We are now turning out neat job work at very moderate rates. Give us a call.

We are unable to get in at least two columns of editorial. Hereafter we will have to write less that we may publish the necessary campaign and news matter.

Be sure to read the communication signed "Granville," in to-day's paper. The writer is a practical business man and knows what he is writing about.

WAIFS AFLOAT.

Pleasure is precarious, but virtue is immortal.

Fair dealing is the bond and cement of society.

Hard words have never taught wisdom, nor does truth require them.

A passionate man scourgeth himself with his own scorpions.

A drawing-room—The apartment of a dentist.

Without courage, said Sir Walter Scott, there cannot be truth, and without truth there cannot be any other virtue.

MASONIC.—The Grand Chapter of the Royal Arch Masons will meet in Wilmington on Monday evening next. There will be a representative from this place.

DECORATION DAY.—The committee on flowers for decorating the graves of the Federal dead, request all persons desiring to contribute flowers to send them to the National Hotel or the office of S. D. Waitt on Fayetteville street, near the Yarborough House, on Thursday morning, May 30th, before 11 o'clock.

CHOICE SMOKING AND CHEWING TOBACCO.—Our friend I. M. Beams, who is manufacturing choice smoking and chewing tobacco in our city, has favored us with some of each. The smoking tobacco is fine. We have not tried the chewing but from his known skill in putting up that article we are prepared to believe that it is good. He is a Granville man and knows all about tobacco.

CIRCUIT COURT.—The U. S. Circuit Court, Judges Bond and Brooks presiding, will convene in this city at Metropolitan Hall on Monday morning next. There are 119 cases for trial on the civil docket; 210 on the criminal, 24 on the equity and 90 on the libel. By order of Judge Brooks neither parties nor witnesses in indictments for violations of the Enforcement Act will be required to attend before the second Monday of the term.

LOCAL DOTS.

The revival at Tupper's church still continues.

Magnin's beer garden is a decided success.

Abstracts of the tax lists are being sent out from the Auditor's office.

We understand that the temperance fraternity of this city intend sending in a petition to the editors of their two papers to "quit their foolishness" and be good friends again.

There is to be, we understand, a hop at the National Hotel on Friday evening next.

Look out for "Blasting Powder" on to-morrow or next day.

The post office has been whitewashed. It needed it badly.

Don't neglect reading the new advertisements.

In despite of the rain during the earlier part of the morning all of the churches were well attended on Sunday.

The quarrel between the temperance papers in this city promises to become more bitter and personal.

A large highland moccasin was killed in the eastern part of the city on last Sunday.

The removal of the Fair Grounds to some point on the N. C. R. R. near the city, is again being agitated.

Don't forget that the ladies of the Baptist Church give a Fair and Festival at Tucker Hall this evening.

The Supreme Court meets on Monday next. Applicants for license will be examined during the first two days.

A dangerous counterfeit fifty cent note is in circulation. The spurious note is about one-twelvth of an inch longer than the genuine, but in general appearance strongly resembles it.

Placing pins on the benches in the capitol square, for the unwary to deposit themselves upon, is now the favorite amusement of evil disposed juveniles.

The willow tree in front of the house just in rear of the residence of the late Hon. John H. Bryan, was grown from a slip taken from the willow at the grave of Napoleon, at St. Helena.

Dave Jenkins, Treasurer, and Henderson Adams, Auditor, who just returned to their posts of duty a few days ago after a protracted absence, are again absent and neglecting their duties.

W. W. Woodell, found guilty at last term of Court of an assault with deadly weapon and sentenced to 60 days confinement, was committed to jail yesterday to serve out his sentence.

Copies of the laws passed at the last session of the General Assembly were being packed at the Secretary of State's office yesterday for shipment to the various county officers. The laws are out much earlier than usual.

Miss Indiana Hogwood, recently put in jail on a charge of stealing clothing in St. Mary's township, gave bail yesterday for her appearance at next term of Wake county Superior Court and was discharged from custody.

The appearance of a policeman, with pencil and paper in hand Sunday night at the Baptist Church, caused a general stampede among the loafers who lounge about the church doors in the morning and evening to stare at the ladies as they come out.

PERSONAL.—We were glad to see in our office yesterday Johnston Jones, Esq., formerly a resident of this place but now editor of the *Lantern*, published at Rock Hill, S. C. Mr. Jones is a graceful writer and publishes a handsome and able paper.

A lady correspondent of the San Francisco *Call*, writing on earthquakes, thinks that "heterogeneous parallaxes prismatically converging are not due to the sufficious introduction of photospherical asteroids, but rather to parabolic stratificarious of 'gneous zygons.'" We think so, too.

