The sea folding around Stronach's new building, just above the Yarborough House, will be taken down in a few days. This building, when completed, will reflect credit upon the good taste of its owner, W. C. Stronach, Esq., and prove an ornament to Fayetteville street.

NORTH CAROLINA STATE MUSICAL CONVENTION.—The North Carolina State Musical Association will hold its Second Annual Convention at Raleigh, commencing on Monday 16th inst., and closing Friday night following with a public concert.

The object of the Association, is the improvement of choir singing, and the awakening of a deeper interest in musical culture. To accomplish this object, the Association is required by its Constitution to hold at least one Convention each year, and to employ the services of one or more first class professional music teachers, to conduct the exercises, who will give instructions in the cultivation of the voice, solo and chorus singing, harmony and thorough bass, and the art of teaching vocal music.

The singing exercises to be selections from Oratorios, Anthems, Hymn Tunes, Glees, &c. Three sessions to be held daily.

Persons desiring to teach singing have an opportunity at a trifling cost of a course of instruction, that they will find of great service to them in their future work; and it is believed all choir leaders and choristers, may attend the coming Convention with pleasure and profit.

The Directors of the Association, have secured the services of Prof. Chester G. Allen, of New York City, who has an enviable reputation as a thorough instructor and first class director of Musical Conventions.

Books will be furnished for the occasion free to members. Railroads will pass those attending the Convention for fare one way.

It is hoped the press throughout the state will aid us in extending this notice and urging every singer to come. If one hesitates about coming, let him ask any one attending the last Convention and take his advice.

C. DEWEY, President.

R. W. BEST, Secretary.

The papers in the State are respectfully requested to copy this announcement.

A Pierce City, Kansas, gentleman entered a ball room lately, and incidentally remarking, "I haven't had any fresh meat to-day," began firing into the crowd. He killed four men.—*Boston Post.*

Willard Warner, the righteously defeated Senator from Alabama, is making arrangements to leave the State in disgust. The South has a few more left of the same sort, whom it can very conveniently spare.

The Advent *Herald* says that Rev. Mr. Adams, of Holyoke, Massachusetts, recently immersed forty-four persons in twenty-two minutes, and that Elder Pike, of Newburyport, once immersed ninety-seven persons in less than sixty-five minutes. It thinks the Apostles could have easily immersed the three thousand converts on the day of Pentecost.—*Exchange.*

Then she could not have been "mountain high."

A person who undertakes to raise himself by scandalizing others might as well sit down in a wheel barrow and try to wheel himself

Friends of Governor Holden are trying to devise some plan of shielding him from the consequences of his impeachment, but get no encouragement from Grant or Congress.—*Albany (N. Y.) Argus.*

Grant and Congress have been making "shields" of themselves for some time to bolster up and protect corruption, but virtue and justice have so perforated them that they are now very much like our Judiciary, their "powers are exhausted." We are not surprised that Holden gets "no encouragement" from them.

And we suspect that Grant has "encouraged" Holden quite to his sorrow. Under Holden's advice, the President appointed Windy Billy Henderson Assessor of the 8th District, while he was under indictment for stealing Darr's mule, and under Holden's advice and recommendation, the President appointed Parson Sinclair Assessor of the 3d District, after he, Sinclair, had been 'unfrocked' by his Church, for lying, stealing, kidnapping, fornication and adultery, and drunkenness. If such appointments as these to control finances belonging to the government, don't "exhaust the powers," as well as the patience of Grant, and the resources of the country as well, then he can afford to "shield" and shoulder any crime, however stupendous.

But we see that he can't stand it, and as Holden led him into the difficulties, he proposes to leave him to his fate, without further "encouragement."

A private letter asserts that King William is accompanied by the spiritual medium, Home, who is consulted for information on all important movements of the army.

Col. Jas. Fisk, Jr., was asked to subscribe for the erection of a fence around a grave-yard in Vermont. "No," said he, "what's the use? "Those inside can't get out, and I guess nobody outside wants to get in."

A Guernsey county schoolboy wrote the following "composition" on trees: "There are a great many kinds of trees, the apple, peach, palm, cherry and a great many other kinds. I like cherry pie best."

