No mails received or sent on Sundays, therefore the office will not be opened on that day.

JUDGE MERRIMON'S APPOINTMENTS.

The Democratic-Conservative candidate for Governor will address the people at the following places at the time mentioned, viz:

At Jackson, Northampton County, on Tuesday 21st May.

At Edenton, Chowan County, on Thursday, 23rd May.

At Elizabeth City, Pasquotank County, on Saturday 25th inst.

At Washington, Beaufort County, on Saturday 1st June next.

RALEIGH COTTON MARKET.—Reported for the SENTINEL by Lynn Adams, Cotton Factor, Grocer, &c., Market Square.

RALEIGH, May 23, 1872.

Cotton to-day firm at 21 3-4 @ 22 Sales small.

HURRYGRAPHS.

Read our new advertisements.

Take the SENTINEL. Read campaign rates.

We are under obligations to Hon. J. M. Leach for public documents.

B. Y. Rogers, Esq., has declared himself a candidate for the office of Sheriff for Wake.

Charles E. Shober and Cyrus P. Mendenhall, Esqs, are at the Yarborough House.

We had the pleasure of a visit on yesterday from our friend, Henry Foote, Esq., one of Warren's promising lawyers.

Lightning struck a tree on Monday that is quite near the shoe shop of our old friend, J. W. Johnston, of Warrenton. All hands were badly frightened, but no damage was done.

We have again been the recipient of some choice smoking tobacco and fragrant cigars from our friend, Charles D. Christophers, the popular and obliging family grocer on Fayetteville street.

WE direct special attention to the advertisement of the HOT SPRINGS, in Virginia, whose waters are so celebrated for many of the most terrible diseases that afflict humanity.

WAIFS AFLOAT

The fixed stars and pen, ink and paper are all stationary.

The man who had a cloud on his brow has lately been mist.

Punch says it is very natural for a man to feel gishish when he makes his maiden speech.

The cat with nine lives always falls on its own feet, but the cat with nine tails always falls on somebody else's back.

The natural genius of Mrs. Partington was recently well illustrated when she put a tub in the garden to catch soft water when it was raining hard.

A Kentuckian being asked how much corn he raised answered: "About ten barrels of whiskey besides what we wasted in making bread."

A Bath paper says a-la Horace, "we have received a number of congratulations on the public spirit we have displayed in consenting to the great sacrifice of being a candidate next year for commissioner of streets."

Refinement is only truth and goodness with the element of beauty added. He is only wholly refined who carries the beautiful with him into every direction in which his life tends.

THE office of the *Blasting-Powder*, Mr. Spelman's paper, is in the SENTINEL buildings.

THE GERMAN PAPERS.—Eleven have declared for Greeley as against Grant, while thirteen have declared for Greeley unequivocally.

LOCAL DOTS.

The cisterns on Fayetteville street were filled yesterday.

The sidewalks of Hillsboro' street are undergoing some long-needed repairs.

A revival is progressing at Tupper's (Colored Baptist) Church.

Oakwood Cemetery is looking particularly pretty.

Japanese ten pins is now the popular game.

Skiff and Gaylord's Minstrels are heading this way.

Thursday next is Federal Decoration Day.

It is not definitely known when Quent Busbee's little radical pop gun will fizzle.

Unstamped letter in the postoffice addressed C. Iredell, Columbia, S. C.

"Blasting Powder" will give the rads a lift on Wednesday next.

The war still rages between the temperance papers.

The pressure upon our columns must excuse the scarcity of local items.

Col. J. N. Whitford, of Craven, was in the city on Wednesday. Col. W. did gallant service in the Confederate army.

Paul Lincke, Market House, Stall No. 21, has nice Norfolk cabbages at Norfolk prices.

Major W. H. Bagley will in future preside over the Odd-Fellow Department of the *Banner of Temperance*, while Andrew Syme, Esq, will preside over the Masonic.

The Rads are loud in boasting that they will carry this county in the next election by 500 majority. They will do a heap better than we expect if they are not beaten by 250 majority.

Mr. Quenten Bryan, who was dangerously shot sometime ago, appeared on the streets yesterday for the first time since he was wounded.

