THE SENTINEL.

CITY AND STATE ITEMS.

THURSDAY, JUNE 23, 1870.

Mr. John R. Randal, as Business Clerk, is authorized to make contracts and give receipts, &c., &c.

SPEAKING AT DURHAMS.

We are requested to announce that Hons. A. H. Jones and R. B. Gilliam, the Conservative candidates for Congress for this district, will address the citizens of Orange, at Durhams, on Saturday the 16th of July next. Everybody is invited to attend.

New Ads.—Meeting of the M. C. A. Wanted—Apple Brandy and all sorts of liquors and groceries at G. T. Stronach's.

Upholstering by R. R. Harrison.

Court notice, Nash county.

Scuppernong wine and Southampton hams, W. B. Jones & Co.

Fresh arrivals of beautiful selections of dry goods at Primrose, Petty and Newsom's. Read all of them.

Arrested.—We understand that some white men were arrested and brought to the city last night, on a warrant taken out by a colored man, who charges them with whipping him. They have been in the city all day, but have had no examination. They seem to be walking about quite freely, and we learn they are able to prove themselves clear of the charge.

The parties we learn are, Webster Sorrel, Young Chapel, — Pennington and — Holderfield. Just as we go to press, we learn their examination is about to be entered on.

Commencing.—Rufus Harrison, whose advertisement appears to day in the Sentinel, requests us to say that he will, before long, take a trip to the eastern part of the State, and will visit several towns, where he will be glad to get work. We commend him as an experienced and faithful workman in his line.

Mechanics' No. 2.—Mechanics' Fire Company, No. 2, will meet at Fireman's Hall this (Thursday) evening, at 8½ o'clock. Every member is requested to attend.

For Congress.—H. H. Helper is out as an independent candidate for Congress in the sixth district, in opposition to Hon. F. E. Shober. The Reds of that district have made no nomination, yet.

A Nuisance.—We call the attention of the police to a number of bold and hearty colored boys, who stand at the gate of the Capitol Square, facing Fayetteville street, and annoy passers-by by begging for "five cents." We hope the authorities will put an immediate quietus upon such disgraceful proceedings. These boys should be made to engage in some kind work of and not be allowed to roam the streets begging for charity, to which they are not, by any means, entitled.

In our perambulations through the city, we have seen, and become aware of many other matters which demand the attention of those to whom the good order and morals of the city have been entrusted, and of which we shall, at some future day, speak more plainly, if steps are not at once taken to remedy the evils, especially the many stagnant, malaria and musquito breeding pools.

Attention Firemen.—There will be a special meeting of Rescue Steam Fire Engine Company, at Prempert's Saloon, on to-morrow, (Friday) evening, at 8½ o'clock. A full attendance of the members is desired. By order of the Foreman,

JOHN C. GORMAN, Sec'y.

At a meeting of the Raleigh Base Ball Club, the following officers were elected: J. C. Blake, President, R. P. Jordan, Vice President, Leo. D. Heartt, Secretary, S. C. White, Treasurer, and W. E. Anderson, P. M. Sorrell and A. D. Jenkins, Directors.—The Club adopted the Constitution and By Laws of the National Association of Base Ball Players. The time for playing was fixed at 6½ o'clock P. M. on Mondays, Wednesdays, and Fridays. The club adjourned to meet again at the call of the President.

There will be a called meeting to night, 8½ o'clock, at Prempert's saloon.

The Living Machine. — Rev. R. R. Harris, [illegible] the mainspring of a watch, and every [illegible] become disordered. The [illegible] to the human system when [illegible] place of metal is to a chronometer. It influences the action of the other organs, and controls, to a certain extent, the whole living machine. The comparison may be carried further, for as the weakness or slight imperfections of the main spring is indicated on the face of the time-piece, so also is the weakness or other disorder of the stomach betrayed by the face of the invalid. The complexion is sallow or faded, [illegible] and there is a worn, anxious expression in the whole countenance which tell as plainly as written words could do, that the great motor-setting organ whose office it is to minister to the waste of the body, and to sustain and renew all the parts, is not performing its duty. It requires renovation, or regulating, and to accomplish this end there is nothing equal to Brown's Iron Bitters. It is truly said to be the one thing needful. The broken main spring of a watch may be replaced by a new one, but the stomach can only be repaired and strengthened, and this is one of the objects of the famous vegetable restorative which for eighteen years has been making a successful contest against disease in all climates. As a specific for indigestion it stands alone. When the resources of the physician have been exhausted, without relief, doing more than mitigating the complaint, a course of this invigorating and patentous, yet perfectly harmless tonic, has effected a permanent cure. In all cases of dyspepsia the liver is more or less disordered, and organic in a important degree, as well as upon the stomach and bowels, this tonic and with singular distinctness, regulating and invigorating every secretive and sentient living organ on which health and mental health depend.