TO REMOVE WARTS.—Pass a pin though the wart; apply one end of the pin to the flame of a lamp; hold it there until the wart fries under the action of the heat. A wart so treated will leave. If the wart is hard, a good method is to cut it off with a knife or scissors, and apply a little caustic to the roots. If the wart have a narrow neck, tie a silk thread or horse hair around it, and it will soon drop off. A little caustic applied to the roots will prevent it from growing again.

GEN. MEANS, of Cabarrus is in the city. The General is one of the best farmers of his county and of the State. He reports the crops of Cabarrus as promising. Wheat is very good. The stand of cotton is good. Fall or winter oats good; Spring oats good. The General says E. P. Jones' cotton planter is a great labor saving machine, and every cotton planter should have one.

His son James, who looks after the farm and does much of the work, reports the Jones Cotton Planter as worth, or saving the labor of four hands and two horses. He uses a Mississippi invention for chopping out or thinning cotton which saves the labor of five or six hands. The row is chopped out as soon as a horse can walk it, and a harrow attached harrows the cotton at the same time. Cabarrus equals almost Edgecombe in cotton and beats that beaver county all hollow in corn, wheat and hay. If Edgecombe does not use their labor saving machines Cabarrus will soon surpass her.

The following gentlemen are registered at the Yarborough House, viz: Col. S. L. Fremont, of Wilmington; Rev. N. H. D. Wilson, of Greensboro'; W. L. Thorp, Esq., of Rocky Mount, and J.W. Blount, Esq., of Wilson.

COMMITTED AND BAILED.—Yesterday, Isabella Shaw and Mary Green, two colored women from Baden's Creek Township, in this county, were committed to jail on the commitment of a magistrate of that township, on a charge of improper conduct. The two women had hardly arrived at the jail, before bail was secured, and they were allowed to go on their way rejoicing.

CITY LOTS.—We understand that K. P. Battle, Esq., and Gen. W. R. Cox intend running one or two streets through the property which they recently purchased from the O'Rourke estate and divide it into building lots. One of these streets will be an extension of Newbern Avenue and runs through grounds covered by a beautiful young oak grove and admirably adapted, in every way, for the purpose for which it is designed. All who wish to secure cheap and desirable building lots would do well to inspect this property.

THE LADIES' FESTIVAL AT TUCKER HALL TO NIGHT.—Don't fail to go, for we learn the ladies have provided an entertainment of extraordinary attractions.—There will be an elegant supper, consisting of an abundance of substantials with ice cream and strawberry trimmings, and we have heard a whisper that perhaps the scene may be varied with tableaux and sweet songs. The money realized will be devoted to furnishing the handsome home the Baptists have recently built for their pastor. Success to this good enterprise of these fair ladies.

We understand that the National Loan and Trust Company, chartered by our last Legislature, was organized in this city on Saturday. It appearing that one hundred thousand dollars were subscribed and fifty thousand paid in. Messrs. James Boorman Johnston, N. W. West and C. A. Sherman, of New York, and R. B. Haywood and R. C. Badger, of North Carolina, were elected Directors. Dr. R. B. Haywood was made President and R. C. Badger, Esq., Secretary. This is an important movement and may result in great benefit to this community and State. The gentlemen connected with it are intelligent and enterprising. The President and Secretary are well known citizens of Raleigh and of good social position.

OAKWOOD CEMETERY.—This place has become a public resort, especially on Sunday afternoon and holidays, and we are sorry to say that rowdies and women of disreputable character sometimes make their appearance on the grounds. Can not our city authorities furnish a policemen to protect the grounds from depredations, as well as to keep it clear of those who should not be allowed to obtrude themselves upon public notice? This is done in other cities and we see no good reason why it should not be done here. We call this to the notice of the Board of City Commissioners and hope they will give it their attention. We every day hear of shrubs being wantonly destroyed, and of private lots being more or less interfered with, and we trust that the authorities will at one suppress this evil.

POLICE ITEMS.—We gathered the following items at the Police Court yesterday:

Emily Hayes, col., arrested for being disorderly and using indecent language in front of the market house. Being unable to pay the fine imposed, Emily was confined for a time in the guard house and left to "chew the cud of sweet and bitter fancies."

Susan Brannan, col., lodged a complaint against one Robt. Smith for unceremoniously appropriating her bed tick. A warrant was issued for the arrest of Robert.