We see by exchanges from various cities that dry goods houses are to be closed at an earlier hour during the summer in order to allow clerks some recreation.—We suppose those in Raleigh will adopt the same rule.

The fight in the radical camp in this community concerning the nomination for Sheriff is growing bitter. We are gambling on Tim Lee. Tim has the whole crowd under his thumb and when he tells them to gee they are bound to gee. Willie Jones and others of his enemies will be made to take back seats.

BISHOP ATKINSON.—This eminent divine arrived in our city on Wednesday evening. He will administer Confirmation at St. Mary's on to morrow at eleven o'clock a. m.

"BLASTING POWDER FOR CONSERVATIVES AND DEMOCRATS."—Mr. Spelman informs us that subscribers are coming in daily for his new campaign paper to bear the above title. He will issue his first number on next Wednesday or Thursday. The prospect for a large circulation is flattering.

The ladies of the Baptist Church intend holding a Festival on next Tuesday night in Tucker's Hall, for the purpose of raising funds to defray some of the necessary expenses of the Pastor's Home. The ladies desire to make this Festival one of the nicest entertainments of the season, and respectfully invite the public generally to attend.

BONDS.—The following are the amounts of the bonds required at the hands of those city officials who are required to give them:

City Treasurer, $25,000; Clerk and Tax Collector, $20,000; Chief of Police and Clerk of Market, $2,000; Assistants, $500 each.

NEW TO THESE DIGGINS.—On yesterday a letter was received at the Treasury Department, the envelope of which has the following inscription:

"This letter was dropped in the Baltimore postoffice without a stamp and would have been sent to the Dead Letter Office in two days. The postage was paid by Box 700, and any return will be devoted to charity. Address Charity, Box 700, Baltimore P. O."

WHAT NEXT?—Ike Young says he is going to publish the speeches (?) he has made, for the benefit of the young republicans of the State, and in the last issue of the *Era* appears a five column unfinished (to be continued) speech (?) of the Colonel's. A friend suggests that we ask who wrote Ike's speeches, but we will do no such thing, as they are so utterly foolish and weak, we think they are, beyond all doubt, emanations of Ike's empty skull.

POLICE ITEMS.—Yesterday morning his Honor, Mayor Whitaker had only one case to deal with:

John Kinyon, col., known in this community by the euphonius *sobriquet* of "Bushtail" and one Augustus Jeffreys, col., arrested by officer Farris for disorderly conduct in the market house. Bushtail was sentenced to two hours confinement in the guard house and a fine of $2, while the more fortunate Augustus was allowed to escape with a reprimand.

CONGRESSIONAL NOMINATIONS.—The Republicans of the 3rd Congressional District have nominated Neill McKay, and those in the 8th have nominated W. G. Candler, of Buncombe.

Hon. J. M. Leach was nominated by acclamation on Wednesday at Greensboro', in the Conservative Democratic Convention of the 5th District.

QUERY.—What was the cause of those shrill, feminine shrieks which pierced the mid-night air on Wednesday night? The screams seemed to proceed from that quarter of the city located about the intersection of Blount and Lenoir streets, in the eastern ward. What dark and fearful deed, shrouded in impenetrable mystery, is there here?

BAKERS ROLLS.—Put the flour into a pan, make a hollow in the centre and put in salt, soda and yeast. Make it into a soft dough with some warm milk; work or knead it until it is smooth and shining then cover it and set it in a warm place for two hours. Work it again very smooth, let it rise, and again knead and divide it in pieces twice the size of a hen's egg; roll it between your hands to the length of your finger; lay them so as to touch each other on baking; tins, brush them over with milk, and set in a quick oven for fifteen or twenty minutes, until they are a delicate brown. Break open one to see if it is done, and serve them hot for breakfast, broken open, as cutting them when hot, soddens them.

