The subscribers, having associated themselves in the management of those Springs, would announce to their friends and the public that the House is now open for the reception of visitors.

PROF. CHANDLER, of New York City, in a lecture delivered by him at Cooper Institute, March 29, 1870, said:

"It is hardly necessary to enlarge upon the terrible accidents which have resulted from the use of mineral kerosene; you have only to read the newspapers from day to day to see them. It is stated by some that these are exaggerated; that these accidents never occur, and that you and I never had a friend burned to death; still we do have an enormous number of terrible accidents from petrol-um. In the last seven months of 1869 there were fifty five kerosene accidents in New York, resulting in twenty-three deaths, eighteen serious injuries and fourteen slight ones. The total result for the year 1869, for the city of New York, which I myself have cut from newspapers, is fifty two fatal accidents from dangerous kerosene, fifty severe and six slight; in all, 108 persons to my knowledge, from my own reading, have been injured by kerosene in one year."

There has never been a single accident from the use of

PRATT'S ASTRAL OIL.

It has been before the public for nearly EIGHT YEARS, and is now used by over 300,000 families. For sale by