Sandy High, a crazy colored man, was taken up on the street Sunday afternoon and confined for safe keeping in the hall of the guard house. By some means Sandy succeeded in removing some of the bricks in the dividing wall and effected a landing in the restaurant of Tony Burns, much to the disgrantlement and surprise of the occupants. He was soon secured and placed under proper restraint. He was, on yesterday, turned over to the county authorities and was lodged in jail until he can be otherwise provided for.

LOAFING AROUND THE CHURCH DOORS.—We desire to call the attention of the Mayor to the fact that our church going people are greatly annoyed by a number of ill-bred young people who lounge around our church doors, and smoke and spit and talk while the congregations are assembling. Sometimes they stay out during the whole service, and those who sit in the rear of the churches are obliged to listen to their idle and foolish talk rather than the sermon. Now, Mr. Mayor, we ask you to break this thing up. Detail a policeman to every church next Sabbath and if a man want to go in, make him go away. It might be well too, to give special instructions to some one to interrupt the delightful *tete a tete* which several courting couples are accustomed to carry on. Courting is a very pretty pastime and we have no objection to our young people making love to each other—that's all right provided it is done at home or on the way to or from church, but we respectfully submit that an open church and the presence of several hundred persons are not circumstances the most suitable for quoting sanatory poetry to each other.

THE "GEM CHURN."—We call attention to the advertisement of this churn. The patent right for North Carolina has been purchased by the "Gem Churn Company" of Charlotte, of which Dr. Joseph Graham, is President, and Jas. H. Orr, Esq., is Secretary and Treasurer. Early in June an agent will be in Raleigh with a churn on exhibition. The following is a statement of what the "Gem Churn" will do:

From sweet milk or cream (without the use or warm or hot water) in from two to five minutes, this churn will make as fine, sweet and yellow butter, (which requires no working after removal from the churn except the addition of salt) as can be manufactured anywhere in the world. If the milk is reduced to a temperature of from 58 to 62 degrees you can make butter from two to three minutes. But the action of our churn, in supplying fresh air through the milk while churning, rapidly reduces it to the proper temperature, and thus the thermometer may be dispensed with, although it is a great convenience to any one engaged in the art of making good butter.

Unprecedented success.

Within the past year 200 000 boxes of DR. TUTT'S VEGETABLE LIVER PILLS have been sold, and not a single instance is known where they have failed to give satisfaction. If you would enjoy life, have a fine appetite and robust health, use these Pills.

Dr. W. H. Tutt:

AUGUSTA, Nov. 1869.

It affords me much pleasure to testify to the great value of your Liver Pills. They are all they are represented to be. In my opinion, there are no Pills so well adapted to the southern climate as they are.

FROM WASHINGTON.

WASHINGTON, May 25.—Reports to the War Department mention the concentration of a large party of Indians to obstruct the progress of the Northern Pacific Railroad on the west side of the Missouri. About two thousand members of tribes hostile to the whites are preparing to operate in a mass against the builders of the road. They are said to be well supplied and equipped. Some of the stakes which were driven by the road surveyors have already been pulled up by the savages.

The amendment to the supplemental treaty was adopted by a large majority. Details unknown, but the result appears as an administration defeat.

CONGRESSIONAL.

WASHINGTON, May 25.—The House was in session until eight o'clock this morning over a call of the House upon a trifling claim from Missouri, and adjourned to Monday.

The Senate has had twelve hours executive session over the treaty. The probability still seems that it will fail. It is regarded as a political measure, and that Grant falls with the treaty. Every machinery of the government is brought to bear to secure the adoption of the supplemental article.

SENATE.—The bill for dividing Louisiana into Judicial Districts was rejected.

There has been an executive session all day over the treaty.

HOUSE.—No session.

FROM NEW YORK.

NEW YORK, May 25.—The first sun stroke of the season occurred yesterday.

Two buildings, one sixty two and one sixty four, West Twenty seventh street, have been burned. Boilers burst during the fire.

A brother-in-law of Commodore Vanderbilt, while interfering with officers in the arrest of a colored coachman, who was charged with forcing a white girl into a stable, shot the officer, probably fatally, and a bystander seriously. The shooter escaped into the stables.

The health officer of this port has made unusual preparations in anticipation of the approach of the cholera this season.

The third ship provided for the use of patients is capable of accommodating nearly 2,000 persons.

The combination of western railroad managers to make a satisfactory arrangement to prevent a damaging competition of freights.

Crawford, who shot a detective, is a native of Alabama. He has written to his sister, Mrs. Vanderbilt. But was refused. Crawford was committed to await the result of the detectives injuries.