FARMERS' AND MECHANICS' ASSOCIATION.—This association was organized in Goldsboro' February 15th, 1872, and will hold its first grand annual Fair in Goldsboro', on October 22d, 1872, and continue four days. The association is officered by W. F. Kornegay, President; R. T. Fulghum, Secretary, and J. J. Baker, Treasurer. We are under obligations to the secretary, Mr. Fulghum, for a list of the liberal premiums which will be awarded at the Fair. The association have appointed W. F. Kornegay, L. W. Humphrey and J. B. Faircloth to represent them at the next National Agricultural Association in St. Louis, May 27th, 1872.

REVENUE.—We are incexpressibly happy to announce that the Auditor, Henderson Adams, has returned to his post of duty. We were solicitous about Henderson's return, for we can't have much more of his desirable and pleasant company, as he is bound to be thrown upon the cold world after August next, no matter which rail is on top. We care not whether Henderson left home with steam up or not, so he is with us once more. Many a weary hour we spent in the rotunda of the capitol listening in vain to hear his shambling footsteps and the sound of his "dear familiar voice," "Weeping may endure for a night, but joy cometh in the morning." We are rejoiced at his coming, and while we may we cry "welcome" for soon the mournful words "*exit, exit*" will be whispered, in tearful accents, through the branches of the noble oaks in the Capitol Square, and the place which knows him now will know him no more forever.

FASHION ITEMS.

Fine cachemire, Danish alpaca, mousseline delaine, chaly, and white muslin lined with colored silk or batiste, are the most fashionable fabrics for robes de chambre. The "Watteau," the "Paletot" and the "Princesse" shapes are the most elegant. In each case the bodice and skirt are cut together; the "Watteau" has a large plait at the back, which gradually flows into the skirt, the fronts hangs loosely or are confined by a cointure placed under the plait at the back.

The "Paletot" is cut perfectly loose everywhere, confined with a sash or left to hang, according to taste. The last and unquestionably the most elegant and becoming, is the "Princesse." This is cut to the figure, with side pieces at the back and plaits in the front; it is cut a little open at the throat, and admits of much greater *coquetterie* in the trimming.

The white petticoats, worn under light silk and muslin dresses, are most elaborate.

Very tasty little aprons are worn, covered with trimmings; many will be made of colored washing satin, trimmed with muslin or lace, to wear with white dresses.

Bonnets are worn more like hats than ever; in fact, it is very difficult to tell them apart, especially when the latter have strings, which are tied loosely under the chin. The prettiest style of bonnet is worn rather forward, over the hair, with the strings tied under the chignon. Straw of all kinds is used in the shapes. Rice straw being the lightest, this is generally lined with color.

IMPROVED TOBACCO-CURING APPARATUS.—Mr. Charles W. Flippen, of Pittsylvania county, Va., obtained a patent on 2nd April for an invention with the above title. It is claimed that it will coal cure tobacco in half the usual time required. The Danville *Register* thus describes it:

In brief, it consists of two furnaces located on one side of the tobacco house immediately under the wall, and supplied with fuel from the outside, and from these furnaces extend large wrought iron pipes, which pass to within a few feet of the opposite wall, and then turning at right angles unite in the middle of the floor, and there connect with another pipe which passes through the wall into a chimney on the outside. At four points on these pipes vaporizers are placed which by the evaporation of water, produce a moisture in the house so as to permit a high heat without too much drying of the leaves. The arrangement of the pipes secures a uniform distribution of heat, and the employment of vaporizers at the same time combines steam and heat to great advantage.

Dutcher's Lightning Fly-Killer

swops them off and clears the house speedily—Try it—Sold by dealers everywhere.

apr 22-eod&w2m

STEALING CLOTHES.—Yesterday Rose Hunter a colored woman about 26 years of age was arrested by officer Farriss, charged with stealing some clothing from the residence of Ex Governor W. W. Holden. Rose was brought before Mayor Whitaker and failing to disprove the charge was bound over in a bond of $200 and in consequence of not being able to give it was lodged in jail. The theft was perpetrated some days ago but was not traced to the accused until yesterday.

DIED:

In Scotland Neck, on the 10th inst., of Typhoid Fever, after an illness of 12 days, Mrs. SARAH W. ROBERTS, wife of Wm H. Roberts, in the 40th year of her age.

Obituary.

