introduction with numerous testers of approving do.
No invention has met with such ready sale and given such satisfaction. Call at LOUGHE & BROTHER'S, and see its wonderful operations.—We have the exclusive right to sell and manufacture in this state.