Col. Yeatt was brought before Judge Blatchford, in the United States Court to-day on a writ of habeas corpus. The Court dismissed the writ on the ground that it had not any jurisdiction in the premises and refused to interfere with the State authorities. Yeatt is charged with murder in Germany and held for extradition.

No candidate for Missionary Secretary received a majority in the Methodist Conference.

FROM PITTSBURG.

PITTSBURG, May 25.—Tyler, with another notorious counterfeiter, of Fort Wayne, was this afternoon discovered by two United States detectives near Wellsville, Ohio, on the river bank. Tyler does a severer and fired a ball through the coat of one of the officers. The other officer returned the fire, shooting one man through the hand. Tyler then made for the river, jumped in and was drowned, leaving on the bank his coat, which contained eleven hundred dollars in counterfeit twenties, legal tenders. The other man fled to the mills.

FROM BROWNSVILLE.

BROWNSVILLE, May 25.—The insurgents defeated a force near Camargo, capturing two cannon, and checking Palacios' advance towards Monterey.

FROM CHICAGO.

CHICAGO, May 25.—A tornado swept several counties on the Mississippi river, in Iowa and western Illinois. Every thing in the path was swept away.

The *Times* is against Greeley saying he has utterly failed to unite opposition to Grant.

FROM DETROIT.

DETROIT, May 25.—The Assembly occupied all day in discussing the legality of electing the ruling Elder for a limited time.

FROM CLEVELAND.

CLEVELAND, May 25.—The second National Bank has been mulcted for full value and the interest of the bonds specially deposited, and used by the speculating of the cashier.

FROM EUROPE.

MADRID, May 25.—The Carlist bands which were announced yesterday as having appeared in some of the provinces and cut the telegraph wires, have not yet been suppressed. They are still active and continue to sever railroad and telegraph communication between various points. Marshal Serrano has declined the request of King Amadeus to form a new ministry, and his majesty has now called upon Admiral Topete who has consented. The new government will be composed of members of the Unionist party. Admiral Topete will assume the functions of minister of war ad interim.

PARIS, May 25.—Pyfer, Boon and Rondin, the three men who were tried on the charge of participation in some of the MOM outrages and condemned in this city during the reign of the Commune, and convicted and sentenced to death, were executed this morning at Satory. They exhibited no emotion whatever at the last moment, and died crying "Vive la Commune."

A MEDICAL STUDENT, THAT IS AND A DRUG CLERK.—Physicians throughout the world agree as to the necessity for diffusive stimulants in medical practice, but complain, and with good reason, of the impossibility of obtaining them pure. The difficulty here presented would be a serious one indeed, if the class of agents was limited to the adulterated liquors and wines of trade. It, however, when the absolute purity and extraordinary restorative properties of Hostetter's Bitters are taken into consideration. As a stimulant the article is absolutely free from everything objectionable; but this is only one of its recommendations. If it were solely a mere dram, its effects would be fleeting. It might refresh and revive the system for a few minutes, but could produce no permanent benefit. The stimulating elements of the Bitters is a means, not an end. The tonic, and bilious, diaphoretic and aperient vegetable juices combined in the preparation are the agents that impart vigor and regularity to the weakened and disordered organ system, the spirituous portion being chiefly employed in diffusing their influence through the system and otherwise facilitating their operation. Alcohol, even in its purest form, is not so much a medicine as a motive power, by which the properties of the vegetable kingdom may be brought to bear upon the debilitated and disordered organs that require renovating and regulating; and it is in this way that the pure spirituous ingredient in Hostetter's Bitters increases the efficiency of the purely medical ingredients.

KEEP THE HAIR UNBLEMISHED.—"I am like an old hemlock—withered at the top," said a venerable Indian Chief, pointing to his thin and bleaching locks. Thousands of men and women in civilized society, much younger than the old Sagamore, are like him, "withered at the top," simply because they have neglected to use the means of preserving and beautifying the hair which science had placed at their disposal. If Lyon's Kathairon be faithfully applied once or twice a day, to the fibres and the scalp, it is just as impossible that the hair should decay, wither, fall out or become harsh and dizzy, as that a meadow, duly refreshed with nightly dews and small rains, should become arid and barren of green blades. This matchless preparation not only keeps the hair alive and the skin of the head in a healthy and clean condition, but actually multiplies the growth and imparts to them a lustre, flexibility and wavy beauty unattainable by any other mode of treatment. It does not, like the metallic and sulphurous hair dyes, dry up the natural moisture of the skin, but supplies nutriment to the roots of the hair and vigor to the fibres.