A clergyman in a recent sermon in New York, tells an anecdote of an old merchant who instructed his clerks: "When a man comes into a store and talks of his honesty, watch him; if he talks of his wealth don't try to sell to him; if he talks of his religion, don't trust him a dollar.

False Colors on the Fore-top!—Who ever saw an old bald-headed man wanted to buy hair dye? No one. Who can distinguish the brown and blooms brought out by Phalon's Vitalia, or Sanford's, any more than Hyperion from Satyr? No one. And hence, it follows as night the day, and is clear and perspicuous, that he who sells it is clear and perspicuous, and has no sediment.

Sold by all druggists and fancy goods dealers.

Conservative Nominations in Cumberland County.—From a friend we learn that the following nominations have been made by the Conservative Convention of Cumberland county:

For House of Representatives, G. W. Broadfoot and John Currie.

Sheriff, R. W. Hardie, present incumbent.

Coroner, Dan. Buxton, colored.

Register, W. F. Campbell.

County Commissioners, A. A. McKethan, (the other names not remembered).

Note.—From the above it will appear that the Democrats and Conservatives of Cumberland county are not so much afraid of a colored Coroner going into gentlemen's parlors, as James Harris was when uncle Hosea Patterson was nominated by the other side in Wake, for that office. Perhaps uncle Moses and other colored men will be able to see and appreciate the state of the case, and perhaps may see, also, the reason of James's opposition to the nomination.

Wednesday Night Dispatches.

WASHINGTON.

Washington, June 22.—The Senate Judiciary Committee will report favorably upon Ackerman's nomination to the Attorney Generalship, but will oppose action until Ackerman's arrival here. He is expected every day.

Revenue to-day $621,000.

Boutwell orders all persons to be excluded from the money room in the Treasury, except bearers of his orders.

Cotton growers seem determined this year to reduce the price of cotton to 15 cents, with every prospect of doing it. The average yield is materially increased in every State, while the average of wheat, and probably corn, has decreased. The condition of the growing crops in North Carolina is good; in South Carolina cotton is looking well, except that there are the usual complaints of bad seasons; in Georgia it is late and smaller than usual, from the effects of drought for five weeks, which terminated May 25th, but it is growing vigorously now. The dry term was shorter in Florida and Alabama, and cotton is generally in good condition. Reports from Mississippi are still more favorable. In Tensas parish, La., where the crop at cotton yield of 18.7 was made, the condition of the crop is twenty per cent better than last year, and the average is increased one-fifth. From Texas comes reports of a backward spring, with cotton late but thrifty and promising, and no Stag o makes more favorable returns than Arkansas. Her average condition of the cotton is better than last year at this time. The acreage of seasonable cotton in Texas has been increased.

Senate.—A bill was reported authorizing a cable to Bermuda also to facilitate telegraph communication with the Belgians.

The tax bill was taken up with a sharp contest over the income tax, Sumner and Conkling arguing for abolition. All the other amendments were adopted when the matter of abolishing the income tax was postponed until Thursday.

House.—The bill allowing Massachusetts over $500,000 of interest on the war debt of 1812, was amended to the effect that one payment shall close the account, passed 101 to 51.

The President's veto of the bill to extend the patent for Smith's and Wesson's pistols was sustained, 135 to 14.

During the discussion a severe collision occurred between Butler and Farnsworth. Farnsworth showed Butler having received $2,000 as the attorney of the parties desiring the extension. Butler retorted that Farnsworth had more beard than brains. Farnsworth replied, whether long or short, no member should steal under the shadow of his beard if he knew it. Mutual and lengthy denunciations followed.