Departed this life, at his residence in the county of Granville at ten minutes of two o'clock, on Sunday the 21st of May, 1872, Rev. Josiah Crudup, in the 83rd year of his age.

The deceased was born in Wake County in 1791. Removed to this (Granville) in 1823, and was not only well known and beloved throughout his State, as a pious, devoted and eloquent minister of the Baptist Church, of which he had been a member for 61 years, but was esteemed and honored by his countrymen, as a politician, uncorrupted and without reproach.

He was a member of the Convention of thirty five, and was in Congress with Clay, Randolph and Calhoun.

Among his intimate friends he numbered such men as Judge Sewell, Manly and Jno. Randolph of Roanoke. Of the latter, he could never speak, without tear when referring to their last meeting and conversation, during which Mr Randolph remarked: "We will never meet again on earth Mr. Crudup, but I trust we shall in a better world.

The writer of this having, as his physician for nearly ten years, enjoyed the pleasure of his friendship can truely say that he has never seen one, who in all the different phases of life exhibited more the true character of the gentleman, the christian and scholar.

In his last illness (of about eight weeks) though suffering the deepest sorrow from the recent loss of his amiable, pious and devoted wife he never complained or murmured but was patient, resigned and submissive, frequently expressing himself willing, yea, almost anxious to depart and be with Christ.

His old servants who loved and still consider him their best friend showed their affection by watching at his bed side night after night, anticipating, and to the best of their ability, supplying his every want. One of the oldest women he had raised from infancy, yesterday remarked to me. "Ah, Doctor old master has gone, but a better man never lived or died" and truly, throughout his whole life, as Minister, member of Congress, citizen, father, master and friend.

Truth, piety, honour and benevolence, ever characterised his course

Few men have left a brighter record. He leaves seven children.

New Advertisements.

FOR SALE.

At the SENTINEL Office a No. 5, New Washington Hand Press.

THE HOT SPRINGS, BATH CO., VA., Are now open to visitors. Its waters are celebrated for the cure of Rheumatism, Gout, Paralysis, Torpor of Liver Chronic Diarrhœa or Dysentery, Diseases of the Uterus, all affections of the Skin especially of syphilitic origin, and numerous Chronic Diseases.

THE BATHS

Vary in temperature from 90 deg. to 150 deg. Fahrenheit, and present every variety of Chronic Bath. They are moreover found to prepare the system for the benefic al action of Waters found at the various other Mineral Springs. MUD BATHS have been constructed similar to those that are largely used at the most celebrated spas in Germany, and which gives sufferers the benefit of the very valuable remedial agents contained in the Mineral Mud. These Springs offer UN URPASSED ATTRACTIONS to both the Invalid and Pleasure Seeker. The equipment and Management are equal to those of first class City Hotels. Every Modern Improvement has been provided.

LIVERPOOL, May 22.—Cotton opened firm; uplands 11 1-8; Orleans 11 3-8@11 1-2.

FROM WASHINGTON.

WASHINGTON, May 22.—The following is the verbiage of the Amnesty Bill:

Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled, (two thirds of each House concurring therein) That all political disabilities imposed by the third section of the 14th article of amendment to the Constitution of the United States, are hereby removed from all persons whomsoever, except Senators and Representatives of the 36th and 37th Congress, officers in the judicial, military and naval service of the United States, Heads of Departments and Foreign Ministers of the United States.

The Civil Rights Bill, as passed, applies only to inns, licensed places of public entertainment or amusement, stage coaches, railroads or other public modes of conveyance for freight or passengers. Equal rights regarding seminaries, schools and benevolent institutions was stricken out.

The amnesty bill signed, the exceptions will cover about 200 cases.

The Baltimore and Potomac depot bill has been signed.