The Duke of Norfolk, premier Duke and Earl Marshal of England, has become engaged to be married to the Princess Margaret of Orleans. The Princess, who is twenty-four years of age, is a daughter of the Duke of Nemours.

A CURE FOR ANGER.—Two little girls, one seven and the other five years old, were playing together, when a little difference arose between them. Lucy, the elder, feeling that anger was rising, said: "I am getting angry; I had better go out of the room for a few minutes." She went out and soon returned with all the angry feelings gone. How she spent the few minutes I think most of our little readers will know. Lucy had not read her Bible in vain; she knew the sweet and encouraging words: "Ask and it shall be given;" and many times had proved them to be true when fighting against her naturally hasty temper. How many sad scenes would be avoided if all children would follow the example of little Lucy.

If any one offend you, before answering try to call to mind this golden sentence: "A soft answer turneth away wrath; but grievous words stir up anger," and if you attend to it you will save yourself hours of regret and repentance.

General Howard in a recent report says: The people of the Southern States have been too much occupied with material interests, the restoration of industrial order and political reconstruction, to give to the subject of education the attention which its importance demands.

The "Christian hero" might have added, says the Norfolk *Virginian*, with great propriety that the Radicals in North Carolina pocketed all the money appropriated for public schools, and the same is lamentably true in other States.

The Atlanta *True Georgian* says: The State has gone overwhelmingly Democratic, and if the Democracy will observe caution and wisdom in the future, they will roll up a majority in '72 that will astonish the world. Thousands of colored electors voted the Democratic ticket. Broken promises on the part of the Bullock faction mostly disgusted them, and from this on they will vote the Democratic ticket as a legitimate consequence.

THE WEIGHT OF WOMEN'S CLOTHING.—A writer in *Good Health* says that the average weight, all the year round, of that portion of a woman's clothing which is supported from the waist is between ten and fifteen pounds; and that if a woman was sentenced to carry such a weight about in this way for a number of years, for some great crime, the punishment would be denounced as an inhuman one; yet thousands of women daily endure such a punishment voluntarily, because it is the custom, and because they do not know the bad effects likely to follow it. The writer earnestly counsels women not to adopt an attire similar to that worn by men, but to have their clothing suspended from the shoulders, by which dangerous pressure on abdominal muscles would be avoided.

"SPALDING'S GLUE," has now taken the place of all Cements and Mucilages.

A GENTLE WHISPER TO MOTHERS.—If unfortunately you have lost your own teeth by neglect or mismanagement, take care that your daughters do not suffer the same penalty from the same cause. See to it that they brush their teeth regularly and thoroughly with *Sozodont*, and thereby you will insure them sound and serviceable sets as long as they live.

A NEGLECTED COUGH, COLD, OR SORE THROAT,—which might be checked by a simple remedy, like "*Brown's Bronchial Troches*," if allowed to progress may terminate seriously. For Bronchitis, Asthma, Catarrh, and Consumptive Coughs, "*The Troches*" are used with advantage, giving oftentimes immediate relief. Singers and public speakers will find them also excellent to clear the voice and render articulation wonderfully easy.

NO HUMBUG.—We do not wish to inform you, reader, that Dr. Wonderful, or any other man, has discovered a remedy that cures all diseases of mind, body or estate, and is designed to make our sublunary sphere a blissful Paradise, to which Heaven itself shall be but a side show, but we do wish to inform you that Dr. Sage's Catarrh Remedy has cured thousands of cases of Catarrh in its worst forms and stages, and the proprietor will pay $500 for a case of this loathsome disease which he cannot cure. It may be procured of druggists or by mail for sixty cents, from R. V. Pierce, M. D., Buffalo, N. Y. A pamphlet sent free.

STATE NEWS.

Weldon has races at the Fair grounds.

Enfield is suffering from the depredations of thieves.

The city Hospital of Wilmington has now 23 inmates.

Capt. J. B. White having retired from the management of the Weldon Hotel, is succeeded by Mr. Happer.

It is said that G. L. Mabson, the colored member of the House of Representatives from New Hanover county, intends to engage in the legal profession.

