CAROLINA PUMP COMPANY.

SOUTHERN INVENTION.

Home Manufacture.

Submerged Glass Cylinder Double-Acting Force Pump.

PATENTED AUGUST 1869, BY A. BALDING

The undersigned, having the exclusive right to manufacture and sell the above Pumps in North and South Carolina, have associated themselves together under the name and style of the "Carolina Pump Company," and having established their Manufactory at Fayetteville, N. C., are now prepared to furnish Pumps at short notice. Science has at last triumphed in the production of a Pump admirably adapted for Wells and other purposes, that will force water any depth or height, which, by attaching hose, at once becomes a local Fire Engine of great power, throwing 30 to 150 gallons per minute.

This Pump combines simplicity and durability, in which the water will never freeze or become stale, as the cylinder and valves are submerged, and no water remains in the pipe when the Pump is not in operation. The Pumps works almost incredibly light, always bringing the water fresh and sparkling from the bottom of the well; and there is no friction, the cylinder being glass, the packing cannot wear or cut, the valves being round, made of flint glass, working on gum seats, can neither wear or jam. These Pumps are peculiarly adapted for supplying tanks in upper parts of dwellings, colleges, hotels, bathing saloons and for railroads, streets, gardens, distilleries &c. They can be attached to steam or water power.

Any ordinary mechanic can put them up by printed directions always sent with the Pumps. We have hundreds of testimonials from persons who have used our Pumps, who express great satisfaction; in fact they are a success and will sustain all we claim for them.

Buy one and save fire insurance. Special attention given to all orders. The entire depth of well must accompany each order.

CERTIFICATES.

SHERIFF'S OFFICE,
FAYETTEVILLE, N. C., April 24, 1871.

Wm. C. Troy, Supt Carolina Pump Company:

The Pump you sold me surpasses my most sanguine expectation. It does all you claimed for it. As a FIRE ENGINE its value is incalculable. With twenty feet of hose I have thrown water entirely over my dwelling, which is a very high two and a half story house. My family would not be without it for any consideration.

E. W. HARDIE,
Sheriff Cumberland County.

SENATE CHAMBER,
RALEIGH, N. C., March 13, 1871.

Having had fifteen to twenty years' experience in gold mining, using various kinds of pumps forcing water from great depths, I take pleasure in giving preference to those made by the "Carolina Pump Company" over all others for well and other purposes. They combine simplicity and durability.

VALENTINE MAUNEY,
Stanly County.

WILSON, N. C., Jan. 25, 1871.

J. L. Kitchin, Esq.

Dear Sir: We have had your Balding's Pump in regular use, beginning at various periods since March, 1870, and we are free to say, that they are in every way satisfactory. There is no indication of wear or early getting out of order. All the water that nature has designed to pass through such a channel can easily be brought up, even by children, for ordinary use, and by attaching hose, and putting two to four men to the lever, the pump at once becomes a local fire engine throwing sufficient water to subdue any ordinary fire. We therefore recommend your pump to the careful examination and use of the public.

I have used for six months past one of Balding's patent submerged pumps, manufactured at Wilson, N. C., by J. L. Kitchin, and take pleasure in recommending it to the public as having given perfect satisfaction, in fact I regard it as one of the best pumps now in use.

PAIN KILLER

PROP. PERRY DAVIS & SON PROVIDENCE R.I.

1840 1870

1840. 1870.

FOR THIRTY YEARS

Has that well known, standard, and popular remedy the

PAIN KILLER,

manufactured by Perry Davis & Son, Providence, R. I., been before the public, and in that time has become known in all parts of the world, and been used by people of all nations.

It remains, to-day, that same good and efficient remedy. Its wonderful power in relieving the most severe pain has never been equalled, and it has earned its world-wide popularity by its intrinsic merit. No curative agent has had so wide-spread sale or given such universal satisfaction. The various ills for which the Pain Killer is an unfailing cure, are too well known to require recapitulation in this advertisement. As an external and internal medicine, the Pain Killer stands unrivaled. Directions accompany each bottle.

Sold by all Druggists.

Beasley, Black & Co.,

MANUFACTURERS OF THE IMPROVED

Petersburg Cotton Press.

THIS PRESS is constructed with two Followers, connected by a simple arrangement of Toggle Joints, operated by one lever at the side of the box by which they are drawn together with an increasing power, corresponding with the increasing resistance of the cotton, one moving upward and the other downward, making the bale at a height of 3½ feet from the floor, the most convenient height and without the necessity of winding up a Follower as in presses which pack downward only, the weight of the lower Follower when released, causing it to descend and press the upper one. By the aid of the Toggle Joint the pull on the lever is no greater at the last than at the first, and two men with a lever ten feet long can pack 500 pounds into a bale three inches, 5 feet long.

It is so constructed that the ends opposite the bale may also be removed to put the bagging on the ends before the pressure is taken off, thus making a better shaped bale than can be made in a press having stationary ends.

The inventor, Mr. BEASLEY, has had several years experience in this line, and is the inventor of the well-known "VIRGINIA PRESS" and others, and would recommend this, the improved

"Petersburg Press!"

as possessing advantages over any of his former productions or any others now in the market.

☞ Every Press is fairly tested before leaving our Works with 500 pounds of cotton.

Price for Cotton Press delivered on the cars at Petersburg. $175 00
Price for Hay Press. 150 00