The civil rights bill passed the Senate this morning, and it is now on the Speaker's table in the House. There are some fifty or sixty bills in order already ahead of it, and as it takes a two third vote of the House to take a bill from the Speaker's table out of the regular order, there is no possible show for its passage at this session, as it cannot be reached by the time of adjournment, and the necessary two-thirds vote to take it out of its regular order, cannot be obtained. The bill as it passed the Senate, reads:

"Be it enacted, That whoever being a corporation, or natural person and owner, or in charge of any public inn, or of any place of public amusement or entertainment for which a license from any legislative authority is required, or of any line of stage coaches, railroad or other means of public carriage of passengers or freight, shall make any discrimination to admission or accommodation therein of any citizen of the United States because of race, color or previous condition of servitude, shall, on conviction thereof, be fined not less than $500 nor more than 5,000 for each offence, and the person or corporation so offending shall be liable to the citizens thereby injured in damages which may be prosecuted before any territorial, district or circuit court of the United States having jurisdiction of crimes at the place where the offence is charged to have been committed, with a right of appeal, or to have a writ of error in any case to the supreme court of the United States.

The bill which passed the Senate this morning extends the power to suspend habeas corpus to March 4th, 1873.

Only Sumner and Nye voted nay on the amnesty bill.

The President has appointed Hon. Thomas P. Robb, late Collector of Customs at Savannah, Ga., Fabius Saxton, of Mississippi, and Richard H. Savage, of California, Commissioners under joint resolution of Congress, to examine and inquire into depredations alleged to have been committed upon the frontier of Texas for several years past by bands of Indians and Mexicans, their extent and character and by whom committed; their residence or country, the persons murdered or carried in captivity; the character and value of the property destroyed or carried away from what portions of Texas, and to whom the same belonged. The Commissioners are to make and transmit to the President a full report in writing of their investigations.

CONGRESSIONAL.

WASHINGTON, May 22.—The Senate adjourned this morning to one o'clock today, having passed the House amnesty bill by a two-thirds vote, placing it beyond the President's control. Also a bill extending the suspension of the *habeas corpus*. Also Sumner's civil rights bill, but so circumscribed that Sumner hints he will enter a motion to reconsider these vital measures.

They were passed by a bare quorum.

SENATE.—The supplemental apportionment bill passed. It goes to the President.

House reported House bill to pay the awards of the Southern Claims Commissioners with amendments striking out the appropriations for a few small claims.

HOUSE.—An unimportant colloquy over amnesty indicates that Rogers, elected from North Carolina, will be seated tomorrow.

FROM NEW YORK.

NEW YORK, May 22.—A special from London, dated the 21st., to the *Herald*, says the English papers continue to discuss the Washington treaty and the supplementary articles thereto, with undiminished interest. The editorials are generally inspired by a desire to prevent a failure of the arbitration. The same treaty article, in a contrary sense, as printed by the Pall Mall *Gazette*, of to-night, is remarkable for its truthful and just appreciation of the danger in endeavoring to save the treaty at the expence of national susceptibility. The whole drift of feeling and opinion in England, justifies it in saying that the worst thing to do with the treaty is to save it. Saving the treaty means offence and humiliation to America or England, or both nations. It means the removal and not the abatement of the ill feeling which it was intended to allay. How to save the treaty means who shall eat the "Locks," or whether some means cannot be invented whereby both parties shall agree to eat it in each others presence.

American papers appear to exclaim against the adoption of the supplementary article. Here there is only one opinion, and that is, that its acceptance would be discreditable and dangerous. Both peoples would be pacified and content at once if the treaty and negotiations connected therewith were dropped as an irremediable blunder for which both governments are alone to blame. That is the proper fate of the treaty, and the only safe and peaceful way of disposing of it. This article states exactly the situation in England; and is a just expression of the opinion here.

It is certain that many persons, including bankers financial agents and others, who are determined to save the treaty at whatever cost, without regard to national dignity and honor, are bringing about a dangerous complication. The same feeling exists with those unwise politicians, who are willing to make party capital out of the international difficulty.

The further negotiations of the treaty will only continue to be an irritation, that may eventually put two proud nations in an attitude from which war can be the only possible issue. The treaty should be dropped immediately, for the sake of national amity, good-will and peace.

The Conference Bishops elected E. G. Andrews, Gilbert Hanover and Jesse T. Peck. This concludes the election.

Edward S. Stokes was arraigned to-day. His counsel asked for adjournment until Monday to decide what course to pursue. Judge Ingram granted delay until to-morrow morning. The Coroner's Jury in the Lowden malpractice case found a verdict this morning against Dr. Gyles, who was committed without bail to await the action of the Grand Jury.