A NEW BEAUTIFYING AGENT.—All Dentifrices had their drawbacks, until the nauseous Bark of the Soap Tree was brought from the Chilian Valleys to perfect the fragrant Sozodont, the most delightful article for the teeth that a brush was ever dipped into.

"SCHILDEN'S LIVES SAVED FOR 50 CENT."—Every case of Croup can be cured when first taken, by Dr. Tobias' Venetian Liniment, warranted for 34 years, and never a bottle returned. It also cures Diarrhoea, Dysentery, Colic, Sore Throat, Cuts, Burns and Internal Pains. Sold by the druggists. Depot, 10 Park Place, New York.

VENUS herself would not have been beautiful if her complexion had been bad. If beauty is skin deep, it is necessary to secure and retain that part of it, and ladies instead of resorting to paints and powders, should remember that an impure, blotchy, or sallow skin is the proof of feeble digestion, torpid liver, or vitiated blood, for all which Dr. WALKER'S CALIFORNIA VINEGAR BITTERS is a safe cure, and effectual remedy.

BURNETT'S COCOAINE.—No oils, neither pomatum or alcoholic wash—fashion or decorative—can compare with Cocoaine as a HAIR DRESSING. It at once gives the hair firmly in the scalp—gives it new vitality—and renders it the "crowning glory" of both sexes, old and young.

PRATT'S ASTRAL OIL.—More accidents occur from using inferior oils, than from actual bona and fide causes combined. Over 60,000 families continue to burn Pratt's Astral Oil and no accidents directly or indirectly have occurred from burning, storing or handling it. Off House of Chas. Pratt, established 1770, New York.

A BEAUTIFUL WHITE, soft, smooth and clear skin is produced by using G. W. Laird's "Bloom of Youth." It removes tan, freckles, sunburn and all other discoloration from the skin, leaving the complexion brilliant and beautiful. Sold at all druggists. This preparation is entirely free from any material detrimental to health.

JUST THE REMEDY NEEDED.—Thanks to Mrs. Winslow's soothing Syrup, we have for years been relieved from the nightly disturbance of peaceful sleeping, with poor crowing teething children.

FOR DYSPEPSIA, Indigestion, depression of spirits and general debility in their various forms; also, as a preventive against Fever and Ague, and other malarious fevers, the Celebrated Hostetter's Stomach Bitters are unrivaled. For sale by all Druggists.

TUCKERMAN'S IVORY PEARL TOOTH POWDER.—The best article known for cleaning and preserving the teeth and gums. Sold by all Druggists. Price 25 and 50 cents per bottle. F. G. Wells & Co., New York.

CARBOLIC SALVE recognized as a Healing Compound. Physicians recommend it as the most wonderful remedy ever known. Price 25 cents per box. John F. Henry, sole Proprietor, 8 College Place, New York.

CHRISTADORO'S HAIR DYE.—This magical compound is beyond contingency, the safest and most reliable Dye in existence; never failing to impart to the Hair, uniformity of color, nourishment and elasticity. Manufactory, 16 Maiden Lane, New York.

SYAPNIA is Opium purified of its nauseating and poisonous qualities. It is a perfect anodyne not producing headache or constipation of bowels, as is the case with other preparations of opium. John Farr, Chemist New York.

North Carolina Land Company,

ESTABLISHED FOR THE Transportation and Location OF NORTHERN AND EUROPEAN SETTLERS IN NORTH CAROLINA.

OFFICE
TUCKER HALL, RALEIGH, N. C.

THIS Company has been in successful operation for nearly two years, and will continue to SELL, LEASE, or RENT real estate, on the most favorable terms, and if divided into small tracts are more suitable.

All persons having Lands to sell will find it their interest to call at our office, or correspond with us, as our facilities for selling are unexcelled every day.

THE TIDE OF IMMIGRATION HAS NOW SET IN and we call upon all North Carolinians to aid us in promoting this great enterprise, and help to build up our waste places.

The President and Directors of the company are well known; and persons entrusting business in their hands, have the best assurance that they will be fairly represented.

We have no connection with any other Land Agency or company professing to do business in this State. But are operating only under the name and style of "THE NORTH CAROLINA LAND COMPANY," as chartered by Special Act of the Legislature bearing date February 8th A. D. 1868.

Address all communications to "The North Carolina Land Co., or to Wm. Scott, Secretary

GEO. LITTLE, Pres.

WM. SCOTT, Sec'y.

DIRECTORS:

Col. Geo. Little, Gen. R. F. Hoke, Hon. W. Best, Dr. J. R. Smith, Hon. T. S. Ashman, Wm. Scott, Esq.