In the office of the Clerk of the Superior Court of New Hanover county, during the month of December 1870, there were 27 deeds and mortgages, aggregating $38,510.20, admitted to probate.

Hon. O. H. Dockery, member of Congress from the 3rd Congressional district of this State, was married in Wilmington, on Tuesday night, at the 1st Baptist Church, to Mrs. Pauline Settle Covington.

The steam ferry boat "Waccamaw" was sunk last Sunday night at the wharf of the Wilmington & Weldon R. R. It is supposed the accident was caused by a raft striking against her, in passing.

At the meeting held at Jacksonville last week to take into consideration the proposed Wilmington & Onslow R. R, a resolution was passed that the county subscribe $50,000 to the first mortgage bonds of the proposed railroad, which will soon be submitted to the people of the county for ratification. From the zeal and interest manifested by those that attended the meeting, it is evident that the people will unanimously sanction the proceedings of the meeting.

MORE RADICAL RASCALITY.

The Radicals in Florida are making desperate efforts to defeat the will of the people, as expressed in the recent elections there. The Democratic candidate for Lieutenant-Governor, Blocham, was elected by a majority of 89 votes, and Niblack, Democratic candidate for Congress, has a majority of 229 votes.

The State Senate stands 19 Democrats to 19 Radicals, though in the 24th district Maloney, Democrat, was elected by 41 majority; yet, on account of some informality at one of the precincts in the district, the vote was thrown out, which gave Locke (Radical), Maloney's opponent, a majority of 8 votes.

In the Assembly the Democrats have a clear majority of *four*, and on joint ballot a majority of five, if Maloney is seated.

This being known as the result of the election, the State Board of Canvassers, to whom all the returns are made, and whose duty it is to count and declare the ballots, determined to throw out the returns from Calhoun, Taylor, Lafayette, Suwannee, Sumpter, Brevard, Manatee, Monroe, and Dade, all giving large Democratic majorities except Monroe. By throwing out the vote of these counties the Radical candidates for Lieutenant-Governor and for Congress are elected, and a large majority in both branches of the Legislature secured.

The intention of the Board of Canvassers having been made public, an injunction was issued by Judge P. W. White, of the second judicial circuit, at the instance of some of the candidates to be affected by the action of the board, restraining them from concluding the count and declaring the result until the further order of the court. This was done to enable the parties interested to have the informalities complained of corrected and the will of the people carried out.

This action of Judge White has been made the foundation for an indictment by the grand jury of the United States District Court in session at Jacksonville, and the Judge has been arrested to answer the charge of having violated some provision of the fifteenth amendment enforcement act.

As soon as the warrant was served on Judge White, it is said the Board of Canvassers decided to go on with counting and canvassing of the returns, and that they will reject the returns from the counties before named. And thus the popular will will be defeated, and a Josh stab driven to the heart of constitutional government in Florida.—*Augusta (Ga.) Chronicle.*

SENATORIAL ELECTIONS.—On the 17th of January fourteen States will elect members of the United States Senate. Six States have already elected, so that there will be twenty new members in the Senate of the Forty-second Congress. Of the fourteen Senators to be elected, according to a statement in the Philadelphia *Press*, the only two about whose election there seems to be any certainty are Wilson, of Massachusetts, and Thayer, of Nebraska. The election of these gentlemen seems to be conceded. In Arkansas, Illinois, Kansas, Maine, Michigan, and other States, there is considerable of a contest. The Legislatures of all the States above named are republican, and the only difficulty is as to the choice of the man. The democrats in the Senate will receive an accession to their ranks of six Senators. If Missouri sends a democrat, as it is expected she will, in place of Drake, the democrats will have seven out of the twenty new Senators.

SENATOR SUMNER, while disagreeing with the President on the San Domingo land job, is yet thoroughly in accord with the Executive in scouting the idea of amnesty at present. At the same time he deplores the existence of anything calculated to ruffle the harmony of the party. To speak his mind freely upon all subjects, as he intends to do during the session, will be slightly inconsistent with his idea of preserving the party peace. It is very likely that if amnesty comes up in the Senate the Massachusetts Senator will have much to say in opposition thereto, and in this other opponents of the measure assert he will have the support of the members of the Republican party who ten days ago were reading him out of their organization.