FROM PHILADELPHIA.

PHILADELPHIA, May 22.—The Centennial Commissioners met—Judge Bond, of Alabama, presiding. Twenty-two States represented. Greenwood woolen mills burned.

FROM EUROPE.

PARIS, May 22.—The commission on capitulations in their report relative to the surrender of Strasbourg, blame General Uhrich on all points for the capitulation of the city. He is especially censured for securing for himself and officers exemption from conditions imposed upon his enlisted men by the German commander to whom he surrendered.

BERLIN, May 22.—The imperial army band, which is to take part in the World's Peace Jubilee at Boston, will leave this city for the United States on the thirty first inst.

PROVING AGAINST DANGER.—At this season all the great lines of travel begin to swarm with human beings intent on business or pleasure. And these moving multitudes aware of the dangers which surround them from drinking different waters in the cars and in strange atmospheres to which their lungs are unaccustomed. Do they realize how important it is to be provided with an antidote that will shield their systems from the evil consequences of such changes—and from all attendant disturbances which arise from the miasms so plentifully evolved from the soil at this period of the year? Such an antidote—certain in its preventive operation and free from everything objectionable in its composition and flavor—has been for twenty years before the world. No instance can be adduced, during that period, in which Hostetter's Stomach Bitters has failed as an accelerating medicine or as a preventive of the bodily ills to which the undefended system is liable in unhealthy localities.

A good appetite, perfect digestion, a vigorous condition of the nervous system, functional regularity, and a pure and active circulation, are the element of health, and these signal blessings may be secured and perpetuated by the use of this powerful, yet harmless, vegetable tonic. Such is the experience of all who have ever taken it as a safeguard against the diseases which debility, irregularity and a morbid condition of the solids and fluids of the body are sure to invite.

may 10-deod1w&wlt

THE INVALID—A PEN PICTURE.—See her pallid countenance, but a short time ago the picture of ruddy health, the envy of the school and the pride of the household. She was always outstripping her schoolmates, for her little form and pleasing disposition carried everything before them in their ranks. Diligent, truthful and exemplary, obedient and graceful at home, she won the hearts of all. But alas, we are sorrowed—those rosy cheeks and ruddy lips are blanched by Consumption. The voice once so enchanting in song and song is feeble, husky and emphasized by a hollow cough. Let us approach her couch gently and take her hand. Do not shudder because of the feeble and passionless grasp. The hand once so hearty and plump is emaciated, and shows bony outlines, while the cords and tortuous veins are plainly mapped upon the surface. The pulse is thrumbed with agitation, carrying vigor to the whole system and imparting life, beauty, vivacity, health and strength, is delicate to the touch. The feeble heart cannot propel the thin, scanty blood with force. Must we lose her while yet in her teens? Companions and friends gather around with clouds of cheer and consolation, and depart with anxious eyes and silent steps. Must we lose her? No! there is a refuge! We can stay the destroyer of our happiness, and not suffer the loss of so bright a gem. Something more is required now than dietary and hygienic observances, for nature calls for aid, and she must have it. Take the vegetable medicine. It is invigorating. How it allays the irritable cough, improves the appetite and digestion, and sends a healthy tingle through the frame. The blood is enriched, appetite increased, and the heart bounds with a new impulse. See how it coo laughing by degrees; the color is returning her voice is getting clearer, and pleasant words are spoken.

The strength falters yet, but is gaining. Let us take her out in the warm sunshine. In a short time she will be able to go without our aid, a cheerful girl. This delightful medicine must be God blessed. It is restoring health to our loved one. She is emerging from her sickness sweeter and nearer than before, and Dr Pierce's Golden Medical Discovery must have the credit. It has raised her. Sold by all first class druggists everywhere.

