CAROLINA PUMP COMPANY.
SOUTHERN INVENTION.
Home Manufacture.
Submerged Glass Cylinder Double-Acting Force Pump.
PATENTED AUGUST 1869, BY A. BALDING.
The undersigned, having the exclusive right to manufacture and sell the above Pumps in North and South Carolina, have associated themselves together under the name and style of the "Carolina Pump Company," and having established their Manufactory at Fayetteville, N. C., are now prepared to furnish Pumps at short notice. Science has at last triumphed in the production of a Pump admirably adapted for Wells and other purposes, that will force water any depth or height, which, by attaching hose, at once becomes a local Fire Engine of great power, throwing 50 to 150 gallons per minute.
This Pump combines simplicity and durability, in which the water will never freeze or become stale, as the cylinder and valves are submerged, and no water remains in the pipe when the Pump is not in operation. The Pump works almost incredibly light, always bringing the water fresh and sparkling from the bottom of the well; and there is no friction, the cylinder being glass, the packing can not wear or cut, the valves being round, made of flint glass, working on gum seats, can neither wear or jam. These Pumps are peculiarly adapted for supplying tanks in upper parts of dwellings, colleges, hotels, bathing saloons, and for railroads, streets, gardens, distilleries, &c. They can be attached to steam or water power. Persons can put them up by printed directions always sent with the Pumps.
We have hundreds of testimonials from persons who have used our Pumps, who express great satisfaction; in fact they are a success and will sustain all we claim for them.
Buy one and save fire insurance. Special attention given to all orders. The entire depth of well must accompany each order.

CERTIFICATES.
SHERIFF'S OFFICE,
FAYETTEVILLE, N. C., April 26, 1871.
Wm. C. Troy, Sup't Carolina Pump Company:
The Pump you sold me surpasses my most sanguine expectation. It does all you claimed for it. As a FIRE ENGINE its value is incalculable. With twenty feet of hose I have thrown water entirely over my dwelling, which is a very high two and a half story house. My family would not be without it for any consideration.
R. W. HARDIE,
Sheriff Cumberland County.

SENATE CHAMBER,
RALEIGH, N. C., March 18, 1871.
Having had fifteen to twenty years' experience in gold mining, using various kinds of pumps forcing water from great depths, I take pleasure in giving preference to those made by the "Carolina Pump Company" over all others for well and other purposes. They combine simplicity and durability.

WILSON, N. C., Jan. 25, 1871.
J. L. Ritchie, Esq.
Dear Sir: We have had your Balding's Pump in regular use, beginning at various periods since March, 1870, and we are free to say, that they are in every way satisfactory. There is no indication of wear or early getting out of order. All the water that nature has designed to pass through such a channel can easily be brought up, even by children, for ordinary use, and by attaching hose, and putting two to four men to the lever, the pump at once becomes a local fire engine throwing sufficient water to subdue any ordinary fire. We therefore recommend your pump to the carefull examination and use of the public.

I have used for six months past one of Balding's patent submerged pumps, manufactured at Wilson, N. C., by J. L. Ritchie, and take pleasure in recommending it to the public as having given perfect satisfaction, in fact I regard it as one of the best pumps now in use.