The apportionment bill was discussed up to adjournment.

The Commissioner of Internal Revenue has issued regulations regarding distillation from fruits, greatly reducing the burdens of that industry. They are quite lengthy.

Late letters from the Plains report that nearly all the young Indians belonging to the Arapahoes, Cheyenne and the tribes below the Arkansas River are on the war path.

Thursday Evening Dispatches.

WASHINGTON

Washington, June 23.—The Senate last night considered Southern railroads. The amendment for a land grant to the Decatur, Aberdeen and Vicksburg railroad was rejected by a vote of 26 to 25. Mr. Buckingham moved an amendment striking out the provision for a speedy extinguishment by the government of Indian land titles in the Indian Territory, which was adopted. Several Senators remarked that there were no Indian reservations along the proposed line.

Various amendments were submitted and subsequently withdrawn. Among them one by Morrill of Vermont, authorizing railroads to be built anywhere in any State by anybody, and granting for that purpose all lands not already taken by railroads. (Laughter.)

Casserly said that the land grant fever in the Senate amounted to a delirium.

On motion of Harlan, the twenty-fifth section of bill was stricken out by a vote of 29 to 19.

On motion of Howard, the names of four additional incorporators were inserted.

Nye moved to substitute in lieu of incorporators in the bill, the names of John C. Fremont and a large number of others. He advocated the amendment as conciliatory. Howard thought that as the President of the Memphis and El Paso railroad, Fremont, had as much to do as he could attend to. He opposed any revision of the incorporators. He criticised the conduct of General Fremont whilst in France in regard to his management of the affairs of the proposed Memphis and El Paso Rai road.

Trumbull defended General Fremont.

Senator Howard then obtained the floor and held it until midnight, when the bill was made the order of business for Thursday evening next.

House.—The entire morning was occupied in the discussion of the apportionment bill as amended by the Senate. The previous question was moved but failed of a second, when a number of amendments were introduced.

The Georgia bill is expected to come up this afternoon.

The resolution of the Senate Committee on Foreign Relations in regard to Cuba, substantially proclaiming belligerent rights to the Cubans reasserts the Monroe doctrine.

Sum.er made the report. It demands the immediate emancipation of slaves and exacts other conditions from Spain.

It is impossible to get the full import of the resolutions yet. They are the cause of much excitement and some astonishment.

HAS BECOME THE LEADING COMPANY OF THE WORLD.

Its New Business (sum assured), for the year 1869, exceeded that of the second company in rank by more than Thirteen Million Dollars.

In 1868 it was the 6th Company in new business for the year; in 1867 it was the 5th; in 1866 and 1865 the 7th; in 1864 and 1863 the 8th; in 1862, the 4th; in 1861, the 3d; in 1860, the 2nd;

In 1869 it was the First.

The insuring public should not allow itself to be deceived with regard to the term "Annual Dividends". Many companies using this expression mean that their dividends are "annual" or THE THAT ONCE BEGIN TO PAY THEM AT ALL; but they do NOT EQUIT TO PAY until the anniversary of the third, fourth, or fifth premium.

One hundred Dollars paid in dividends, at the end of one year, and each year thereafter, equals FOUR HUNDRED AND TWENTY-SEVEN DOLLARS paid at the end of FOUR YEARS, interest at six per cent.

Applications for Assurance may be made to any of the Society Agents throughout the country, or in person or by letter to the General Agents.

Gentlemen of character desirous of forming a connection with the Company as Agents are invited to communicate with its General Agents.

Dunn's Patent Cotton Tie.

We beg to announce that we have been appointed Sole Agents for the sale of the above Patent Tie in Virginia and North Carolina. The satisfaction it gave last season wherever used, warrants us in recommending it as the best tie yet introduced. It combines the advantages of great strength, great simplicity and ease in manipulation, besides the difficulty of taking up the stock of the hand in the operation of baling, is entirely obviated.

We shall have our supply direct from the manufacturer in England, for delivery in July or August, at the lowest market rates.

Liberal terms to the trade.
