WALTHAM WATCHES.

THE EXTENSIVE USE OF THESE WATCHES for the last fifteen years by Railway Conductors, Engineers, and Surveyors, the most exacting of watch-owners, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-keepers.

More than 450,000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.

The superior organization and great variety of the Company's Works at Waltham, enable them to produce watches at a price which renders competition futile, and those who buy any other watch, merely pay from 25 to 50 per cent. more for their watches than is necessary.

We are now selling Waltham Watches at less prices by greatly, than the gold prices before the war. There is no other manufacturer of watches in the United States of which this can be said.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the benefit of nearly every invention in watchmaking originating in this country or in Europe, only those are finally adopted which prove lasting by the most skillful artisans in our works, and long use on the part of the public demonstrates to be essential to useful and enduring time-keeping.

Among the many improvements we would call attention to:

The invention and use of a construction of peculiar construction, to prevent damage to the main by the breaking of main springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Dennis Farrant's patent as being the best and cheapest.

Hardened and tempered hair springs, now universally adhibited by watchmakers to be the best, are used in all grades of Waltham Watches.

All Waltham Watches have dust-proof caps, preventing the movement from dust and hastening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, for lady wear, is already a decided success and a great improvement on any stem-winding watch in the market, and is, for the cheapest watch of its quality now offered to the public. To those living in portions of the United States where watchmakers do not abound, whatever with the above mention d improvements which tend to insure accuracy, cleanliness, durability and convenience, must prove invaluable.

Every watch guaranteed by the Company.

To prevent imposition, buyers should see that every watch should bear either of the following trade marks:

Adamant Watch Co., Adams, Mass.

Adams Watch Co.

Crescent St. Watches, Waltham, Mass.

Waltham Watch Co., Waltham, Mass.

P. S. Bartlett, Waltham, Mass.

Wm. Ellery, Waltham, Mass.

Howard Watch Co., Boston, Mass.

Appleton, Tracy & Co., Waltham, Mass.

Waltham Watch Co., Waltham, Mass.