THE LATEST SWINDLE.—Certain sanctimonious charlatans would fain persuade the world that diffusive stimulants have no medicinal value, and that detestable slops, composed of grinding acids and drastic purgatives are better tonics than the finest vegetable ingredients combined with the purest and mellowest products of the still. But this sort of lying won't go down. The stomach of our common sense rejects it, as the physical constitution of every man with an undepraved palate rejects, with loathing and abhorrence, the nauseous abominations, "free from alcohol," which Humbugs are trying to thrust down the throats of Temperance Invalids under the pretense that the Bitters will do them good? It is not likely that while Plantation Bitters, the Standard Tonic of America, is anywhere accessible, such sickening frauds can make much headway, but it is as well to put the public on their guard against them.

A NEW BEAUTIFYING AGENT.—All Dandyfied hair dyes have their drawbacks, until the fabulous Rock of the Soap tree was brought from the Chilian Valleys to perfect the Lagoon Scandent, the most delightful article for the teeth and a balm was ever dipped into.

"CHILDREN'S LIVES SAVED FOR 50 CENTS."—Every case of Croup can be cured when first taken, by Dr. Tobias' Venetian Liniment, warranted for 24 years, and never a bottle returned. It does not burn, blister, or injure, Colic, Sore Throat, Cuts, Burns and Internal Pains. Sold by the druggists. Depot, 10 Park Place, New York.

VENUS here if it would not have been beautiful if a complexion had been bestowed. If beauty is skin deep, it is necessary to secure and retain that part of it, and ladies instead of resorting to paints and powders, should remember that an impure, sluggish, or sallow skin is the proof of feeble digestion, torpid liver, or vitiated blood, for all which Dr. WALKER'S CALIFORNIA VINEGAR BITTERS is a safe cure and effectual remedy.

BURNETT'S COCOAINE.—No oils, neither poisonous or alcoholic washes—foreign or domestic—can compare with Cocoaine as a HAIR DRESSING. It renders the hair firmly in the scalp—gives it new vitality—and renders it the "crowning glory" of both sexes, old and young.

PRATT'S ASTRAL OIL.—More accidents occur from using inferior oils, than from steamboats and railroads combined. Over 100,000 families continue to burn Pratt's Astral Oil and no accidents directly or indirectly have occurred from burning, storing or handling it. Oil House of Chas Pratt, established 1770, New York.

A BEAUTIFUL WHITE, soft, smooth and clear skin is produced by using G. W. Laird's "Bloom of Youth." It removes tan, freckles, sunburns, and all other discolorations from the skin, leaving the complexion delicate and beautiful. Sold at all druggists. This preparation is entirely free from any material detrimental to health.

JUST THE REMEDY NEEDED.—Thanks to Mrs. Winlow's Soothing Syrup, we have for years been relieved from broken nights of painful watching when poor teething babies cried.

FOR DYSPEPSIA, Indigestion, depression of spirits and general debility in their various forms; also, as a preventive against Fever and Ague, and other intermittent fevers. The Peruvian Phosphorated Elixir of Calisaya, made by Caswell, Hazard & Co., New York, and sold by all Druggists, is the best tonic and as a tonic for patients recovering from fevers or other sickness, it has no equal.

RISLEY'S GENUINE GOLDEN BELL COLOGNE WATER according to the original formula of Probst, Paris, long and favorably known to the nobility of Europe, and now also in the United States, Havana and Mexico and all other branches. For its fine permanent fragrance is now made by H. W. Risley and the trade supplied by his successors, Morgan & Risley, Wholesale Druggists, New York.

THURSTON'S IVORY PEARL TOOTH POWDER.—The best article known for cleansing and preserving the teeth and gums. Sold by all Druggists. Price 25 and 50 cents per bottle. F. C. Wells & Co., New York.

CARBOLIC SALVE unequalled as a Healing Compound. Physicians recommend it as the most wonderful remedy ever known. Price 25 cents per box. John F. Henry, sole Proprietor, 8 College Place, New York.

CHRISTADORO'S HAIR DYE.—This magnificent compound is beyond contingency, the safest and most reliable Dye in existence; never failing to impart to the Hair, uniformity of color, nourishment and elasticity. Manufactory, 68 Maiden Lane, New York.

SWAPNIA is Opium purified of its sickening and poisonous qualities. It is a perfect anodyne not producing headache or constipation of bowels, as is the case with other preparations of opium. John Farr, Chemist New York.