RADICAL STEALING.—A citizen of Boston, who is said to be "remarkably good at figures," estimates that $135,000,000 are annually stolen from the people by Radical office holders. We had no idea that the sum was so small.

The Body and its Needs.

Considering the extreme sensitiveness of the human body, and, that it is unprotected except by artificial covering, from the action of cold, it is not strange that at this season it is liable to many disorders. The skin exercises a powerful influence over the stomach and bowels, and when its functions are interrupted by sudden chills that seal the pores and prevent evaporation from the surface, internal congestion is apt to ensue. The digestive organs never perform their office properly when this is the case, and the waste matter of the system, which should be discharged in part through the perspiratory glands, having no other outlet than the bowels and the kidneys, constipation and a variety of renal diseases are more or less prevalent. Dyspepsia, where it exists, is also aggravated by these causes. The most effective preventive of, and remedy for, disturbances of this nature is Hostetter's Stomach Bitters. Acting as a stimulant and tonic, it rouses the stomach and the intestines, imparting to these important organs both activity and regularity. It also operates as a diuretic, by toning the vessels of the skin and promoting the free passage of exhausted matter through that natural clove of the system. Being a mild diuretic, it gives a healthful impulse to the action of the kidneys, which there is a tendency to drains, and as a blood depurant and nervine, has a highly beneficial effect in rheumatic cases. It combines in happy proportions the tonic, alterative, aperient, antiseptic, diaphoretic, and antibilious properties requisite for the restoration of a system generally disordered, and has no equal as a winter medicine.

TELEGRAPHIC.

Thursday Evening Dispatches.

WASHINGTON.

WASHINGTON, Jan. 5.—The "Cincinnati Commercial" publishes a letter from Orville Grant to the President, charging Gen. Bloomfield, Supervisor of Revenue in Illinois, with connivance. Orville Grant admits that he was approached, in confidence, with corrupt propositions both regarding whisky frauds and Cuban recognition. Orville says, "I have gained my knowledge of the whole affair in the strictest confidence, and to tell it I am betraying that confidence, and the only apology I can make for doing a man so great an act of injustice, is that my duty to you is stronger than my word or confidence to one who is defrauding the government and ruining your reputation, for all the frauds of your appointees fall upon you and the party."

CONGRESS.

WASHINGTON, Jan. 5.—HOUSE.—Schenck has resigned. Orth has been appointed a member of the Ways and Means Committee.

NEW YORK, Jan. 5.—A special dispatch to the "Telegram," from London, says that a dispatch received from Havre, dated the 3d, states that Bourbaki is marching on Germany, and that Chanzy is at LeMans, constantly pushing ahead with his flying columns. Ten thousand troops are marching towards Paris, via Chartres.

Gen. Faidherbe is at Arras, preparing for an attack on Manteuffel, probably with an intention of joining Bourbaki there.

There are 1,600 troops in Havre, and 20,000 at Balbor, exclusive of franc-tieurs, cavalry and regulars. A forward movement commenced to-day.

Special Notices.

Pain is supposed to be the lot of us poor mortals, as inevitable as death itself and Sabbath any time to come upon us. Therefore, it is important that remedial agents should be at hand to be used on an emergency, when the seminal principle locked in the system shall develope itself, and we feel the excruciating agonies of pain, or the depressing influence of disease. Such a remedial agent exists in the PAIN KILLER, whose fame has made the circuit of the globe. And the eternal ices of the polar regions or beneath the intolerable and burning sun of the tropics its virtues are known and appreciated. Under all latitudes, from the one extreme to the other, suffering humanity has found relief from many of its ills by its use. The wide and tangled area over which this medicine has grown attests its value and potency. From a small beginning, the Pain Killer has pushed gradually along, making its own highway solely by its virtues.

Such unexampled success and popularity has brought others into the field, who have attempted, under similarity of name, to usurp the confidence of the people and turn it to their own selfishness and dishonesty, but their efforts have proved fruitless, while the Pain Killer is still growing in public favor.
